

UNIVERSITY OF CALIFORNIA TRANSFER ADMISSION REQUIREMENTS

Admission eligibility requirements for transfer students enrolling at the University of California are similar to the previous year. These requirements apply to students who were not eligible to attend the University as freshmen because they did not meet the freshman Scholarship Requirement. Students in this category must:

1. Complete 60 semester units or 90 quarter units of transferable college coursework with a grade point average of at least 2.40, and
2. Complete a course pattern requirement (with a grade of C or better in each course) to include:
 - a. Two transferable college courses (3 semester or 4-5 quarter units each) in English Composition; and
 - b. One transferable college course (minimum 3 semester or 4-5 quarter units) in Mathematical Concepts and Quantitative Reasoning; and
 - c. Four transferable college courses (3 semester or 4-5 quarter units each) chosen from at least two of the following subject areas: Arts and Humanities; Social and Behavioral Sciences; or Physical and Biological Sciences.

The above transfer requirements do not affect students who were eligible for admission to the University when they graduated from high school. In other words, students who have satisfied the Subject Requirement (“a-f” courses), Scholarship Requirement (GPA), and Examination Requirement (SAT I/ACT and SAT II) – all required for freshman admission – are still eligible to transfer if they have a (2.00) average (C) in their transferable college coursework.

Students who met the Scholarship and Examination Requirements but who did not satisfy the Subject Requirement based on their high school record must take transferable college courses in the subjects they are missing, earn a grade of C or better in each of these required courses, and earn an overall C (2.00) average in all transferable college coursework to be eligible to transfer. This means that students entering the University Fall 1998 and thereafter cannot use non-transferable college courses to make-up “a-f” subject omissions. The only way to satisfy this requirement is to use transferable college courses.

Students who met the Subject and Scholarship Requirements, but who did not meet the Examination Requirement, must complete a minimum of 12 semester (18 quarter) units of transferable work and earn an overall C (2.00) average in all transferable college coursework completed. Thus, under these requirements, students need not take the examinations required of freshmen.

It is advisable that students make counseling appointments to review the UC transfer requirements and obtain an educational course plan. Students may contact the Fullerton College Counseling Resource Center or the Cadena/Transfer Center for further University of California transfer information. Many UCs are not currently accepting lower division transfer students.

TRANSFER PLANNING AND YOUR COUNSELOR

Early and proper educational planning is essential for a successful transfer. Students are strongly advised to meet with a Fullerton College counselor on a regular basis. Counselors help students create educational plans that will prepare them for transfer. We want students to consider all transfer options: CSU, UC, private, and out of state institutions. Since the majority of our students typically plan for transfer to a CSU or UC, we provide you with the minimum transfer requirements for these institutions below.

NOTE: The above requirements are the minimum to be considered for upper division transfer. Many CSU and UC campuses will require more competitive standards. Always consult with a counselor.

UC Transfer Admission Planner

The UC Transfer Admissions Planner is a great tool to help you in your transfer preparation to a UC! From your very first semester at Fullerton College, you can enter your entire student educational plan into the UC planner and update it as you earn your grades and/or make changes to your

coursework! When it is time to apply to the UC, the information you enter into the planner can be transferred to your UC application!
