

SCE CATALOG

North Orange County Community College District

2016/17

Welcome to the NOCCCD School of Continuing Education

Earning a career certificate, helping your children succeed in school, or obtaining citizenship can transform your life. At the School of Continuing Education (SCE), we believe that every student deserves access to affordable and high-quality education in a format that is most convenient for busy adults. It's education your way!

It is my pleasure to present the 2016/17 SCE catalog of course offerings. As the base of this learning community, our outstanding faculty members are here to help you achieve your academic, career, and personal goals. The content and delivery methods of SCE's instructional offerings are consistently updated to meet the evolving demands of the modern community and workplace. Our dedicated staff is committed to supporting you in every step on your path to success.

Besides providing courses and programs to suit students of all ages and walks of life, SCE offers a vibrant learning environment that includes a variety of support services. Counseling, orientation, tutoring, assessment, and career exploration are among the many services available to students who wish to engage in educational experiences.

SCE is honored that you have chosen us to further advance your very bright and exciting future. Whether you wish to pursue high school diploma studies and transition to one of our sister colleges, explore a different career, or learn a new craft, SCE is the right place to embark on your journey to success.

Sincerely,

Valentina Purtell
Interim Provost,
NOCCCD School of Continuing Education

SCE MISSION STATEMENT

To promote student success by providing quality lifelong learning opportunities and services that anticipates and serves the diverse needs of individuals, business and the community.

SCE VISION STATEMENT

The School of Continuing Education is the first choice for lifelong learning. Our diverse population recognizes us for accessibility to quality programs and services. We are known for our focus on positive student outcomes in educational and career advancement; business development and training; and personal growth for all ages.

SCE CORE VALUES

Integrity

- through a commitment to our mission and vision statement
- by encouraging a climate of honesty and trust
- through teamwork that depends on accountability and responsibility

Learning

- as a way to meet life's challenges successfully
- as a path to personal and professional growth
- as a lifelong quest

Excellence

- by delivering comprehensive quality programs and services
- by creatively responding to the educational needs of our community

Diversity

- by recognizing and respecting the significance of each unique individual
- by offering all learners access to relevant learning opportunities

Service

- to the individual
- to the institution
- to the community

SCE INSTITUTIONAL STUDENT LEARNING OUTCOMES

As a result of enrolling in and completing a School of Continuing Education course, group of courses or entire certificate program, students can be expected to demonstrate the following:

1. Empowerment to be lifelong learners. Students can demonstrate the confidence and courage to learn how to learn as well as appropriate research, study, inquiry and goal-setting skills.
2. The ability to function effectively within their community. Students demonstrate appropriate effective interpersonal communication, critical thinking, and problem solving skills as well as an understanding of the value of diversity.

About School of Continuing Education

Accreditation

The North Orange County Community College (NOCCCD) School of Continuing Education (SCE) is proudly accredited by the Accrediting Commission for Schools of the Western Association of Schools and Colleges (WASC). For more information regarding SCE's accreditation, please contact WASC at the following address:

Western Association of Schools and Colleges
Accrediting Commission for Schools
533 Airport Blvd., Ste 200
Burlingame, CA 90410

District Sexual Harassment, Drug-Free and Alcohol-Free District Policies

For a copy of these policies, please refer to the SCE website at www.sce.edu.

Non-Discrimination Statement

The policy of the North Orange County Community College District is to provide an educational, employment, and business environment, including but not limited to access to its services, classes, and programs in which no person shall be unlawfully denied full and equal access to the benefits of, or be unlawfully subjected to discrimination on the basis of ethnic group identification, national origin, religion, age, sex, gender, gender identification, gender expression, race, color, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, or military and veteran status, or as otherwise prohibited by state and federal statutes, or because he or she is perceived to have one or more of the foregoing characteristics in any program or activity of the District that is administered by, directly funded by, or that receives any financial assistance from the Chancellor or Board of Governors of the California Community College. Discrimination on the basis of sex or gender also includes sexual harassment.

The following person is designated by the NOCCCD as the Responsible Officer/Section 504/Title IX Coordinator for receiving and coordinating the investigation of all unlawful discrimination complaints filed pursuant to section 59328 of Title V of the California Code of Regulations, and for coordinating compliance with section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, Title IX of the Education Amendments of 1992, and response to discrimination complaints related thereto:

Name: Irma Ramos
Position: Vice Chancellor, Human Resources
Address: 1830 W. Romneya Drive
Anaheim, California 92801-1819
Telephone: (714) 808-4822

Students and employees who believe they have been subjected to unlawful discrimination, including sexual harassment, or who seek information regarding the District's Unlawful Discrimination Policy should contact the Office of the Vice Chancellor, Human Resources.

Academics

Academic Honesty

Students are expected to abide by ethical standards in preparing and presenting material which demonstrates their level of knowledge and which is used to determine grades. Such standards are founded on basic concepts of integrity and honesty. These include, but are not limited to, the following areas:

1. Students shall not plagiarize, which is defined as:
 - A. stealing or passing off as one's own the ideas or words of another or,
 - B. using a creative production without crediting the source.

The following cases constitute plagiarism:

- paraphrasing published material without acknowledging the source,
- making significant use of an idea or particular arrangement of ideas, e.g., outlines,
- writing a paper after consultation with persons who provide suitable ideas and incorporating these ideas into the paper without acknowledgement, or
- submitting under one's own name term papers or other reports which have been prepared by others.

2. Students shall not cheat, which is defined as
 - A. using notes, aids, or the help of other students on tests or exams in ways other than those expressly permitted by the instructor, or
 - B. misreporting or altering the data in laboratory or research projects involving the collection of data.

3. Students shall not submit an original paper or project to more than one class without approval from the second instructor. Instructors who do not accept previously submitted papers should so inform the students in the course syllabus.

4. Students shall not furnish materials or information in order to enable another student to plagiarize or cheat.

Instructors may deal with academic dishonesty in one or more of the following ways:

1. Assign an appropriate academic penalty such as an oral reprimand or point reduction.
2. Assign zero points on all or part of a particular paper, project, or exam.
3. Report to the appropriate administrators, with notification of same to the student(s) for disciplinary action by the school. Such a report will be accompanied by supporting evidence and documentation.

Absences

By the direction of the Chancellor of Community Colleges of California, attendance shall be taken at all class sessions. Regular attendance is expected of every student. Attendance at the first class meeting is strongly recommended because of enrollment demands. Any student not attending the first class meeting may be dropped by the instructor.

Student Responsibilities

While an instructor may drop a student for excessive absences, it is the student's responsibility to officially drop the class by visiting a registration counter located at each SCE campus, or online by logging onto MyGateway (<http://mygateway.nocccd.edu>).

High School Diploma Credits

Prior to April 2010, continuing and returning students were provided the option to earn a diploma under the previous 185 credit requirement or current 160 credit requirement. Effective the fall 2012 term, variable credits can be assigned to new, matriculated students enrolling for or after the fall 2012 term. Variable credits will not be an option for continuing and returning students enrolled prior to fall 2012.

High School Diploma Program Transfer Policy

Effective spring 2012, the High School Diploma Program administrative staff will no longer consider transfer requests from diploma students seeking to relocate to a different diploma lab/campus/site. Diploma students enrolled in one of the High School Labs must commit to completing their diploma studies at their enrolled lab. The High School Diploma Program administrative staff may consider requests that are critical such as a legal reason for attending a different lab/campus/site and/or attempting to earn a diploma at the campus/site they enrolled in for other academic programs such as credit (college) and/or certificate courses. Diploma students having a critical reason for their request to transfer may contact the program manager directly after informing his/her High School Lab instructor and/or counselor. Because the majority of diploma students are employed and have a family, transferring for these two reasons will not be considered.

SCE Catalog Rights

The School of Continuing Education (SCE) issues a new catalog each academic year beginning in the fall term and, if needed, subsequent addendums for the winter, spring, and summer terms. The information published in the catalog or catalog addendums is in effect for the academic year beginning with the fall term and concluding with the summer term.

The course requirements for a specific certificate program may change from one catalog to the next and, therefore, may change during the period of time that a student attends SCE. Catalog rights established when a student first takes classes at SCE protect the student from being held for additional program requirements that may be added to a later catalog.

Students maintain catalog rights by maintaining *continuous enrollment in one of the following courses at SCE: Basic Skills, Career Technical Education, Disability Support Services, and English as a Second Language*. Continuous enrollment is enrollment in any two of the previous four consecutive terms, including Summer, resulting in an academic record of A, B, C, D, F, P (Pass), NP (No Pass), SP (Satisfactory Progress), or W (Withdrawal). Missing more than two consecutive terms will result in loss of catalog rights due to a break in continuous enrollment.

Enrollment in the following term	No enrollment in the following terms:	Must enroll in the following term to maintain catalog rights
Fall	Winter & Spring	Summer
Winter	Spring & Summer	Fall
Spring	Summer & Fall	Winter
Summer	Fall & Winter	Spring

If continuous enrollment is broken the student must adhere to the catalog requirements in effect at the time continuous enrollment is re-established and maintained.

The lab enrollment in CCTR 100, keyboarding exams, and required certifications (e.g. CPR card) cannot be used to maintain catalog rights. Course substitution and course challenges do not maintain catalog rights as well.

This policy supersedes all previous catalog rights provisions and applies only to the programs at SCE.

Medical Leave of Absence

Students may file a Petition for Exception for a medical leave of absence when there is appropriate evidence the student was unable to attend classes for an extended period of time to maintain Catalog Rights, as stated in the Catalog Rights Policy published in the school catalog. Students should contact the Registrar's Office at (714) 992-9502 to file a petition within one year of leaving the last term they were in continuous enrollment. The petition will be reviewed and considered for approval based solely upon the following:

Documentation on the student's inability to attend during the terms in which the student was not in attendance is required. Appropriate evidence should include, but not limited to, physician recommendations or other supporting documentation that is dated and on official organization letterhead.

A student who withdraws due to an approved medical leave will receive an NG (Not Graded) notation on their academic transcript for any classes that they were unable to complete due to medical leave. Any outstanding fees or tuition associated with the course will remain due and payable.

Eligibility applies only to the enrolled student.

Military Leave of Absence

Students who are called to active duty may submit a Petition for Exception for a military leave of absence to maintain their catalog rights. Students should contact the Registrar's Office at (714) 992-9502 to file a petition.

A student who withdraws due to military service will receive an MW (military withdrawal) notation on their academic transcript for any classes that they were unable to complete due to service. Any fees or tuition associated with the course will be refunded.

Students will retain their catalog rights and enrollment status if they return within one year of release from military service. For the purposes of maintaining catalog rights and enrollment status, any release from military service, other than a dishonorable release, will be accepted. The student must contact the Registrar's Office to provide appropriate documentation upon return from service.

(Section 824 of the Military and Veterans Code)

Grading System

In general, most noncredit courses are not graded, however the School of Continuing Education has two areas where students are awarded an evaluative symbol at the conclusion of the course; High School Diploma courses and courses in the category of Career Development and College Preparation (CDCP).

Grading for High School Diploma

Student performance in High School Diploma courses is indicated below. Grades which carry point value, and which are used in determining the grade point average (GPA), are as follows:

High School Academic Grading Scale

A--Excellent	4 grade points
B--Good	3 grade points
C--Average	2 grade points
D--Below Average	1 grade point

The GPA is the total completed grade points divided by the total attempted credit amount.

Credits indicated by the below evaluative symbols are not counted toward GPA

F--Fail	0 grade point
P--Pass Satisfactory, C or better	0 grade point
NP--No Pass	0 grade point
CR--Credit	0 grade point
NC--No Credit	0 grade point
IP--In Progress	0 grade point
NG--Not Graded	0 grade point
U--Ungraded	0 grade point

Grading for Career Development and College Preparation Courses

Students enrolled in a Career Development and College Preparation (CDCP) course are advised that they will be issued a grade that will appear on their SCE transcript and permanent academic history. The following grading system is used:

CDCP Grading Scale

P--Pass	0 grade point
NP--No Pass	0 grade point
W--Withdrawal	0 grade point
NG--Not Graded	0 grade point

If a student does not wish to be graded, they must drop the course prior to the eighth hour of instruction. While an instructor may drop a student for excessive absences, it is the student's responsibility to officially withdraw from a class. If a student withdraws after the eighth hour of instruction, but prior to the last quarter of instruction, the student will receive a "W" grade on their transcript, regardless of whether the drop was initiated by the student or instructor. Students may not drop a course after the start of the final quarter of the course.

Auditing Classes

If a student has received a passing grade in a Pharmacy Technician Program or a Medical Assistant Program course and wishes to repeat the course, the student should submit an audit request form to the CTE program manager. For more information about auditing a Pharmacy Technician or Medical Assistant course, please contact (714) 808-4673. There is a \$15 fee charged for auditing a course. Fees charged for auditing a course is subject to change. Auditing other SCE courses is not permitted.

Grade Appeal Policy

SCE recognized the legal right of faculty to set standards of performance and to apply them to individual students. Therefore, the instructor is the final authority in determining grades that are assigned to students and that appear in their permanent academic records. Students have a right to inquire how their grade was determined and have a right to formally appeal the final grade earned. Appeals are limited to the situations in which students believe the grade is prejudicially, capriciously, or arbitrarily assigned. Grade appeal requests should be initiated by the student during the next term but no later than one year following the award of the original grade. All grade appeal requests should be directed to the SCE Registrar at (714) 992-9502. For additional information, you may refer to Board Policy 4231 at www.nocccd.edu.

Course Repetition

No limits are imposed on the repetition of most noncredit courses. However, in the case of special noncredit courses, such as those for students with disabilities, restrictions on repeatability may be imposed when students are judged to have met the objectives of a course and/or are no longer making measurable progress. For additional information, you may refer to Board Policy 4225 at www.nocccd.edu.

Credit by Exam

The purpose of credit by examination is to allow credit for prior or advanced knowledge of class material by the student. Currently enrolled students may be permitted to obtain Credit by Examination in subject areas in which they are especially qualified through previous training or experience for which credit has not previously been given. Examinations will be sufficiently comprehensive to determine that the student has essentially the same knowledge and skills as a student who successfully completes the course. Only those courses approved for Credit by Examination will be eligible. Students may discuss credit by exam with an SCE counselor or for additional information, refer to Board Policy 4235 at www.nocccd.edu.

Course Substitution

A request for a Course Substitution may be discussed with an SCE counselor.

Disciplinary Dismissal

The standards of student conduct and disciplinary action for violation of Board Policy 5500 are drawn in compliance with the State Education Code.

Students are expected to respect and obey civil and criminal law and shall be subject to the legal penalties for violation of the city, county, state, and national law(s). A student who violates the standards of student conduct shall be subject to disciplinary action including, but not limited to the removal, suspension or expulsion of the student. For additional information on disciplinary dismissal, you may refer to Board Policy 5500 at www.nocccd.edu.

Student Records and Transcripts

The California Administrative Code, Title V, and NOCCCD District policy states that students can review their student records at any time. All SCE student records are located at the Wilshire Continuing Education Center located at 315 E. Wilshire Avenue, Fullerton, CA 92832.

Transcript of Record - Verification of Enrollment and Attendance

Students are entitled to two (2) free copies of their student record in the form of an Official Transcript or a Verification of Enrollment/Attendance. Subsequent copies are \$5 per copy. Requests are accepted in person or by mail and both request forms may be accessed at www.sce.edu. Rush transcripts can be obtained for an additional fee of \$10.

We are unable to provide rush Verification of Enrollment/Attendance letters and requests will not be processed until completion of the third (3rd) week of the current term.

With the exception of High School Diploma courses, transcripts include a notation of the number of hours attended for each course of record.

Classification of Students

Students are classified at full time when enrolled and attending 12 hours or more of instruction per week. Students enrolled in fewer than 12 hours per week of instruction are considered part-time students. Enrollment and attendance can be confirmed after the student has attended two consecutive weeks of instruction.

The Family Educational Rights and Privacy Act (FERPA) and Release of Student Records

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They have a right to:

- Inspect and review their education records
- Have some control over the disclosure of information
- Seek to amend incorrect education records

In accordance with FERPA, SCE may release or publish, without the student's prior consent, items in the category of public (directory) information. The NOCCCD Board of Trustees has identified the following as public (directory) information:

- Degrees and awards received by students, including, honors, scholarships, athletic awards and Dean's List recognition
- Student participation in officially recognized activities and sports including weight, height and high school of graduation of athletic team members
- Dates of attendance

Students who wish to restrict this information must submit a written request to the SCE Registrar's Office at the Wilshire Continuing Education Center. Requests must be filed within 15 calendar days from the beginning of each trimester a student is in attendance. For more information, call (714) 992-9502

Student Identification Policy

Students are required to show a valid form of identification to obtain any form of non-directory information. Valid forms of identification accepted by SCE include: State-issued driver's license, State-issued identification card, or a government identification with photo issued by U.S. or other country. For additional information on what is considered non-directory information, you may refer to Board Policy 5040 at www.nocccd.edu.

Admissions/Registration Procedures

Admission to Classes

Students are admitted on a first-come, first-served basis. By District policy, "every course, course section or class shall be open to enrollment and participation by any person who has been admitted to the School of Continuing Education (SCE)". Students are not permitted to attend classes in which they are not officially enrolled. Classes filled may have a waitlist already established for students wanting to attend. Non-Tuition Classes: Students must attend the first day of class or they will lose their seat to a petitioning student.

New Students

New students are those who have never attended classes at SCE.

Continuing Students

Continuing students are those students who are currently enrolled and have not missed more than two consecutive terms.

Returning Students

Returning students are those students who previously attended classes at SCE yet did not re-enroll after missing two consecutive terms.

Campus Locations

Anaheim Campus
1830 West Romney Drive
Anaheim, California 92801
(714) 808-4645

Cypress Continuing Education Center
9200 Valley View Street
Cypress, California 90630
(714) 484-7038

Wilshire Continuing Education Center
315 E. Wilshire Avenue
Fullerton, California 92832
(714) 992-9500

Additional classes are offered at many off-site locations throughout North Orange County. For specific off-site locations, please refer to the current class schedule at www.sce.edu/schedule.

Minor Students

SCE classes are open to those 18 years or older who have been admitted to SCE and are not attending school. Students under 18 who have not graduated from high school may be permitted to attend under special circumstances. It is advisable to contact the campus Dean at the site where the class is offered prior to obtaining the required permission letter from the school that the minor is attending. If permission to enroll is granted, the minor student may enroll only after the regular registration period so that priority is given to adult students. Children of any age may take Kids' College and Teen Program classes as indicated in the course schedule. Children are not permitted to attend adult classes.

International F-1 Visa Students

Students in F-1 Visa status are unable to register for SCE classes.

SCE is considered a publicly-funded adult education program by the federal government. The law prohibits publicly-funded adult education programs from enrolling in F-1 Visa status. This is according to the Code of Federal Regulations, Title 8 CFR Part 22 Section 214.2 (f).

Open Enrollment

It is the policy of NOCCCD that, unless specifically exempted by statute, every course section or class, the full-time equivalent students (FTES) attendance of which is to be reported for state aid, whenever offered and maintained by NOCCCD, shall be fully open to enrollment and participation by any person who has been admitted to the college(s) or SCE and who meets such prerequisites as may be established pursuant to Chapter II, Division 2, part VI, Title V of the California Administrative Code, Commencing with Section 51820.

In-Class Registration

Students must attend the first meeting where in-class registration takes place or they may lose their seat to another student. A minimum number of students must attend the first class meeting to ensure the required enrollment is met. In-class registration is on a first-come, first-served basis; however, students enrolling in a year round class may enter and register in the class at any time.

Registration Locations

No matter where the class is held, students can register at any campus: Anaheim (Second Floor), Cypress (Parking Lot 4; Building 100), Wilshire (Building 300). Registration is also available through MyGateway at <http://mygateway.nocccd.edu>

Fees

Full payment is required at the time of registration. Cash, checks, money orders, and credit cards (MasterCard and VISA) are accepted. A \$25 fee will be charged to any students' account where a check is returned for non-sufficient funds.

Fee-Based Courses

Classes NOT funded by the State are supported by student tuition. Students must cover the cost of the class through fees. Additional instructional material or supply fees may be required. These classes will not be cancelled if attendance falls during the term. While late registration is permissible in most classes, full payment of tuition fees is always required

Parking Information/Fees

A parking permit is required to park in marked spaces at all three SCE Continuing Education Centers, however; a purchased parking permit does not guarantee a parking space. If you do not have a permit, you will be ticketed. A SCE parking permit applies to any space that is marked for students, or any unmarked space. Parking permits are refundable prior to the first class meeting only and must be returned to receive a refund. **Please do not back into the parking space or you will be ticketed.**

DMV Disabled Person placard holders are permitted to park in disabled parking, or any other student or staff space, but must also purchase and post an SCE parking permit.

Virtual Parking Permits

At Cypress College's in lieu of a physical parking permit/hanger, effective September 2016 parking general parking lots requires a virtual parking permit. Physical parking permit/hanger are not issued to students or guests. Students and guests may purchase their virtual parking permits online (<http://www.parking.cypresscollege.edu>). After purchasing virtual parking permit, students and guests must register their vehicle license plate number to activate the virtual parking permit. Daily use virtual parking permits/passes are available at kiosks on campus, using a debit or credit card only. Payment for term permits and registration of plates authorizes students to use any of the lots open to student and guest parking, as well as designated spots on Circle Drive. Cypress College term-length parking permits are also honored at Fullerton College and the Anaheim Campus.

Students and guests may also register vehicles using short-term parking machines for \$2 per day, using a debit or credit card only. Short-term permits are valid at Cypress College only. Students and guests are not eligible to park in staff spaces. The parking permit does not guarantee a parking space.

Any vehicle found parked on Cypress College property that has three (3) or more unpaid Cypress College parking citations may be towed without notice. Registered owners of the vehicle will be responsible for paying all citations, towing fees, and impound fees prior to the vehicle being released by the impound company.

Parking Fees

Vehicle permits: \$35; motorcycle permits: \$20. Daily physical permits are available at Anaheim and Wilshire for \$2, with cash in the parking pass boxes located throughout the parking areas. Virtual parking permits are available at the Cypress College kiosks for \$2 with credit or debit card only.

Bus Passes

Student bus passes are available at any SCE registration counter for students who are enrolled in a minimum of nine (9) hours per week; 30-day passes are available for disabled and senior students; 75- and 120-day passes are available for all students. Passes are sold year round. OCTA provides service to each of our three SCE campuses. For more information, call (714) 636-7433.

Book Information

All three bookstores offer textbooks and supplies available for purchase, in addition to supplemental education materials and supplies. Books and supplies can be purchased at the following campus books stores:

Anaheim Campus Bookstore
1830 W. Romneya Drive,
Anaheim, California 92801
714.808.4675

Cypress College Bookstore
9200 Valley View Street,
Cypress, California 90630
714.484.7336
or online at www.cypresscollegebookstore.com

Fullerton College Bookstore
330 East Chapman Avenue,
2000 Bldg., 1st Floor,
Fullerton, California 92832

We recommend you call and confirm the hours of operation to ensure they are open during the time you plan to make your purchase.

Refund Policy

To receive a refund, a Refund Petition form must be submitted at least two (2) full business days before the first class meeting. A \$10 processing fee will be deducted from all refunds one time per term per student, except for classes canceled by SCE. Refunds will be processed two weeks after the term begins. No refunds will be given on books. Refund checks to KIDS' COLLEGE students will be made to the name of the student of record as required by State Education Code regulations. The only other criteria considered for refunds are circumstances in which the course differs from the way it was described in the class schedule, such as incorrect start date, time or wrong location. You may request a credit valid for six months towards any fee-based course. Requests for credits must be submitted prior to the second class meeting of the course being dropped.

Name Changes

Students are encouraged to visit one of the SCE campus registration offices to change a name on a student record. Students must provide a valid photo identification card when requesting a name change.

Holds

SCE will withhold transcripts, registration privileges or any combination hereof from any student or former student who has failed to pay all outstanding fees owed to SCE, Fullerton College or Cypress College (from current or previous terms) or for other administrative reasons.

Class Attendance/Cancelations

Students are expected to attend all classes. Non-tuition classes may be discontinued during the term if attendance drops. Tuition classes will continue according to schedule once they have started.

It is SCE's practice that classes do not normally meet on a weekend following a Friday District Holiday or preceding a Monday District Holiday. If it is necessary for a class to be held on a holiday weekend, this would be an exception to the rule.

Waitlist Procedure

You may petition a closed class by adding yourself to the waitlist during registration in MyGateway. Waitlisted students are accepted into a class as space is available and in the order in which they have been placed on the waitlist. A waitlisted student is not officially registered into the course until they have returned the instructor approval to an SCE registration office.

Additional Seats for Special Programs

To promote matriculation for students in certain Career Technical Education Programs, additional seats may be reserved for students who have declared their intent to complete a program. At this time Pharmacy Technician students may declare their intent to complete the program by returning a declaration form to the registration office. Pharmacy Technician students who return this form at least five (5) business days prior to the start of registration will be eligible for additional seats during registration in the following classes; MEOC 135 - Human Relations for Health Care Workers and MEOC 140 - Pharmaceutical Mathematics.

Scholarship Information

SCE is pleased to offer scholarships for new and existing students. SCE provides students with scholarships to allow them to continue to excel in their educational careers. These scholarships vary in their fields, the requirements to apply for them, and the award amount. Each scholarship has been made available through the generosity of individual donors, faculty and staff, and retired administrators. Applications are available online in the scholarship opportunities link under Student Services on the SCE Homepage or in the learning labs on all three campus sites.

A current list of scholarship opportunities is available at: <https://sites.google.com/a/sce.cc.ca.us/sce-scholarship/>

Student Support Service

Adult College and Career Transitions (ACCT) Program

ACCT is designed for students planning to continue their education after receiving their high school diploma. The intent of ACCT is to give students special support and encouragement while enrolled in the High School Diploma Program. For more information call 714.808.4682.

CalWORKs

The CalWORKs Program is designed for students who are receiving AFDC/Welfare. CalWORKs students are assigned a CalWORKs Counselor who provides the guidance and support needed to meet both their academic goals, and the requirements mandated by their County Social Worker. A team approach is used to advocate for student rights. For more information contact:

Cypress College CalWORKs at 714.484.7237
Fullerton College CalWORKs at 714.992.7101

Career Center/Planning

Educational planning services are available to students currently enrolled in: English as a Second Language (ESL), Citizenship, Disabled Student Programs, Parenting, High School Subjects, Basic Skills, Short-term Vocational classes and Certification Programs.

Disability Support Services (DSS)

DSS offers a variety of services and accommodations for students who are enrolled in SCE classes, and who have verified disabilities including: learning, intellectual, autism, hearing, visual, mobility, psychological, acquired brain injury, and other medical conditions. Accommodations and services are tailored to the student's individual needs in compliance with state and federal legislation. Students who have a verifiable disability qualify for support services. The services are designed to support students in reaching their academic or vocational goals. Reasonable accommodations are determined on an individual basis through consultation with a DSS counselor. Services and accommodations are based on the educational abilities and functional limitations unique to each student.

DSS offers a large variety of special classes and programs for students with disabilities that provide students with a college experience, that focus on skills needed to live, work and get around the community independently. Other programs include Workability III (WAIII), College to Career (C2C), and bus mobility skills training. WAIII and C2C are collaborations with the Department of Rehabilitation (DOR), and the bus mobility program is in collaboration with the Orange County Transportation Authority (OCTA). WAIII is a program to help students with disabilities get jobs. C2C is a program that provides additional support to students with intellectual disabilities who are integrating into general education classes. The final stage of C2C provides job development assistance to students. These additional supports are not mandated services in the community college system.

Students and their families who are interested in DSS should apply to the School of Continuing Education (SCE) on line at www.sce.edu, and then call (714) 484-7057 to schedule an intake. General hours of operation are Monday through Friday from 8 a.m. to 5 p.m.

Student Success and Support Program (SSSP)

The Student Success and Support Program (SSSP, formerly known as Matriculation) is a process that enhances student access to the California Community Colleges and promotes and sustains the efforts of students to be successful in their educational endeavors. The goals of SSSP are to ensure that students complete necessary coursework, persist to the next academic term, and achieve educational objectives through the assistance of the following student-direct core services:

- **Orientation**
Prior to registration, the orientation is designed to introduce students to the School of Continuing Education, program requirements, student support services, and success tips.
- **Assessment**
The purpose of the assessment process is to provide information regarding basic skill levels and activities necessary for a successful academic experience.
- **Counseling and Advisement**
Counselors are available to discuss course offerings, career counseling, transfer counseling, and personal counseling (including discussing personal concerns and issues affecting students' academic progress).
- **Educational Planning**
Students are encouraged to see a counselor for help planning their courses prior to registration, identifying electives and program requirements, and track academic progress towards program completion.

Student Success and Support Program provides support to students while completing their educational goals. In general, a student goal is defined as a diploma, certificate, employment or career advancement, ESL, or transfer to credit.

Instructional Support Services Open Labs

Basic Skills/Learning Centers

High School Diploma and Learning Center students receive assistance in gaining skills to attain personal and educational goals by working with faculty, staff, and tutors in small groups or one-on-one in a variety of subjects such as math, grammar, and reading. Computers are available for online instruction and assessment. Students may also enroll in the Learning Center to gain employability skills, receive additional instructional support in diploma subjects as referred by the diploma lab faculty or staff, obtain tutorial support in vocational/career technical education subject areas, and/or prepare for college-level assessments or coursework. Instructional materials, including textbooks, are provided at no cost to students. However, materials are to remain in the labs as they are shared by all students in the classroom.

Business/Computer Skills Lab

Students receive assistance while accessing a variety of self-paced courses: Office Keyboarding, Data Entry, 10-Key, Typing/Keyboarding for speed and accuracy, Windows XP, MS Office (Word, Excel, Access, Outlook, PowerPoint), Introduction to the Internet and World Wide Web. Internet and email access is also available during lab hours.

English as a Second Language (ESL) Learning Center

The ESL Learning Center offers an opportunity to practice English through various instructional media. Students learn through ESL software and/or receive individual and group tutoring to improve their speaking, listening, reading and writing skills. Special interest areas such as Vocational ESL and EL Civics are also part of the instruction.

Commencement Ceremony

SCE conducts a commencement ceremony in celebration of student accomplishments in the following programs: High School Diploma, Administrative Assistant, Early Childhood Education, Electrical Trainee, Funeral Service Assistant, Management, Medical Assistant (Back Office Only), Pharmacy Technician, and Quality Assurance Management for Medical Devices. The ceremony is held annually near the end of each academic year at the Fullerton High School Stadium.

Standard Definitions

Definition of Hours/Credits

SCE course work is measured in terms of instructional hours. A noncredit course awarding ten high school credits is designed to require a minimum of 144 hours of lecture, study or laboratory work.

Definition of a Prerequisite

When a course has a prerequisite, it means that a student must have certain knowledge to be successful in the course. The prior knowledge may be a skill, ability (i.e. speaks and writes Spanish fluently), a test score, or a successful completion of a prior course (i.e. must have completed MEOC 104 Medical Terminology with a grade of "P"). Completion of the prerequisite or a current enrollment in the prerequisite is required prior to enrolling in the course. Successful completion of a prerequisite course means that a grade of Pass was earned; NP, W, or NG grades are not acceptable.

Definition of Advisory

When a course has an advisory, it means that a student is recommended to have certain preparation before entering the course. The preparation is advantageous to a student's success in the course but is not required.

Definition of a Career Development and College Preparation (CDCP) Course

Courses identified as CDCP are 1) within a sequence of courses that may lead to improved employability or job placement or 2) recognized in a career field and prepares students for transfer to a four-year institution.

Definition of Apportionment

These classes appear as free but are actually funded by the State. Funding is received for each hour of student attendance. The cost of offering the class is covered by these funds. The class may be cancelled if the attendance falls below the level needed to cover the costs of the class. There are 10 recognized areas in Title V that are eligible for noncredit education apportionment. SCE offers noncredit classes in the following areas:

- English as a Second Language
- Citizenship for Immigrants
- Elementary and Secondary Basic Skills
- Health and Safety
- Parenting
- Older Adults
- Short-Term Vocational

Definition of Year Round Classes

- ESL, DSS, and LEAP Programs

Most English as a Second Language (ESL), Disability Support Services (DSS), and LEAP classes are offered year round and allow students to enroll in an open entry/open exit basis. Initial enrollment into the course remains active until the student stops attending for an extended period of time, at which time they are dropped from the course.

School of Continuing Education Noncredit Education & Community Service Programs

The School of Continuing Education offers quality programs and services for students seeking self-improvement, enhanced earning power, increased literacy skills and access to higher education and employment. For people with busy lives, courses are offered during all hours throughout the week and weekends.

Most classes offered through noncredit programs are free of charge. The School of Continuing Education also offers a wide variety of fee-based community service classes. These include career and professional development programs, seminars and workshops, and special programs for kids and youth.

Some courses may be out of our schedule for a term or two, but you can find something good year-round.

Basic Skills Labs/ Learning Center

Learning Centers are open-entry labs where adult students, 18 years of age and older, receive assistance in gaining skills to attain personal and educational goals by working with faculty, staff, and tutors in small groups or one-on-one in a variety of subjects such as math, grammar, and reading. Computers are available for online instruction and assessment. Students may also enroll in the Learning Centers to gain employability skills, receive additional instructional support in High School Diploma subjects as referred by the diploma faculty and staff, obtain tutorial support in vocational/career tech subject areas, and prepare for college level assessments and coursework. GED/HiSet Preparation is offered for adult students at the SCE Wilshire Learning Center. For list of courses, see course descriptions: Adult Basic Education (ABE) and Labs (LABS).

Business Skills & Opportunities

See Career Technical Education for more details. For list of courses, see course descriptions: Business Management (BMGR); Business (BUSN); and Finance (FINC).

Career Technical Education (CTE)

The Career and Technical Education (CTE) department offers students a variety of short-term certificate programs and single course options designed to prepare for a high-demand career and advance current work skills. CTE programs combine academic knowledge with technical and occupational skills to provide students with pathways to long-term careers and success. Our CTE instructors are leaders in their fields with extensive practical experience to share with students. Much of the growth in current and future jobs will require training beyond high school. Choosing Career Technical Education at SCE means job readiness for a new career or a better position in current work field in two years or less. For list of courses, see course descriptions: Business Management (BMGR); Business (BUSN); Computers (COMP); Construction (CONS); Early Childhood Education (ECE); Electrical (ELET); Funeral Services (FSRV); Medical Occupations (MEDO); Medical Occupations Clerical (MEOC); and Microsoft (MS).

Computer Applications

The Computer Applications Program offers courses in the foundational concepts needed to operate personal computer systems. Courses offered include application specific skill development in Microsoft, Adobe and Internet-based software. For list of courses, see course descriptions: Computer (COMP); Computer Lab (CCTR) and Microsoft (MS).

Disability Support Services

The School of Continuing Education's Disability Support Services (DSS) provide students with disabilities with a variety of accommodations and support services that minimize the impact of their disabilities on their academic performance. Services include academic, vocational, and personal advisement; test taking assistance; advocacy and referral services; registration assistance; assessment and evaluation; interpreters for the deaf and adaptive technology. Special classes designed to promote the development of independent living and employment skills of individuals with intellectual disabilities are offered. For list of courses, see course description: Disability Support Services (DSS).

English & Communication

The English and Communication classes offer a variety of opportunities for the adult student to improve their writing, speaking or presentation skills or gain skills to be a better communicator on the job. Courses such as Communication with the Deaf, Sign Language, and Educational Interpreting also offer pathways to possible future careers. For list of courses see course description: English/Communications (ENCO) and Sign Language (SIGN).

English as a Second Language (ESL & Citizenship)

These courses help second language learners improve their English listening, speaking and pronunciation skills in order to reach their career, academic, and personal goals. Classes also incorporate civics education to community members and prospective United States citizens. Specialized strands such as Vocational ESL and ESL for Academic Success are available to the advanced-level students. For list of courses, see course descriptions: English-as-a-Second Language (ESLA) and ESL Education Planning (ESLW).

Foreign Language

Foreign Language courses introduce students to basic grammar, pronunciation and vocabulary with special emphasis on auditory comprehension and conversation. Students will broaden their language skills while at the same time experiencing a new culture through various class activities. Special emphasis will be placed on spoken communication while expanding listening, reading and writing skills. For list of courses, see course description: Language (LANG).

GED/HiSET Preparation

Earning a high school equivalency credential is an alternative option for adults to demonstrate their high school competency skills. The Wilshire Learning Center can help students prepare to pass their High School Equivalency Test (HiSET or GED). Lab faculty and staff assist students with preparation in the subject areas of math, science, social studies, reading, and language arts. Test-taking skills such as keyboarding and calculator usage are included in the preparation. Practice tests are administered to assess readiness for the official exams. Assistance in finding and signing up for the official tests is part of the program. At the Wilshire Learning Center, adults are given the opportunity to prepare and demonstrate their high school level proficiency and their readiness for higher education or the workplace. For list of courses, see course descriptions: Adult Basic Education (ABE).

High School Diploma

High School Diplomas are issued by the North Orange County Community College District to adult students, 18 years of age and older, who earn 160 credits by completing the required course of study and demonstrate proficiency in basic skills. The High School Diploma Program operates as an open-entry lab where students work individually and at their own pace on various required subjects. All labs have instructors and staff to assist students with completing their courses. Whole-class or small-group instruction is offered in the major content areas, particularly math and language arts, as well as other subjects as the need arises. Elective credits can be earned in continuing education classes offered through SCE. New students enter the HSD Program through orientation, assessment, and counseling service. Counselors meet with students individually to review assessment scores and transcripts and develop an educational plan of study. High School Diploma Program students are highly encouraged to attend their enrolled high school lab a minimum of ten (10) hours per week to make academic progress in their diploma studies. For list of courses, see course descriptions: Individual High School Subjects (IHSS).

Lifeskills Education Advancement Program (LEAP)

The LEAP Program provides dynamic and responsive life-long learning opportunities to meet the needs of the residents of our diverse community. These are learning opportunities in the areas of vocational training, health and safety, socialization, parenting, enrichment and skill development leading toward personal fulfillment and greater involvement in the community. Both apportionment and fee-based courses are held at various site throughout the district.

- **Family & Consumer Sciences**

These courses focus on the lifespan of individuals and families developing and functioning in family, work and community settings. Individuals are prepared to balance personal, family and work responsibilities throughout life. Course offerings address the full spectrum of skills necessary to achieve optimal and sustainable living. Courses are offered in the areas of home resource management; parenting and family education; fashion design, clothing production; and hospitality.

- **Finance and Personal Investments**

For list of courses, see course descriptions: Accounting (ACCT) and Finance (FINC)

- **Fashion Design & Clothing Production**

For list of courses, see course description: Clothing (CC)

- **Bartending**

For list of courses see course description: Hospitality Management (HOSM)

- **Parenting**

For list of courses, see course description: Parenting (PARN)

- **Fine/Applied Art**

These courses are dedicated to teaching skills by emphasizing the appreciation and production of works of art placing emphasis on the creative and esthetic principles and technical processes and development of culture. Students are given an opportunity to be artistically expressive including performance in the areas of art and music. The Fine/Applied Arts courses include photography.

- **Drawing & Painting**

For list of courses, see course descriptions: Arts and Crafts (ARTC) and Creative Arts (CRAE)

- **Music**

For list of courses, see course description: Music (MUSC)

- **Photography**

For list of courses, see course descriptions: Photography (FOTO)

- **Kids' College and Teen Program**

The Kids' College and Teen Program is a fee-based program providing enrichment activities outside of the regular classroom experience for children and teens from ages 6 months to 17 years old. Classes are offered to provide academic enrichment, personal improvement or instruction in sports, art or music. Sessions of six to eight weeks are offered four times a year with classes held after school hours, on Saturdays and daily during the summertime. For list of courses, see course description: Kids (KIDS).

- **Mature Driver**

The DMV approved Mature Driver Improvement Course for individuals 55 or older provides instruction on defensive driving and California Motor Vehicle Laws. Information is provided on the effects that medication, fatigue, alcohol, visual or auditory limitations have on a person's driving ability. Upon completion, a DMV certificate will be provided to the student, which may qualify the student for reduced motor vehicle insurance premiums. For list of courses, see course description: Safety (SAFE).

- **Older Adults**

These courses are designed to address the educational needs and interests of older adults (50 years and older but anyone over age 18 may enroll in these courses), focusing on topics that promote independence, advocacy, community engagement, self-maintenance, personal growth, physical and cognitive health, career development and economic self-sufficiency. For list of courses, see course descriptions: Adult Basic Education (ABE); Arts & Crafts (ARTC); Consumer Ed (CNED); Creative Arts (CRAE); Education Enrichment (EDEN); Communication (ENCO); Financial (FINC); Fitness (FITN); Health (HLTH); and Music (MUSIC).

- **Physical Fitness**

Encompasses classes in physical exercise, dance, and martial arts. All of these are offered as fee-based classes. the variety of offerings provides students with options to start or maintain a fitness program. For list of courses, see course descriptions: Fitness (FITN) and Dance (DAN).

Medical

See Career Technical Education for more details. For list of courses, see course descriptions: Medical Occupations (MEDO) and Medical Occupations Clerical (MECO).

Training, Development and Innovation (TDI)

TDI serves as the economic development arm for the District. TDI is a single point of contact for local companies, organizations or individuals seeking technical services or training for their employees throughout North Orange County. Instruction and training includes but is not limited to specialized homeland security, environmental health, workplace safety and hands-on training in digital product design and web development. For list of courses, see course descriptions: Digital (DIG) and/or <http://www.tdioc.com>

Woodshop

Cabinet and Millwork prepares individuals to apply technical knowledge and skills to set up, operate and repair industrial woodworking machinery, and to use such machinery to design and fabricate wooden components and complete articles. For list of courses, see course description: Shop (SHOP)

**School of Continuing Education
Career Development and
College Preparation (CDCP)
Certificate Programs**

What are CDCP programs? Career Development and College Preparation (CDCP) Programs are sequenced courses resulting in noncredit certificates of completion or competency and leading to improved employability, job placement, and academic skills. CDCP Programs are offered in the areas of short term vocational or workforce preparation, basic skills, and English as a Second Language. Certificate programs are favorably recognized by business and industry and are frequently used as a requirement for professional advancement. Classes are noncredit and do not generate degree applicable college units.

Basic Skills

**GED Test Preparation
Program #24258**

This program is designed to prepare the adult student to obtain a passing score on the official General Education Development (GED) test. Upon successful completion of this program, the student will be prepared in all five areas of the GED competency requirement. Acquisition of a GED certificate will lead to improved employability and the skills mastered will apply to entry-level college preparation.

Core Courses			Hours
ABE 405	GED: Mathematics		60
ABE 410	GED: Reading		60
ABE 415	GED: Science		60
ABE 420	GED: Social Studies		60
ABE 425	GED: Language Arts & Writing		60

Elective Courses			Hours
ABE 105	SCE Learning Center		36
Total Program Hours			336

ABE 105

SCE Learning Center

Designed for students from beginning levels of reading to those working toward a high school diploma. Through the use of small-group instruction, computer-aided instruction, audio books and workbooks, students will learn to become better readers, writers and thinkers. The skills attained can be used for personal growth, job advancement or for entry into other educational programs. A specific learning plan is developed for each student based on student goals, needs and learning style.

ABE 405

GED: Mathematics

GED mathematics prepares students to pass the math section of the GED test. The GED pre-test identifies needed areas of instruction for each student. Scope of instruction is basic computation, analytical and reasoning skills, word problems and word problems with graphics.

ABE 410

GED: Reading

GED reading prepares students to pass the reading section of the GED test. The GED pre-test identifies needed areas of instruction for each student. Scope of instruction includes comprehension, fiction, nonfiction, poetry, and drama.

ABE 415

GED: Science

GED science prepares students to pass the science section of the GED test. Sciences covered are life, physical, earth and space. Students learn to analyze and apply science information.

ABE 420

GED: Social Studies

GED social studies prepares students to pass the social studies section of the GED test. The GED pre-test identifies needed areas of instruction for each student. Scope of course covers U.S. history, world history, civics and government, geography and economics.

ABE 425

GED: Language Arts and Writing

GED writing prepares students to pass the language arts and writing section of the GED test. The GED pre-test identifies needed areas of instruction for each student. This course covers the writing process, grammar usage and mechanics.

**Literacy Program
Program #24305**

The Literacy program is divided into three levels. Each level contains a reading, writing, speaking and listening component which allows the student to develop a complete set of communication skills that will prepare him/her for the workplace, vocational training, or success in academic programs such as GED, high school or college.

Core Courses	Hours
ABE 430 Literacy - Beginning	99
ABE 432 Literacy - Intermediate	99
ABE 435 Literacy - Advanced	99
Total Program Hours	297

ABE 430

Literacy - Beginning

Designed for students with very limited reading skills. The focus of this course is on decoding skills, fluency and workplace literacy. Sight words and essential word reading are covered.

ABE 432

Literacy - Intermediate

Reading and writing preparation for the workplace or academic advancement. Emphasis on reading for information, vocabulary expansion and good communication skills.

ABE 435

Literacy - Advanced

Reading for information and academic vocabulary. Writing skills necessary for higher education and the workplace such as essays, note taking, job applications, resumes, and business writing.

Braille Transcribing

**Braille Transcribing Program
Program #33138**

The Braille Transcribing Program is comprised of three classes that prepare students for the Library of Congress Braille Transcriber Certification which is required to be employed as a braille transcriber in public schools. The three sequenced courses are designed to provide the necessary skills to read and produce braille for all levels of educational institutions as well as other community needs.

Core Courses	Hours
ENCO 535 Braille Transcribing: Basic Rules	30
ENCO 537 Braille Transcribing: Reading and Writing Contractions	30
ENCO 539 Braille Transcribing: Advanced Symbols and Formatting	30
Total Program Hours	90

ENCO 535

Braille Transcribing: Basic Rules

This class is designed for sighted and visually-impaired persons to learn the basic skills of transcribing print into braille.

ENCO 537

Braille Transcribing: Reading and Writing Contractions

This class is geared for sighted and visually-impaired persons to learn the art of transcribing print into braille at the intermediate level.

ENCO 539

Braille Transcribing: Advanced Symbols and Formatting Manuscripts

This class is geared for sighted and visually-impaired persons to learn the art of transcribing print into braille at the advanced level.

Business

Administrative Assistant Certificate Program Program #24174

Training includes: Keyboarding and Speed Building, Introduction to Computers, Window XP, Microsoft Word, Microsoft Excel, Microsoft PowerPoint, Internet, Email, Customer Service, Communication and Problem Solving, Telephone Techniques, Business Mathematics, Writing Memos, Proofreading and Spelling, Filing, Job Hunting Skills. (Two Trimesters or 24 weeks).

Core Courses	Hours
BUSN 340 Computer Applications for the Administrative Assistant I	48
BUSN 320 Office Skills I	24
BUSN 341 Computer Applications for the Administrative Assistant II	48
BUSN 321 Office Skills II	24
CCTR 100 Business/Computer Skills Lab	120
Total Program Hours	264

BUSN 320 Office Skills I

First in a series of two levels that prepare students for an entry-level position as an administrative assistant. Includes units on the office environment, career opportunities, attitude, human relationships, and work ethics. Textbook required.

BUSN 321 Office Skills II

Prerequisite: BUSN 320 Office Skills I. Second in a series of two levels that prepares students for an entry-level position as an administrative assistant. Includes units on telephone procedures, filing and managing records, processing business documents, sending and receiving mail, and managing office activities. Textbook required.

BUSN 340 Computer Applications for the Administrative Assistant I

First in a series of two levels that prepares students for an entry-level position as an administrative assistant. Includes units on Keyboarding and Word. Textbook Required.

BUSN 341 Computer Applications for the Administrative Assistant II

Prerequisite: BUSN 340 Computer Applications for Administrative Assistant I. Second in a series of two levels that prepares students for an entry-level position as an administrative assistant. Includes units on Windows and Internet. Textbook Required.

CCTR 100 Business/Computer Skills Lab

Enjoy free, flexible scheduling for a variety of courses: Office Keyboarding, Data Entry, 10-Key, Typing/Keyboarding for Speed and Accuracy, Windows XP, MS Office (Word, Excel, Access, Outlook, PowerPoint), Intro to Internet and World Wide Web, internet access and free email!

Management Program Program #24114

This program will prepare students for first-line supervisory or management positions. Students learn management principles and develop basic skills in decision-making, problem-solving, planning, organizing, speaking and writing. The sequence builds their knowledge base to enhance their effectiveness on the job by covering topics such as leadership development, business law, finance, negotiations, marketing and more. (There are ten required courses, and student must choose one of nine computer electives.)

Core Courses	Hours
BMGR 417 Effective Business Presentations	18
BMGR 410 Elements of Supervision	18
BMGR 431 Finance Non-Financial Manager	18
BMGR 423 Introduction to Employment Law	18
BMGR 412 Management Skills I	18
BMGR 610 Management Skills II	18
BMGR 430 Marketing Principles	18
BMGR 421 Successful Negotiations	18
BMGR 415 Written Communication for Business	18
BMGR 452 Understanding Business Contracts	18
Total Program Hours	180

Elective Courses (Must Choose one of nine)

COMP 100 Introduction to Computers	36
MS 104 Introduction to Windows Operating System	36
MS 144 Introduction to Word	36
MS 105 Introduction to Excel	36
MS 106 Introduction to Access	36
MS 119 Introduction to PowerPoint	36
MS 134 Intermediate Word	36
MS 107 Intermediate Access	36
MS 160 MS Office - Overview	36

Total Elective Hours 36

Total Program Hours 216

BMGR 410 Elements of Supervision

Provides instruction in communication, problem solving, team building and leadership. Designed for managers in both public and nonprofit organizations.

BMGR 412 Management Skills I

This course provides an overview of the functions of the management process and its practical applications in a business environment. The course focuses on the planning process and organizing skills, including decision-making, strategic planning, delegating and staffing. Students will learn management principles that provide basic guidelines for supervisory decisions and actions.

BMGR 415 Written Communications for Business

Provides extensive hands-on experience with all types of written business communications including letters, resumes, cover letters, memos, and reports.

BMGR 417

Effective Business Presentations

This course provides instruction and practice in business presentation skills. Students will learn techniques to enhance their ability to speak before any size group with more confidence and communicate their message effectively. Students are encouraged to participate in a video tape exercise for their own assessment of strengths and weaknesses.

BMGR 421

Successful Negotiations

Participants will learn, practice, and perfect the skills required for achieving better outcomes in sale transactions, employment and promotion, purchasing, employee cooperation.

BMGR 423

Introduction to Employment Law

This course is an introduction to the federal and California state laws governing the relationships between employers and employees. It examines the nature, purpose, and operation of these laws from the perspectives of both the employer and employee.

BMGR 430

Marketing Principles

Introduces the student to the marketing principles of product, price, distribution and promotion in support of goods and services. The course will focus on real world application and case studies. The student will learn to apply marketing skills in the development of a marketing plan.

BMGR 431

Finance for the Non-Financial Manager

This course introduces students to the basics of business finance for the non-financial manager. Financial statements will be covered along with discussions on sales and expenses, assets and liabilities, budgeting and planning, and financial analysis.

BMGR 452

Understanding Business Contracts

This course will provide an overview of contract principles and will explore the meaning, purpose and effect of common contracts clauses, i.e., limitation of liability, warranty and indemnification. Students will learn how to achieve a better contract result by knowing why, when and how to request contract modifications.

BMGR 610

Management Skills II

This course focuses on developing management skills in working with individuals and teams to promote productivity, quality and innovation. Topics include employee performance appraisal, performance management, work groups, and the control process for keeping people, plans and programs on track.

COMP 100

Introduction to Computers

Designed for those who know nothing or very little about computers. Builds computer technology understanding, makes one a better consumer of computers and products, and explores operation systems, software and hardware. Provides foundation for other SCE computer classes.

MS 104

Introduction to Windows Operating System

Advisory: Knowledge of Windows. Learn the newest Windows operating system; includes desktop and file management, security, adding hardware and software, personalizing Windows XP, making connections and communicating with other people.

MS 105

Introduction to Excel

Provides a basic working knowledge of this popular spreadsheet program. Covers topics such as formulas, functions, and charting.

MS 106

Introduction to Access

Advisory: Introduction to Computers, Introduction to Windows or equivalent. Design databases using this popular software package. Includes creating tables, forms, reports and labels.

MS 107

Intermediate Access

Learn how to build and modify advanced tables, forms and reports. Develop proficiency in use of encrypting database files, defining relationships and defining queries. Text/disk required. Recommended proficiency in: Introduction to Computers, Introduction to Windows, Introduction to Access or equivalent.

MS 119

Introduction to PowerPoint

Advisory: Knowledge of Windows. Learn how to create on-screen presentations using text, graphics, sound effects and movies.

MS 134

Intermediate Word

Advisory: Introduction to Computers, Introduction to Windows, Introduction to Word or equivalent. This continuing course covers features such as mail merging, styles and templates, large documents and WordArt. Textbook purchase may be required at first class.

MS 144

Introduction to Word

Advisory: Introduction to Computers, Introduction to Windows or equivalent. Provides a basic working knowledge of Word. Covers topics such as formatting with fonts, paragraph alignment, indents, margins, inserting clip art bullets and numbering, columns and tables.

MS 160

MS Office - Overview

Advisory: Knowledge of Windows and keyboarding. Learn the basics of Word, Excel, PowerPoint and Access in one class. Topics include document formatting, working with graphics, basic formulas, queries and reports. This class serves as a foundation for other MS Office Courses.

Computers

Advanced Office Applications Program Program #24176

This certificate program will prepare students for a professional level office environment in administrative work. Students completing this program will be successful in a mid-level office environment requiring stronger knowledge of spreadsheet, database, and planning at an administrative support level.

Core Courses	Hours
CCTR 100 Business/Computer Skills Lab	36
MS 134 Intermediate Word	36
MS 165 MS Excel - Power-User Skills	36
COMP 645 Integrated Computer Projects	44
MS 107 Intermediate Access	36
Total Program Hours	188

CCTR 100

Business/Computer Skills Lab

Enjoy free, flexible scheduling for a variety of courses: Office Keyboarding, Data Entry, 10-Key, Typing/Keyboarding for Speed and Accuracy, Windows XP, MS Office (Word, Excel, Access, Outlook, PowerPoint), Intro to Internet and World Wide Web, internet access and free email!

COMP 645

Integrated Computer Projects

Designed for those who want to apply the knowledge they have gained from previous computer classes. See how those skills can be put to work in real world simulations! Capstone course for students who have already learned the basics of computer usage. Recommended proficiency in: Introduction to Computers, Discover the Internet, MS Office Overview or equivalent.

MS 107

Intermediate Access

Learn how to build and modify advanced tables, forms and reports. Develop proficiency in use of encrypting database files, defining relationships and defining queries. Text/disk required. Recommended proficiency in: Introduction to Computers, Introduction to Windows, Introduction to Access or equivalent.

MS 134

Intermediate Word

Advisory: Introduction to Computers, Introduction to Windows, Introduction to Word or equivalent. This continuing course covers features such as mail merging, styles and templates, large documents and WordArt. Textbook purchase may be required at first class.

MS 165

MS Excel - Power-User Skills

Advisory: MS 105 Introduction of Excel or equivalent. This course is for people who are comfortable using MS Excel and who want to develop "power skills". Topics include computational techniques (defining names, nested IF functions, summarizing data), using Excel's database tools (tables, database operations, lookup functions), and expert skills (conditional formatting, macros). Also covered are advanced formatting techniques and shortcuts for accelerating productivity.

Fundamental Computer Concepts & Skills Program Program #24414

This certificate program will prepare students to work in an entry-level office environment performing tasks such as basic data entry, word processing, research utilizing the Internet, and basic computer operation suitable for working in a business environment. Students completing this program would have the basic computer skills to be successful in an entry-level clerk or general office support position.

Core Courses	Hours
CCTR 100 Business/Computer Skills Lab	36
COMP 100 Introduction to Computers	36
MS 104 Introduction to Windows Operating System	36
COMP 105 Discover the Internet	36
MS 160 MS Office - Overview	36
MS 156 Computer Bytes	18
Total Program Hours	198

CCTR 100

Business/Computer Skills Lab

Enjoy free, flexible scheduling for a variety of courses: Office Keyboarding, Data Entry, 10-Key, Typing/Keyboarding for Speed and Accuracy, Windows XP, MS Office (Word, Excel, Access, Outlook, PowerPoint), Intro to Internet and World Wide Web, internet access and free email!

COMP 100

Introduction to Computers

Designed for those who know nothing or very little about computers. Builds computer technology understanding, makes one a better consumer of computers and products, and explores operation systems, software and hardware. Provides foundation for other SCE computer classes.

COMP 105

Discover the Internet

A hands-on overview of Internet concepts, Web browsing using Internet Explorer; email, newsgroups, FTP, netiquette, security issues, research, and more. Hands-on including on-line browsing. Recommended proficiency in: Introduction to Computers or equivalent.

MS 104

Introduction to Windows Operating System

Advisory: Knowledge of Windows. Learn the newest Windows operating system; includes desktop and file management, security, adding hardware and software, personalizing Windows XP, making connections and communicating with other people.

MS 156

Computer Bytes

This course covers various topics for Microsoft Windows on how to buy or upgrade a computer, buy and use a digital camera, use a scanner, create a slide show, and set up a home wireless network safely.

MS 160

MS Office - Overview

Advisory: Knowledge of Windows and keyboarding. Learn the basics of Word, Excel, PowerPoint and Access in one class. Topics include document formatting, working with graphics, basic formulas, queries and reports. This class serves as a foundation for other MS Office Courses.

**Fundamentals for Financial Office Applications Program
Program #24032**

Students may take this additional training for obtaining employment in a financial office work environment and enhancing their marketability.

Core Courses	Hours
COMP 655 MS Word Fundamentals for the Financial Office Applications	18
COMP 660 MS Excel Fundamentals for the Financial Office Applications	18
COMP 665 MS PowerPoint Fundamentals for the Financial Office Applications	18
COMP 650 QuickBooks Fundamentals for the Financial Office Applications	36
COMP 670 Create PDFs with Adobe Acrobat	36
Total Program Hours	126

COMP 650
QuickBooks Fundamentals for the Financial Office Applications

Teaches students the basics of using the QuickBooks software to develop customized financial application for business. The course covers special techniques for reducing data entry time, eliminating errors and getting consistent results. Upon completion students will understand the basics of QuickBooks to simplify financial tasks.

COMP 655
MS Word Fundamentals for the Financial Office Applications

This brief course covers the essentials to creating simple documents with Microsoft Word in a financial office environment. An excellent course for beginners or those who need to know the basic. In-class projects will include memos, lists, letters, resumes and signs.

COMP 660
MS Excel Fundamentals for the Financial Office Applications

This brief course covers the essentials to creating simple spreadsheets with Microsoft Excel in a financial office environment. An excellent course for beginners or those who need to know the basic. In-class projects will include an address list, budget, and inventory tracking sheet.

COMP 665
MS PowerPoint Fundamentals for the Financial Office Applications

This brief course covers the essentials to creating simple presentations with Microsoft PowerPoint in a financial office environment. An excellent course for beginners or those who need to know the basics. Topics will include animations, transitions and slide shows. Learn how to create a professional-looking slide show without designing each slide from scratch!

COMP 670
Create PDF's with Adobe Acrobat

Learn the standard for sharing documents online! Create PDF files using Adobe Acrobat. Protect documents, create forms, and combine multiple files with Adobe Acrobat.

**Graphic, Design and Web Skills Program
Program #32943**

This certificate program will prepare students to work in an entry-level graphic design/web development position performing such tasks as editing a simple website, creating and optimizing digital images, cataloging and retrieving digital files.

Core Courses	Hours
CCTR 100 Business/Computer Skills Lab	60
COMP 119 Adobe Photoshop Elements	24
COMP 121 Digital Photo Albums for Beginners	24
COMP 675 Digital Scrapbooking	36
COMP 705 Digital Photo Restoration & Portrait Makeover	24
Total Program Hours	168

CCTR 100
Business/Computer Skills Lab

Enjoy free, flexible scheduling for a variety of courses: Office Keyboarding, Data Entry, 10-Key, Typing/Keyboarding for Speed and Accuracy, Windows XP, MS Office (Word, Excel, Access, Outlook, PowerPoint), Intro to Internet and World Wide Web, internet access and free email!

COMP 119
Adobe Photoshop Elements

Advisory: Knowledge of Windows. Utilize photo editing software to enhance graphic design capabilities. This class introduces tools used by professional designers in an easy to use, powerful, digital- image editing program. Textbook may be required.

COMP 121
Digital Photo Albums for Beginners

Advisory: MS 104 Introduction to Windows Operating Systems and COMP 105 Discover the Internet. Learn how to import photos from various sources; organize and manage photos; perform basic editing functions of photos, email photos and share albums; create slide shows and video CDs; and create cards, calendars, albums, and a photo book. Textbook may be required.

COMP 675
Digital Scrapbooking

Advisory: Knowledge of Windows and Photoshop or Photoshop Elements. Scrapbooking is a 2.5 billion dollar industry in the United States. Computerized graphic design is dramatically transforming the industry. Digital scrapbooking skills are important for anyone working in the graphic design field. Learn the design essentials of professional digital scrapbooks, hardware and software requirements, and the creation of graphic elements.

COMP 705
Digital Photo Restoration and Portrait Makeovers

Advisory: COMP 119 Adobe Photoshop Elements and knowledge of Windows for photographers and scrap bookers who want to advance their skills to repair old photos and touch up portraits. Topics include repairing scratches and tears on old photos; fixing hair, teeth, skin, red eyes, and blemishes; enhancing photos; combining images; creating backgrounds and frames; and selecting photo papers. Textbook required.

**Office Application Essentials Program
Program #24346**

This certificate program will prepare students to work in an entry level office environment performing tasks such as basic word processing, spreadsheet, database and other essential business software applications. Students completing this program would have the basic computer administrative support position.

Core Courses		Hours
CCTR 100	Business/Computer Skills Lab	36

MS 105

Introduction to Excel

Provides a basic working knowledge of this popular spreadsheet program. Covers topics such as formulas, functions, and charting.

MS 106

Introduction to Access

Advisory: Introduction to Computers, Introduction to Windows or equivalent. Design databases using this popular software package. Includes creating tables, forms, reports and labels.

MS 119

Introduction to PowerPoint

Advisory: Knowledge of Windows. Learn how to create on-screen presentations using text, graphics, sound effects and movies.

MS 143

Introduction to Publisher

Advisory: Recommended proficiency in COMP 100 Introduction to Computers and MS 104 Introduction to Windows. Provides a basic working knowledge of this popular desktop publishing program. Covers topics such as flyers, newsletters, and business cards.

MS 144

Introduction to Word

Advisory: Introduction to Computers, Introduction to Windows or equivalent. Provides a basic working knowledge of Word. Covers topics such as formatting with fonts, paragraph alignment, indents, margins, inserting clip art bullets and numbering, columns and tables.

MS 160

MS Office - Overview

Advisory: Knowledge of Windows and keyboarding. Learn the basics of Word, Excel, PowerPoint and Access in one class. Topics include document formatting, working with graphics, basic formulas, queries and reports. This class serves as a foundation for other MS Office Courses.

Construction

**Construction Technology - Electrical Program
Program #24033**

This program will prepare students to work in an entry-level position in the construction field assisting with the electrical installation and repair of electrical wiring in buildings.

Core Courses		Hours
ELET 102	Basic Electricity	48
CONS 100	Electrical Wiring & Safety I	36
CONS 101	Electrical Wiring & Safety II	36
CONS 142	Electrical Wiring & Safety III	36
Total Program Hours		156

ABE 105

SCE Learning Center

Designed for students from beginning levels of reading to those working toward a high school diploma. Through the use of small-group instruction, computer-aided instruction, audio books and workbooks, students will learn to become better readers, writers and thinkers. The skills attained can be used for personal growth, job advancement or for entry into other educational programs. A specific learning plan is developed for each student based on student goals, needs and learning style.

CONS 100

Electrical Wiring and Safety I

Covers basic electrical theory, terms, residential wiring techniques, grounding, basic switching circuits, residential load calculations and services. Based on current National Electrical Code (NEC).

CONS 101

Electrical Wiring and Safety II

Course covers commercial wiring, conduit systems, over-current protection, polyphase distribution, grounding, voltage-drop equations and lighting. Based on the current National Electrical Code (NEC).

CONS 142

Electrical Wiring and Safety III

Course covers industrial wiring, conduit systems, over-current protection, transformer circuits, electrical motors, motor repairs, motor control circuit, and electrical installations. Based on Current National Electrical Code (NEC) trips to various electrical installations.

ELET 102

Basic Electricity

Course starts with basic electricity and progresses into residential wiring in accordance with the National Electrical Code (NEC). Students learn how to obtain an electrical contractor's license. Supplies purchase required as specified by instructor.

**Construction Technology - General Contracting Program
Program #24087**

This program will prepare students to enter the business of general contracting for residential buildings and/or sub-contracting (trade specific). Topics covered include State licensing and experience requirements; financial and legal aspects of the contracting business; residential construction fundamentals; and project management.

Core Courses		Hours
CONS 121	Contracting License	36
CONS 138	Room Addition Fundamentals	48
Total Program Hours		84

**CONS 121
Contracting License**

This course is designed for students interested in exploring career opportunities in general contracting and sub-contracting, current contractors interested in enhancing their business and law skills, and students who want to prepare for the California Contracting License Examination by the Contractors State License Board (CSLB).

**CONS 138
Room Addition Fundamentals**

This course covers the fundamentals of residential construction and the sequence of events that take place for a room addition. This includes preparing the required plans, obtaining city building permits and communicating with city building inspectors. The course will also cover project management and legal considerations.

**Electrical Trainee Program
Program #31327**

This program will prepare students to work in an entry-level position in the construction industry assisting with the electrical installation and repair of electrical wiring in buildings. Students will receive an overview of the construction industry with a focus on the career path of an electrical trainee. Topics include safety; construction math; tools and materials handling; electrical theory; code requirements and application for residential, commercial and industrial wiring; prints and specifications.

Core Courses		Hours
CONS 230	Introduction to Blueprint Reading	36
ELET 140	Introduction to Electrical Trainee	60
ELET 145	Electricity Fundamentals	48
ELET 150	Wiring Fundament: Residential	36
ELET 160	Wiring Fundament: Commercial	36
ELET 170	Wiring Fundament: Industrial	36
Total Core Hours		252

Elective Courses (Must choose one of two courses)

ABE 105	SCE Learning Center	36
CONS 121	Contracting License	36
Total Elective Hours		36

Total Program Hours 288

**ABE 105
SCE Learning Center**

Designed for students from beginning levels of reading to those working toward a high school diploma. Through the use of small-group instruction, computer-aided instruction, audio books and workbooks, students will learn to become better readers, writers and thinkers. The skills attained can be used for personal growth, job advancement or for entry into other educational programs. A specific learning plan is developed for each student based on student goals, needs and learning style.

**CONS 121
Contracting License**

This course is designed for students interested in exploring career opportunities in general contracting and sub-contracting, current contractors interested in enhancing their business and law skills, and students who want to prepare for the California Contracting License Examination by the Contractors State License Board (CSLB).

**CONS 230
Introduction to Blueprint Reading**

An introduction to blueprint reading using a fundamental approach, this course will familiarize trainees with basic blueprint terms, components and symbols. Trainees will learn the different types of blue print drawings (civil, architectural, structural, mechanical, plumbing/piping, and electrical) and how to interpret and use drawing dimensions.

**ELET 140
Introduction to Electrical Trainee**

Course provides an overview of the construction industry with focus on the career path of an electrical trainee. Students will learn about the skills needed to launch a successful career in the electrical trade. Topics include safety, construction math, tools and materials handling, job site management, and State Certification requirements for electricians.

**ELET 145
Electricity Fundamentals**

Prerequisite: ELET 140 Introduction to Electrical Trainee. Course covers basic electrical concepts, including electrical measurements, basic electrical theory, and an understanding of how common electrical components work. Course provides a basis for understanding electrical safety concepts.

**ELET 150
Wiring Fundamentals: Residential**

Prerequisite: ELECT 145 Electricity Fundamentals. Course provides an overview of the National Electrical Code (NEC) and its application to residential wiring. Topics include electrical standards, residential wiring techniques, grounding, basic switching circuits, residential load calculations, and electrical services in accordance with the NEC.

**ELET 160
Wiring Fundamentals: Commercial**

Prerequisite: ELET 145 Electricity Fundamentals. Course provides an overview of the National Electrical Code (NEC) and its application to commercial wiring. Topics include commercial wiring, conduit systems, conductor types and applications, over-current protection, polyphase distribution, system and equipment grounding, and voltage-drop equations and lighting sources in accordance with the NEC.

ELET 170

Wiring Fundamentals: Industrial

Prerequisite: ELET 145 Electricity Fundamentals. Course provides an overview of the National Electrical Code (NEC) and its application to industrial wiring. Topics to include industrial wiring, conduit systems, conductor types and applications, over-current protection, polyphase distribution, system and equipment grounding, electrical motors, motor circuit conductors, motor control circuits, and electrical power installations in accordance to the NEC.

Disability Support Services

**Employability Certificate
Program #24065**

This sequence provides skills necessary to enhance employability of students with disabilities. It offers a foundation of basic skills that increase the direct and indirect job skills necessary for obtaining and maintaining employment. Among the skills that students will develop are the ability to: communicate effectively on the job; locate job opportunities; problem solve; set goals; remain safe; utilize transportation resources to and from work; manage personal finances; use computer technology; develop and maintain appropriate interpersonal relationships; and advocate for personal rights. Counselors provide accommodations and services to assist students throughout their time in the program. A job transition specialist refers students to appropriate employment opportunities and agencies. In addition, the program maintains relationships with vocational agencies and employers that enhance students' opportunities for obtaining employment.

Core Courses	Hours
DSPS 137 Job Skills	180
DSPS 138 Communication on the Job	180
DSPS 150 Critical Thinking	30
DSPS 121 Computer-Assisted Instructional Lab	180
DSPS 180 Beginning Banking	30
DSPS 130 Bill Paying and Banking	60
DSPS 175 Personal Safety	30
DSPS 155 Mobility Skills	72
DSPS 133 Self-Advocacy	180
DSPS 114 Relationships and Sexuality Training	180
DSPS 140 Social Skills	180
Total Program Hours	1302

DSPS 114

Relationships and Sexuality Training

A class geared for students with developmental or learning disabilities that is designed to provide a comprehensive and meaningful overview. The course strives to build healthy, safe sexual attitudes, behaviors, and relationships consistent with personal values.

DSPS 121

Computer-Assisted Instructional Lab

Designed for students with disabilities to provide instruction in computer operation, word processing and the use of adaptive computer equipment.

DSPS 130

Bill Paying and Banking

This class is designed for adults with developmental disabilities and learning disabilities who want to learn how to maintain a checking account. This is an introductory class that teaches banking vocabulary and step by step on how to open and manage a checking account. Students will be required to use the Quicken software program for balancing their checking account.

DSPS 133

Self-Advocacy

Instruction designed for students with developmental or learning disabilities to enhance advocating for self in everyday life situations.

DSPS 137

Job Skills

Designed for students with developmental or learning disabilities to help recognize and achieve potential as independent members of the community. Lecture, lab, and field experience are combined to provide the student with a comprehensive and meaningful educational experience.

DSPS 138

Communication on the Job

A class designed for students with developmental or learning disabilities who want to learn how to improve their communication skills in relationship to employment. Course will include activities to enhance written and verbal skills.

DSPS 140

Social Skills

This course is designed to give students with developmental and learning disabilities an overview of appropriate social skills at school, work, and in the community. Through examples in their own lives as well as instructional materials various areas social skills challenges will be explored, any necessary coping strategies taught.

DSPS 150

Critical Thinking

Designed to assist adults with disabilities in acquiring or improving critical thinking skills necessary to function independently in a variety of activities, situations, and environments. Emphasis on problem solving and decision making through understanding and evaluating situations, utilizing knowledge of cause and effect relationships, exploring options, and planning and implementing strategies.

DSPS 155

Mobility Skills

A class designed for students with disabilities to enhance independence by introducing safe practices and knowledge for using public transportation.

DSPS 175

Personal Safety

This course is designed to introduce students with developmental disabilities to personal safety awareness. Students with disabilities will be presented with proactive steps to take to avoid dangerous situations in the community and at home. Students with disabilities will also be presented with basic techniques for self-defense and first aid.

DSPS 180

Beginning Banking

This class is for students with disabilities who want to learn how to spell money amounts, fill out a check, make a deposit, record checks and deposits in a check register, and record ATM transactions in a register. This class would be beneficial for students who want to learn the basics of banking, who need practice with the basics of banking, or who are new and would like to take the Banking for Apartment Living class.

**Workplace Preparation
Program #24250**

This sequence provides skills necessary to enhance employability of students with disabilities. It offers a foundation of basic skills that increase the direct and indirect job skills necessary for obtaining and maintaining employment. Among the skills that students will develop are the ability to: locate job opportunities; problem solve; set appropriate vocational goals; develop a budget and manage personal finances with the use of computer technology. Counselors provide accommodations and services to assist students throughout their time in the Program. A Job Transition Specialist refers students to appropriate employment opportunities and agencies. In addition, the Program maintains relationships with vocational agencies and employers that enhance students' opportunities for obtaining employment.

Core Courses	Hours
DSPS 260 Introduction to Checking Accounts	60
DSPS 265 Exploring Your Occupational Path	30
DSPS 270 Work Attitudes and Employer Expectations	30
DSPS 275 Paying Bills	60
DSPS 280 Landing a Job	30
DSPS 285 Budgeting for Apartment Living	60
Total Program Hours	270

DSPS 260

Introduction to Checking Accounts

A quick-paced course designed to provide students with disabilities with basic banking skills including writing checks and depositing paychecks.

DSPS 265

Exploring Your Occupational Path

This course is intended to assist adults with disabilities in establishing a clear and realistic occupational goal. Students will assess their interests and abilities in order to establish attainable objectives to achieve their goal. Students will also explore resources for seeking employment in their chosen occupational field.

DSPS 270

Work Attitudes and Employer Expectations

This course is intended to prepare students for successful employment by introducing them to appropriate on-the-job behavior, communication, attitude and work ethic. Students will also be introduced to the importance of workplace safety and customer service.

DSPS 275

Paying Bills

A quick-paced course designed to provide students with disabilities with basic money management skills including use of an ATM and bill paying.

DSPS 280

Landing a Job

This course is designed to introduce students with disabilities to filling out and submitting both written and online job applications. This course will also introduce students to effective job interview preparation, technique and attire.

DSPS 285

Budgeting for Apartment Living

A quick-paced course designed to provide students with disabilities with money management skills for employed students living in their own apartment.

Early Childhood Education

**Early Childhood Education Program
Program #24404**

This program is designed to train individuals for teacher and caregiver positions in licensed, proprietary infant/toddler/preschool/child daycare center. Curriculum is approved by the State Department of Community Care Licensing. *(There are five required courses, and student must choose two of seven electives.)*

Core Courses	Hours
ECE 170 Introduction to Curriculum for ECE	36
ECE 108 ECE Program Principles and Practice	60
ECE 140 Early Childhood Development	36
ECE 136 Family Community Relationships	36
ECE 100 Child Health and Safety	36
Total Program Hours	204

Elective Courses (Must choose two of seven electives)

ECE 112 Language Arts and Literacy in ECE	36
ECE 132 Program Creative Experience	36
ECE 130 Program Science & Math	36
ECE 116 Program Music & Movement	36
ECE 175 Infant-Toddler Care	60
ECE 165 Children with Special Needs	36
ABE 105 SCE Learning Center	36
Total Program Hours	72

Total Program Hours	276
----------------------------	------------

ABE 105

SCE Learning Center

Designed for students from beginning levels of reading to those working toward a high school diploma. Through the use of small-group instruction, computer-aided instruction, audio books and workbooks, students will learn to become better readers, writers and thinkers. The skills attained can be used for personal growth, job advancement or for entry into other educational programs. A specific learning plan is developed for each student based on student goals, needs and learning style.

ECE 100

Child Health and Safety

For teachers and directors of pre-schools, this course will focus on the skills and knowledge needed for developing emergency plans and responding to health and safety issues in the classroom.

ECE 108

ECE Program Principles and Practice

Course examines the history, basic principles, and philosophies of various types of early childhood programs, emphasizing the role of the adult and characteristics of quality programs. This course is part of a program approved by the California Department of Social Services, Community Care Licensing, for employment in private facilities only.

ECE 112

Language Arts and Literacy in Early Childhood

This course examines the teacher's role in promoting and facilitating children's emerging literacy and language development through the use of storytelling, books, songs, flannel board stories and puppetry. This course is part of a program approved by the California Department of Social Services for employment in a private facility.

ECE 116

Program Music & Movement

Explores areas of music and movement appropriate to child's development through participating and experimenting.

ECE 130

Program Science & Math

Plan, organize and implement activities that help children develop skills, appreciation and enthusiasm for science and math.

ECE 132

Program Creative Experience

Student awareness and application of materials appropriate for preschool art activities.

ECE 136

Family Community Relationships

Examination of the sociological relationships between family and society; institutional, racial, social, and economic factors affecting the family and the child.

ECE 140

Early Childhood Development

Intro to age-related child growth, development, learning characteristics, self-concept, mechanics and techniques of positive learning.

ECE 165

Children with Special Needs

This course offers a broad study of children with special needs and early childhood education as it relates to inclusion. This course covers federal and state laws and regulations, terminology and definitions, appropriate practices and intervention. This course is part of a program approved by Department of Social Services, Community Care Licensing.

ECE 170

Introduction to Curriculum for Early Childhood Education

Prerequisite: ECE 140 Early Childhood Development. This course provides the foundation for curriculum planning, implementation, observation, assessment and evaluation. Emphasis includes modalities, learning styles, environments, activities, schedules, routines and adaptations to facilitate learning for all children. This course is part of a program approved by the California Department of Social Services for employment in private facilities.

ECE 175

Infant-Toddler Care

This course explores the theories, principles and practices of an infant/toddler program. Content includes respectful, responsive care giving, licensing and regulation issues, and enriching, safe, healthy developmentally appropriate environments. This course is part of a program approved by the California Department of Social Services for employment in private facilities.

Electronics

Electronics - Consumer and Computer Program Program #24405

This program will prepare students to work in an entry-level position in a small electronics business assisting in the repair and/or sales of electronic equipment including home entertainment equipment and computers.

Core Courses

Hours

ELET 100	Basic Electronics for Video, Audio and Computer	48
ELET 112	Electronic Service Technology	48
ELET 116	Personal Computer Repair, Beginning	48

Total Program Hours

144

ELET 100

Basic Electronics for Video, Audio and Computer

This course offers the fundamentals of basic electronics, including electronics theory with a focus on analog electronics. Students receive practical lab experience to understand and troubleshoot circuits. This course is a starting point for students preparing for a career as an electronic technician.

ELET 112

Electronic Service Technology

Prerequisite: Basic electronic knowledge. Course reviews AC/DC theory and basic electronic circuits. Learn to use electronic test equipment and hook up home entertainment equipment. Proceed with testing, troubleshooting and preventive maintenance for radio, TV, VCR, microwave and DVD/CD player. Purchase of small electronic kit as specified by instructor required. Basic knowledge of electronics recommended.

ELET 116

Personal Computer Repair, Beginning

Covers the fundamentals of computer repair and maintenance through the study of theory, terminology, troubleshooting of IBM compatible personal computers and hands-on training.

English as a Second Language

ESL Academic Success Program #24293

The ESL Academic Success Program is a fully-integrated program that bridges ESL classes with college, high school, the GED, and vocational training programs. The goal is to prepare students to function successfully in a variety of academic settings. The program will offer high-level ESL courses as well as student services including but not limited to counselor-led workshops, assistance with college application, and field trips.

The students will learn how to take notes, build vocabulary, write research papers, and participate in academic discussions. The basics of time and stress management, financial aid, and college orientation are embedded in the course outlines and presented in the workshops.

Core Courses	Hours
ESLA 1040 Listening/Speaking for Academic Success	144
ESLA 1045 Reading/Writing for Academic Success	144
Total Program Hours	288

ESLA 1040

Listening/Speaking for Academic Success

Learn how to listen to and take lecture notes; participate in classroom discussions; give presentations; and take exams in college, career technical education, high school, and GED programs. Acquire technological skills necessary for academic success. Experience campus life through field trips to local colleges. For Intermediate High thru Advanced level students.

ESLA 1045

Reading/Writing for Academic Success

Acquire reading, writing, note-taking, test-taking, critical thinking, and computer skills necessary for academic success in college, high school, GED, or career technical education programs. Learn American cultural norms in the classroom. Participate in campus life through field trips to local colleges. For Intermediate High through Advanced level students.

ESL Beginning Program #24211

ESL Beginning is an articulated sequence of courses designed to equip students with the basic language and cultural proficiencies required for fulfillment of personal, vocational, and academic goals. The courses integrate language acquisition (linguistic competence) with relevant life experiences (sociolinguistic competence) stressing the importance of critical thinking, problem solving, and self-sufficiency including learning strategies, i.e. how to learn on your own outside of class (strategic competence). The sequence is articulated in terms of progressing levels of language skills and informational content. Vocational skills for the ESL Beginning sequence include handling basic routine work situations that combine oral directions and demonstration. Academic skills include getting limited meaning from printed materials and generating basic short sentences.

Core Courses	Hours
ESLA 120 Family Literacy	72
ESLA 001 ESL Learning Center	40
ESLA 100 ESL Beginning Literacy	120
ESLA 200 ESL Beginning Low	120
ESLA 300 ESL Beginning High	120
Total Core Hours	472

Elective Courses	Hours
ABE 105 SCE Learning Center	36
Total Elective Hours	36

Total Program Hours 508

ABE 105

SCE Learning Center

Designed for students from beginning levels of reading to those working toward a high school diploma. Through the use of small-group instruction, computer-aided instruction, audio books and workbooks, students will learn to become better readers, writers and thinkers. The skills attained can be used for personal growth, job advancement or for entry into other educational programs. A specific learning plan is developed for each student based on student goals, needs and learning style.

ESLA 001

ESL Learning Center

The ESL Learning Center offers an opportunity to practice English through various instructional media. Students learn through ESL software and/or receive individual and group tutoring to improve their speaking, listening, reading and writing skills. Special interest areas such as Vocational ESL and EL Civics are also part of the instruction.

ESLA 100

ESL Beginning Literacy

This course is designed for language learners who possess limited or no proficiency in English. It develops students' ability to recognize basic language functions and forms. Students will also practice basic penmanship.

ESLA 120

Family Literacy

The course focuses on incorporating reading and literacy as a fundamental component of a healthy, well-functioning family. The family-oriented assignments integrate school and home.

ESLA 200

ESL Beginning Low

The course content integrates language functions and forms with informational sources, skills, and topics. Topics may be general or vocational, such as personal identification, weather, money, job titles, following simple instructions. Among informational sources the topics may include: lists, signs, schedules, calendars and advertisements.

ESLA 300

ESL Beginning High

The course integrates language functions and language forms with informational sources, skills and topics such as housing, transportation, emergencies, health, job skills, and job safety.

ESL Intermediate / Advanced Program #24179

ESL Intermediate/Advanced is an articulated sequence of courses designed to equip students with the high-level language and cultural proficiencies for fulfillment of personal, vocational, and academic goals. The courses integrate language acquisition (linguistic competence), relevant life experiences (sociolinguistic competence), critical thinking, and, learning strategies, i.e. time management and basics of research (strategic competence).

The sequence is articulated in terms of progressing levels of language skills and informational content. Upon exit, students will have the ability to use English to meet social, academic, and vocational demands of the society. They will function effectively in situations that require interaction with the public and following written instructions in technical work manuals, and will have sufficient language skills to enter higher educational institutions: community colleges and technical schools.

Core Courses		Hours
ESLA 001	ESL Learning Center	40
ESLA 400	ESL Intermediate Low	120
ESLA 500	ESL Intermediate High	120
ESLA 600	ESL Advanced	120
Total Program Hours		400

Elective Courses		Hours
ABE 105	SCE Learning Center	36
Total Elective Hours		36

Total Program Hours 436

ABE 105

Designed for students from beginning levels of reading to those working toward a high school diploma. Through the use of small-group instruction, computer-aided instruction, audio books and workbooks, students will learn to become better readers, writers and thinkers. The skills attained can be used for personal growth, job advancement or for entry into other educational programs. A specific learning plan is developed for each student based on student goals, needs and learning style.

ESLA 001

ESL Learning Center

The ESL Learning Center offers an opportunity to practice English through various instructional media. Students learn through ESL software and/or receive individual and group tutoring to improve their speaking, listening, reading and writing skills. Special interest areas such as Vocational ESL and EL Civics are also part of the instruction.

ESLA 400

ESL Intermediate Low

The course integrates language functions and language forms with informational sources, skills and topics such as housing, transportation, emergencies, and health, job skills and job safety.

ESLA 500

ESL Intermediate High

The course integrates language functions and language forms with informational sources. Students will improve their proficiency by acquiring new vocabulary related to specific topics and by learning appropriate grammatical structures.

ESLA 600

ESL Advanced

This course integrates language functions and forms with informational sources and topics. Students will improve their proficiency by acquiring new vocabulary related to specific topics relevant to students' lives and experiences. Language skills such as listening and reading comprehension, speaking and writing are incorporated in the class activities.

ESL Oral Communication Skills

Program #24062

The goal of this sequence of courses is to develop students' receptive language skills of listening and productive skills of speaking to communicate effectively in a variety of contexts, including academic and vocational. The pronunciation instruction focuses on intelligibility so that students can meet communication demands of a particular job or academic program. Communication strategies include ability to adjust one's speech to be understood and ability to sustain formal and informal conversations on practical, academic, and social topics.

Students will use acquired skills in the context of theatrical performance and oral interpretation in pre-academic setting. This includes knowledge of specific terminology, comprehending short lectures, interpreting a play, and building social skills and confidence necessary for public speaking.

By completing the Drama for Communication or Reading Out Loud course, students may earn credits towards obtaining a High School Diploma.

Core Courses		Hours
ESLA 802	ESL Pronunciation/Conversation Skills	33
ESLA 809	American Idioms	36
ESLA 814	Intermediate Vocabulary Review	18
ESLA 805	Drama for Communication	90
Total Program Hours		177

ESLA 802

ESL Pronunciation/Conversation Skills

This course is designed for intermediate to advanced ESL learners to improve conversation and pronunciation skills in English. It is recommended that participants have English language skills at a Beginning High level.

ESLA 805

Drama for Communication

This ESL course builds students' reading, speaking, and pronunciation skills in the context of theatrical performances. Students will examine human experiences and cultural norms through imagined roles and expand creative thinking. Students will learn history and terminology of the performing arts and build social skills and confidence necessary for public speaking.

ESLA 809

American Idioms

Students will become familiar with common American English idioms, their meanings and uses and demonstrate the application of idioms to everyday situations. In addition, students will learn the skills of deducing the meaning of the new vocabulary from context and become more comfortable sharing their opinions and experiences while practicing the target idioms.

ESLA 814

Intermediate Vocabulary Review

Students will review, expand, and retain vocabulary words and phrases organized by commonly used topics. Students will work on using approximately twenty-five practical target words per class in oral and written exercises. This course is designed for the ESL students placed in the Intermediate Low, Intermediate High, and Advanced levels.

ESL Work Readiness

Program #24063

ESL Work Readiness sequence of courses is offered before employment and focuses on developing SCANS - language and technology literacy skills needed to obtain employment. Computer skills for ESL courses focus on improving language skills through computer applications tasks using MS Office Suite, online resources, and presentation programs. The sequence of courses ends with the Intermediate/Advanced Work Skills course focusing on managing resources, developing interpersonal skills, as well as understanding and improving systems.

This sequence of courses develops foundation skills needed for successful employment, such as, basic language and math skills, thinking creatively, making responsibility, self-esteem, sociability, self-management, and integrity.

Core Courses		Hours
ESLA 801	Computer Skills for ESL, Beginning	36
ESLA 815	Computer Skills for ESL, Advanced	36
ESLA 808	ESL Intermediate/Advanced Work Skills	36
Total Program Hours		108

ESLA 801

Computer Skills for ESL, Beginning

The course introduces ESL students to hands-on exploration and use of current Microsoft Windows programs. Students will learn basic computer parts, keyboarding, and the basics of MS Word, PowerPoint, Print Shop, and Excel. Emphasis is on building confidence in computer use to improve English skills in grammar, vocabulary, writing, speaking, pronunciation, and reading.

ESLA 808

ESL Intermediate/Advanced Work Skills

This ESL course covers basic job-search and workplace survival language skills while building necessary computer and critical thinking skills for students who are at an intermediate level or higher. Emphasis is on understanding basic principles of getting a job as well as wages, benefits and concepts of employee organizations. Students will practice work-related safety standards and procedures and demonstrate effective use of common workplace technology and systems. Students will acquire skills of how to communicate effectively and manage workplace resources.

ESLA 815

Computer Skills for ESL, Advanced

Students will enhance their English language skills through challenging computer application tasks using MS Word, PowerPoint, Print Shop, Excel, the Internet, and MS Publisher. Emphasis is on building confidence in independent projects to improve English skills in grammar, vocabulary, writing, and reading. Students will be actively involved in computer projects linking the academic environment with their communities.

ESL Written Communication Skills

Program #24117

The goal of this sequence is to develop students' receptive skills of reading and productive skills of writing to communicate effectively in a variety of contexts, including academic and vocational. Competency-based reading instruction includes survival literacy addressing students' day-to-day needs, document literacy needed to understand charts, tables, bills, etc., quantitative literacy containing numeric information, and prose literacy focusing on understanding extensive texts like vocational manuals, literature pieces, short academic passages, periodicals, etc.

The goal of the writing instruction is an independent writer equally successful in an academic or job-related setting. Students will use acquired skills in pre-academic setting of the ESL and the Arts course, which will include writing a research paper, an essay, and preparing a PowerPoint presentation. By completing the ESL and the Arts course, students may earn credits towards obtaining a High School Diploma.

Core Courses		Hours
ESLA 804	ESL & the Arts	36
ESLA 813	Intermediate Grammar Review	18
ESLA 810	Writing and Reading	60
Total Program Hours		114

ESLA 804

ESL and the Arts

This course builds students' reading comprehension, writing, and speaking skills in the context of thematic and aesthetic exploration of arts. Students will identify common artistic themes while comparing and contrasting a variety of aesthetic forms, styles, and periods. This interactive course includes visiting museums, watching performances, and listening to guest speakers.

ESLA 813

Intermediate Grammar Review

Students will learn to understand grammar structures in various contexts and practice using them in both oral and written communication. This class supplements core ESL courses or works as a stand-alone course. This course is designed for the ESL students placed in the Intermediate Low, Intermediate High, and Advanced levels.

ESLA 810

Writing and Reading

This ESL course emphasizes reading comprehension skills while building vocabulary and critical thinking skills for students who are at an intermediate level or high. In addition, the writing component is designed to acquaint students with writing skills required to develop college-level writing techniques by focusing on prewriting, outlining, drafting, revising and editing.

Workplace Vocational English as a Second Language:

Administrative Assistant

Program #24115

This VESL sequence of courses focuses on the language needs of the students who are currently enrolled in the occupational training as well as the students pursuing a career of an Administrative Assistant. The goal is to prepare students to function successfully in academic or workplace setting by introducing them to the field terminology and job-related language skills. Special emphasis is on business writing skills, oral communication strategies, and conflict resolution techniques.

Students will also obtain necessary skills and confidence needed to find a job, managing resources, developing interpersonal skills, as well as understanding and improving system.

Core Courses		Hours
ESLA 1030	Vocational ESL: Administrative Assistant	36
ESLA 808	ESL Intermediate/Advanced Work Skills	36
Total Program Hours		72

ESLA 808

ESL Intermediate/Advanced Work Skills

This ESL course covers basic job-search and workplace survival language skills while building necessary computer and critical thinking skills for students who are at an intermediate level or higher. Emphasis is on understanding basic principles of getting a job as well as wages, benefits and concepts of employee organizations. Students will practice work-related safety standards and procedures and demonstrate effective use of common workplace technology and systems. Students will acquire skills of how to communicate effectively and manage workplace resources.

ESLA 1030

Vocational English as a Second Language:

Administrative Assistant

This ESL course provides students with necessary language skills to succeed in the vocational administrative assistant programs, thereby bridging the gap between standard ESL and VESL coursework. The course also focuses on preparing students to interact in real-life office situations.

**Workplace Vocational English as a Second Language:
Early Childhood Education
Program #24292**

This VESL sequence of courses focuses on the language needs of the students who are currently enrolled in the ECE programs as well as the students who have completed the occupational training and pursuing a career of a preschool instructor. The goal is to prepare students to function successfully in the ECE academic or workplace setting by introducing students to the field terminology and building effective oral and written communication strategies in real-life situations.

Students will also obtain necessary skills and confidence needed to find a job, managing resources, developing interpersonal skills, as well as understanding and improving systems.

Core Courses	Hours
ESLA 1020 Vocational ESL: Early Childhood Education	36
ESLA 808 ESL Intermediate/Advanced Work Skills	36
Total Program Hours	72

ESLA 808

ESL Intermediate/Advanced Work Skills

This ESL course covers basic job-search and workplace survival language skills while building necessary computer and critical thinking skills for students who are at an intermediate level or higher. Emphasis is on understanding basic principles of getting a job as well as wages, benefits and concepts of employee organizations. Students will practice work-related safety standards and procedures and demonstrate effective use of common workplace technology and systems. Students will acquire skills of how to communicate effectively and manage workplace resources.

ESLA 1020

Vocational English as a Second Language: Early Childhood Education

This ESL course provides students with necessary language skills to succeed in early childhood education (ECE) programs, thereby bridging the gap between standard ESL coursework and ECE coursework. The course also focuses on preparing students to interact in the real world in ECE situations (e.g., parent-teacher conferences).

**Workplace Vocational English as a Second Language:
Electricity and Construction
Program #24166**

This VESL sequence of courses focuses on the language needs of the students who are currently enrolled in the vocational electricity and construction programs as well as the students who have completed the occupational training and pursuing a career of an electrician. The goal is to prepare students to function successfully in the electricity and construction academic or workplace setting by introducing students to the field terminology, job-related math skills, basic safety rules, and building effective oral and written communication strategies in real-life situations.

Students will also obtain necessary skills and confidence needed to find a job, managing resources, developing interpersonal skills, as well as understanding and improving systems.

Core Courses	Hours
ESLA 995 Vocational ESL: Electricity and Construction	36
ESLA 808 ESL Intermediate/Advanced Work Skills	36
Total Program Hours	72

ESLA 808

ESL Intermediate/Advanced Work Skills

This ESL course covers basic job-search and workplace survival language skills while building necessary computer and critical thinking skills for students who are at an intermediate level or higher. Emphasis is on understanding basic principles of getting a job as well as wages, benefits and concepts of employee organizations. Students will practice work-related safety standards and procedures and demonstrate effective use of common workplace technology and systems. Students will acquire skills of how to communicate effectively and manage workplace resources.

ESLA 995

Vocational English-as-a-Second Language: Electricity and Construction

The course focuses on improving communicative competence within real-life situations related to working with electricity and general construction. Students will gain confidence as they improve their ability to communicate effectively while on the job.

**Workplace Vocational English as a Second Language:
Pharmacy Technician
Program #24163**

This VESL sequence of courses focuses on the language needs of the students who are currently enrolled in the occupational training as well as the students pursuing a career of a Pharmacy Technician. The goal is to prepare students to function successfully in academic or workplace setting by introducing students to the field terminology, job-related math skills, basic safety rules, and building effective oral and written communication strategies in real-life situations. Special emphasis is made on accent-reduction techniques.

Students will also obtain necessary skills and confidence needed to find a job, managing resources, developing interpersonal skills, as well as understanding and improving system.

Core Courses	Hours
ESLA 1025 Vocational ESL: Pharmacy Technician	36
ESLA 808 ESL Intermediate/Advanced Work Skills	36
Total Program Hours	72

ESLA 808

ESL Intermediate/Advanced Work Skills

This ESL course covers basic job-search and workplace survival language skills while building necessary computer and critical thinking skills for students who are at an intermediate level or higher. Emphasis is on understanding basic principles of getting a job as well as wages, benefits and concepts of employee organizations. Students will practice work-related safety standards and procedures and demonstrate effective use of common workplace technology and systems. Students will acquire skills of how to communicate effectively and manage workplace resources.

ESLA 1025

Vocational English as a Second Language: Pharmacy Technician

This ESL course covers basic English communication skills in a pharmacy setting for students who are at an intermediate ESL level or higher. Students will practice typical in-person and phone conversations with pharmacy customers and co-workers.

Funeral Service

**Funeral Service Assistant Certificate Program
Program #33698**

This program serves as an introduction to the theoretical and practical knowledge required for professional licensure. It will help individuals determine their level of interest in the funeral service industry and in more formal vocational training in Mortuary Science. This program will prepare students for an entry-level position as a Funeral Service Assistant. The program consists of a sequence of courses that prepares students with the knowledge and skills needed to perform the tasks of a funeral service assistant such as placing casket in parlor or chapel prior to service; arranging floral offerings or lights around casket; directing or escorting mourners; closing casket; and issuing and storing funeral equipment. It is not intended as a substitute for the Associate in Science – Mortuary Science program, licensing or certification requirements, which include an apprenticeship, but would provide students a more realistic expectation of the rigors of funeral service practice that will lead to employment as a Funeral Service Assistant and/or a pathway to the Cypress College Mortuary Science Associate in Science degree program.

Core Courses	Hours
MEOC 210 Introduction to Computers for Health Care Workers	48
FSRV 100 Introduction to Funeral Service Practice	60
FSRV 110 Communication Skills for the Funeral Assistant	60
FSRV 125 Funeral Service Practices and Procedures I	60
FSRV 120 Funeral Service Operations	60
FSRV 126 Funeral Service Practices and Procedures II	60
Total Program Hours	348

FSRV 100

Introduction to Funeral Service Practice

This course is an introduction to the funeral service profession and career opportunities. Topics covered include personal characteristics, professional responsibilities, ethical behavior, funeral service settings, mortuary law, and communication skills.

FSRV 110

Communication Skills for the Funeral Assistant

This class will prepare the student to provide support to client families in grief, bereavement, and mourning, and communicate effectively with the public. Topics include an exploration of cultural differences in grief and funeralization practices, as well as the diversity of religious beliefs impacting disposition options.

FSRV 120

Funeral Service Operations

This course introduces students to funeral service practices and procedures in preparation for entry-level positions in the funeral home. These include funeral service assistant, receptionist, mortuary representative, transfer personnel, funeral director assistant, and pre-need salesperson. Students review historical funeral service practices, funeral service price lists, and service arrangements.

FSRV 125

Funeral Service Practices and Procedures I

This course introduces students to the sociology of funeral service practice. It is designed to develop the necessary skills for arranging religious funeral ceremonies, conducting funeral and memorial services, and assisting in the disposition of human remains including cremation and scattering. Funeral service merchandise options are also covered.

FSRV 126

Funeral Service Practices and Procedures II

This course provides students with experience related to administrative and managerial funeral directing. Students will explore the necessary skills required to operate within the funeral home, including advertising and public relations, marketing and merchandising, and compliance with applicable laws, rules, and regulations.

MEOC 210

Introduction of Computers for Health Care Workers Image

Prerequisite: COMP 685 Beginning Keyboarding or Typing 30 words per minute. This course is an introduction to computers for individuals entering the health care field. This course provides a general introduction to computer literacy and information technology for health care students. The course provides a comprehensive survey of the interconnections of information technology and health care.

MEDO 115

Medical Assisting: Front Office Procedures

Prerequisite: MEDO 260 Introduction of Medical Assisting and COMP 685 Beginning Keyboarding. This course introduces students to medical office procedures in preparation for entry-level positions in the front office or reception area of a medical facility. These include medical data entry. Students review reception techniques, patient records and insurance forms. Keyboarding experience advised.

MEDO 235

Medical Assisting: Back Office Procedures I

Prerequisite: MEOC 104 Medical Terminology and MEDO 260 Introduction to Medical Assisting. This course introduces students to the back office, clinical duties of the medical assistant. It is designed to develop the necessary skills for performing exam room procedures, including medical asepsis and infection control; patient intake; vital signs; and assisting with physical examination. Specialty exams and electrocardiograph procedure are also covered.

MEDO 240

Medical Assisting: Back Office Procedures II

Prerequisite: MEOC 104 Medical Terminology and MEDO 235 Medical Assisting Back Office I. This course develops the necessary skills for the back office. Students review assisting physicians with minor surgical procedures, pharmacology, laboratory procedures, nutrition, patient education, diagnostic imaging, and urgent care and emergency procedures.

MEDO 260

Introduction to Medical Assisting

This course is an introduction to the medical assisting profession and career opportunities. Topics covered include personal characteristics, professional responsibilities, ethical behavior, health care settings, medical law, and therapeutic communication skills.

MEOC 104

Medical Terminology

Required course for Pharmacy Technician Certificate program but also welcomes all students preparing for a variety of professional/paraprofessional careers in the medical field. Learn medical terms or strengthen prior knowledge. Offers basics of terminology, anatomy and diagnostics.

MEOC 112

Medical Insurance Billing - A Practical Approach to Medical Billing

Prerequisite: COMP 100 Introduction to Computers or MS 104 Introduction to Windows Operating System and keyboard competency of 30 wpm. An overview of outpatient medical insurance billing in preparing students for entry-level positions. Students review theory and practice data entry for private, Blue Cross/BlueShield, Medicare, Medicaid/Medi-Cal, TRICARE/CHAMPUS and workers' compensation billing. CPT and ICD-9 coding covered. Medical billing software utilized in computer lab. Keyboarding experience advised.

Medical

Medical Assisting Program

Program #30422

This program will prepare students for an entry-level position as a medical assistant in a front office (administrative) and back office (clinical setting). The program consists of a sequence of courses that prepares students with the knowledge and skills needed to perform the tasks of a medical assistant in keeping the offices of physicians, podiatrist, chiropractors, and other health practitioners running smoothly.

**Pharmacy Technician Program
Program #24219**

This program prepares students for an entry-level position as a pharmacy technician at a community and institutional pharmacy. The certificate program exceeds the State Board of Pharmacy's registration requirements and meets American Society of Health-System Pharmacists (ASHP) crediation standard.

Core Courses	Hours
MEOC 104 Medical Terminology	48
MEOC 130 Introduction to Pharmacy Technician	60
MEOC 140 Pharmaceutical Mathematics	36
MEOC 121 Pharmacology I	36
MEOC 122 Pharmacology II	36
MEOC 135 Human Relations For Healthcare Workers	36
MEDO 230 Pharmacy Operations Lab	36
MEDO 220 Out-Patient Lab: Pharmacy Technician	48
MEDO 221 In-Patient Lab: Pharmacy Technician	48
MEDO 317 Out-Patient Externship of the Pharmacy Technician	24
MEDO 316 In-Patient Externship of the Pharmacy Technician	24
Total Program Hours	432

MEDO 220

Out-Patient Lab for the Pharmacy Technician

Prerequisite: MEDO 230 Pharmacy Operations Lab; MEOC 104 Medical Terminology (or MEOC 110 Medical Terminology II); MEOC 121 Pharmacology I; MEOC 122 Pharmacology II; MEOC 130 Introduction to Pharmacy Technician; MEOC 140 Pharmaceutical Mathematics; Keyboarding Proficiency score of 30 or above OR passing grade in COMP 685 Beginning Keyboarding. The practical lab class is designed to prepare the student for an externship at neighboring pharmacies. Upon completion of the lab classes, the student should be able to step into an out-patient pharmacy and begin working with minimal additional training.

MEDO 221

In-Patient Lab for the Pharmacy Technician

Prerequisite: MEDO 230 Pharmacy Operations Lab; MEOC 104 Medical Terminology (or MEOC 110 Medical Terminology II); MEOC 121 Pharmacology I; MEOC 122 Pharmacology II; MEOC 130 Introduction to Pharmacy Technician; MEOC 140 Pharmaceutical Mathematics; Keyboarding Proficiency score of 30 or above OR passing grade in COMP 685 Beginning Keyboarding. The practical lab class is designed to prepare the student for an externship at neighboring pharmacies. Upon completion of the lab classes, the student should be able to step into an in-patient pharmacy and begin working with minimal additional training.

MEDO 230

Pharmacy Operations Lab

Prerequisite: MEOC 130 Introduction to Pharmacy Technician and Keyboarding score of 30 or above or passing grade in COMP 685 - Beginning Keyboarding. This course introduces students to the operations of a pharmacy. It provides them with a working knowledge of the structural, functional, business and inter-relational aspect of pharmacy as part of the health care system. Through hands-on instruction, students develop the entry-level skills needed to assist in a pharmacy operation.

MEDO 316

In-Patient Externship for the Pharmacy Technician

Prerequisite: MEDO/220 Out-Patient Lab: Pharmacy Technician; MEOC/135 Human Relations for Health Care Workers; and MEDO/221 In-Patient Lab Pharmacy Technician. This course is designed to provide pharmacy technician students with field experience in an in-patient pharmacy setting. It requires weekly class meetings plus 200 hours of externship in an approved and contracted pharmacy. Class topics include portfolio development, job search, professionalism, current issues in pharmacy, and work performance. (*Apportionment*)

MEDO 317

Out-Patient Externship for the Pharmacy Technician

Prerequisite: MEDO/220 Out-Patient Lab: Pharmacy Technician; MEOC/135 Human Relations for Health Care Workers; and MEDO/221 In-Patient Lab: Pharmacy Technician. This course is designed to provide pharmacy technician students with field experience in an out-patient/retail pharmacy setting. It requires weekly class meetings plus 120 hours of externship in an approved pharmacy. Class topics include portfolio development, job search, professionalism, current issues in pharmacy, and work performance. (*Apportionment*)

MEOC 104

Medical Terminology

Required course for Pharmacy Technician Certificate program but also welcomes all students preparing for a variety of professional/paraprofessional careers in the medical field. Learn medical terms or strengthen prior knowledge. Offers basics of terminology, anatomy and diagnostics.

MEOC 121

Pharmacology I

Prerequisite: MEOC 104 Medical Terminology. Bring original certificate to first class. Equips students with the necessary beginning theoretical knowledge. Includes categorizing, differentiating between drug classifications and inventorying. Provides a basic knowledge and understanding of drug effects on the body.

MEOC 122

Pharmacology II

Prerequisite: MEOC 104 Medical Terminology. Bring original certificate to first class. Provides a continuation of theoretical knowledge acquired in Pharmacology I. Includes categorizing, inventorying and differentiating between drug classifications. Equips students with an advanced knowledge and understanding of drug effects on the body.

MEOC 130

Introduction to Pharmacy Technician

Course orients students to pharmacy practice and the work of pharmacy technicians. It covers pharmacy technician registration process and educational requirements, the role of the technician, duties and tasks technicians perform as regulated by pharmacy law, and the necessary abilities and skills for a successful career as a pharmacy technician.

MEOC 135

Human Relations For Healthcare Workers

Covers basic communications skills with emphasis on health care. Includes non-verbal communication, group communication, conflict resolution, ethics in health communication, and elements of intercultural communication, resume writing, job application and interviewing techniques.

MEOC 140

Pharmaceutical Mathematics

A review of basic mathematics focusing on its application to common pharmaceutical calculations, abbreviations and units; how to interpret pharmaceutical documents using acquired pharmaceutical math knowledge.

**Pharmacy Technician Registration Program
Program #32816**

This program prepares students for an entry-level position as a pharmacy technician at a community and institutional pharmacy. The certificate program exceeds the State Board of Pharmacy's registration requirements.

Core Courses	Hours
MEOC 130 Introduction to Pharmacy Technician	60
MEOC 104 Medical Terminology	48
MEOC 140 Pharmaceutical Mathematics	36
MEDO 230 Pharmacy Operations Lab	36
MEOC 121 Pharmacology I	36
MEOC 122 Pharmacology II	36
MEOC 135 Human Relations for Healthcare Workers	36
MEDO 221 In-Patient Lab: Pharmacy Technician	48
MEDO 220 Out-Patient Lab: Pharmacy Technician	48
Total Program Hours	384

MEDO 220

Out-Patient Lab for the Pharmacy Technician

Prerequisite: MEDO 230 Pharmacy Operations Lab; MEOC 104 Medical Terminology (or MEOC 110 Medical Terminology II); MEOC 121 Pharmacology I; MEOC 122 Pharmacology II; MEOC 130 Introduction to Pharmacy Technician; MEOC 140 Pharmaceutical Mathematics; Keyboarding Proficiency score of 30 or above OR passing grade in COMP 685 Beginning Keyboarding. The practical lab class is designed to prepare the student for an externship at neighboring pharmacies. Upon completion of the lab classes, the student should be able to step into an out-patient pharmacy and begin working with minimal additional training.

MEDO 221

In-Patient Lab for the Pharmacy Technician

Prerequisite: MEDO 230 Pharmacy Operations Lab; MEOC 104 Medical Terminology (or MEOC 110 Medical Terminology II); MEOC 121 Pharmacology I; MEOC 122 Pharmacology II; MEOC 130 Introduction to Pharmacy Technician; MEOC 140 Pharmaceutical Mathematics; Keyboarding Proficiency score of 30 or above OR passing grade in COMP 685 Beginning Keyboarding. The practical lab class is designed to prepare the student for an externship at neighboring pharmacies. Upon completion of the lab classes, the student should be able to step into an in-patient pharmacy and begin working with minimal additional training.

MEDO 230

Pharmacy Operations Lab

Prerequisite: MEOC 130 Introduction to Pharmacy Technician and Keyboarding score of 30 or above or passing grade in COMP 685 - Beginning Keyboarding. This course introduces students to the operations of a pharmacy. It provides them with a working knowledge of the structural, functional, business and inter-relational aspect of pharmacy as part of the health care system. Through hands-on instruction, students develop the entry-level skills needed to assist in a pharmacy operation.

MEOC 104

Medical Terminology

Required course for Pharmacy Technician Certificate program but also welcomes all students preparing for a variety of professional/paraprofessional careers in the medical field. Learn medical terms or strengthen prior knowledge. Offers basics of terminology, anatomy and diagnostics.

MEOC 121

Pharmacology I

Prerequisite: MEOC 104 Medical Terminology. Bring original certificate to first class. Equips students with the necessary beginning theoretical knowledge. Includes categorizing, differentiating between drug classifications and inventorying. Provides a basic knowledge and understanding of drug effects on the body.

MEOC 122

Pharmacology II

Prerequisite: MEOC 104 Medical Terminology. Bring original certificate to first class. Provides a continuation of theoretical knowledge acquired in Pharmacology I. Includes categorizing, inventorying and differentiating between drug classifications. Equips students with an advanced knowledge and understanding of drug effects on the body.

MEOC 130

Introduction to Pharmacy Technician

Course orients students to pharmacy practice and the work of pharmacy technicians. It covers pharmacy technician registration process and educational requirements, the role of the technician, duties and tasks technicians perform as regulated by pharmacy law, and the necessary abilities and skills for a successful career as a pharmacy technician.

MEOC 135

Human Relations For Healthcare Workers

Covers basic communications skills with emphasis on health care. Includes non-verbal communication, group communication, conflict resolution, ethics in health communication, elements of intercultural communication, resume writing, job application and interviewing techniques.

MEOC 140

Pharmaceutical Mathematics

A review of basic mathematics focusing on its application to common pharmaceutical calculations, abbreviations and units; how to interpret pharmaceutical documents using acquired pharmaceutical math knowledge.

**Quality Assurance Management Certificate for Medical Devices
Program #24128**

Students who complete the Certificate will be prepared to obtain an entry-level position in quality assurance within the medical device industry. Topics covered include regulatory agencies and laws pertaining to the medical device industry; introduction to the medical device industry and trends in the field; document control and database management; quality assurance concepts for medical device manufacturing; technical writing; the quality audit process; and employability skills. Upon successful program completion, students will have the skills required of positions in the medical device industry such as quality assurance specialist, quality compliance specialist and quality systems auditor. This certificate will also benefit incumbent workers seeking promotional opportunities within the industry.

Core Courses	Hours
BMGR 645 Introduction to Medical Device Quality Assurance	36
BMGR 648 Regulatory Affairs for Medical Devices	36
BMGR 651 Document and Database Management for Medical Devices	36
BMGR 654 Quality Assurance for Medical Devices	36
BMGR 657 Technical Writing for Bio-Medical Industries	36
BMGR 660 Quality Auditing for Medical Devices	36
Total Program Hours	216

BMGR 645

Introduction to Medical Device Quality Assurance

This course introduces students to the medical device industry in preparation for an entry-level position as a Quality Assurance Specialist. Learn about the industry's size and scope, current trends, and the wide range of products used in a variety of healthcare settings. Industry job resources are also covered.

BMGR 648

Regulatory Affairs for Medical Devices

Course will provide students with an in-depth understanding the regulations and regulatory agencies that are specific to the medical devices industry. The course will cover U.S. and European Union (EU) regulations as well as other related agencies. Includes laws governing the development, manufacturing and approval of medical devices.

BMGR 651

Document and Database Management for Medical Devices

An overview of regulatory requirements for document control and database management for the medical device field. Covers the fundamentals of writing documents that meet regulatory compliance. Equips students for handling document management systems efficiently.

BMGR 654

Quality Assurance for Medical Devices

This course provides students with an in-depth definition of quality assurance and its role with medical devices. The course covers the responsibilities of assurance during the manufacturing and production of a product. Topics will include management responsibilities, process controls, and other subjects providing an overall understanding of quality assurance.

BMGR 657

Technical Writing for Bio-Medical Industries

This course will provide students with an overview and understanding of technical writing for the bio-medical industry. The course will cover principle writing methodologies for quality assurance, engineering, manufacturing, and production of a medical device product. Topics will address documentation as related to FDA mandated requirements, ISO standards and for writing GMP procedures.

BMGR 660

Quality Auditing for Medical Devices

This course presents the principles and techniques for assessing the adequacy of a quality system for a medical device manufacturer. Coverage includes evaluating the quality system as it conforms to FDA regulatory requirements, standards, review of standard audit terms and other audit concepts.

School of Continuing Education High School Diploma Program

This program is designed for adults who return to complete the requirements for a high school diploma. Upon completion of these courses, the student will be able to demonstrate a level of competency for each academic subject studied. Acquisition of a high school diploma will lead to improved employability and preparation for entry into college.

IHSS 300	Transitioning to College	1
IHSS 994	High School Academic Success	1 - 10

IHSS 100 Credits: 1 - 10

High School English 1

This course is an individualized, self-paced study in the basics of English language arts, including vocabulary development, grammar, reading comprehension, and writing strategies. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (*Apportionment*)

IHSS 101 Credits:1 - 10
High School English 2
 This course is an integrative course consisting of an array of subjects to address English language arts. Topics may include contextualized vocabulary, intermediate grammar, reading and composition, and literature. Instructional modules are assigned based on academic preparation, functional reading levels and vocational or educational goals. This content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 102 Credits:1 - 10
High School English 3
 This course is an integrative course consisting of an array of subjects to address English language arts. Topics may include contextualized vocabulary, intermediate grammar, reading and composition, and literature. Instructional modules are assigned based on academic preparation, functional reading levels and vocational or educational goals. This content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 103 Credits:1 - 10
High School English 4
 This course is an individualized, self-paced study in English language arts, including vocabulary, grammar usage, advanced reading in literature and composition skills. This course is offered for SCE high school diploma credit. *(Apportionment)*

IHSS 105 Credits:1 - 10
High School Writing Skills
 Writing strategies are presented through individualized, self-paced modules in personal compositions and business letters. Techniques in structure, style and business correspondence are covered. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 106 Credits:1 - 10
High School US History
 This United States history course covers the lives of America's people and aspects of their cultures, from early exploration through the beginning of the twenty-first century. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 107 Credits:1 - 5
High School US Government
 This course is an individualized, self-paced study of U.S. government. It will cover the Constitution, the roles of the federal, state and local government, and modern economic and political systems. This course is used for SCE High School Diploma credit and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same completion of this course. *(Apportionment)*

IHSS 109 Credits:1 - 10
High School World History
 This course presents the history of the world's people and major cultures from early times to the present. This course is offered for the SCE high school diploma and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 110 Credits:1 - 10
High School World Geography
 This geography course surveys all the major regions of the world, explores processes that shape the Earth and relationships between people and environments. This course is offered for SCE diploma credit and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 111 Credits:1 - 5
High School Economics
 This course explores the changing economic climate in the United States and globally. Economic systems, development and problems that affect daily life are covered. This course is offered for SCE high school diploma credit and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 113 Credits:1 - 5
High School Mass Media
 This mass media course covers various forms of communications including television, advertising, print materials, and electronic media. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 114 Credits:1 - 10
High School Film Appreciation
 This course is an individualized, self-paced study of film appreciation. Topics covered include film genres, directing and critique. This course is used for SCE High School Diploma credit. *(Apportionment)*

IHSS 116 Credits:1 - 10
High School General Math
 This course presents activities to help the student with basic arithmetic skills, real-life applications, and problem-solving techniques. The units of study include a review of whole number operations, and basic functions of fractions, decimals, percents, measurements, algebra and geometry. This course is offered for SCE high school diploma credit. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 117 Credits:1 - 10
High School Vocational Math
 This course develops mathematical problem solving skills for occupational areas and everyday situations. Problems are given for payroll, retail business, manufacturing, mechanics, construction, inventory, health, and personal finance. Topics include formulas, basic algebra, proportions, percents, basic geometry, and measurements. This course is offered for SCE high school diploma credit. *(Apportionment)*

IHSS 118 Credits:1 - 10
High School Algebra 1
 This course covers basic algebra concepts including an introduction to variables, equations, factoring, an introduction to variables, equations, factoring, formulas and the application of skills. This course is used for SCE high school diploma credit and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 119 Credits:1 - 10
High School Geometry
 This course covers basic geometry concepts including key terms, geometric shapes and the application of skills. This course is used for SCE high school diploma credit and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned towards the completion of this course. *(Apportionment)*

IHSS 120 Credits:1 - 10
High School Life Science
 This course is an individualized, self-paced study of Life Science. This course covers scientific methods, classification and body systems. This course is used for SCE High School Diploma credit. *(Apportionment)*

IHSS 121 Credits:1 - 5
High School Earth Science
 Earth Science deals with the earth and other heavenly bodies of the universe. Students learn the various characteristics that make Earth unique in the solar system. This course is offered for SCE high school diploma credit. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 122 Credits:1 - 5
High School Physical Science
 Physical Science explores matter and its properties, motion, heat, energy, sound and light, as well as electricity and magnetism. This course is used for SCE High School Diploma credit. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 123 Credits:1 - 10
High School Biology
 This biology course is an individualized, self-paced study of living things including classification, survival, reproduction, growth, and development. Other topics explore ecological cycles, behaviors and evolution. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 124 Credits:1 - 10
High School Health
 This class is designed to give students an understanding of various facets of physical, mental, and social well being. The student will gain knowledge to promote wellness, identify causes of health problems and ways to prevent them. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 127 Credits:1 - 10
High School Computer Literacy
 Students will learn the basics of Windows, Internet browsing, keyboarding, email, course management systems and the modern office environment. *(Apportionment)*

IHSS 153 Credits:1 - 10
High School General Science
 General Science covers physical, Earth, and life science. This course is used for SCE High School Diploma credit. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 163 Credits:1 - 10
High School Composition
 This course provides writing strategies that include basic sentence structure, a review of grammar and mechanics, paragraph formation and essay composition skills. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 167 Credits:1 - 5
High School English Basic Skills
 Basic English skills are presented in this self-paced course. This introductory course includes workbook activities to improve skills in spelling, capitalization, punctuation, and reading. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 170 Credits:1 - 10
High School Grammar
 This course covers a variety of English language skills in a flexible format suitable for individualized, self-paced coursework. The topics covered include grammar, usage, writing mechanics and composition strategies. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 173 Credits:1 - 10
High School Novels
 This literature course offers a variety of literary works in a flexible format suitable for individualized self-paced coursework. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 174 Credits:1 - 10
High School Literature
 This literature course offers a variety of literary works in a flexible format suitable for individualized self-paced coursework. Literary options include poetry, short stories, essays and complete novels. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 177 Credits:1 - 10
High School Reading
 This developmental reading course represents many options to build skills in reading comprehension, vocabulary, and critical thinking. This course is offered for SCE high school diploma credit and partial credits are available to satisfy graduation requirements. *(Apportionment)*

IHSS 181 Credits:1 - 5
High School Short Stories
 This course introduces a variety of short stories through self-paced reading activities. Through guided reading activities, students explore character development, plot and author's purpose. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned for the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 183 Credits:1 - 10
High School Vocabulary
 This course covers grade-level vocabulary development and is offered for the SCE high school diploma credit. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 300 Credit:1
Transitioning to College
 This course is designed to help SCE High School Diploma Program and ESL Academic Success students successfully transition to a college campus. Topics presented will include identifying academic goals, designing an educational plan, utilizing the college processes (registration, financial aid, learning resources), and graduation. This course will include campus tours of several student resource centers. *(Apportionment)*

IHSS 500 Credits:1 - 10
High School Language Arts I
 This is an integrative course consisting of an array of topics including reading, writing, grammar, and vocabulary. Emphasis will be placed on sentence construction, word choice, paragraph development, maintaining coherence, recognizing main ideas, drawing upon sources informatively, reading with accuracy, writing and revising. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 501 Credits:1 - 10
High School Language Arts II
 This is an integrative course consisting of an array of topics including reading, writing, grammar, and vocabulary. Emphasis will be placed on sentence construction, word choice, paragraph development, maintaining coherence, recognizing main ideas, drawing upon sources informatively, reading with accuracy, writing and revising. The content of this course is delivered in a modular format using lecture-style instruction. *(Apportionment)*

IHSS 660 Credits:1 - 5
High School Psychology
 This psychology course explores the connections of human thought, behavior and development. It emphasizes the importance of these relationships to learning, personality, health, and society. This course is offered for SCE high school diploma credit and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 846 Credits: 5
High School Algebra 1A
 This course covers basic algebra including variables, equations, positive and negative integers, formulas, polynomials, and factoring. This course is offered for SCE high school diploma credits to satisfy graduation requirements. *(Apportionment)*

IHSS 847 Credits: 5
High School Algebra 1B
 This course covers basic algebra concepts including graphing, equations with two variables, fractions, decimals, percents, squares, square roots and quadratic equations. This course is offered for SCE high school diploma credits to satisfy graduation requirements. *(Apportionment)*

IHSS 990
High School Assessment
 Orientation to the SCE High School Diploma Program and overview of educational options. Includes assessing skills for the program and review of students support services. *(Orientation)*

IHSS 991 Credits:1 - 10
High School Business Law
 This course is an individualized, self-paced study of Business Law. Topics include contracts, insurance, and laws related to consumer and employment regulations. This course is used for SCE High School Diploma credit. *(Apportionment)*

IHSS 992 Credits:1 - 5
High School Art History - Artists and their Work
 This course will explore art movements from the Italian Renaissance to American painters and sculptors of the twentieth century. Students will discover why some artists and their artwork retain prominence. They will be given the opportunity to expand their knowledge on a variety of art forms. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 993 Credits:1 - 5
High School Elements and Principles of Design
 This course is an individualized, self-paced study of art and how people from other cultures and times have used a common visual language to express their own unique perspective. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 994 Credits:1 - 10
High School Academic Success
 This study skills course provides reading and writing activities to help a student master the thinking, planning and basic skills necessary to achieve academic success in school and is available for credit for the SCE High School Diploma Program. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 995 Credits:1 - 10
High School American History 1
 This course covers the lives of America's people and aspects of their cultures from early exploration through the late 1800's. This course is offered for SCE high school diploma credits to satisfy graduation requirements. *(Apportionment)*

IHSS 996 Credits:1 - 10
High School American History 2
 This American history course covers the lives of America's people, their contributions and struggles from westward expansion in the mid 1800's, worldwide conflicts, America's social change, to the U.S. policies of the twenty-first century. This course is offered for SCE high school diploma credits to satisfy graduation requirements. *(Apportionment)*

IHSS 997 Credits:1 - 5
High School Reading Strategies 1
 This course provides practice exercises in reading development and reinforces concepts through writing activities. Strategies include understanding the main idea, making judgments, understanding characters, drawing conclusions, and making inferences. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 998 Credits:1 - 5
High School Reading Strategies 2
 This course provides practice exercises in reading development and reinforces concepts through writing activities. Strategies include recognizing tone, understanding literary forms, organization, significant details, and vocabulary. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 999 Credits:1 - 5

Topics will also include communicating with customers, developing a positive attitude, handling complaints and sales skills. *(Apportionment)*

Clothing (CC)

CC 205

Sewing Techniques for Beginners

Students will learn new methods of sewing. Fundamental skills of understanding pattern directions, sewing machine use and making clothing alterations will be covered. *(Fee-Based)*

CC 206

Basic Sewing Techniques for Beginners

Students will learn new methods of sewing. Fundamental skills of understanding pattern directions, sewing machine use, hand stitching and making clothing alterations will be covered. *(Fee-Based)*

CC 215

Sew What You Wish

Using the newest sewing machine methods create garments or accessory items that fit your unique style. Projects include personal computer fashion analysis, alterations, sewing plaids and knits. *(Fee-Based)*

CC 220

Sewing Special Occasion Outfits

Through instructor demonstration and hands-on experience, students will be able to construct a variety of clothing items using couture techniques. The course includes wardrobe planning, a personal computer fashion analysis, alterations, fitting, and machine use. *(Fee-Based)*

CC 221

Couture Dressmaking I : Blouses

Through instructor demonstration and hands-on experience, students will be able to construct a classic fitted blouse using couture techniques. The course includes computer fashion analysis, alterations, fitting and sewing machine use. *(Fee-Based)*

CC 225

Exploring Knitting and Crocheting

Students will be introduced to hand-knit and crochet designs and techniques. Through hands-on experience they will improve their skills and learn to make attractive garments for family and friends. *(Fee-Based)*

CC 235

Contemporary & Traditional Quilting

This course will introduce basic steps of quilting and applique, including, fabric selection, design principles, assembly, borders and binding. Students will make projects using various quilting methods. *(Fee-Based)*

CC 236

Contemporary & Traditional Quilting I

Building on basic foundational skills of patchwork and applique, learning new techniques and working with tools of the trade, students will make a variety of projects. Instructions and demonstrations given in each session. *(Fee-Based)*

CC 240

Technical and Creative Use of Serger Machines

Learn how to thread and operate a serger while discovering creative applications for its use on various projects. Stitch formation and tension adjustments will be covered. Bring your machine or use ours. *(Fee-Based)*

CC 241

Technical and Creative Use of Serger Machine I: Knits

Learn how to thread and operate a serger while discovering techniques for serging with knit fabrics. Stitch formation and tension adjustments will be covered. Bring your machine or use ours. *(Fee-Based)*

CC 245

Sew Tailored Projects that are Runway Worthy

Enhance your image by creating garments that are sewn professionally and fit precisely. A personal computer fashion analysis, techniques for sewing faux fur, using specialty machines, proper interfacings, pressing and alterations will result in finished designer outfits at significant savings. May include men's tailoring. *(Fee-Based)*

CC 246

Sew a Tailored Wardrobe I: Unlined Jacket

Sew an unlined jacket that will enhance your image by creating garments that are sewn professionally and fit precisely. A personal computer fashion analysis, new techniques, proper interfacings, pressing and alterations will result in designer-like outfits and financial savings. *(Fee-Based)*

CC 250

Fashion Design: Patternmaking

Create and fit a personal basic pattern. Learn pattern manipulation processes to generate your own designs. One element of clothing will be emphasized each term, ex: bodices, pants, skirts, jackets. *(Fee-Based)*

CC 260

Needlework for Home and More I

Needlework techniques, such as cross stitch, embroidery and appliqué be explored in depth. No previous needlework experience needed. *(Fee-Based)*

CC 263

Needlework for Home and More II

Needlework techniques, such as Brazilian and ribbon embroidery, and Swedish Weaving will be explored in depth. No previous needlework experience needed. *(Fee-Based)*

CC 265

Fashion Design: Patternmaking - I

Learn pattern manipulation processes to generate your own designs. Includes slash-spread, and pivot-transfer methods. One element of clothing will be emphasized each term, ex: bodices, pants, skirts, jackets. *(Fee-Based)*

CC 268

Fashion Design: Patternmaking- II

Create and fit a personal basic pattern. Learn pattern alterations and grain line fitting. One element of clothing will be emphasized each term, ex: bodices, pants, skirts, jackets. *(Fee-Based)*

CC 270

Basic Sewing Techniques

Students will learn new methods of sewing. Fundamental skills of understanding pattern directions. Sewing machine use and making clothing alterations will be covered. *(Fee-Based)*

CC 275

Sewing Machine Techniques - Beginning

Introduction or update basic sewing machine techniques including threading, stitch length/width adjustments. Basic seams and seam finishes demonstrated and practiced. Use of basic feet and machine maintenance included. Bring your own machine or use ours. *(Fee-Based)*

CC 280

Sewing Machine Techniques - Intermediate

Update intermediate sewing machine techniques. Twin needles and decorative stitches covered. Use of specialty feet and machine maintenance included. Bring your own machine or use ours. *(Fee-Based)*

CC 405

Fashion Design: Copy Ready-to-Wear Garments I

Create a pattern from your favorite Ready-to-Wear garments without taking the garment apart. Bodices and dresses will be emphasized. *(Fee-Based)*

CC 406

Fashion Design: Copy Ready-to-Wear Garments II

Create a pattern from your favorite Ready-to-Wear garments without taking the garment apart. Jacket, pants and skirts will be emphasized. *(Tuition) (Fee-Based)*

CC 410

Fashion Design: Sewing Lab

A sewing lab to allow completion of unfinished projects. Learn to use sewing notions and machine accessories to expedite completion of project. Garment fitting and alteration included. *(Fee-Based)*

CC 415

Fashion Design: Sewing Techniques for Intermediates

Sew a blouse or shirt. Learn to set-in sleeves, embellish fabric, sew collars, buttonholes and zippers. *(Fee-Based)*

CC 420

Fashion Design: Fitting and Alteration-Blouse

Custom fit and alter a basic blouse pattern. Alter a commercial pattern then fit the fabric blouse to your body curves. Learn to recognize wrinkles and folds and how to eliminate them to create a perfect fit. *(Fee-Based)*

CC 422

Fashion Design: Sweatshirt Makeover

This class will teach students to re-design the basic pullover sweatshirt, including re-sizing and custom-fitting. Students will also learn about restyling a cardigan, vest or jacket. Students will have the opportunity to add various design details such as new necklines, sleeve lengths, and ruffles or embroidery. *(Fee-Based)*

CC 425

Fashion Design: Fitting and Alterations: Pants, Part 1

This course will teach students to custom fit a commercial pants pattern. Student will complete alterations to the garments and practice pattern changes to create a variety of pant styles. *(Fee-Based)*

CC 426

Fashion Design: Fitting and Alterations: Pants, Part 2

This course will teach students to custom fit a commercial pants pattern. Students will also learn how to create a master pattern-sloper. They will complete alterations to the garments and practice pattern changes to create even more pant styles. *(Fee-Based)*

CC 430

Fashion Design: T-Shirt Makeover

This course teaches students to re-design a basic T-shirt. Resize and custom fit any purchased, commercial T-Shirt. Students will learn how to add various design details as a new neckline, adjust sleeve lengths, and adding ruffles and embroidery designs. *(Fee-Based)*

Computer Lab (CCTR)

CCTR 100

Business/Computer Skills Lab

Enjoy free, flexible scheduling for a variety of courses: Office Keyboarding, Data Entry, 10-Key, Typing/Keyboarding for Speed and Accuracy, Windows XP, MS Office (Word, Excel, Access, Outlook, PowerPoint), Intro to Internet and World Wide Web, internet access and free email! *(Apportionment)*

Consumer ED (CNED)

CNED 114

Personal Journal Writing for Older Adults

Personal journal writing is a literary art form and a skill that facilitates creativity and self discovery which results in a written record of the older adult student's life journey. Older Adults students will learn techniques for releasing the inner writer and developing the art of storytelling through concepts of myth, images and metaphors using the viewpoint and experience of older adults. *(Apportionment)*

CNED 204

ABC's of Financial Planning for Older Adults

This course is designed for older adult students from all walks of life who would like to create or improve their financial plan. This course covers typical questions older adults individuals have regarding financial security, assessing weaknesses in financial planning, and the differences between IRA's, 401K's, 457's, 403B's, and more. *(Apportionment)*

CNED 235

Professional Business Etiquette

This class will empower you to present yourself with confidence and authority. Topics covered include dining skills, introductions, how to make an entrance, remembering names, handshaking, conversation & listening skills. *(Fee-Based)*

CNED 245

Career Search Strategies

Our role is to provide you with the tools and training to conduct a highly effective job search program. This includes a customized job search game plan, a self assessment of your career strengths, effective self presentation strategies and negotiating recommendations to maximize your earnings. *(Fee-Based)*

CNED 250

Novel Writing and Memoirs

A practical, hands-on course to help writers polish their manuscripts and learn skills necessary for publishing both novels and memoirs. Student manuscripts will be critiqued in detail. Students will receive lessons in plot, common mistakes, characterization, beginnings - plus query letters and synopses. *(Fee-Based)*

CNED 255

Simplifying Your Life through Organization

This course focuses on home organization to bring the benefits of a simpler life. In this class students will learn several practical and real-world strategies to get their complete home in order. The course begins with organizing basics and then applies the basic strategies to kitchen, bedroom, office and storage. *(Fee-Based)*

Computer (COMP)

COMP 100

Introduction to Computers

Designed for those who know nothing or very little about computers. Builds computer technology understanding, makes one a better consumer of computers and products, and explores operation systems, software and hardware. Provides foundation for other SCE computer classes. *(Apportionment)*

COMP 105

Discover the Internet

A hands-on overview of Internet concepts, Web browsing using Internet Explorer; email, newsgroups, FTP, netiquette, security issues, research, and more. Hands-on including on-line browsing. Recommended proficiency in: Introduction to Computers or equivalent. *(Apportionment)*

COMP 119

Adobe Photoshop Elements

Advisory: Knowledge of Windows. Utilize photo editing software to enhance graphic design capabilities. This class introduces tools used by professional designers in an easy to use, powerful, digital- image editing program. Textbook may be required. *(Apportionment)*

COMP 121

Digital Photo Albums for Beginners

Advisory: MS 104 Introduction to Windows Operating Systems and COMP 105 Discover the Internet. Learn how to import photos from various sources; organize and manage photos; perform basic editing functions of photos, email photos and share albums; create slide shows and video CDs; and create cards, calendars, albums, and a photo book. Textbook may be required. *(Apportionment)*

COMP 350

Introduction to Visual Basic for Applications (VBA) for Excel

Advisory: MS 165 MS Excel - Power-User skills or Experience building Excel spreadsheet in response to data needs or externally delivered requirements. Learn how to create and edit Visual Basic for Applications (VBA) code without using the macro recorder. Learn how to write VBA projects using subroutines and functions. Understand how to utilize VBA's methods and properties to perform Excel work in a fast and flexible manner. *(Apportionment)*

COMP 510

Keyboarding Mastery I

Prerequisite: The student must be able to key 35 net words per minute (nwpm) timed writing or have completed COMP 685 Beginning Keyboarding with a pass grade. The first of two keyboarding courses designed to increase keying speed and accuracy to employment levels of 50+ nwpm. *(Apportionment)*

COMP 511

Keyboarding Mastery II

Prerequisite: The student must have completed COMP 510 Keyboarding Mastery I with a pass grade. The second of two keyboarding courses designed to increase and maintain keying speed and accuracy to employment levels of 50+ net words per minute (nwpm). *(Apportionment)*

COMP 620

Securing Your PC For The Internet

Prerequisite: Prior Windows Experience. Learn preventive techniques to secure your Windows PC from Internet threats such as viruses, spyware, and hackers. Explore different tools available to remove these threats and prevent future occurrences. *(Apportionment)*

COMP 645

Integrated Computer Projects

Designed for those who want to apply the knowledge they have gained from previous computer classes. See how those skills can be put to work in real world simulations! Capstone course for students who have already learned the basics of computer usage. Recommended proficiency in: Introduction to Computers, Discover the Internet, MS Office Overview or equivalent. *(Apportionment)*

COMP 650

QuickBooks Fundamentals for the Financial Office Applications

Teaches students the basics of using the QuickBooks software to develop customized financial application for business. The course covers special techniques for reducing data entry time, eliminating errors and getting consistent results. Upon completion students will understand the basics of QuickBooks to simplify financial tasks. *(Apportionment)*

COMP 655

MS Word Fundamentals for the Financial Office Applications

This brief course covers the essentials to creating simple documents with Microsoft Word in a financial office environment. An excellent course for beginners or those who need to know the basic. In-class projects will include memos, lists, letters, resumes and signs. *(Apportionment)*

COMP 660

MS Excel Fundamentals for the Financial Office Applications

This brief course covers the essentials to creating simple spreadsheets with Microsoft Excel in a financial office environment. An excellent course for beginners or those who need to know the basic. In-class projects will include an address list, budget, and inventory tracking sheet. *(Apportionment)*

COMP 665

MS PowerPoint Fundamentals for the Financial Office Applications

This brief course covers the essentials to creating simple presentations with Microsoft PowerPoint in a financial office environment. An excellent course for beginners or those who need to know the basics. Topics will include animations, transitions and slide shows. Learn how to create a professional-looking slide show without designing each slide from scratch! *(Apportionment)*

COMP 670

Create PDF's with Adobe Acrobat

Learn the standard for sharing documents online! Create PDF files using Adobe Acrobat. Protect documents, create forms, and combine multiple files with Adobe Acrobat. *(Apportionment)*

COMP 675

Digital Scrapbooking

Advisory: Knowledge of Windows and Photoshop or Photoshop Elements. Scrapbooking is a 2.5 billion dollar industry in the United States. Computerized graphic design is dramatically transforming the industry. Digital scrapbooking skills are important for anyone working in the graphic design field. Learn the design essentials of professional digital scrapbooks, hardware and software requirements, and the creation of graphic elements. *(Apportionment)*

COMP 685

Beginning Keyboarding

Stop hunting and pecking at the keyboard with this short course. Learn the keyboard layout to build speed and accuracy. Course covers proper technique at the computer keyboard as well as 10-key keyboarding. *(Apportionment)*

COMP 690

Email Essentials

Advisory: Introduction to Computers. Students will create an email account, learn to send electronic messages, attachments, manage contacts, create distribution lists and organize messages in folders. Learn this critical business skill set in this 18-hour course. *(Apportionment)*

COMP 700

Adobe Photoshop Elements Tools for Intermediate Users

Advisory: Knowledge of Windows and Adobe Photoshop Elements. For intermediate- or advanced-level photographers or scrapbookers. Covers tools and techniques for creating text with character, custom shapes and layer styles to add pizzazz, using and creating brushes for embellishments, adding blend modes and filters to give dimension, and automating pages using templates. *(Apportionment)*

COMP 705

Digital Photo Restoration and Portrait Makeovers

Advisory: COMP 119 Adobe Photoshop Elements and knowledge of Windows. For photographers and scrapbookers who want to advance their skills to repair old photos and touch up portraits. Topics include repairing scratches and tears on old photos; fixing hair, teeth, skin, red eyes, and blemishes; enhancing photos; combining images; creating backgrounds and frames; and selecting photo papers. Textbook Required. *(Apportionment)*

COMP 715

Introduction to Computer Components

This course is designed to provide the fundamentals in computer servicing. It introduces individuals to the names and general characteristics of a variety of a variety of components of a computer system. You will experience a hands-on approach to learning installation, configuring, and upgrading computer components. *(Fee-Based)*

COMP 720

Fundamental Principles of Printers, Scanners and Networks

This course is designed to provide the fundamentals of using printers, scanners and networks and providing support for them. The course will cover elements of installation, configuration, and networking that are necessary to provide support. *(Fee-Based)*

COMP 725

Intro to Windows Security, Safety and Environmental Issues

This course is designed to assist individuals in understanding personal computers on a technical level. You will receive hands-on experience managing Windows desktop security and internet security. You will also learn about safety and environmental computer issues. Essential elements of security are covered. *(Fee-Based)*

COMP 730

Microsoft Windows for Help Desk Careers

This course will give individuals fundamental knowledge of various Windows Operating Systems. The course includes the installation, configuration, and supporting of Windows Operating Systems. Customizing and configuring to meet a company's needs will also be covered. *(Fee-Based)*

COMP 735

Communication and Professionalism for Help Desk Professionals

This course is designed to provide the fundamentals of good communication and professionalism skills for working in a help desk environment. Topics include using good listening and diplomacy skills when communicating with customers and colleagues. *(Fee-Based)*

COMP 740

A+ Essentials

This course will prepare you for the CompTIA A+ Essentials certification exam (2006 Objectives). Students will obtain the skills and knowledge necessary to install, build, upgrade, repair, configure, troubleshoot, and perform preventative maintenance on personal computer hardware and operating systems. Textbook Required. *(Fee-Based)*

COMP 745

A+ Remote Support Technician (Practical Application)

Learn the skills necessary to work as a field service technician or support technician through hands-on activities. With a focus on A+ exam preparation, you will gain knowledge to install, configure, upgrade, and maintain PC workstations, the Windows OS and SOHO networks. Troubleshooting and computer security also covered. Textbook Required. *(Fee-Based)*

COMP 750

Network+ Certification

This course will prepare you for the CompTIA Network+ Certification. This hands-on class covers describing the features and functions of networking components. It also includes managing, maintaining, troubleshooting, installing, operating, and configuring basic network infrastructure. Textbook Required. *(Fee-Based)*

COMP 755

Blogging For Beginners

Learn to create your own blog. Topics include: name your blog, choose a blogging program, write creative posts, use tags, and add audience-building links to your text. Students will practice creating blogging and creating posts. *(Fee-Based)*

COMP 760

Using Facebook & LinkedIn for Business

Social networking applications such as Facebook and LinkedIn allow you to communicate and share information with your contacts through message walls, groups, and instant messages. This course teaches how to use social networking applications to communicate and share information. Learn how to give your business maximum exposure with networking applications. *(Fee-Based)*

COMP 765

Using Google Apps for Business

Google apps such as Gmail, Google Docs, and Google Calendar are used by millions of users. Learn how to use these apps in your personal life and to save your company time and money. *(Fee-Based)*

COMP 770

How To Use Microsoft Office Live

Microsoft Office Live is used for personal use and small business. Learn how to use Office Live to create a website, and store and share documents online. *(Fee-Based)*

COMP 775

Transitioning to Windows 7 for Beginners

This course provides an overview of important new features in Windows 7 to help users work easily and efficiently with computers. Topics include the new features and tools to organize, find, protect, and share information. Hands-on lab instruction will be provided. *(Fee-Based)*

COMP 780

Windows 7 Beta for IT Professionals

Advisory: Experience installing, configuring, and windows desktop operating systems. This course is designed for individuals with experience installing, configuring, and supporting Windows desktop operating systems. Students will be introduced to the new features in Windows 7 Beta. Topics include user productivity, security and control, PC management, and desktop optimization. Participants will receive hands-on lab instruction. *(Fee-Based)*

COMP 800

MS Overview for Help Desk

Learn the essential principles of Word, Excel, Access and PowerPoint. Topics include document formatting, working with graphics, basic formulas, queries and reports. Participants will receive hands-on instruction on all concepts. *(Fee-Based)*

COMP 805

What is GIS and How is it Used?

This class provides an overview of Geographic Information Systems (GIS) and career opportunities with GIS. Topics include what GIS is, how it can be used, fundamental concepts of GIS, how and where GIS data is obtained, and how to create basic maps. Activities use ESRI ArcGIS 9.2 software. *(Fee-Based)*

COMP 807

Introduction to Geographic Information Systems

This course will discuss Geographic Information Systems (GIS) and its applications to spatial data management. The course will cover how and where GIS data is obtained, using Global Positioning Systems (GPS), geo-coding, map projection, georeferencing, and coordinate systems. Spatial analysis and hands-on projects will also be included. *(Fee-Based)*

COMP 810

Introduction to Operating Systems

This course provides an introduction to computer operating systems such as Unix/Linux, DOS, and Microsoft Windows Operating Systems. Learn about system requirements, file systems management, protection and security, emerging technologies, and storage management through lectures and hands-on lab. *(Fee-Based)*

COMP 812

Microsoft Windows Client Administration

This class covers installing, configuring, and administering Microsoft Windows client operating systems. Topics include using administrative tools to create user and group accounts and accessing shared resources on a network. Learn how to manage user profiles, how clients can join and operate within a domain network environment. *(Fee-Based)*

COMP 814

Intro to Microsoft Project Professional

This course is designed to teach you how to create, modify, update and implement project plans using Microsoft Project. You will learn the essentials for managing time, people, and budgets for projects large and small with Microsoft Project. *(Fee-Based)*

COMP 815

Help Desk Support & Troubleshooting

This courses covers help desk support skills for the computer and information systems field. Topics include delivering effective technical support, common user problems, identifying the problem, help desk support tools, and resolving user problems. Students will be prepared to provide technical assistance to computer users. *(Fee-Based)*

Construction (CONS)

CONS 100

Electrical Wiring and Safety I

Covers basic electrical theory, terms, residential wiring techniques, grounding, basic switching circuits, residential load calculations and services. Based on current National Electrical Code (NEC). *(Apportionment)*

CONS 101

Electrical Wiring and Safety II

Course covers commercial wiring, conduit systems, over-current protection, polyphase distribution, grounding, voltage-drop equations and lighting. Based on the current National Electrical Code (NEC). *(Apportionment)*

CONS 121

Contracting License

This course is designed for students interested in exploring career opportunities in general contracting and sub-contracting, current contractors interested in enhancing their business and law skills, and students who want to prepare for the California Contracting License Examination by the Contractors State License Board (CSLB). *(Apportionment)*

CONS 138

Room Addition Fundamentals

This course covers the fundamentals of residential construction and the sequence of events that take place for a room addition. This includes preparing the required plans, obtaining city building permits and communicating with city building inspectors. The course will also cover project management and legal considerations. *(Apportionment)*

CONS 142

Electrical Wiring and Safety III

Course covers industrial wiring, conduit systems, over-current protection, transformer circuits, electrical motors, motor repairs, motor control circuit, and electrical installations. Based on Current "National Electrical Code"(NEC). trips to various electrical installations. *(Apportionment)*

CONS 201

Electrician Certification - State Test Preparation

This course covers the 16 areas of the 1999 National Electrical Code that the State of California has designed the State Certification test after. Ohm's Law and electrical calculations will also be covered. Students must bring the 1999 National Electrical Code (NEC) book and a calculator to the first class. *(Fee-Based)*

CONS 225

Construction Math

A review of basic mathematics focusing on its application to common calculations used in the construction trades. Course covers arithmetic operators, word problems, fractions, angles, metric measuring systems and algebraic formulas. *(Fee-Based)*

CONS 230

Introduction to Blueprint Reading

An introduction to blueprint reading using a fundamental approach, this course will familiarize trainees with basic blueprint terms, components and symbols. Trainees will learn the different types of blue print drawings (civil, architectural, structural, mechanical, plumbing/piping, and electrical) and how to interpret and use drawing dimensions. *(Apportionment)*

Creative Arts (CRAE)

CRAE 100

Creative Arts for Older Adults

This class for older adults encourages art appreciation, self-expression, and creativity through a variety of art media. Projects are designed to expose older adult students to artistic design, and to give experience with different artistic methods, techniques, tools, and materials. *(Apportionment)*

CRAE 101

Ceramics for Older Adults

This course in basic ceramics for older adults includes lecture, demonstration and application of ceramic artwork. Student will learn mold selection, glazing, decorating techniques, and proper firing procedures. Individual artistic creativity is encouraged and completed art projects of the older adult student are often displayed publicly. *(Apportionment)*

CRAE 103

China Painting for Older Adults

Older adults will learn the fundamentals of china painting as presented to older adult students through demonstration and individual instruction. The older adult students will learn techniques such as brush strokes, blending, shading, grounding, and masking. Final class projects are heirloom quality artworks that may be displayed in a community art exhibit. *(Apportionment)*

CRAE 104

Needlecrafts, Knitting, Crochet for Older Adults

Older adult students will learn the practical application, knowledge, and skills required to create knitted, crocheted, needlepoint, and cross-stitched hand-made items. A wide variety of items are created, by older adult students, including decorations for the home and clothing for babies, children and adults. *(Apportionment)*

CRAE 105

Painting for Older Adults

This class offers older adults an individualized approach to learning painting and artistic expression at their own pace and within their interest and style. Older adult will learn techniques in drawing, brush strokes, and color mixing and application. *(Apportionment)*

CRAE 106

Quilting for Older Adults

This course offers the essentials of quilting, for older adult students, which includes fabric selection, cutting, and sewing methods along with the history and vocabulary of the craft. Special techniques for older adults are covered such as patchwork, applique, hand and machine methods, and finishing techniques. *(Apportionment)*

CRAE 215

Scrapbooking Design and Techniques

Students will make personalized scrapbook pages. This is an introductory course for beginners who want to learn about design and several techniques. Projects include metal embellishments, paper flowers, and transfers. Learn how to incorporate the principles and elements of art and design to create captivating layouts for your memories. *(Fee-Based)*

CRAE 310

Intergenerational: Creative Arts Exchange for Older Adults

Older adults along with participants of multiple generations create artistic legacy keepsakes that reflect the individual histories of older adults, lifetime memories, and personal creative expression. Class projects are designed to encourage mutual appreciation and connections among older adult students and participants of varying age groups. *(Apportionment)*

CRAE 315

Beginning Drama for Older Adults

This course is designed to introduce older adult students to the world of drama and to the theatrical creative process. Students are encouraged to experiment and develop personal performance skills as well as gain an understanding of drama through participation and practice critiques. *(Apportionment)*

CRAE 320

Basic Drawing

This course will begin with basic skill development in contour drawing, shading, creating texture, basic composition and perspective. The drawing medium will include graphite, charcoal and ink. A short lecture/demonstration is followed by a related drawing assignment. *(Fee-Based)*

CRAE 325

Watercolor

This course is designed for beginning to intermediate watercolor. Lecture/demonstration is followed by guided lab session. Among the subjects covered will be materials, washes, glazes, color theory, etc. There are voluntary, supportive critiques at the end of each class. *(Fee-Based)*

CRAE 332

Tole Painting and Decorative Artwork Intermediate

The course offers students the opportunity to build on the basic skills learned in basic Tole and Decorative classes. The course includes the use of acrylic paint, discussion of strokes and techniques, and projects utilizing a variety of surfaces including tin, wood, porcelain and furniture. Some painting experience is necessary for this class. *(Fee-Based)*

CRAE 340

Silk Painting

This is a course to learn silk painting with the Serti technique where designs are outlined with gutta or resist on stretched white silk. *(Fee-Based)*

CRAE 345

Recycled Materials Become a Tote Bag

This course is designed to teach students basic sewing techniques and to create a reuseable tote bag all while learning about recycling and reusing materials in our everyday lives. Students will make a functional reuseable bag that can be used as a beach tote, grocery/shopping bag, and a diaper or book bag. *(Fee-Based)*

CRAE 350

Art Appreciation: Looking and Learning

This course takes students on an educational journey to the world of art and the artist. Students will learn about different periods of art, about the lives of the artists, and the world in which they lived that inspired their work. *(Fee-Based)*

Career Planning (CRPL)

CRPL 365

Work Experience

This course provides career technical education students with work experience in their program of study. It covers job readiness skills that will prepare students to be effective job seekers and workers. Students are introduced to the basics of resume writing, interviewing, workplace communication and job searching. 120 Hours of fieldwork required. *(Grant-Funded)*

CRPL 370

Job Readiness

This course covers basic job readiness skills that will prepare students to be effective job seekers and effective workers. Students will be introduced to the basics of resume writing, interviewing, workplace communications and job searching. Students will develop a personal skills inventory, create a resume, and prepare an employment portfolio *(Grant-Funded)*

Dance (DAN)

DAN 102

Ballroom/Latin/Swing Dance

Learn the most popular dances. Includes traditional contemporary dances: cha cha, waltz, foxtrot, tango, East Coast swing samba, rumba, and country western. Have fun and make new friends! A partner is not required. You must wear soft-soled shoes. Last class meeting arranged for night out dancing (nominal fee). *(Fee-Based)*

The Art of Belly Dancing

Exercise while exploring the dance and rhythms of the Near and Middle East through Belly Dancing. Learn arm, hand and body movements including belly rolls as well as techniques for finger cymbals and veil work. Class taught to accommodate beginners as well as those with experience. Bring finger cymbals or learn how to make them with bottle caps and 3 yards of flowing fabric approximately 45 inches wide for the veil session. *(Fee-Based)*

DAN 120

Hip Hop Dance

Learn new hip hop dance moves and fun, funky choreography! Stimulate your mind while learning choreography and strengthen your body with our fun stretches and exercises. *(Fee-Based)*

DAN 125

Irish Dance - Beginning

Ages 13-Adult

Learn Irish dance from an instructor who has taught adults for 15 years! Students will learn the beginner steps of the Reel and Jig and a social dance. Class will be fun, informative, and a place to meet new friends. Also, a great way to prepare for St. Patrick's Day! Music CD required. *(Fee-Based)*

DAN 130

Waltz, Cha Cha & Tango Dance

Learn the basics and have fun with American style dancing. A partner is not required. *(Fee-Based)*

DAN 135

Ballroom Dancing - Rhythm & Latin Style: Cha Cha, Swing, Rumba, Mambo, Samba

Learn the basic steps and variations of these rhythm and latin style dances. Join the class for a fun evening of dancing. *(Fee-Based)*

DAN 140

Latin Cardio Blast

Come dance to a variety of latin beats while learning the basic steps of salsa, merengue, samba and more. Have fun while burning calories. This is a cardio blast workout, so bring a towel and water. *(Fee-Based)*

DAN 145

Ballroom Dancing: Smooth Style: Fox Trot, Waltz, Tango

Learn the basic steps and variations of these smooth, elegant ballroom dances. Join the class for a fun evening of dancing. *(Fee-Based)*

DAN 150

Bellydancing Techniques for Performance

Learn everything necessary to perform a short belly dancing routine in 6 weeks. Good for parties or events and anyone interested in learning the proper technique and execution of this dance quickly. Learn finger cymbals and veil techniques as well. *(Fee-Based)*

DAN 160

Afro-Latin Dance Workout

In this low impact aerobics class, students will learn basic African and Caribbean dance moves to the beat of percussion music. *(Fee-Based)*

DAN 165

Belly Dance Workout

Students will experience the mystery and beauty of the dances of the Middle East including Belly dance, Dabke and fusion forms designed in an exercise/workout format. *(Fee-Based)*

DAN 170

Salsa Boot Camp

Students will learn eight count Salsa basics and how to lead and follow in this intensive class. Learn this popular dance, have fun and exercise. *(Fee-Based)*

DAN 175

Argentine Tango

Students will learn basic steps, coordination, and partnering skills, along with styling and more intricate footwork. Once you experience this dance form, you will want to continue your Tango journey forever! *(Fee-Based)*

DAN 177

Argentine Tango Workshop

Learn and practice the fabulous style of Tango from Argentina that continues to gain popularity. Get yourself prepared to attend a Milonga/dance and enjoy the energy. American and International derived from this beautiful Tango. Learn Caminadas, Ochos, Ganchos and more. *(Fee-Based)*

DAN 180

East Coast Swing Dance

Students will learn various Swing dance styles such as: Jitterbug, East Coast Triple Step, Charleston, Lindy, and Balboa. The course will focus on learning the steps, body mechanics, and partnering skills to get you Swingin' with style! *(Fee-Based)*

DAN 185

Latin Social Dance

Classes will cover Merengue. By the end of these six weeks, you will have developed lots of partnering and styling skills, and you'll know what to do when you hear some fabulous Latin music! *(Fee-Based)*

DAN 190

West Coast Swing Boot Camp

Students will learn six and eight count basics and how to lead and follow in this intensive class. Learn this popular smooth style swing, have fun and exercise. *(Fee-Based)*

DAN 195

Tap Dance for Adults

Students will learn the unique American dance form of Tap. This is a beginner level tap dance class that introduces students to basic tap steps and vocabulary during rhythmic exercises. Emphasis is placed on footwork and rhythmic movement during floor choreography and short routines. Tap shoes required. *(Fee-Based)*

Digital Arts (DIG)

DIG 100

Adobe After Effects

Students will get an overview of the features, techniques and effects used in Adobe After Effects. This is a most powerful editing and composition video production and effects tool, used by professionals every day, for television, video and film. *(Fee-Based)*

DIG 101

Adobe Premiere Pro

Prerequisite: Computer Literacy. Edit in real-time and enjoy an elegant interface. Create productions that stand-out using new professional tools such as color correction, multiple nestable timelines, keyframable effects and much more. Work with your tools of choice thanks to tight integration with leading video hardware and software. Bring DVD/Flash Drive. PC lab only. *(Fee-Based)*

DIG 102

Adobe Photoshop - Beginning

Adobe Photoshop is the world's leading image editing software, and the tool of choice for computer graphic artists and web designers. Learn the basics of digital imagining, and how to use Photoshop's common tools, palettes, and commands for manipulating images and compressing them for the fastest downloads. Exercises include color corrections, image retouching, photo montaging and other uses. Discover how to alter photographs, create digital collages, and scan images. Need to know basic computer and typing skills. *(Fee-Based)*

DIG 103

Adobe Illustrator - Beginning

Advisory: COMP 100 Introduction to Computers and MS 160 MS Office - Overview The Adobe Illustrator beginning course covers the basic concepts and techniques of computer graphics. The principles of art and design are taught in a studio setting emphasizing hands-on experience. Students create original illustrations using vector-based graphics software. *(Fee-Based)*

DIG 104

Illustrator - Advanced

Prerequisite: Beginning Illustrator or equivalent experience. Review the basics of Illustrator and then go on to create elaborate graphics for web pages, commercial design and desktop publishing. Learn the essentials of pre-press printing technique (color separation and trapping), professional page layout tips, fundamental digital color theory and design concepts. Illustrator is a graphic artist's essential tool along with Adobe Photoshop. Bring Flash Drive. *(Fee-Based)*

DIG 105

Adobe Dreamweaver - Beginning

Prerequisite: Knowledge of internet, operating system navigation, basic computer skills, opening/saving documents. Learn the principles of web design and how to edit HTML documents. Integrate web graphics find resources on the Web and survey advanced techniques related to E-commerce websites. Create your own site and demo your work in last class. Bring Flash Drive. PC lab only. Textbook Required. *(Fee-Based)*

DIG 106

Adobe Flash Pro - Beginning

Prerequisite: Knowledge of internet, operating system navigation, basic computer skills, opening/saving documents. Students will learn how to use Flash to do web animations, interactivity and will build complete websites using only Flash. Learn basic animation, key frames, tweening, movie clips, basic action script, preparing images for web/multimedia and more! Bring Flash Drive. PC lab only. Textbook required. *(Fee-Based)*

DIG 109

Photoshop - Introduction

Students will learn how to use Photoshop to do a variety of image correction, coloring, compositing, and special effects techniques for print, web and multimedia. Questions regarding visual aesthetics and design, importing digital files and output will be discussed. Students will have the opportunity to produce finished projects according to their needs and aspirations. *(Fee-Based)*

DIG 111

Adobe Photoshop - Intermediate

Prerequisite: Beginning Photoshop or equivalent experience. Explore more professional features: working with complex masks, filters and advanced layers, professional photo editing and restoration, 3D-like rendering with gradients, and much more. Learn fundamental digital color schemes and design concepts. Bring Flash Drive. Textbook required. PC lab only. *(Fee-Based)*

DIG 112

Website Design HTML 5

Prerequisite: Knowledge of Internet, operating system navigation, basic computer skills, opening/saving documents. Learn the basic principles of web page construction; edit and format HTML documents. Make hyperlinks to other pages, make tables, build forms, embed and optimize images. Learn about JPG, GIF formats, create frames; learn to use Java and JavaScript, review professional web-authoring tools like Dreamweaver and Fireworks. Bring Flash Drive. PC lab only. Textbook Required. *(Fee-Based)*

DIG 113

Adobe After Effects - Intro

Advisory: Adobe Premiere or editing experience and Familiar with Photoshop. Express your creative ideas using After Effects CS5. Employ innovative 2D, 3D, text, and vector graphic compositing and animation tools; choose from an extensive selection of effects; and add high-quality audio. Explore a large library of creative building blocks to get you started, and take advantage of command line automation and scripting for advanced applications. Combine layers into new, visually rich alternate realities. Mask, key, motion track, color correct, paint, and perform a variety of visual effects magic with powerful, efficient, and precise tools. *(Fee-Based)*

DIG 114

Adobe After Effects

Prerequisite: Adobe Photoshop and Premiere Pro. Learn the Adobe After Effects work area; integrating video and graphic motion, creative mattes, animation, filtering, and multimedia animation. Bring DVD/Flash Drive. PC lab only. *(Fee-Based)*

DIG 115

After Effects - Advanced

Learn advanced graphics motion and modification. Advanced key frame techniques and special effects. Students will have a choice of either a PC or MAC computer system as available. Prerequisite: Intro to After Effects. *(Fee-Based)*

DIG 116

Apple Final Cut Pro

Prerequisite: Knowledge of MAC OS X.2; familiar with graphics and editing. Learn basic and advanced editing techniques. Work with clips in the viewer: trimming, adjusting and controlling numerous characteristics in video, audio, filters and motion settings. Use various methods of sequencing your videos in the Canvas/Timeline with "drag and drop" and automatic methods such as insert, overwrite, replace, fit to fill, and superimpose. Become familiar with key framing for effects, applying transitions for creative moments. Learn how to capture/create, edit and place still images and audio files. *(Fee-Based)*

DIG 135

Adobe Flash Pro - Intermediate

Prerequisite: Adobe Flash Pro (Beginning). Students must have a complete understanding of Flash basics: tweening, motion paths, the library, movie clips and basic action script. Learn to use Flash for complex web animations, special effects, and sophisticated interactivity. Learn intermediate action scripting which includes working with objects, classes, methods, properties, functions and event handlers. Controlling multiple timelines, sound effects and text will be taught as well as adding dynamic interactivity to the movie and clip. Bring Flash Drive. PC lab only. Textbook required. *(Fee-Based)*

DIG 151

Adobe Indesign

Beginning

Advisory: Computer Literacy. This course combines basic desktop publishing skills with the specifics of how to use Adobe InDesign to create visual communications. You will learn page layout tools as you are introduced to the software interface. This course teaches the fundamentals, basic commands and procedures used to create professional documents. *(Fee-Based)*

DIG 162

Adobe Dreamweaver

Intermediate

Prerequisite: Beginning Dreamweaver. Students will build upon their beginning Dreamweaver and/or HTML skills to learn how to develop more interactive and sophisticated websites. Special emphasis will be placed on developing and linking to databases using Dreamweaver. Bring Flash Drive. PC lab only. Textbook Required. *(Fee-Based)*

DIG 164

SolidWorks for the Designer - Beginning

Prerequisite: Computer Literacy. Class will consist of hands-on exercises to develop 3D CAD design skills with state-of-the-art intuitive, parametric 3D CAD system. This course is designed for students with no prior knowledge of 2D or 3D CAD. The beginning course will focus on an introduction to SolidWorks and learning the basic tools to perform product design exercises for manufacturing. Bring Flash Drive. PC lab only. *(Fee-Based)*

DIG 165

SolidWorks for the Designer - Intermediate

Prerequisite: Beginning Solidworks. Class will consist of hands-on exercises to develop 3D CAD design skills with state-of-the-art intuitive, parametric 3D CAD system. This course is designed for students who have completed SolidWorks (Beginning). The intermediate course will focus on achieving a more in-depth understanding of SolidWorks by implementing more advanced operations. Bring Flash Drive. *(Fee-Based)*

DIG 166

Adobe Encore and Adobe Audition

Prerequisite: Computer literacy and knowledge of Photoshop and/or Premiere Pro. Learn to author DVDs and output your project to all recordable DVD formats with Adobe Encore file editing software and Adobe Audition software for mixing and editing audio. Use Adobe Photoshop to create and edit menus. Output your project to all recordable DVD formats. Bring DVD/Flash Drive. PC lab only. *(Fee-Based)*

DIG 167

Digital Camera Workshop

Learn how to use your digital camera. This is a one time only, 4 hour workshop to learn the basic operation of your digital camera and how to transfer your digital images to your computer. Bring camera, cable, memory card and instructions. *(Fee-Based)*

DIG 168

Scanner Workshop

Learn how to use a scanner. This is a one time only, 4 hour workshop to learn how to use a scanner to copy photos, slides, negatives or drawings and store them on your computer. Bring material to copy including old photos and small 3-dimensional objects. *(Fee-Based)*

DIG 169

Photoshop for Web Workshop

Advisory: Any Website Design course or Photoshop course. For the more advanced Photoshop/WEB student. Learn how to manipulate photos for minimum download time with maximum resolution. This workshop consists of two, 4 hour classes over two consecutive Saturdays. *(Fee-Based)*

DIG 170

Computer Monitoring with Spector Pro for Home Or Office

Learn how to easily monitor your children's or employees' computer activities with the highly ranked sleuth software program Spector Pro 5.0 by Spectorsoft. See what they are doing on MySpace, the internet or e-mail correspondence. The most impressive feature is the "Play" function. It allows you to perform a fast slide show of the previous activities on their computer. Keystrokes are also recorded so you can learn their passwords. This is a 3 hour workshop held in our state of the art computer lab at our Anaheim Campus. *(Fee-Based)*

DIG 175

Silk - Illustrator

Prior experience with Illustrator required. Intermediate to advanced techniques of Illustration using the pen tool, clipping masks, gradients, blends, and gradient meshes to create watercolor and silk painting effects. Printing to various medias, including silk will be explored. *(Fee-Based)*

DIG 180

Mobile Device Game Development

An introduction of game theory and game design as it pertains to websites and mobile devices. The class will focus on action script 3 programming language with emphasis on user interaction. Course includes hands-on exercises for art asset generation, game play mechanics and audio. Textbook required. *(Fee-Based)*

DIG 185

Website Development Workflow - Methods and Techniques

An introduction to modern workflow methods and techniques used in professional content creation pipelines. The class will focus on integrating multi format assets such as video, audio, vector, 3D and image sequences into a production pipeline. Overview of content management tools, and meta data tracking with an emphasis on reusable/flexible asset generation. *(Fee-Based)*

DIG 190

Print on Fabric

Printing on fabric with a basic color printer and scanner using Photoshop and Illustrator texture filters to create watercolor and silk painting effects will be explored and demonstrated. Students will print from their own drawings or photos on to various media such as silk and cotton to create a scarf or quilt block. *(Fee-Based)*

DIG 195

Flash Intermediate Workshop

If you already know how to animate in Flash but want to take it to the next level this workshop is for you. We will cover intermediate to advanced tools and techniques in CS4. What makes the difference between amateurish Flash sites and professional level Flash come and find out. *(Fee-Based)*

DIG 200

Photoshop Workshop

An in-depth journey into professional Photoshop techniques and workflows with an emphasis on creative techniques. *(Fee-Based)*

DIG 210

Adobe Lightroom

Advisory: Knowledge of windows operating systems and experience with digital cameras and Photoshop. Adobe Photoshop Lightroom helps bring out the best in your photographs, whether you're perfecting one image, searching for ten, processing hundreds, or organizing thousands. Create images, edit with state-of-the-art nondestructive editing tools. Manage all your images. Showcase your work in elegant print layouts, slide shows, and web galleries. *(Fee-Based)*

DIG 215

Adobe Illustrator (Intermediate)

Advisory: Current working knowledge of beginning Adobe Illustrator or have used Adobe Illustrator in the past. Use pen tool. This course explores more advanced vector artwork; font manipulation; isometrics; shadows and shading; and other 3-dimensional effects. *(Fee-Based)*

DIG 220

Adobe Dreamweaver with PHP and MySQL

Beginning

Advisory: Basic computer class and keyboarding class or equivalent. Adobe Dreamweaver CS6 is an application for web designers and developers used to create websites and applications for use across multiple targets including browsers, devices, and tablets. In this students will create a development environment for building PHP web applications with Adobe Dreamweaver and a MySQL database server. *(Fee-Based)*

DIG 225

Introduction to Animation

Adobe Edge

Advisory: Basic computer, Internet, and computer graphics skills or equivalent. This course introduces graphic animation tools that use web standards for incorporating smooth animations and interactivity into projects. The generated content can be displayed across multiple platforms such as mobile phones, tablets and desktops computers and browsers without the need for additional plugins. You will learn to create motion content in the application's timeline-based interface. This course also covers importing and keyframing web graphics and adding interactivity to projects. *(Fee-Based)*

DIG 230

PHP and MySQL, Introduction

Advisory: Basic computer and keyboarding skills and basic HTML and CSS knowledge. MySQL (TM) and PHP are two of the most popular open source technologies to emerge during the past decade. PHP is a powerful language for writing server-side Web applications. MySQL is the world's most popular open source database. Together, these two technologies provide you with a powerful platform for building database-driven Web applications. This hands-on MySQL and PHP course teaches everything you need to successfully build data-driven Web sites using MySQL and PHP. *(Fee-Based)*

DIG 232

PHP and MySQL, Intermediate

Advisory: HTML 5 and CSS and DIG 230 - PHP and MySQL, Introduction. This intermediate hands-on MySQL and PHP course teaches everything you need to successfully build data-driven Web sites using MySQL and PHP. Should know HTML and CSS. *(Fee-Based)*

DIG 240

JavaScript Programming, Introduction

Advisory: Basic computer skills and knowledge of HTML and CSS fundamentals. This course explores the fundamentals of JavaScript programming, one of the leading web development languages. Learn how to incorporate JavaScript code into HTML documents to produce stunning interactive Web pages. Students will be introduced to basic computer programming concepts including variables, operators, arrays, conditional statements, loops and functions. Hands-on exercises are performed each day to demonstrate key concepts and make web development with JavaScript fun and exciting. Bring USB Flash Drive. *(Fee-Based)*

DIG 242

JavaScript Program, Intermediate

Advisory: JavaScript Programming basics, HTML and CSS fundamentals. This course is designed for students who have a solid foundation in the basics of using and writing JavaScript (either through completion of the Intro to JavaScript course or with instructor approval). This course is an intermediate level JavaScript course, which focuses on JavaScript's object-based features, and creating practical JavaScript applications. *(Fee-Based)*

DIG 245

Introduction to Programming

Designed for non-computer science students interested in programming, or developing useful problem solving skills. This course explores the relationship between programming and problem solving using programming languages. Programming using scripting languages such as JavaScript and PHP, and a compiled, object-oriented language such as Java will be introduced. No prior programming experience is assumed. *(Fee-Based)*

DIG 255

WordPress, Beginning

This course is designed for anyone looking to learn how to use the WordPress platform for either personal or business website use. The course covers the basics on how to use the WordPress platform including installation, content management, and configuration. The course also covers WordPress themes, plugins, and settings. Prior web publishing experience not required. Familiarity with web browsers and email is highly recommended. *(Fee-Based)*

Disabled Support Services (DSS)

DSPS 106

Braille Transcribing

This course is designed to familiarize the student with the Braille system and its usage. Students will be expected to learn to read, write and proofread Braille and submit a manuscript to the Library of Congress for certification in Braille Transcription. *(Apportionment)*

DSPS 111

Exploratory Arts for Visually Impaired

A course designed for students with visual impairments, which provides experience using various art media. *(Apportionment)*

DSPS 114

Relationships and Sexuality Training

A class geared for students with developmental or learning disabilities that is designed to provide a comprehensive and meaningful overview. The course strives to build healthy, safe sexual attitudes, behaviors, and relationships consistent with personal values. *(Apportionment)*

DSPS 115

Music for Communication for Students with Disabilities

This course is designed for students with developmental or learning disabilities to teach verbal and nonverbal language skills and increase one's attention span and decision-making skills with the use of music. *(Apportionment)*

DSPS 116

Nutrition & Exercise

Geared for students with developmental or learning disabilities that is designed to teach the benefits of healthy eating and proper exercise. *(Apportionment)*

DSPS 119

Kinesthetic PE For Visually Impaired

A class designed for students with visual impairments to improve body awareness, stamina, cardiovascular fitness and muscle tone. Instruction will be characterized by specialized techniques relying on tactile input to the students. *(Apportionment)*

DSPS 120

Career Preparation and Life Management

A course designed for students with developmental or learning disabilities to prepare for employment and independent living. *(Apportionment)*

DSPS 121

Computer-Assisted Instructional Lab

Designed for students with disabilities to provide instruction in computer operation, word processing and the use of adaptive computer equipment. *(Apportionment)*

DSPS 122

Adaptive PE Weight Training

Increases physical endurance, stresses body condition/muscle development. Prerequisite: entry into this class based on physician's release. *(Fee-Based)*

DSPS 124

Independent Living Skills

A comprehensive program for adults with developmental disabilities to improve the social, academic, personal, prevocational and avocational capabilities. *(Apportionment)*

DSPS 125

Daily Living Skills for Students with Disabilities

A class geared for students with disabilities that is designed to enhance their ability to live more independently. *(Apportionment)*

DSPS 126

Basic Reading for the Disabled

Designed to enhance reading skills by providing a strong foundation to increase vocabulary and reading comprehension. *(Apportionment)*

DSPS 128

Improving Individual Skills for Student with Disabilities

Geared for students with developmental, psychiatric or learning disabilities, designed to improve academic and personal skills through social interactions, healthy living, and academic success. *(Apportionment)*

DSPS 129

Community Resources

A class geared for students with developmental or learning disabilities designed to teach skills necessary to independently take part in typical community activities by traveling to various locations in the area. Lessons learned in the classroom will be practiced in the community. *(Apportionment)*

DSPS 130

Bill Paying and Banking

This class is designed for adults with developmental disabilities and learning disabilities who want to learn how to maintain a checking account. This is an introductory class that teaches banking vocabulary and step by step on how to open and manage a checking account. Students will be required to use the Quicken software program for balancing their checking account. *(Apportionment)*

DSPS 131

Basic Cooking

Designed for students with developmental or learning disabilities to have them acquire skill in safely preparing and storing foods for independent living. Also includes nutrition, appropriate manners and kitchen organization. *(Apportionment)*

DSPS 132

Communication Skills

A course geared for students with developmental or learning disabilities to provide instruction on the different forms of effective communication including body language, gestures, and non-verbal cues. Students actively participate in role playing real-life situations, discussing current events, and practicing listening exercise to improve their communication skills. *(Apportionment)*

DSPS 133

Self-Advocacy

Instruction designed for students with developmental or learning disabilities to enhance advocating for self in everyday life situations. *(Apportionment)*

DSPS 134

Banking for Apartment Living

A class designed for students with developmental or learning disabilities who want to learn how to budget their money, pay bills, make purchases, grocery shop, rent an apartment, and interview roommates. The class simulates living in an apartment and the responsibilities of being independent. Students must have prior banking experience in writing checks, making deposits, and ATM transactions. Students will be required to use the Quicken software program for balancing their checking account. *(Apportionment)*

DSPS 135

Beginning Money for Students with Disabilities

A course designed for students with developmental or learning disabilities to learn the skills necessary for performing accurate money exchanges. Students will learn money counting skills, and consumer skills in the market place. *(Apportionment)*

DSPS 136

Living More Independently

A class geared for students with developmental or learning disabilities that is designed to provide a comprehensive and meaningful overview of a variety of options for living more independently (i.e. group home, own apartment), how to achieve those options, and what is needed to be successful in your choice. *(Apportionment)*

DSPS 137

Job Skills

Designed for students with developmental or learning disabilities to help recognize and achieve potential as independent members of the community. Lecture, lab, and field experience are combined to provide the student with a comprehensive and meaningful educational experience. *(Apportionment)*

DSPS 138

Communication on the Job

A class designed for students with developmental or learning disabilities who want to learn how to improve their communication skills in relationship to employment. Course will include activities to enhance written and verbal skills. *(Apportionment)*

DSPS 139

Orientation to DSPS

A course designed to inform adults with disabilities about the programs and services offered through SCE/DSPS. *(Orientation)*

DSPS 140

Social Skills

This course is designed to give students with developmental and learning disabilities an overview of appropriate social skills at school, work, and in the community. Through examples in their own lives as well as instructional materials various areas social skills challenges will be explored, any necessary coping strategies taught. *(Apportionment)*

DSPS 150

Critical Thinking

Designed to assist adults with disabilities in acquiring or improving critical thinking skills necessary to function independently in a variety of activities, situations, and environments. Emphasis on problem solving and decision making through understanding and evaluating situations, utilizing knowledge of cause and effect relationships, exploring options, and planning and implementing strategies. *(Apportionment)*

DSPS 155

Mobility Skills

A class designed for students with disabilities to enhance independence by introducing safe practices and knowledge for using public transportation. *(Apportionment)*

DSPS 160

Adaptive PE Activity

This course is designed for the disabled student. The class modified individual and team sport activities. *(Fee-Based)*

DSPS 165

Wheelchair Basketball

Weekly practice or a minimum of four hours per week is required. The most qualified student athletes will be selected to represent the college during the season. *(Fee-Based)*

DSPS 170

Wheelchair Athletics

This course includes instruction and participation in the fundamentals of the spectrum of wheelchair athletics. *(Fee-Based)*

DSPS 175

Personal Safety

This course is designed to introduce students with developmental disabilities to personal safety awareness. Students with disabilities will be presented with proactive steps to take to avoid dangerous situations in the community and at home. Students with disabilities will also be presented with basic techniques for self defense and first aid. *(Apportionment)*

DSPS 180

Beginning Banking

This class is for students with disabilities who want to learn how to spell money amounts, fill out a check, make a deposit, record checks and deposits in a check register, and record ATM transactions in a register. This class would be beneficial for students who want to learn the basics of banking, who need practice with the basics of banking, or who are new and would like to take the Banking for Apartment Living class. *(Apportionment)*

DSPS 185

Social Opportunities for Students with Disabilities

Geared for students with disabilities to learn how to create a social life for themselves by discussing how to meet people and making friends, identifying low cost activities, learning age appropriate games to play with guest, practicing social manners, and planning a social event and carrying it out. *(Apportionment)*

DSPS 190

Beginning Computers / Open Lab for Adults with Disabilities

This course is designed to provide students who have developmental disabilities with the knowledge to develop or maintain skills in basic computer applications such as, but not limited to: Windows, word processing, data entry, Internet navigation, keyboarding, and remedial academic software. *(Apportionment)*

DSPS 195

Have Internet; Will Travel

This course is designed to provide students who have developmental disabilities with the knowledge to develop the skills needed for travel planning while building computer and researching skills by use of the Internet. Students will plan 3 trips: a day trip, a weekend get-away, and a week vacation. *(Apportionment)*

DSPS 200

Rules of the Road

This course is designed to provide students who have developmental disabilities with the knowledge to increase awareness as a pedestrian/bicyclist or future licensed driver about the laws and rules of the road. *(Apportionment)*

DSPS 205

Money Skills for Students with Disabilities

This course is designed for students with developmental learning disabilities to learn the skills necessary for performing accurate money exchanges. Students will learn to count money, and to solve real life shopping problems using money. *(Apportionment)*

DSPS 210

Photoshop for Students with Disabilities

Through class and individual instruction students with developmental or learning disabilities will acquire basic knowledge and skills in digital photography and manipulation of photographs utilizing the Adobe Photoshop Elements program. Students will also develop their creativity through personalized PhotoShop projects. *(Apportionment)*

DSPS 215

Get in Shape: Healthy Eating and Exercise

Students with disabilities will learn the benefits of healthy eating and proper exercise. Students will prepare four healthy snacks and participate in exercise activities. Students should consult with a physician before starting an exercise program. *(Apportionment)*

DSPS 220

Summer Cooking

This course is designed to provide students that have developmental disabilities with the knowledge and skills needed to cook simple, nutritious meals. We will plan our meal, walk to the grocery store, shop for food, prepare the meal together, and clean up. *(Apportionment)*

DSPS 225

Actor's Workshop

This course is designed to expose students with disabilities to basic acting techniques. Additionally, the acting, focused on everyday social dilemmas, will enhance the student's ability to interpret and then deal with these everyday life situations on a regular basis. *(Apportionment)*

DSPS 235

Improving Daily Living Skills for Students with Disabilities

A quick paced course designed to provide students with disabilities with basic banking skills including writing checks and depositing paychecks. *(Apportionment)*

DSPS 245

Exercise for the Disabled Student

Geared for students with developmental or learning disabilities that is designed to lead students in a variety of exercises to improve mobility, increase blood circulation, flexibility, and coordination and boost one's energy levels. *(Apportionment)*

DSPS 250

Healthy Living with Exercise for Students with Disabilities

Geared for students with developmental or learning disabilities that is designed to teach nutrition, healthy eating habits while reinforcing proper exercise. *(Apportionment)*

DSPS 255

Movement Through Music for Students with Disabilities

Geared for students with developmental or learning disabilities that is designed to get them moving according to their own individual abilities, while encouraging through music and stress management exercises. *(Apportionment)*

DSPS 260

Introduction to Checking Accounts

A quick paced course designed to provide students with disabilities with basic banking skills including writing checks and depositing paychecks. *(Apportionment)*

DSPS 265

Exploring Your Occupational Path

This course is intended to assist adults with disabilities in establishing a clear and realistic occupational goal. Students will assess their interests and abilities in order to establish attainable objectives to achieve their goal. Student's will also explore resources for seeking employment in their chosen occupational field. *(Apportionment)*

DSPS 270

Work Attitudes and Employer Expectations

This course is intended to prepare students for successful employment by introducing them to appropriate on-the-job behavior, communication, attitude and work ethic. Students will also be introduced to the importance of workplace safety and customer service. *(Apportionment)*

DSPS 275

Paying Bills

A quick paced course designed to provide students with disabilities with basic money management skills including use of an ATM and bill paying. *(Apportionment)*

DSPS 280

Landing a Job

This course is designed to introduce students with disabilities to filling-out and submitting both written and online job applications. This course will also introduce students to effective job interview preparation, technique and attire. *(Apportionment)*

DSPS 285

Budgeting for Apartment Living

A quick paced course designed to provide money-management skills for employed students with developmental or learning disabilities living in their own apartment. *(Apportionment)*

DSPS 290

Computer Assisted Instruction Lab-Beginning Level

Designed for individuals with developmental or learning disabilities, this course teaches basic computer skills including use of a keyboard and word processing. *(Apportionment)*

DSPS 295

Computer Assisted Instruction Lab - Intermediate Level

Designed for individuals with developmental or learning disabilities, this course provides training in word processing, use of the Internet and operation of e-mail accounts. *(Apportionment)*

DSPS 300

Computer Assisted Instruction Lab - Open Lab

This course is designed around the individual needs and goals of students with disabilities. Among the disciplines available for study are assistive technology, word processing, remedial academics and desktop publishing. *(Apportionment)*

DSPS 305

Fitness & Nutrition for Students with Disabilities

Geared for students with developmental or learning disabilities that is designed to teach the benefits of healthy eating and proper exercise. *(Apportionment)*

DSPS 310

Mobility Training for Students with Disabilities

The mobility training class is designed for adult students with developmental disabilities. In a small group the student learns all the skills necessary to use the OCTA public transportation services. This class stresses self reliance and basic skill building. *(Grant-Funded)*

DSPS 315

Relationships for Students with Disabilities

This is a class for students with developmental disabilities or learning disabilities that is designed to provide them with a meaningful overview of adult relationships, primarily friendships and romantic/intimate relationships. Students will learn basic information and skills in order to build healthy and safe relationships. *(Apportionment)*

DSPS 320

Human Sexuality for Students with Disabilities

This is a class for students with developmental disabilities or learning disabilities that is designed to provide them with a comprehensive and meaningful overview of human sexuality. Students will learn current appropriate information in order to build healthy, safe sexual attitudes, behaviors, and relationships consistent with personal values. *(Apportionment)*

DSPS 325

Workplace Skills Training for Student with Disabilities

Workplace Skills Training is a lecture and lab course designed to provide students with developmental disabilities with hands-on training in basic janitorial tasks that may be expected of them in an entry-level position. Lecture topics include work safety and on-the-job behavior and attitude. *(Apportionment)*

DSPS 327

Workplace Safety and Janitorial Skills for Students with Disabilities

This course will provide students who have disabilities with hands-on training in basic cleaning tasks that may be expected of them in an entry-level job. Topics include appropriate dress, hygiene, on-the-job safety and safety equipment related to janitorial tasks. *(Apportionment)*

DSPS 329

Workplace Training: Exceptional Employee for Students with Disabilities

This is a lecture and lab course designed to provide students who have disabilities with hands-on training in basic janitorial tasks that may be expected of them in entry-level employment. Lecture topics include on-the-job behavior and attitude for potential pay raise and/or promotion. *(Apportionment)*

DSPS 330

Options for Independent Living for Students with Disabilities

This course is an overview of living options for students with disabilities who are considering living independent of their family homes. The advantages and disadvantages of various living options will be presented. Students will also explore the process of choosing and renting an apartment. *(Apportionment)*

DSPS 332

Living More Independently: Apartment Living

Students with disabilities will explore moving into their first apartment and responsibilities of maintaining a home. Topics will include identifying needed furnishings and supplies, basic house cleaning, and safe use and storage of cleaning products. Students will also be required to practice house cleaning tasks. *(Apportionment)*

DSPS 334

Living More Independently: Health, Safety and Living With Your Roommate

Students with disabilities will learn about choosing and living with a roommate. Students will be presented with strategies for cooperative living and problem solving. Students will also learn about health and safety in the home. *(Apportionment)*

DSPS 335

Balance and Mobility Skills for Students with Visual Impairments

This course is designed to provide students who are legally blind with the techniques needed to improve balance, strategies needed to reduce falls and skills needed to safely get up after a fall. Students will use sensory cues to identify environmental risks, learn exercises that increase strength and balance, and create a personal fall-prevention plan. *(Apportionment)*

DSPS 340

Music for Communication: Social Skills for Students with Disabilities

This course uses music to enhance communication skills and cultural awareness for students with intellectual and developmental disabilities. *(Apportionment)*

DSPS 345

Community Volunteering for Vocational Skills Enhancement

Students with developmental disabilities participate in weekly field trips. Trips will include resources in the community that can provide opportunities for volunteer service. Curriculum includes instruction for use of public transportation to get to and return from field trip destinations. *(Apportionment)*

DSPS 350

Job Skills Field Work for Students with Disabilities

Students with developmental or learning disabilities participate in weekly field trips to destinations that provide them with first hand observation of workplaces and/or introduce them to agencies that can assist them in attaining and maintaining employment. Curriculum also includes instruction in the use of public transportation. *(Apportionment)*

DSPS 355

Accessing the Community Through Mobility Skills for Students with Disabilities

A class designed for students with disabilities to enhance independence by introducing knowledge and safe practices for using public transportation. The course will include route preparation, and will help students learn to travel in the community to access services, community resources, vocational agencies, work sites, and student homes or apartments. *(Grant-Funded)*

DSPS 360

Making a Plan for Self-Advocacy

Students will examine personal strengths and skills as well as areas that need improvement in order to be successful in advocating for their chosen life or vocational goal. Students will also research resources pertaining to their goal in order to prepare a plan for advocating for their life or vocational goal. *(Apportionment)*

DSPS 362

Advocating for Life and Vocational Goals

This course provides students with disabilities with knowledge, skills and resources to make decisions and communicate needs for determining their own life and vocational path. Students will learn about disabilities and adaptive skills to mitigate personal disabilities. Students will learn and practice effective communication techniques. *(Apportionment)*

DSPS 364

Interacting with Authority and Emergency Personnel

This course will prepare students with disabilities for interaction with police and emergency personnel. Topics include an overview of the criminal justice system, rights of individuals if taken into custody and reporting victimization. This course also prepares students for interaction with fire, medical, and emergency medical personnel. *(Apportionment)*

DSPS 370

ILS: US Civics

This class is designed for adults with developmental disabilities and learning disabilities who want to become better citizens by gaining knowledge about the civics of the United States of America. *(Apportionment)*

DSPS 372

ILS: US Geography

This class is designed for adults with developmental disabilities and learning disabilities who want to learn United States geography. Students will learn about states, state capitals, and major United States landmarks. *(Apportionment)*

DSPS 374

ILS: US National Symbols and History

This class is designed for adults with developmental disabilities and learning disabilities who want to become better American citizens by gaining knowledge of American national monuments, American heroes, and national patriotic symbols. *(Apportionment)*

DSPS 380

Survival Vocabulary and Basic Reading and Writing

This course is the first in a series of three courses designed for adults with disabilities to learn survival vocabulary and basic reading and writing skills. *(Apportionment)*

DSPS 382

Basic Reading Comprehension & Writing for Students with Disabilities

This course is the second in a series of three courses designed for adult students with disabilities to increase their reading comprehension and writing skills. *(Apportionment)*

DSPS 384

Using Reading in Real Life Situations

This course is the third in a series of three courses designed for adult students with disabilities to increase their reading comprehension and writing skills found in real life situations. *(Apportionment)*

DSPS 390

Daily Living Skills: Reading Skills in the Kitchen for Students with Disabilities

This is an introductory cooking course for students with intellectual and developmental disabilities to practice reading and vocabulary in the kitchen so they can prepare a simple and nutritious meal. *(Apportionment)*

DSPS 392

Daily Living Skills: Basic Math with Money

This is an introductory course for students with intellectual and developmental disabilities to practice money skills to learn money exchanging concepts. *(Apportionment)*

DSPS 394

Daily Living Skills: Basic Math with Time

This is an introductory course for students with intellectual and developmental disabilities to practice math skills to learn time concepts. *(Apportionment)*

DSPS 396

Daily Living Skills: Basic Math with Calendars

This is an introductory course for students with intellectual and developmental disabilities to practice math skills to learn calendar concepts. *(Apportionment)*

DSPS 400

Applied Academics: Communication Skills

This course is geared for students with developmental, psychiatric or learning disabilities, designed to improve reading, writing and speaking skills. *(Apportionment)*

DSPS 402

Applied Academics: Math Skills for Everyday Living

This course is designed to improve everyday math skills for students with developmental, psychiatric or learning disabilities. *(Apportionment)*

DSPS 404

Applied Academics: Reading and Writing for Employment

This course is designed to improve reading and writing skills as they relate to employment for students with developmental, psychiatric or learning disabilities. *(Apportionment)*

DSPS 410

Introduction to Computers

Designed for individuals with disabilities, this course provides a basic introduction to computers. *(Apportionment)*

DSPS 412

Introduction to Basic Word Processing

Designed for individuals with disabilities, this course teaches the basic introduction to word processing. *(Apportionment)*

DSPS 414

Introduction to Basic Word Processing Editing for Students with Disabilities

Designed for individuals with disabilities, this course teaches basic word processing editing. *(Apportionment)*

DSPS 420

Intermediate Word Processing

Designed for individuals with disabilities wanting to increase their basic knowledge of word processing *(Apportionment)*

DSPS 422

Intermediate Electronic Mail

Designed for individuals with disabilities, this course provides training in the use of the Internet and operation of e-mail accounts. *(Apportionment)*

DSPS 424

Intermediate PowerPoint Slide Presentation & Basic Formatting

Designed for individuals with disabilities, this course provides training in the use of PowerPoint slide presentation software and basic spreadsheet software. *(Apportionment)*

DSPS 430

Beginning Money for Students with Disabilities

A course designed for students with developmental or learning disabilities to learn the skills necessary for accurate money exchanges. Students will learn how to count money, give appropriate amounts of money for purchases, make change, and how to calculate a tip. *(Apportionment)*

DSPS 432

Smart Shopping and Saving Money in the Community

A course designed for students with developmental or learning disabilities to learn how to save money by shopping smartly. Students will learn how to use comparison techniques, unit pricing, coupons, and online deals to find the best bargain. *(Apportionment)*

DSPS 434

Safe Shopping and Safe Money Management

A course designed for students with developmental or learning disabilities to learn how to safely shop and manage their money. Students will learn to identify and avoid scams within the community. *(Apportionment)*

DSPS 440

Improving Individual Skills: Consumer Skills

This course is geared for students with developmental, psychiatric or learning disabilities, and designed to improve consumer skills. *(Apportionment)*

DSPS 442

Improving Individual Skills: Self-Determination Skills for Students with Disabilities

This course is designed to improve self-determination skills for students with developmental, psychiatric or learning disabilities. *(Apportionment)*

DSPS 444

Improving Skills: Functional Writing Skills

This course is designed to improve everyday writing skills of students with developmental, psychiatric or learning disabilities. *(Apportionment)*

DSPS 446

Improving Skills: Reading Comprehension Skills

This course is designed to improve reading comprehension skills of students with developmental, psychiatric or learning disabilities. *(Apportionment)*

DSPS 450

Basic Cooking: Beginning Skills

This course is designed to give students with disabilities a foundation of basic cooking and food preparation concepts and activities, kitchen cleanliness and safety, and grocery shopping skills, using a variety of basic skills. *(Apportionment)*

DSPS 452

Basic Cooking: Intermediate Skills for Students with Disabilities

This course is designed to give students with disabilities intermediate skills of cooking and food preparation concepts and activities, kitchen cleanliness and safety, and grocery shopping skills, using a variety of basic skills *(Apportionment)*

DSPS 454

Basic Cooking: More Advanced Skills for Students with Disabilities

This course is designed to give students with disabilities more advanced skills of cooking and food preparation concepts and activities, kitchen cleanliness and safety, nutrition, and grocery shopping skills, using a variety of basic skills. *(Apportionment)*

DSPS 460

Social Skills: Foundational Basics

This course is designed to give students with disabilities an overview of foundational basic social skills at home, school, work, and in the community, using a variety of basic skills. *(Apportionment)*

DSPS 462

Social Skills: Conflict Management and Resolution Basics

This course is designed to give students with disabilities an overview of conflict management and resolution skills at home, school, work, and in the community, using a variety of basic skills. *(Apportionment)*

DSPS 464

Social Skills: Additional Interpersonal Concepts

This course is designed to give students with disabilities an overview of additional social skills concepts at home, school, work, in the community, and in their personal life, using a variety of basic skills. *(Apportionment)*

DSPS 470

Relationships: Foundational Basics

This course is designed to give students with disabilities an overview of appropriate interactions with foundational relationships concepts, using a variety of basic skills. *(Apportionment)*

DSPS 472

Relationships: Building and Maintaining Healthy Relationships

This course is designed to give students with disabilities an overview of appropriate interactions for building and maintaining healthy friendships and romantic relationships, using a variety of basic skills. *(Apportionment)*

DSPS 474

Relationships: Relationships Review, Intimacy, and Sexuality Concepts

This course is designed to give students with disabilities a review of general relationships, intimate relationships, and an overview of sexuality concepts, using a variety of basic skills. *(Apportionment)*

DSPS 480

Human Sexuality: Human Development, Puberty, and Conception

This course is designed to give students with disabilities an overview of basic human sexuality concepts of boundaries, human development, and puberty in order to build safe, healthy sexual behaviors and attitudes, consistent with personal values, using a variety of basic skills. *(Apportionment)*

DSPS 482

Human Sexuality: Sexual Expression, Reproduction, and Birth Control

This course is designed to give students with disabilities an overview of the basic human sexuality concepts of sexual expression, reproduction, birth control, and sexual health, in order to build safe, healthy sexual behaviors and attitudes, consistent with personal values, using a variety of basic skills. *(Apportionment)*

DSPS 484

Human Sexuality: Children, Personal Safety, & Healthy Relationships

This course is designed to give students with disabilities an overview of the basic human sexuality concepts of having children, sexual abuse safety, and healthy relationships, in order to build safe, healthy sexual behaviors and attitudes, consistent with personal values, using a variety of basic skills. *(Apportionment)*

DSPS 490

Affectively Dealing With Work- Related Problems

A class designed for students with developmental or learning disabilities who want to learn how to improve their communication skills in relationship to employment. Course will include activities to enhance written and verbal skills. *(Apportionment)*

DSPS 492

First Impressions On The Job

A class designed for students with developmental or learning disabilities who want to learn how to improve their communication skills in relationship to employment. Course will focus on making good first impressions and will include activities to enhance written and verbal skills. *(Apportionment)*

DSPS 494

Interviewing & Professional Communication

A class designed for students with developmental or learning disabilities who want to learn how to improve their communication skills in relationship to employment. Course will focus on interviewing skills and will include activities to enhance written and verbal skills. *(Apportionment)*

DSPS 500

Keyboarding & Basic Word Processing

This course is the first in a series of three courses designed for adults with developmental disabilities. The course teaches keyboarding and basic word processing. The skills learned in the first course will carry over into the subsequent two courses. *(Apportionment)*

DSPS 502

Exploring the Internet and Email

This course is the second in a series of three courses designed for adults with developmental disabilities. The course teaches the student how to use email and how to do research on the Internet using common search engines. The skills learned in this course will carry over into the last course in this series. Students will use keyboarding and word processing skills learned in prior course. *(Apportionment)*

DSPS 504

Creating PowerPoint Presentations for Students with Disabilities

This course is the third in a series of three courses designed for adults with developmental disabilities. The course teaches the student how to create PowerPoint presentations. Students will use keyboarding, word processing, and internet research skills learned in prior courses. *(Apportionment)*

DSPS 514

Job Skills Fieldwork: Working in Food Service for Students with Disabilities

Students with disabilities participate in weekly field trips to destinations that provide them with first hand observation of workplaces in the food service industry. Curriculum includes instruction in the use of bus schedules to determine departure and arrival time for destinations. *(Apportionment)*

DSPS 516

Job Skills Field Work: Working in Childcare & Vocational Assistance for Students with Disabilities

Students with disabilities participate in field trips to childcare facilities, educational programs and vocational agencies that can assist them in attaining and maintaining employment. Curriculum includes instruction in using public transportation, using Internet resources for planning bus trips to field trip destinations and creating a written day schedule. *(Apportionment)*

DSPS 520

Relationships and Boundaries for Students with Disabilities

This course is designed to provide students with developmental disabilities with the knowledge and skills they need to have safe and healthy interpersonal relationships. Topics covered include personal boundaries, dealing with strangers, and appropriate types of relationships. *(Apportionment)*

DSPS 522

Interpersonal Relationships for Students with Disabilities

This course provides students with developmental disabilities with the knowledge and skills to have safe and healthy interpersonal relationships. Topics in the course include personal values, making choices, dating and sexual relationships. *(Apportionment)*

DSPS 524

Personal Development and Safety In Relationships for Students with Disabilities

This course is designed to provide students with developmental disabilities with the knowledge and skills they need to have safe and healthy interpersonal relationships. Topics covered include human development, sexual activity, birth control, and pregnancy. *(Apportionment)*

DSPS 530

College to Career Open Lab for Adults with Disabilities

This course is designed to provide students who have developmental or learning disabilities with the knowledge to develop vocational and educational skills. *(Grant-Funded)*

DSPS 531

Educational Support and Employment Prep Lab

This course is designed to provide students who have disabilities with the knowledge to develop vocational and educational skills. *(Apportionment)*

DSPS 533

Community Resources: Employment Options

Students will participate in weekly field trips to destinations that provide them with tours and first hand observation of appropriate workplaces for entry level employment. Curriculum includes instruction in the use of public transportation. *(Apportionment)*

DSPS 535

Photoshop: Digital Camera Operation for Students with Disabilities

Designed for individuals with developmental or learning disabilities wanting to increase their basic knowledge of operating a digital camera. *(Apportionment)*

DSPS 537

Photoshop Elements: Introduction for Students with Disabilities

Designed for individuals with developmental or learning disabilities wanting to increase their basic knowledge of Photoshop Elements. *(Apportionment)*

DSPS 539

Photoshop Elements: Layering and Special Effects

Designed for individuals with developmental or learning disabilities wanting to increase their basic knowledge of Photoshop Elements. *(Apportionment)*

DSPS 540

Exploring Career Options for Students with Disabilities

This course is intended to assist adults with disabilities in establishing a clear and realistic occupational goal. Students will assess their interests and abilities in order to establish attainable objectives to achieve their goal. Students will also explore resources for seeking employment in their chosen occupational field. *(Apportionment)*

DSPS 542

Workplace Attitudes and Standards for Students with Disabilities

This course is intended to prepare students with disabilities for successful employment by introducing them to appropriate on-the-job behavior, communication, attitude and work ethics. Students will also be introduced to the importance of workplace safety and customer service. *(Apportionment)*

DSPS 544

Getting a Job for Students with Disabilities

This course is designed to introduce students with disabilities to filling out and submitting both written and online job applications. This course will also introduce students to effective job interview preparation, technique and attire. *(Apportionment)*

DSPS 550

Independent Living Skills: Exploring Employment

This is the first of three sequential courses designed for adults with disabilities to succeed at a workplace. This course covers job-seeking skills. *(Apportionment)*

DSPS 552

Independent Living Skills: Pre-Vocational Skills Practice

This course is designed for adults with developmental disabilities and intellectual disabilities who want to learn basic vocational skills. Students will practice different vocational work skills in various settings. *(Apportionment)*

DSPS 554

Independent Living Skills: Social Skills on the Job

This course is designed for students with developmental disabilities and intellectually disabilities who want to learn how to be a good employee. Students will learn about traits that employees need to succeed in a job. *(Apportionment)*

DSPS 560

Independent Living Skills: Budgeting Skills

This class is designed to teach students with developmental and intellectual disabilities how to budget and save their money. *(Apportionment)*

DSPS 562

Independent Living Skills: Money Skills

This class is designed to teach adults with developmental and intellectual disabilities how to count money and pay bills safely and correctly. *(Apportionment)*

DSPS 564

Independent Living Skills: Consumer Skills

The class is designed to teach adults with developmental and intellectual disabilities to increase their skills and knowledge to be better consumers. *(Apportionment)*

DSPS 570

Independent Living Skills: Health Skills

This class is designed to teach adults with developmental and intellectual disabilities to improve their health and physical well-being. *(Apportionment)*

DSPS 572

Independent Living Skills: Safety Skills

This class is designed to teach adults with developmental and intellectual disabilities to improve their personal safety at home. *(Apportionment)*

DSPS 574

Independent Living Skills: Nutrition

This class is designed to teach adults with developmental and intellectual disabilities the benefits of achieving good health through nutrition, exercise, and lifestyle choices. *(Apportionment)*

DSPS 580

Independent Living Skills: Practical Living Skills

This class is designed to teach adults with developmental and intellectual disabilities how to apply practical living skills in order to live more independently in the community. *(Apportionment)*

DSPS 582

Independent Living Skills: Accessing Community Resources

This course is designed to teach adults with developmental and intellectual disabilities how to access public transportation and integrate into their community more independently. *(Apportionment)*

DSPS 584

Independent Living Skills: Kitchen Skills

This course is designed to teach adults with developmental and intellectual disabilities how to plan and safely cook a simple meal. *(Apportionment)*

Early Childhood Education (ECE)

ECE 100

Child Health and Safety

For teachers and directors of pre-schools, this course will focus on the skills and knowledge needed for developing emergency plans and responding to health and safety issues in the classroom. *(Apportionment)*

ECE 108

ECE Program Principles and Practice

Course examines the history, basic principles, and philosophies of various types of early childhood programs, emphasizing the role of the adult and characteristics of quality programs. This course is part of a program approved by the California Department of Social Services, Community Care Licensing, for employment in private facilities only. *(Apportionment)*

ECE 110

Program Principles II

Prerequisite: ECE 108 Program Principles I. Bring original certificate to first class! Students explore major contributors in early childhood education and the development of their personal growth in the field of teaching. *(Apportionment)*

ECE 112

Language Arts and Literacy in Early Childhood

This course examines the teacher's role in promoting and facilitating children's emerging literacy and language development through the use of storytelling, books, songs, flannel board stories and puppetry. This course is part of a program approved by the California Department of Social Services for employment in a private facility. *(Apportionment)*

ECE 116

Program Music & Movement

Explores areas of music and movement appropriate to child's development through participating and experimenting. *(Apportionment)*

ECE 124

Infant Care I

Methods of sanitation, illness and Title 22 regulations will be discussed. *(Apportionment)*

ECE 126

Infant Care II

Theory and appropriate caregiver methods applied in daily curriculum activities for infants and toddlers. *(Apportionment)*

ECE 130

Program Science & Math

Plan, organize and implement activities that help children develop skills, appreciation and enthusiasm for science and math. *(Apportionment)*

ECE 132

Program Creative Experience

Student awareness and application of materials appropriate for preschool art activities. *(Apportionment)*

ECE 134

Developmental Readiness: Preschool

Prerequisite: ECE 140 Early Childhood Development. Bring original certificate to first class! Explore how children learn. Develop the ability to plan developmentally-appropriate activities to ensure children's success. Learn how to detect and prevent learning difficulties. *(Apportionment)*

ECE 136

Family Community Relationships

Examination of the sociological relationships between family and society; institutional, racial, social, and economic factors affecting the family and the child. *(Apportionment)*

ECE 140

Early Childhood Development

Intro to age-related child growth, development, learning characteristics, self-concept, mechanics and techniques of positive learning. *(Apportionment)*

ECE 141

Early Childhood Educational Planning

Orientation and Assessment to and for the SCE Early Childhood Education Certificate program, overview of occupational options. Evaluate reading comprehension, writing abilities, English language acquisition via student self-assessment. Provide advisory referrals to basic skills support as needed per individual student. Provide overview of general SCE programs and student support services. *(Orientation)*

ECE 142

Supervision & Administration

(Offered Spring Term Only) Prerequisites: ECE 170 Introduction to Curriculum for ECE, and ECE 108 ECE Program Principles and Practice, and ECE 140 Early Childhood Development, and ECE 136 FamilyCommunity Relationships, and ECE 100 Child Health and Safety. (or courses equivalent - see Program Manager). In depth study of the essentials of daily school supervision and operation as mandated by State regulations. *(Apportionment)*

ECE 165

Children with Special Needs

This course offers a broad study of children with special needs and early childhood education as it relates to inclusion. This course covers federal and state laws and regulations, terminology and definitions, appropriate practices and intervention. This course is part of a program approved by Department of Social Services, Community Care Licensing. *(Apportionment)*

ECE 170

Introduction to Curriculum for Early Childhood Education

Prerequisite: ECE 140 Early Childhood Development. This course provides the foundation for curriculum planning, implementation, observation, assessment and evaluation. Emphasis includes modalities, learning styles, environments, activities, schedules, routines and adaptations to facilitate learning for all children. This course is part of a program approved by the California Department of Social Services for employment in private facilities. *(Apportionment)*

ECE 175

Infant-Toddler Care

This course explores the theories, principles and practices of an infant/toddler program. Content includes respectful, responsive care giving, licensing and regulation issues, and enriching, safe, healthy developmentally appropriate environments. This course is part of a program approved by the California Department of Social Services for employment in private facilities. *(Apportionment)*

Educational Enrichment (EDEN)

EDEN 100

Senior Topics for Older Adults

This course presents older adults with various topics for discussion and class activities based on the students' individual interest, backgrounds, physical and mental abilities. Older adults are encouraged to share and compare life experiences, and learn about international, national and local events and issues from a current and historical viewpoint. *(Apportionment)*

EDEN 550

Intergenerational: Life Review for Older Adults

This course for older adults and participants of multiple generations will explore, celebrate, and share their life histories with other class participants through personal interviews, with the older adult students, completing a family tree chart, and participating a life-layers activity. Relationships across generations are encouraged through interactive class projects and activities. *(Apportionment)*

EDEN 600

Intergenerational: Learning Connection for Older Adults

This class provides older adults and participants of multiple generations the opportunity to gain understanding and appreciation for themselves and others through various interactive class activities and projects. Older adults students are encouraged to explore different perspectives by comparing and contrasting the past, present, and future from different generational viewpoints. *(Apportionment)*

EDEN 640

Genealogy 101 - First Steps to Family Heritage

This course is designed for participants to develop a plan to document their family history through genealogy. *(Fee-Based)*

Electrical (ELET)

ELET 100

Basic Electronics for Video, Audio and Computer

This course offers the fundamentals of basic electronics, including electronics theory with a focus on analog electronics. Students receive practical lab experience to understand and troubleshoot circuits. This course is a starting point for students preparing for a career as an electronic technician. *(Apportionment)*

ELET 102

Basic Electricity

Course starts with basic electricity and progresses into residential wiring in accordance with the National Electrical Code. Students learn how to obtain an electrical contractor's license. Supplies purchase required as specified by instructor. *(Apportionment)*

ELET 112

Electronic Service Technology

Prerequisite: Basic electronic knowledge. Course reviews AC/DC theory and basic electronic circuits. Learn to use electronic test equipment and hook up home entertainment equipment. Proceed with testing, troubleshooting and preventive maintenance for radio, TV, VCR, microwave and DVD/CD player. Purchase of small electronic kit as specified by instructor required. Basic knowledge of electronics recommended. *(Apportionment)*

ELET 116

Personal Computer Repair (Beginning)

Covers the fundamentals of computer repair and maintenance through the study of theory, terminology, troubleshooting of IBM compatible personal computers and hands-on training. *(Apportionment)*

ELET 140

Introduction to Electrical Trainee

Course provides an overview of the construction industry with focus on the career path of an electrical trainee. Students will learn about the skills needed to launch a successful career in the electrical trade. Topics include safety, construction math, tools and materials handling, job site management, and State Certification requirements for electricians. *(Apportionment)*

ELET 145

Electricity Fundamentals

Prerequisite: ELET 140 Introduction to Electrical Trainee. Course covers basic electrical concepts, including electrical measurements, basic electrical theory, and an understanding of how common electrical components work. Course provides a basis for understanding electrical safety concepts. *(Apportionment)*

ELET 150

Wiring Fundamentals: Residential

Prerequisite: ELECT 145 Electricity Fundamentals. Course provides an overview of the National Electrical Code (NEC) and its application to residential wiring. Topics include electrical standards, residential wiring techniques, grounding, basic switching circuits, residential load calculations, and electrical services in accordance with the NEC. *(Apportionment)*

ELET 160

Wiring Fundamentals: Commercial

Prerequisite: ELET 145 Electricity Fundamentals. Course provides an overview of the National Electrical Code (NEC) and its application to commercial wiring. Topics include commercial wiring, conduit systems, conductor types and applications, over-current protection, polyphase distribution, system and equipment grounding, and voltage-drop equations and lighting sources in accordance with the NEC. *(Apportionment)*

ELET 170

Wiring Fundamentals: Industrial

Prerequisite: ELET 145 Electricity Fundamentals. Course provides an overview of the National Electrical Code (NEC) and its application to industrial wiring. Topics include industrial wiring, conduit systems, conductor types and applications, over-current protection, polyphase distribution, system and equipment grounding, electrical motors, motor circuit conductors, motor control circuits, and electrical power installations in accordance to the NEC. *(Apportionment)*

English / Communications (ENCO)

ENCO 110

Communication With The Deaf (Beginning)

This course is suitable for beginners, beneficial for parents, teachers, instructional personnel and individuals interested in communicating with deaf or hard-of-hearing children and young adults. *(Apportionment)*

ENCO 125

Senior Choir: Signs of the Holidays

This class for older adults provides training in American Sign Language vocabulary and grammatical expression as it applies to seasonal music. Students will engage in community performances of tradition and ceremony for their community, both Deaf and Hearing. *(Apportionment)*

ENCO 180

Books Come Alive for Older Adults

"Books Come Alive" is an intellectually and socially rewarding activity designed for older adults in which outstanding works of fiction/non-fiction are read and discussed. Through the method of shared inquiry, along with thought-provoking questions, older adult students are offered exciting opportunities for self-discovery and personal growth. *(Apportionment)*

ENCO 181

Oral Histories for Older Adults

Older adult students will participate in group activities that encourage interactive discussion, sharing, and relating life stories as they relate to the older adult perspective. Older adults students will explore a life time of memories and experiences. Learn to recognize the importance of remembered experiences and personal uniqueness associated with aging. *(Apportionment)*

ENCO 183

Great Literature for Seniors

"Great Literature for Seniors" is an intellectually and socially rewarding class designed for older adults in which outstanding short stories are read and discussed. Through the method of shared inquiry, along with thought-provoking questions, students are offered exciting opportunities for self-discovery and personal growth. *(Apportionment)*

ENCO 452

Public Speaking Workshop - Mastering Your Fear

in front of a group in a non-threatening workshop Effective communications is essential for success, yet many are too fearful or lack the confidence to speak in front of a group of people. In this workshop, you will have the opportunity to master your fear by understanding the root causes of fear, realizing that fear is a positive emotion, and learning how to turn your fear into a world of excitement and enthusiasm. In fact, you may realize that public speaking can be enjoyable for both you and the audience. *(Fee-Based)*

ENCO 501

Journey Back Into Time for Older Adults

This class offers older adults students the opportunity to explore and share their personal histories, cultures, and values among older adult students through group discussion. Shared experiences, memories and linking the past with the present, encourage self-awareness, positive self-esteem, mental stimulation, and enjoyment. *(Apportionment)*

ENCO 515

Be an Effective Presenter and Speaker

Are you giving presentations but you're not getting the results you expect? Learn from the published author of "31 Tips to Becoming an Effective Presenter." The author will guide you through a series of exercises, assignments and demonstrations to improve your effectiveness in giving presentations. You will learn how to use your voice; how to use proper and appropriate gestures; and what to do before, during and after your presentations, and much more. *(Fee-Based)*

ENCO 520

Public Speaking: Speaking with Confidence

Many of us are required or asked to give presentations in class, at work, or at social events, yet we are too fearful or lack the knowledge to give a presentation effectively and confidently. By understanding the fear and by offering exercises in a safe and positive growth environment, the published author of "31 Tips to Becoming an Effective Presenter," will gently guide you in transcending your presentation fears and becoming confident in presenting to others. You may even learn to enjoy giving presentations. *(Fee-Based)*

ENCO 530

Networking - Basics of Building Relationships

Building relationships is a great way to add to your network. This class will teach you the skills to initiate a relationship. How to shake hands, introduce yourself, join a group, work the room and keep a conversation going. With confidence, you will be successful! *(Fee-Based)*

ENCO 535

Braille Transcribing: Basic Rules

This class is designed for sighted and visually impaired persons to learn the basic skills of transcribing print into braille. *(Apportionment)*

ENCO 537

Braille Transcribing: Reading and Writing Contractions

This class is geared for sighted and visually impaired persons to learn the art of transcribing print into braille at the intermediate level. *(Apportionment)*

ENCO 539

Braille Transcribing: Advanced Symbols and Formatting Manuscripts

This class is geared for sighted and visually impaired persons to learn the art of transcribing print into braille at the advanced level. *(Apportionment)*

ENCO 550

Be a Productive PowerPoint Presenter

This class emphasizes organizing and delivering effective presentations while using PowerPoint slides. PowerPoint must enrich a presentation to be effective, yet many presenters underuse, misuse or overuse PowerPoint. Learn how to optimize PowerPoint presentations to ensure each individual slide improves the presentation. Some knowledge of PowerPoint necessary for students enrolling in this class *(Fee-Based)*

English as a Second Language (ESLA)

ESLA 001

ESL Learning Center

The ESL Learning Center offers an opportunity to practice English through various instructional media. Students learn through ESL software and/or receive individual and group tutoring to improve their speaking, listening, reading and writing skills. Special interest areas such as Vocational ESL and EL Civics are also part of the instruction. *(Apportionment)*

ESLA 100

ESL Beginning Literacy

This course is designed to meet the student's needs as determined by assessment of the student's language proficiencies, goals, and interests. ESL instruction integrates language components, vocabulary, grammatical structures, language functions, and pronunciation in units and topics that are important to the students. *(Apportionment)*

ESLA 110

ESL Multilevel

High School Economics
 This course explores the changing economic climate in the United States and globally. Economic systems, development and problems that affect daily life are covered. This course is offered for SCE high school diploma credit and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 113 Credits: 1 - 5
High School Mass Media
 This mass media course covers various forms of communications including television, advertising, print materials, and electronic media. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 114 Credits: 1 - 10
High School Film Appreciation
 This course is an individualized, self-paced study of film appreciation. Topics covered include film genres, directing and critique. This course is used for SCE High School Diploma credit. *(Apportionment)*

IHSS 116 Credits: 1 - 10
High School General Math
 This course presents activities to help the student with basic arithmetic skills, real-life applications, and problem-solving techniques. The units of study include a review of whole number operations, and basic functions of fractions, decimals, percents, measurements, algebra and geometry. This course is offered for SCE high school diploma credit. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 117 Credits: 1 - 10
High School Vocational Math
 This course develops mathematical problem solving skills for occupational areas and everyday situations. Problems are given for payroll, retail business, manufacturing, mechanics, construction, inventory, health, and personal finance. Topics include formulas, basic algebra, proportions, percents, basic geometry, and measurements. This course is offered for SCE high school diploma credit. *(Apportionment)*

IHSS 118 Credits: 1 - 10
High School Algebra 1
 This course covers basic algebra concepts including an introduction to variables, equations, factoring, an introduction to variables, equations, factoring, formulas and the application of skills. This course is used for SCE high school diploma credit and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 119 Credits: 1 - 10
High School Geometry
 This course covers basic geometry concepts including key terms, geometric shapes and the application of skills. This course is used for SCE high school diploma credit and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned towards the completion of this course. *(Apportionment)*

IHSS 120 Credits: 1 - 10
High School Life Science
 This course is an individualized, self-paced study of Life Science. This course covers scientific methods, classification and body systems. This course is used for SCE High School Diploma credit. *(Apportionment)*

IHSS 121 Credits: 1 - 5
High School Earth Science
 Earth Science deals with the earth and other heavenly bodies of the universe. Students learn the various characteristics that make Earth unique in the solar system. This course is offered for SCE high school diploma credit. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 122 Credits: 1 - 5
High School Physical Science
 Physical Science explores matter and its properties, motion, heat, energy, sound and light, as well as electricity and magnetism. This course is used for SCE High School Diploma credit. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 123 Credits: 1 - 10
High School Biology
 This biology course is an individualized, self-paced study of living things including classification, survival, reproduction, growth, and development. Other topics explore ecological cycles, behaviors and evolution. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 124 Credits: 1 - 10
High School Health
 This class is designed to give students an understanding of various facets of physical, mental, and social well being. The student will gain knowledge to promote wellness, identify causes of health problems and ways to prevent them. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 127 Credits: 1 - 10
High School Computer Literacy
 Students will learn the basics of Windows, Internet browsing, keyboarding, email, course management systems and the modern office environment. *(Apportionment)*

IHSS 153 Credits: 1 - 10
High School General Science
 General Science covers physical, Earth, and life science. This course is used for SCE High School Diploma credit. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 163 Credits: 1 - 10
High School Composition
 This course provides writing strategies that include basic sentence structure, a review of grammar and mechanics, paragraph formation and essay composition skills. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 167 Credits: 1 - 5
High School English Basic Skills
 Basic English skills are presented in this self-paced course. This introductory course includes workbook activities to improve skills in spelling, capitalization, punctuation, and reading. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 170 Credits: 1 - 10
High School Grammar
 This course covers a variety of English language skills in a flexible format suitable for individualized, self-paced coursework. The topics covered include grammar, usage, writing mechanics and composition strategies. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 173 Credits: 1 - 10
High School Novels
 This literature course offers a variety of literary works in a flexible format suitable for individualized self-paced coursework. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 174 Credits: 1 - 10
High School Literature
 This literature course offers a variety of literary works in a flexible format suitable for individualized self-paced coursework. Literary options include poetry, short stories, essays and complete novels. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 177 Credits: 1 - 10
High School Reading
 This developmental reading course represents many options to build skills in reading comprehension, vocabulary, and critical thinking. This course is offered for SCE high school diploma credit and partial credits are available to satisfy graduation requirements. *(Apportionment)*

IHSS 181 Credits: 1 - 5

This class covers the basics of sentence writing, including the essential parts of speech and sentence formation in an enjoyable fashion! *(Fee-Based)*

KIDS 163

Intensive Writing Camp

Grades 7+

This camp will expose students to a wide range of writing styles, familiarize students with the writing process, and enhance both the reading and writing skills of the student. Students will share their work and critique each other in a cooperative, nurturing environment. Whether the student is a struggling writer or a highly-skilled writer, this camp will benefit them. *(Fee-Based)*

KIDS 164

ABC's and 123's Camp: Let's Get Ready for Kindergarten!

Let's Get Ready for Kindergarten. For the youngster about to start kindergarten in the Fall. In this class, we'll play games, sing songs, and do all sorts of activities and crafts to teach beginning skills in reading, writing and math. Parents welcome to attend! *(Fee-Based)*

KIDS 166

Reading, Writing and Math Review Camp

Grade 1

Students will sharpen their reading, writing and basic math skills in a fun and relaxed workshop! Games, worksheets and a "hands-on project" will be used to review 1st Grade skills before starting 2nd Grade. *(Fee-Based)*

KIDS 167

Reading, Writing and Math Review Camp

Grade 2

Students will sharpen their reading, writing and basic math skills in a fun and relaxed workshop! Games, worksheets and a "hands-on project" will be used to review 2nd Grade skills before starting 3rd Grade. *(Fee-Based)*

KIDS 168

3rd Grade: Reading, Writing and Math Review Camp

Students will sharpen their reading, writing and basic math skills in a fun and relaxed workshop! Games, worksheets and a "hands-on project" will be used to review 3rd Grade skills before starting 4th Grade. *(Fee-Based)*

KIDS 169

Reading, Writing and Math Review Camp

Grade 4

Students will sharpen their reading, writing and basic math skills in a fun and relaxed workshop! Games, worksheets and a "hands-on project" will be used to review 4th Grade skills before starting 5th Grade. *(Fee-Based)*

KIDS 177

Power Learning Strategies: Empowering Students For Success

Grades 6-8

Power Learning provides students with the study skills and learning techniques that make a difference in their educational success. This six week workshop will identify styles; provide learning strategies; develop effective time management; target skills for comprehension memory; tools for mastering course material, and preventing test stress. Materials included. *(Fee-Based)*

KIDS 178

Power Learning Strategies: Empowering Students For Success

Grades 9-12

This six week workshop will identify learning styles; provide learning strategies; develop effective time management skills and weekly action plans. Sessions will focus on study skills, effective tools for mastering course material, preparation for objective and essay tests, and notable WhizBits certain to make class notes easier. The goal of Power Learning Strategies is provide students with study skills that make a difference. *(Fee-Based)*

KIDS 179

Harry Potter Literature Adventure: The Goblet of Fire

Grades 3+

This course will explore the work of the Harry Potter book The Goblet of Fire, by J.K. Rowlings. Students will read the books, explore related chemistry, vocabulary exercises and literary analysis of the characters and plot. Book will be loaned to the student if needed. Reading outside of class time is required. Designed for mature readers who have completed grade 3 and up. *(Fee-Based)*

KIDS 180

Around the World

Ages 6+

Children will learn geography and discover interesting facts about Mexico, Central and South America, the United States, Europe, the Orient, Egypt, Saudi Arabia, Israel and many others. Artifacts, dolls and pictures will be displayed. *(Fee-Based)*

KIDS 181

Reading, Writing and Math Review Camp

Grades 2 and 3

Students will sharpen their reading, writing and basic math skills in a fun and relaxed workshop! Games, Worksheets and a "hands on project" will be used to review 2nd grade or 3rd grade skills before starting the next grade. *(Fee-Based)*

KIDS 182

Reading, Writing and Math Review Camp

Grades 3 and 4

Students will sharpen their reading, writing and basic math skills in a fun and relaxed workshop! Games, Worksheets "hands on project" will be used to review 3rd grade or 4th grade skills before starting the next grade. *(Fee-Based)*

KIDS 191

Improve Your Reading and Writing

Grades 7-10

Students will become more effective readers by learning strategies to read different types of writing. By responding in writing to what they read, students will increase comprehension and improve written communication skills. Techniques such as analyzing, summarizing, comparing, critiquing, and interpreting will be applied to in-class reading and writing projects. *(Fee-Based)*

KIDS 194

Basic Reading Skills

Ages 4-5

Children will participate in a variety of meaningful, interactive, and stimulating games and activities to build phonemic awareness and phonics skills. Activities include developing skills in decoding, beginning to read word families, print practice and beginning sentence writing. This class is for students preparing to enter Kindergarten. This class develops a strong reading foundation for success in school. *(Fee-Based)*

KIDS 195

Reading Camp for Kindergarten

Children will participate in a variety of meaningful, interactive, and stimulating games and activities to build phonemic awareness and phonics. These activities are based on the new Common Core standards and include decoding, beginning to read word families, printing practice, and beginning sentence writing. This camp is for students entering kindergarten. The camp also develops a strong reading foundation for success in school. Enrollment is limited. *(Fee-Based)*

KIDS 199

Geography & The USA

Grades 3+

Study American geography and acquaint yourself with maps, legends, climates and regions. Learn how to use the "compass rose". *(Fee-Based)*

KIDS 202

Pre-Algebra Concepts

Grades 6

Increase your skills in pre-algebra and acquaint yourself with calculating activities. Also fractions, decimals, integers and solving equations. *(Fee-Based)*

KIDS 211

Tutorial: Math Mania

Grades 1-2

Students will review and enhance basic math skills such as, addition, subtraction, fractions, place value, money and telling time according to their grade level. Students will use games, worksheets and story problems to enrich their skills. Limited to 8 students. *(Fee-Based)*

KIDS 211A

Tutorial: Math Mania

Grades 3-4

Students will review and enhance basic math skills such as addition, subtraction, multiplication, division, fractions, charts and graphs, and telling time according to their grade level. Students will use games, worksheets and story problems to enrich their skills. Limited to 8 students. *(Fee-Based)*

KIDS 211B

Tutorial: Math Mania

Grades 5-6

Kids will review and enhance basic math concepts by practicing skills such as long division, decimals, fractions, integers, geometry, charts and graphs, word problems and more. Limited to 8 students! *(Fee-Based)*

KIDS 213

Improve Your Math and Study Skills

Grades 3-4

Personalized math; children will learn how to improve basic math skills in a fun, relaxed and enjoyable manner through the use of games and worksheets. Tutors student by grade level. Reviews addition, subtraction, multiplication and division. Includes fractions, decimals and story problems. *(Fee-Based)*

KIDS 213A

Improve Your Math and Study Skills

Grades 5-6

Personalized math; children will learn how to improve basic math skills in a fun, relaxed and enjoyable manner through the use of games and worksheets. Tutors student by grade level. Reviews addition, subtraction, multiplication and division. Includes fractions, decimals and story problems. *(Fee-Based)*

KIDS 214

Tutorial: Ready, Set, Read!

Grades 1-2

This is a tutorial-based class that is developed to assist the emergent reader. There will be a strong focus on phonics and mastery of basic sight words. Limited to 8 students. *(Fee-Based)*

KIDS 215

Tutorial: Number Sense

Grades 3-4

This is a tutorial-based class that is developed to assist students that are having difficulty with the basic concepts of addition, subtraction and multiplication, as well as a strong focus on place value and regrouping. Limited to 8 students. *(Fee-Based)*

KIDS 217

Algebra

Grades 7+

Learn how to solve equations, multiplying polynomials, work word problems, graph functions, solve inequalities without stress. *(Fee-Based)*

KIDS 218

Reading & Comprehension

(Grades 3-4)

This is a tutorial-based class that is developed to help students learn more effectively, comprehension, interpretation and vocabulary. *(Fee-Based)*

KIDS 219

Pre-Algebra II

Grades 5-6

Students will learn properties of real numbers, conversions, slope, graphs, operations with positive and negative numbers (absolute value equations), scientific notation, graphing inequalities, and solving equations involving inequalities! *(Fee-Based)*

KIDS 220

Tutorial: Pre-Geometry

Grades 4-6

Students will learn basic ideas of geometry such as line and angle relationships, transversals, area and perimeter of various polygons, and area and circumference of circles in a fun environment. *(Fee-Based)*

KIDS 222

Tutorial: Math Skills

Grades 5-6

This course reinforces school curriculum using strong math skills. Large multiplication, division, integers (addition subtraction of positive and negative integers), exponents, decimals, fractions, percents (addition, subtraction, multiplication and division), order of operation and simple variables and equations. Educational materials provided. Class limited to 8 students. *(Fee-Based)*

KIDS 223

Statistics and Graphing

Grades 4-6

Students will learn how to calculate frequencies, means, medians, and modes and interpret and draw graphs. *(Fee-Based)*

KIDS 224

Tutorial: Pre-Algebra

Grades 6+

This class will prepare the student for Algebra. Topics include: Order of operation, integers, rational numbers, GCF, LCM, exponents, fractions, decimals, variables, simple one or two step equations, and functions. Educational materials provided. Class limited to 8 students. *(Fee-Based)*

KIDS 225

Algebra 1 Operations

Grades 7+

This course is designed to accomplish the goals of enhancing and increasing the math skills and knowledge in broader scope. It will cover topics on rational numbers and their operations, solving equations and inequalities, relations and functions, graphing linear equations, finding the equation of the line, parallel and perpendicular lines, solving systems of equations, consistent and inconsistent systems, polynomials and their operations, factoring polynomials, solving quadratic equations and simplifying rational expressions. Workbook provided. *(Fee-Based)*

KIDS 226

Tutorial: Algebra 1

Grades 7+

This course is designed to enhance equation solving skills. It will also cover integers, rational numbers, square roots, fractions, decimals, percent, and solving equations with variables on both sides. Educational materials provided. Class limited to 8 students. *(Fee-Based)*

KIDS 227

Algebra II

Grades 8+

Topics include Rational Algebraic Expressions, Quadratic Equations, Radicals, Function Notation, Composite, Inverse and Even Functions, Distance Formula, Midpoints, and Transformations. *(Fee-Based)*

KIDS 228

Tutorial: Improve Math

Grades 3-4

Students will review and enhance basic math skills according to ability level. *(Fee-Based)*

KIDS 229

Tutorial: Improve Math

Grades 5-6

Students will review and enhance basic math skills according to ability level. *(Fee-Based)*

KIDS 233

Tutorial: Chemistry

Grades 9+

This course is designed to enhance the problem solving skills of students currently enrolled in high school chemistry or are planning to take a chemistry course in high school. Topics covered will include atomic structure, chemical formulas and chemical compounds, equations and reactions. With a review of significant figures and conversions. *(Fee-Based)*

KIDS 234

Phonics and Printing

Ages 5-6

This hands-on course introduces proper letter formation and develops student's ability to sound out words. Through fun games and printing activities students become better printers and spellers. Students will also learn beginning sentence writing. Each term has different activities. *(Fee-Based)*

KIDS 235

Figuring With Fractions

Grades 5-6

Improve and strengthen your math skills. Reviews and reinforces school curriculum. Includes: addition, subtraction, multiplication and division of proper and improper fractions and mixed numbers; comparing fractions and mixed numbers; converting fractions to decimals and percents; reducing fractions; obtain GCF (reducing fractions) and LCM (least common denominator); reciprocals. *(Fee-Based)*

KIDS 236

Comprehensive Pre-Algebra

Grades 6+

This course reinforces the school curriculum using strong algebra skills. Topics include: whole numbers, decimals, integers and their operations, algebraic and numerical expressions, order of operations, powers and exponents, rational numbers, GCF, LCM, solving equations and inequalities, ratio, proportions and percent, finding the area and volume, square roots and Pythagorean theorem. Materials provided. Homework assignments. *(Fee-Based)*

KIDS 237

Tutorial: Physics

Grades 9-12

This course is designed to enhance the problem solving skills of students currently enrolled in high school physics or planning to take a physics course in high school. Topics covered will include phases of matter, thermodynamics, light and sound. Review of significant figures, conversions, motion and energy. *(Fee-Based)*

KIDS 239

Master Math - 1st Grade

Students will review counting to 100, learn and practice basic math skills including addition and subtraction. Also included are time and fractions. Students will learn to use reasoning when solving problems. *(Fee-Based)*

KIDS 240

Master Math: 2nd Grade

"Ah-ha" moments will be recorded in a math journal. The focus of this course is to support students in second grade math and enhance accurate calculating skills. There will be group use of whiteboard work and access to math websites. *(Fee-Based)*

KIDS 241

Master Math: 3rd Grade

"Ah-ha" moments will be recorded in a math journal. Focus will be on supporting students in third grade math and on enhancing calculating skills. There will be group whiteboard work and use of math websites. *(Fee-Based)*

KIDS 242

Master Math: 4th Grade

Students will learn and practice basic math skills in fun and enriching sessions. Includes adding, subtracting, multiplying and dividing, as well as using graphs and charts, place values, test prep, fractions and word problems. *(Fee-Based)*

KIDS 243

Comprehensive Mathematics

Grades 6+

Get an advanced start in middle school. Learn math the easy way. Includes order of operation, variables, exponents, solving equations, decimals, scientific notation, averages, prime factorization, GCF, fractions, probabilities, LCM, integers, two-step equations, inequalities, functions, perimeter and finding circumferences. Materials provided. Homework assignments. *(Fee-Based)*

KIDS 244

Tutorial: Algebra 2

Grades 8+

This course is designed to further strengthen and develop a student's Algebra skills. It will quickly review basic Algebra knowledge, and subsequently delve into more complex Algebra materials, such as: 2nd and 3rd degree polynomials, radicals, exponents, logarithms, intermediate geometry, and analyzing and graphing various functions. *(Fee-Based)*

KIDS 245

Math Foundation Tutorial

Grade 5+

This course will strengthen the math foundation of each student. Topics include order of operation, number line, addition, subtraction, multiplication and division of integers and fractions. A solid math foundation will help a student develop, build, and learn new materials in the future with relative ease. *(Fee-Based)*

KIDS 250

Calligraphy Camp

Ages 8-11

Kids will learn step-by-step instructions in the art of Calligraphy, especially suitable for young children. Students will learn a beautiful style (italic) suitable for cards, envelopes, gifts, etc. *(Fee-Based)*

KIDS 255

Introduction to Chinese and Chinese Calligraphy

Ages 6-10

The objective of this course is to help students gain mastery of the basic skills of Mandarin Chinese including speaking, listening, reading, and writing. Students will also be exposed to the foundations of Chinese Calligraphy as well as customs and culture. *(Fee-Based)*

KIDS 299A

I Am Worth A Million Dollars

Ages 11+

This class will begin with a focus on helping each child discover his and her uniqueness. Through the use of activities, discussion, and art projects children will explore ways to make responsible choices to enhance self esteem. *(Fee-Based)*

KIDS 315

Musical Theatre

Ages 7+

Enjoy this introduction to the exciting world of musical theatre! Participants will learn choreography and vocals to a musical theatre song. Family and friends are invited to a performance on the last day of class. *(Fee-Based)*

KIDS 319

Creative Drama for Teens

Ages 12+

Students will explore the nature of drama fiction, movies, plays and real life experiences. Students will do exercises and role playing to create their own drama. No prior experience is necessary! *(Fee-Based)*

KIDS 324

Musical Theater Camp

Ages 8+

This week-long camp will consist of singing songs from "The Wizard of Oz", "You're A Good Man, Charlie Brown" and "Peter Pan". Children will create choreography and many solo opportunities will be available! *(Fee-Based)*

KIDS 325

Vocal for Kids

Ages 7-10

This class is designed to help children develop good ear-training to sing in groups or solos. It will help build confidence as well as strengthen their individual style. *(Fee-Based)*

KIDS 326

Vocal for Kids

Ages 11+

This class is designed to help children develop good ear-training to sing in groups or solos. It will help build confidence as well as strengthen their individual style. *(Fee-Based)*

KIDS 329

Music for Little Mozarts

Ages 4-5

This is an introductory course to the piano for children 4 and 5 years old that uses a story, stuffed animals, songs with movements from a CD and a music book that is enjoyable and age appropriate. It is easy for the children to play simple tunes with a lively accompaniment. This course teaches many skills that will be used later in more advanced piano lessons. Students must bring a keyboard (40 key minimum) every week. Text required, CD optional. *(Fee-Based)*

KIDS 330

Kids College Singers

Grades 2-6

This is a choir for children and includes singing in unison and in rounds, using microphones, rhythm instruments with CD and keyboard accompaniment. The class will use a songbook with CD that sells for about \$25 and contains copyrighted material of stage and screen music. *(Fee-Based)*

KIDS 351

Violin I

Ages 4+

Learn the violin using the successful Suzuki method. Develop your child's concentration, motor skills, memory powers and self-confidence. Students learn to play easily and musically. Class is limited to 6 students. Beginners: Pick up handout at registration. NOTE: Parents are required to learn and play along with their child! *(Fee-Based)*

KIDS 352

Violin II

Ages 4+

Prerequisite: Must have completed Violin I. Learn songs using beginner finger and melodic patterns. *(Fee-Based)*

KIDS 353

Violin IV

Ages 4+

Prerequisite: Must have completed Violin I - III or have instructor's approval. Develop for playing primary level songs on all 4 strings and begin reading music. *(Fee-Based)*

KIDS 355

Violin III

Ages 4+

Prerequisite: Must have completed Violin I and II or have instructor's approval. Develop technique for playing primary level songs. *(Fee-Based)*

KIDS 356

Violin: Performance III

Ages 4+

Prerequisite: Must be enrolled in Violin VI. Chamber music for violin ensemble including string and piano trios, quartets and string orchestra. *(Fee-Based)*

KIDS 357

Violin: Performance II

Ages 4+

Prerequisite: Must be enrolled in Violin V. Chamber music for violin ensemble including string and piano trios. *(Fee-Based)*

KIDS 358

Violin V

Ages 4+

Prerequisite: Must have completed Violin I - IV or instructor's approval. Technique and reading in one position. *(Fee-Based)*

KIDS 359

Violin VI

Ages 4+

Prerequisite: Must have completed Violin I - V or have instructor's approval. Technique and reading including I, III, and V position. *(Fee-Based)*

KIDS 364

Violin: Performance I

Ages 4+

Prerequisite: Must be enrolled in Violin IV. Chamber music for violin ensemble. *(Fee-Based)*

KIDS 368

Piano Keyboarding - Beginning I

Ages 7+

Students will learn the basics of the keyboard and music theory. Students: bring your own keyboard (40-key minimum) every week. A recital will be held on the last day. Books will be suggested to buy at first class. *(Fee-Based)*

KIDS 368A

Piano Keyboarding - Beginning I

Ages 11+

Students learn basics of piano and keyboard theory. Bring your own keyboard (40-key minimum) every week. Recital will be held on last day. Suggested books to buy discussed at first class. *(Fee-Based)*

KIDS 368B

Piano Keyboard: Beginning

Ages 11+

Students will learn the basics of piano and keyboard theory. Bring your own keyboard (40-key minimum) to class each week. A recital will be held on the last day of class. Pick up book list at registration. *(Fee-Based)*

KIDS 369

Piano Keyboarding - Intermediate

Ages 7+

For students who have completed Beginning II; or have at least 6 months keyboard/piano experience. Pick up book list at registration. *(Fee-Based)*

KIDS 370

Guitar For Kids - Beginning

Ages 6-8

Learn to play the guitar in a fun way! Play simple chords, read chord bar charts, and strumming patterns. Bring your nylon-string or acoustic steel-string guitar and medium guitar pick to class. Parents, please accompany children to class. *(Fee-Based)*

KIDS 370A

Guitar For Kids - Beginning

Ages 9+

Young beginners develop confidence and enjoyment for music. Learn parts of the guitar, strokes and strumming, chords and melodies in order to play FUN exercises and songs! Bring your nylon-string or acoustic steel-string or acoustic steel-string guitar and medium guitar pick to class. *(Fee-Based)*

KIDS 370B

Guitar for Kids - Intermediate/Advanced

Students will learn three new songs each quarter (never repeated), review scales and basic theory, learn more chords such as bar chords, new lead licks, strum patterns and play songs to a CD or a drum track with and without bass accompaniment. Acoustic or Electric Guitar and pick required. *(Fee-Based)*

KIDS 371

Guitar For Kids - Intermediate

Ages 9+

Learn to play the guitar in a fun way! Play simple chords, read chord bar charts, and strumming patterns. Bring your nylon-string or acoustic steel-string guitar and medium guitar pick to class. *(Fee-Based)*

KIDS 372

Guitar For Kids - Advanced

Ages 9+

Learn to play the guitar in a fun way! Play simple chords, read chord bar charts, and strumming patterns. Bring your nylon-string or acoustic steel-string guitar and medium guitar pick to class. *(Fee-Based)*

KIDS 373

Bass Guitar for Kids

Ages 10+

Students will learn basic notes on the bass guitar, major and minor keys & scales (basic music theory), root notes of chords, how to reach a lead sheet, play with a pick and with fingers. Bring a bass guitar, a heavy pick and if possible (optional) a small bass amplifier. *(Fee-Based)*

KIDS 375

Playing the Cello - Beginner I

Ages 7+

Learn to play the cello! Develop good technique, musicality, and have fun at the same time. Develop self-confidence, good listening and motor skills, memory, and concentration. Prior playing experience is not required. Teacher will assist with instrument rental. Class is limited to 6 students. *(Fee-Based)*

KIDS 375A

Playing the Cello - Beginner II

Ages 7+

Prerequisite: Must have completed Beginner I or have instructor's approval. Learn to play and read simple one position songs. Chamber music for Cello ensemble. *(Fee-Based)*

KIDS 375B

Playing the Cello - Beginner III

Ages 7+

Learn to play and read 1st through 4th position songs. Chamber music for Cello ensemble. Prerequisite: Must have completed Beginner II or have instructor's approval. *(Fee-Based)*

KIDS 376

Piano Keyboarding - Beginning II

Ages 7+

For students who have completed Beginning I; pick up book list at registration. *(Fee-Based)*

KIDS 377

Summer Band

Grades 5-8

This course is open to those students who already play a band instrument and read music. This class is perfect for students wanting to have fun while practicing their instrument over the summer in preparation for the next school year. Bring instrument to class or receive information about rental in class. A concert will be presented on the last day of class. *(Fee-Based)*

KIDS 378

Jazz Improvisation

Grades 5-8

This class is for young musicians who want to explore the exciting world of jazz improvisation. You will learn music theory and skills needed to improvise on the blues and 32 bar song form. Students must read music and have one year experience on a band instrument. A concert will be presented on the last day of class. *(Fee-Based)*

KIDS 379

Intro to Jazz and Blues Music Camp

Ages 10+

Students will enjoy singing Jazz and Blues as well as watching videos, listening to CDs, and learning about the key people through the history of Jazz! *(Fee-Based)*

KIDS 380

You've Got Rhythm

Ages 5-8

Learning basic rhythms can be easy and fun! Students will learn to read and recognize basic rhythms. While experimenting with many types of hand percussion instruments All students interested in learning about music, will benefit from learning rhythms at an early age. No experience or instruments needed. *(Fee-Based)*

KIDS 382

Beginning Band

Grades 4-6

Strike up the band! Students learn the fundamentals of flute, clarinet, trumpet and trombone in a dynamic and interactive band setting. There will be one or more performances during the term. Students need to provide their own instrument and supplies - information will be available at the first class meeting. *(Fee-Based)*

KIDS 383

Playing the Cello - Intermediate I

Learn higher level of sound productions and 1st through 4th positions. Chamber music for Cello ensemble. *(Fee-Based)*

KIDS 384

Playing the Cello - Intermediate II

Learn higher level of sound and bow techniques including vibratos. Chamber music for cello ensemble. *(Fee-Based)*

KIDS 390

Violin: Performance IV

Advanced chamber music for violin ensemble including string and piano trios, quartets and string orchestra. *(Fee-Based)*

KIDS 391

Violin VII

Learn to play and read I, II, III, and V position repertoire. Completion of Violin I - VI and instructor's approval is required. Must have appropriate reading and sight-reading skills and able to shift in III and V position. *(Fee-Based)*

KIDS 403

Cartoon Drawing

Ages 8+

Introduces drawing/thinking techniques. Offers in-class drills and drawings with demonstrations and reviews; receive supplemental handout to help support a long-term interest. Parents and adults may enroll. *(Fee-Based)*

KIDS 404

Creative Art for the Preschool Child

Ages 3-4

A wonderful opportunity for the parent and child to "work together." With your help, your child will create exciting, simple projects using a variety of materials. Improves fine motor skills and launches their imaginations! *(Fee-Based)*

KIDS 406

Spend A Day With An Artist Camp!

Grade K-3

Come and be creative! Let's get out the paintbrushes, crayons and pastels and learn about great artists such as Van Gogh and Dali while creating your own masterpiece! *(Fee-Based)*

KIDS 408

Wonderful Watercolors

Ages 8+

Come have fun learning basic watercolor painting techniques. No experience is necessary! Please bring a "set of 8" dry watercolor paints, a pad of inexpensive watercolor paper and two watercolor brushes: one 1/4" round and one 1/4" flat. *(Fee-Based)*

KIDS 410

Young Artist Workshop

Ages 7+

Learn to draw animals, natural objects, landscapes, and people. Covers basic theory of color, value, perspective and spatial relationships. Your child will learn to draw better! *(Fee-Based)*

KIDS 412

The "Arts" Extravaganza

Ages 7+

Children are encouraged to express themselves, emphasizing creativity and experimentation through age-appropriate art projects. Classes will include a variety of art techniques, which may include drawing, sketching, painting, clay and various other art media. *(Fee-Based)*

KIDS 414

Art is for You (Ages 5-8)

Calling young artists bold and shy! Come use different art materials each day to learn how to "draw what you see" and what you imagine. *(Fee-Based)*

KIDS 415

Pencils & Paintbrushes

Ages 4-10

An art class that will encourage your child's imagination to soar! Designed to build self-esteem through individual expression while interacting creatively with other students. Children will learn basic drawing skills and fun techniques of watercolor painting. Instruction at age- and ability-appropriate levels. Each session explores different themes. Repeat students will experience more advanced levels of previous sessions. Pick up a minimal materials list at the first class meeting. *(Fee-Based)*

KIDS 415A

Pencils & Paintbrushes

Ages 8+

An art class that will encourage your child's imagination to soar! Designed to build self-esteem through individual expression while interacting creatively with other students. Children will learn basic drawing skills and the application of colors using pencils and watercolors. Instruction at age and ability appropriate levels. Repeat students experience different projects. Pickup material list when you register. *(Fee-Based)*

KIDS 418

Origami For Fun

Ages 7+

Origami is Japanese and comes from the word ori (to fold) and kami or gami (paper). You'll become familiar with the basic technique or art of paper folding step by step from a single sheet of paper into an animal, bird, boat, butterfly, crane, and more. Parents are welcome to enroll too! *(Fee-Based)*

KIDS 428

Photography For Kids

Ages 7-10

Children will learn basics techniques of photographic process, conventional to digital. Material/equipment needs will be given first day of class. Bring a 35mm (digital, conventional, or disposable) to class. There will be additional fees for film developing/printing. Children will take a photo shoot tour of the campus. *(Fee-Based)*

KIDS 429

Photography for Kids

Age 10+

Children will learn basics techniques of photographic process, conventional to digital. Material/equipment needs will be given first day of class. Bring a 35mm (digital, conventional, or disposable) to class. There will be additional fees for film developing/printing. Children will take a photo shoot tour of the campus. *(Fee-Based)*

KIDS 431

Drawing the World Around You

Age 8-11

For the inspired young artist who wants to learn how to make drawings that look realistic. From still life to portrait to landscape, students will learn how to draw exactly what they see both accurately and beautifully. *(Fee-Based)*

KIDS 432

Paint-A-Rama Camp

Ages 6+

Children of all ages love to paint! In our "art camp" we will be painting on wood, glass, terracotta, cardstock and watercolor paper! Students will use a variety of different paint media and added textures and design to create beautiful art projects for home and gift giving. *(Fee-Based)*

KIDS 432A

Paint-A-Rama Camp

Ages 9+

Children of all ages love to paint! In our "art camp" we will be painting on wood, glass, terracotta, cardstock and watercolor paper! Students will use a variety of different paint media and added textures and design to create beautiful art projects for home and gift giving. *(Fee-Based)*

KIDS 433

Be Creative With Paper Mache Camp

Ages 8+

Learn textures, techniques and design elements to create unique dazzling projects for home and gift giving. Individual creative designs include projects such as picture frames, festival face masks, floral vase and flowers, treasure box, deskset mat or artist mural background. Add individual decorating concepts using fabric, beads, shells, ribbon, etc., to each creative project. Please wear old clothes or bring an apron. *(Fee-Based)*

KIDS 435

Basic Knitting for Kids

Ages 9+

Learn basic knitting techniques including casting on, knit stitch, purl stitch, increase, decrease, and binding off. Knit some basic projects such as book marks, scarves, purses and more. Learn about different yarns and become aware of the fulfillment of making your own creations. *(Fee-Based)*

KIDS 437

Paint Like Great Masters Camp

Ages 10-15

Feeling creative? Love to paint? In this class you will learn how to create your own original artwork in the styles of Warhol, Picasso, Michelangelo, Matisse and others! *(Fee-Based)*

KIDS 438

Wonderful Arts and Crafts

Ages 5-7

Come and create art and craft projects using different media and surfaces. *(Fee-Based)*

KIDS 438A

Wonderful Arts & Crafts

Ages 8+

Come and create art and craft projects using different media and surfaces. *(Fee-Based)*

KIDS 441

Drawing and Acrylic Painting

Ages 9+

Students will learn about abstract shapes and forms, faces, fruits, veggies, and landscapes and still life! *(Fee-Based)*

KIDS 442

Creative Art for the Young Child

(Ages 3-5)

This is an arts and crafts class for children 3-5 years and a parent to spend quality time together developing motor skills and artistic abilities through drawing and painting with watercolors and making arts and crafts items. *(Fee-Based)*

What room in your house offers the most fun and adventure? It's the kitchen! Discover the magic hidden in your kitchen. Learn kitchen tools, cooking techniques, safety tips and good eating habits that make you a smart cook. Chef Staci will teach you how to prepare terrific snacks, delicious soups and salads, yummy desserts and much more! So join us in whipping up all of these recipes. *(Fee-Based)*

KIDS 900

Computer Keyboarding I

Ages 8+

Multimedia software teaches your child the layout of the computer keyboard. Integrated music and puzzle activities make learning keyboard fun! Enrollment is limited! *(Fee-Based)*

KIDS 901

Intro to Computers

Ages 8+

Have fun while developing proficiency in software usage and hardware knowledge. *(Fee-Based)*

KIDS 903

Drawing & Sketching

Ages 5-7

Designed to heighten your child's self-esteem through individual expression while interacting creatively with others. Basic drawing skills and the application of colors using colored pencils and watercolors will be used. *(Fee-Based)*

KIDS 903A

Drawing & Sketching

Ages 8+

Designed to heighten your child's self-esteem through individual expression while interacting creatively with others. Basic drawing skills using pencils, colored pencils, charcoal or watercolors. *(Fee-Based)*

KIDS 904

Create Your Own Web Page Using HTML Camp

Ages 12-17

Prerequisite: basic internet navigation skills. Learn how to create your own web page with HTML. Includes creating, formatting, enhancing and publishing HTML/web pages. *(Fee-Based)*

KIDS 909

Create Your Own Web Page With Frontpage Camp

Ages 9+

Using Microsoft FrontPage, students will design their own web pages. They will learn how to add text and pictures to the web page, how to upload and post their web page on the internet for free! *(Fee-Based)*

KIDS 912

Computer Creative Imaging With Photoshop Camp

Ages 8+

Students will be introduced to the basics of available graphic design tools and technique. They will have fun drawing, painting, scanning, resizing, changing color and enhancing photos by using the Adobe Photoshop software. *(Fee-Based)*

KIDS 913

Microsoft Word for Kids

Ages 8+

Learn how to create, save and print documents (letters, reports, tables, memos, flyers, etc.) Check spelling and grammar. Edit, change format, font and style. Create tables, print labels and envelopes, insert pictures and use mail merge. *(Fee-Based)*

KIDS 914

Digital Photography Camp

Ages 10+

This class will help to develop or improve your digital photography skills. Using the computer and Photoshop, students will learn photo editing skills to restore, resize, change colors and enhance your photos. Bring your own photos, a digital camera and USB flash drive to each class. *(Fee-Based)*

KIDS 916

Presentations With Powerpoint Camp

Ages 9+

Students will have fun creating a simple slide show presentation using Microsoft PowerPoint. Learn how to use text, animation, sound effects and graphics to complete a short in-class slide show. *(Fee-Based)*

KIDS 918

Using Movie Maker 2 in Windows XP Camp

Ages 10+

Students will learn how to create, record and import audio and video and learn how to create and save a new video collection and a new project in Windows XP. Edit movies, record a narration to go with the movie, trim a clip as well as creating and deleting a movie and saving and sending a movie and more! Fee includes all materials. *(Fee-Based)*

KIDS 920A

Drawing & Sketching

Ages 7-8

Designed to heighten your child's self-esteem through individual expression while interacting creatively with others. Basic drawing skills and the application of colors using colored pencils and watercolors will be used. Pickup supply list at registration. *(Fee-Based)*

KIDS 920B

Drawing & Sketching

Ages 9+

Designed to heighten your child's self-esteem through individual expression while interacting creatively with others. Basic drawing skills and the application of colors using colored pencils and watercolors will be used. Pickup supply list at registration. *(Fee-Based)*

KIDS 930

Create Your Own Web Page Using HTML

Ages 12+

Learn how to create your own web page with HTML. Includes creating, formatting, enhancing and publishing HTML/web pages. Prerequisite: Basic Internet navigation skills. *(Fee-Based)*

KIDS 932

Introduction to PowerPoint

Ages 9+

Students will have fun creating a simple slide show presentation using Microsoft PowerPoint. Learn how to use text, animation, sound effects and graphics to complete a short in-class slide show. *(Fee-Based)*

KIDS 936

Create Your Own Web Page with FrontPage

Ages 9+

Using Microsoft FrontPage, students will design their own Web pages. They will learn how to add text and pictures to the Web page. their Web page on the Internet for free! *(Fee-Based)*

KIDS 940

Computer Hardware Repair and Installation

Ages 14+

Students will learn how to diagnose hardware and software-related problems and how to solve them. They will learn how to install memory to hard drives, floppy drives, CD drives and various other major hardware parts inside the computer. *(Fee-Based)*

KIDS 941

Story time on the Computer: Create Your Very Own Electronic Book

Grades 2-4

Using Kid Pix software, imagination and creativity; you will design your very own electronic book on the computer! Your book will include pictures, sound and animation. What story will the book tell? Well, it's all up to you! *(Fee-Based)*

KIDS 945

Introduction to Computer Programming

Grades 5-8

Be creative and have fun! You will learn basic computer programming using Squeak software as you design objects (such as a car) and then give them a series of instructions to follow (such as drive a car in a circle). Whether you know a lot or a little about computers, you will enjoy this course! (Familiarity with computers, use of mouse, keyboard recommended). *(Fee-Based)*

KIDS 947

Writing Workshop

Grades 7+

This writing workshop will expose students to a wide range of writing styles, familiarize students with the writing process, and enhance both the reading and writing skills of the student. Students will share their work and critique each other in a cooperative, nurturing environment. Whether the student is a struggling writer or a highly skilled writer this workshop will benefit them. *(Fee-Based)*

KIDS 950

Chess - It's Your Move

Ages 8+

Want to be King of your own army? Chess is the oldest skill game in the world, played many centuries ago in China, India and Persia. This class will start at the basics and introduce concepts appropriate for every level. Opening, middle game, and endgame theory will be examined along with tactical theory. *(Fee-Based)*

KIDS 951

Clutterology for Kids and Teens

Grades 7-12

From your closet to your locker to finding your homework, we all have stuff, but how do you organize it? Design zones for you to work in, play in and get dressed in. Have fun while you sort, store and simplify. Gain great skills that will last you a lifetime. Book included. *(Fee-Based)*

KIDS 952

Fun with Phonics

Grades 1-2

Children will participate in a variety of meaningful, interactive, and stimulating games and activities to build phonics and spelling skills. In order for children to be successful in beginning reading, they must have a strong phonics foundation. *(Fee-Based)*

KIDS 954

Tutorial: Read, Read, Read

Grades 1-2

Emergent readers will be taught essential reading skills (phonics, basic sight word memorization & comprehension strategies) through the use of word games, poetry, story books, and direct instruction. Limited to 8 students. *(Fee-Based)*

KIDS 960

Art Techniques for Kids!

Ages 4-6

Come make fun and beautiful art! Learn how to use pastels, mix paints, and how to paint on paper, and canvas. We will use our imaginations, photos, and real life to create our own lively works of art! *(Fee-Based)*

KIDS 961

Art Techniques for Kids!

Ages 7+

Come make fun and beautiful art! Learn how to use pastels, mix paints, and how to paint on paper, wood and canvas. We will use our imaginations, photos, and real life to create our own lively works of art! *(Fee-Based)*

KIDS 962

More Spanish For Kids

Ages 5-6

Children have fun with Spanish by doing activities, playing games and singing song. Introduces basic communication about active words, nature, animals, days of the week, food, numbers, house and body. Will include some review of Spanish Kids I. *(Fee-Based)*

KIDS 964

Jewelry Making

Ages 8+

Students will learn to make jewelry with various materials such as paper mache, beads, clay, etc. *(Fee-Based)*

KIDS 965

Bookmaking

Ages 7-10

Students will learn to make various books with different themes using mixed mediums. The books can be used as sketch books or for making up your own stories. *(Fee-Based)*

KIDS 967

Creative Arts and Cultural Crafts Camp

Grades 3-6

Explore the world through art! This class is to inspire and motivate the young artist through the creative discovery of various cultures and their techniques. You will become skilled at painting, collage, drawing and crafts. *(Fee-Based)*

KIDS 969

Make Art Like the Masters Camp!

Ages 8+

Come create beautiful artwork and learn about famous master artists such as Monet, Van Gogh, Picasso and more! We will recreate famous paintings and make works of our own in the style of these talented master artists. *(Fee-Based)*

KIDS 970

Recycled Art Camp

Ages 7+

Let's help the environment and create art. In this class we will be recycling materials such as coffee cans, glass water bottles, and cardboard into vases, candle holders, pencil holders, decorative sketch books, art portfolio cases, and masks. *(Fee-Based)*

KIDS 975

Creating Small Sculptures

Age 8+

Students will learn to make cups, teapots, coffee pots, whimsical animals, vases, mosaics, candleholders using various clays such as modeling and fimo clay, clay hardener. *(Fee-Based)*

KIDS 976

Creating Small Sculptures

Ages 6+

Students will learn to make cups, teapots, coffee pots, whimsical animals, vases, mosaics, candleholders using various clays such as modeling and fimo clay, clay hardener. *(Fee-Based)*

KIDS 980

Draw and Paint Animals

Ages 5+

In this class, you will learn how to draw and paint different animals. You will be using watercolors, colored pencils, markers, crayons to capture textures of animals. *(Fee-Based)*

KIDS 990

Printmaking for Kids

Ages 7+

The young artist in this class will be introduced to various materials and mediums to create their own unique prints. Students will make pictures which can be used to create their own specialized cards, gift paper, or art pieces. *(Fee-Based)*

KIDS 995

Handmade Cards for Different Occasions

Ages 10+

Come learn to make handmade cards for different occasions. Make cards using various materials, such as watercolor paper, paints, felt, fabric, etc. *(Fee-Based)*

KIDS 1010

Modern Masters Art Camp

Ages 7+

Let's create modern art in the style of Andy Warhol, Jackson Pollock, Robert Rauschenberg, and more. We will use various art mediums such as acrylics, tempera, and watercolors. Some of the art techniques we will learn are printmaking, action painting, and collage. Please wear old clothes or bring an apron. *(Fee-Based)*

KIDS 1012

Anime Drawing

Ages 8+

Learn how to draw unique anime fantasy characters and settings. Also learn how to pose and costume the characters. Fantasy characters will be created using colored pencils, markers and watercolors. *(Fee-Based)*

KIDS 1015

Anime Drawing Camp

Ages 8+

Learn how to draw unique anime fantasy characters and settings. Also learn how to pose and costume the characters. Fantasy characters will be created using colored pencils, markers, and watercolors. *(Fee-Based)*

KIDS 1020

Fun With Clay Camp

Ages 7+

Let's make fun clay puppets, plates, dishes, bowls, tiles, animals, and faces! We will be using air-drying clay, polymer clay and paints. *(Fee-Based)*

KIDS 1035

The Art of Sketching & Painting People Camp

Ages 8+

Have you ever wanted to draw realistic people? This is the class for you. We'll learn to draw and paint people on the go, complete figures, real-life clothing, faces, hands, feet, life-like hair, and facial expressions! This class will have you on your way to drawing and painting great pictures of people! *(Fee-Based)*

KIDS 1040

Seasonal Arts and Crafts Workshop

Ages 3-4

A wonderful opportunity for the parent and child to work together creating a seasonal craft project using variety of materials. Children will be encouraged to use their imagination. *(Fee-Based)*

KIDS 1041

Seasonal Arts and Crafts Workshop

Ages 5-7

Create a seasonal craft project using a variety of materials. Children will be encouraged to use their imagination. *(Fee-Based)*

KIDS 1042

Seasonal Arts and Crafts Workshop

Ages 8+

Create a seasonal craft project using a variety of materials. Children will be encouraged to use their imagination. *(Fee-Based)*

KIDS 1043

Seasonal Arts and Crafts Workshop

Ages 6+

Create a fun craft project to keep for yourself or give as a gift. Children will be encouraged to use their imagination. *(Fee-Based)*

KIDS 1045

Beyond Smoothies and More

Ages 7-12

Child and parent will join forces to create a variety of colorful and delicious summer-time drinks. This one day workshop will include demonstration and hands-on participation in the creation of fun summer-time drinks for kids including smoothies and fruit juices beverages. Demonstration will be given on fun fresh fruit garnishes and colorful ice rings. The class will be taught by our vocational bartending instructor and class will be held in our adult bartending classroom. *(Fee-Based)*

KIDS 1050

Write Your Own Newspaper

Grades 4-6

Students will have fun writing their own newspaper. Writing assignments will include interviews, movie reviews, sports features and editorials. *(Fee-Based)*

KIDS 1055

Writers Camp

Grades 5-6

Students will sharpen their writing and critical thinking skills. They will edit short articles, review grammar and punctuations rules, and learn skills used to write paragraphs about a variety of topics. *(Fee-Based)*

KIDS 1060

Poems and Plays

Grades 4-6

Students will learn how to write short plays and present them to the class. *(Fee-Based)*

KIDS 1065

Grammar Rules!

Grades 3-5

This class will review parts of speech, punctuation, and capitalization. A strong foundation in grammar enhances a student's ability to write and speak effectively. *(Fee-Based)*

KIDS 1070

Research Techniques

Grades 4-6

Students will learn techniques for writing a research paper, including choosing a topic, using the Internet, writing an outline, taking notes and writing a draft. *(Fee-Based)*

KIDS 1075

How to Write a Research Paper Camp

Grades 6-8

Students will learn to write a research paper. Topics include finding resources, taking notes, writing an outline, writing and revising a draft, and writing a bibliography. *(Fee-Based)*

KIDS 1080

Science Camp - Earth Science Exploration

Ages 6-9

Children will explore the wonders of earth science. Through hands-on activities, students will investigate mineral and fossil specimens to assemble their own beginning rock collection. Students will build a clay model to discover how volcanoes grow. Learning about geodes and rock formations students will write about their discoveries in their science journal and create their own fossil model. Class size is limited. *(Fee-Based)*

KIDS 1085

Getting Ready for First Grade

Students will participate in a variety of fun and effective Common Core-based activities to review and sharpen their reading (phonics and reading comprehension), writing and math skills. Games, worksheets, music and hands-on projects will be used to review kindergarten skills and introduce Common Core 1st grade standards. *(Fee-Based)*

KIDS 1090

Teen Chef Camp

Ages 13-16

Spend a week with our professional chefs. The Teen Chef Camp at SCE wants you to learn the basic skills of a chef; "mis en place", knife skills, nutrition, safety, sanitation and culinary terminology. Apprentice chefs will embark on a culinary tour that spans the globe as they prepare dishes from start to finish. The day concludes at the chef's table as they discuss and enjoy their daily creations. Bring two dish towels, white apron and a container for leftover food to take home and share. Students must wear black cotton pants, white t-shirts and closed-toe sneakers to class. *(Fee-Based)*

KIDS 1095

Computer Fun for Kindergarten Students

Kindergarten students will have an exciting time enhancing their academic skills, exploring their artistic abilities, and unveiling their never ending imagination, in this computer class. *(Fee-Based)*

KIDS 1105

How to Write a Research Paper

Grades 4 to 6

In this class students will learn the process for writing a research paper. Topics include finding resources, taking notes, writing an outline, writing and revising a draft, and writing a bibliography. *(Fee-Based)*

KIDS 1110

Improve Your Writing

Grades 5 & 6

In this class students will sharpen their writing and critical thinking skills. They will edit short articles, review grammar and punctuation rules, and learn skills used to write paragraphs about a variety of topics. *(Fee-Based)*

KIDS 1145

Tutorial: Trigonometry

Grades 9+

The course is to introduce and study the properties of trigonometric functions. Students will learn the fundamental laws that govern relationships between sides and angles of triangles, various techniques in taking measurements of triangles, graphing trigonometric functions, and using identities in preparation for Calculus. *(Fee-Based)*

KIDS 1150

Pre-Calculus

Grades 10+

This course is designed for preparation into Calculus. Topics range from relations and functions, linear and quadratic functions, polynomials, rational functions, radicals and roots, exponentials and logarithms, conic sections, systems of equations, and sequences/series. *(Fee-Based)*

KIDS 1155

Calculus I

Grades 10+

This course is the first of a three part series of Calculus that is designed as a quick review of the Pre-Calculus functions. Topics covered will include understanding of properties of limits, techniques of finding limits, asymptote, continuity and one-sided limits, and infinite limits. These skills are an excellent preparation for the AP Calculus exam given in May. *(Fee-Based)*

KIDS 1157

Calculus II

Grades 10+

This course is the second of a three part series of Calculus that is designed to build the foundations of limits to learn the concepts of derivatives. Students will be able to learn the definition of a derivative and later use them to solve FOR word problems such as related rates and graphing functions. These skills are a strong preparation for the AP Calculus exam. This class is limited to 8 students. *(Fee-Based)*

KIDS 1160

Arts & Crafts - Beautiful Beads Workshop

Grades 3-5

Come and have fun learning the basics about beading to create your own beautiful bracelet and necklace. Students will learn about the history and traditions of beading all over the world, examine and use beading tools and techniques, and design, plan, and assemble their individual beaded jewelry. Materials included. *(Fee-Based)*

KIDS 1165

English Rules (English-as-Second Language)

Ages 8+

This course is a fun way to learn English. Students will practice English basic grammar, parts of speech, and frequent word vocabulary lists. Emphasis will be on reading and writing concepts through songs, poems, reading, story telling and student journal writing. *(Fee-Based)*

KIDS 1170

Science & Health - the Amazing 5 Senses

Grades 3-4

Students will learn about their 5 senses through fun and hands-on activities and experiments that explore seeing (eye), hearing (ear), smelling (nose), touching (skin, hand), and tasting (tongue). Emphasis on using scientific observational skills, writing in a Science Journal, and how to keep these vital senses healthy through daily care. *(Fee-Based)*

KIDS 1175

Science & Health - Wonderful You

Grades 3 & 4

Students will learn about the wonders within their own bodies by exploring its major systems; nervous (brain/nerves), skeletal (skeleton/bones), muscular (muscles), respiratory (lungs), circulatory (heart), and digestive (stomach/intestines). Engaging and fun activities will focus students on healthy living choices to care for these important systems to stay "wonderful". *(Fee-Based)*

KIDS 1180

Teen Advanced Tennis

High School Level

An accelerated program to review a student's ability to enter a High School Tennis competition. *(Fee-Based)*

KIDS 1185

Spelling and Writing Enrichment

Ages 6-8

If your child has a foundation in basic phonics, then this is the class for him. This class will take students to the next level of spelling words and better writing habits. Students will learn to read and spell words through various spelling patterns. This class will develop skills in writing correct sentences and paragraphs. *(Fee-Based)*

KIDS 1190

Dining and Party Etiquette

Ages 8-12

This fun and informative class provides an overview of good manners and leadership skills. Students will learn social courtesies, introductions, dining and party etiquette. *(Fee-Based)*

KIDS 1200

Teen Etiquette

Ages 13-17

This class will provide a foundation of good manners and leadership skills. Topics include: introductions and handshaking, dining skills, thank you notes, getting up in front of a group and listening skills *(Fee-Based)*

KIDS 1215

ESL - English Language Skills

Ages 5-6

s course is designed for students who are not native speakers of English. This class will help the student advance in the following three areas: 1) Speaking and Listening Skills, 2) Grammar and Writing skills, 3) Reading and Vocabulary skills. *(Fee-Based)*

KIDS 1217

ESL - English Language Skills

Ages 7 -12

This course is designed for students who are not native speakers of English. This class will help the student advance in the following three areas: 1) Speaking and Listening skills, 2) Grammar and Writing skills, 3) Reading and Vocabulary skills. *(Fee-Based)*

KIDS 1225

Singing, Dancing and Storytelling

Ages 2-4

Parent and child will enjoy self-esteem building activities together; singing and dancing, storytelling and art. *(Fee-Based)*

KIDS 1230

Storytelling, Singing and Dancing

Ages 3-5

Your child will enjoy age appropriate self-esteem building activities; storytelling, singing, dancing, and art. *(Fee-Based)*

KIDS 1235

Hands-on Science and Art Camp

Ages 6-9

In this class, children will discover science through hands-on art experiences. Through the use of a variety of mediums and techniques, students will explore, manipulate and realize the intertwined nature of science experimentation and art creation. Fun activities with water and air, light and sight, motion and energy reaction and matter, and nature and earth will help students to learn and enjoy basic scientific concepts. *(Fee-Based)*

KIDS 1240

Cheerleading Workshop

Ages 4-7

Students will learn the fundamentals of cheerleading including; arm motions, jumps, tumbling, cheers and dances. Students will also learn proper warm-up and stretching techniques to improve their flexibility. This class is designed to build self-confidence and give the students the fundamentals of cheerleading skills. Wear comfortable clothing and bring water. Show performance on the last day of class for family and friends. *(Fee-Based)*

KIDS 1243

Cheerleading Workshop

Ages 8-11

Students will learn the fundamentals of cheerleading including; arm motions, jumps, tumbling, cheers and dances. Students will also learn proper warm-up and stretching techniques to improve their flexibility. This class is designed to build self-confidence and give the students the fundamentals of cheerleading skills. Wear comfortable clothing and bring water. Show performance on the last day of class for family and friends. *(Fee-Based)*

KIDS 1246

Cheerleading Workshop

Ages 12-15

Students will learn the fundamentals of cheerleading including; arm motions, jumps, tumbling, cheers and dances. Students will also learn proper warm-up and stretching techniques to improve their flexibility. This class is designed to build self confidence and give the students the fundamentals of cheerleading skills. Wear comfortable clothing and bring water. Show performance on the last day of class for family and friends. *(Fee-Based)*

KIDS 1250

Dance Workshop

Ages 4-7

Dance students will learn the moves and techniques of a variety of dances including ballet, jazz, hip hop, latin, pop and more! Students will learn the fundamental stretches, steps and conditioning for the most popular dances. Short choreography will be presented and practiced throughout the workshop. Please wear comfortable clothing and bring water. A short performance will be conducted on the last day of class. *(Fee-Based)*

KIDS 1253

Dance Workshop

Ages 8-11

Dance students will learn the moves and techniques of a variety of dances including ballet, jazz, hip hop, latin, pop and more. Students will learn the fundamental stretches, steps and conditioning for the most popular dances. Short choreography will be presented and practiced throughout the workshop. Please wear comfortable clothing and bring water. A short performance will be conducted on the last day of class. *(Fee-Based)*

KIDS 1256

Dance Workshop

Ages 12-15

Dance students will learn the moves and techniques of a variety of dances including, ballet, jazz, hip hop, latin, pop and more. Students will learn the fundamental stretches, steps and conditioning for the most popular dances. Sort choreography will be presented and practices throughout the workshop. Please wear comfortable clothing and bring a bottle of water. A short performance will be onducted on the last day of class. *(Fee-Based)*

KIDS 1260

Writing from A to Z

Grades 4-6

Course will provide individual assessments at the beginning and focus on strengthening writing skills through the use of adjectives, adverbs, and introductory adverbial phrases. Paragraph writing skills are developed as well as expository and narrative writing skills. Class size limited. *(Fee-Based)*

KIDS 1265

Tutorial: Geometry - Basics of Geometry

Grades 7+

Geometry-Part I includes basic concepts such as points, lines, planes, and angles. A significant part of the course deals with logic and reasoning, which is an important foundation in constructing proofs. Students will also learn about congruent triangles, quadrilaterals, and inequalities. Class is limited to 8 students. *(Fee-Based)*

KIDS 1267

Tutorial: Geometry - Part II

Grades 7+

The second part of Geometry is learning about congruence, the study of right triangles (including Pythagorean Theorem and special triangles), coordinate geometry, circles, area, and volume. A significant portion of this course will emphasize proofs. Class is limited to 8 students. *(Fee-Based)*

KIDS 1269

Tutorial: Geometry - Part III

Grades 7+

The third course in Geometry is about finding area, volume, and surface areas of solids and various polygons. Further study into circles is also emphasized along with proofs. Class is limited to 8 students. *(Fee-Based)*

KIDS 1270

Solving Word Problems

Grades 3-4

Students will learn 6-10 strategies such as Guess and Check, Make an Organized List, Act it Out, and Work Backwards, to solve different types of math word problems. Enrollment limited to 10 students. *(Fee-Based)*

KIDS 1273

Solving Word Problems

Grade 4+

Are word problems a challenge? Students will review basic math strategies to select data and successfully solve different types of math word problems. Enrollment is limited to 10 students *(Fee-Based)*

KIDS 1276

Solving Word Problems

Grades 6-7

Students will refine data analysis skills, reviewing all basic strategies and learn to select an algebraic strategy when one exists. Efficient use of time will be emphasized. Class can be repeated for additional skill building. Enrollment limited to 10 students. *(Fee-Based)*

KIDS 1280

Introduction to the Martial Arts

Ages 4 -6

Students will be introduced to basic martial arts skills as well as important life skills. Class will enhance your child's coordination and increase your child's confidence. Self Awareness skills and personal safety skills will be covered. Martial arts is a process that will help develop a positive attitude, respect, self discipline and build character. *(Fee-Based)*

KIDS 1285

Tutorial: Solving Word Problems Using Algebra

Grade 7+

This course complements Algebra I where algebraic skills are applied to solve word problems. Students are taught to translate words into equations and solve them in an organized manner. This course is limited to 8 students. *(Fee-Based)*

KIDS 1290

Sing and Learn Chinese for Parent and Child

Ages 0-6

A jump start opportunity for children to learn pronunciation, greetings, and basic Mandarin concepts through music, movements, storytelling and various activities. Class offers a great opportunity for parents wanting to increase their child's social, emotional, interpersonal skills. Parents can also learn along with their own child in a fun setting. *(Fee-Based)*

KIDS 1295

Sing and Learn Chinese for Parent and Child

Ages 0-6

A jump start opportunity for children to learn basic Mandarin vocabularies, simple conversations through songs, movements, storytelling, play, and various activities. Class offers a great opportunity for parents wanting to increase their child's social, emotional, interpersonal skills. Parents can also learn along with their own child in a fun setting. *(Fee-Based)*

KIDS 1300

SAT/ACT Prep - Math

This course is designed for students taking the SAT (Scholastic Aptitude Test) for College Admission purposes. The focus in this course includes review with Numbers/Operations and Algebra/Functions, Geometry, Data Analysis, Statistics, and Probability. *(Fee-Based)*

KIDS 1310

Toy Factory

Grades 1-3

Students will explore, design and build simple, fun toys such as parachutes, rocket launchers, catapults, spinning tops and marble runs. Students will use many everyday, household supplies to build their toys. In the process, students will also learn the science of how the toys work. *(Fee-Based)*

KIDS 1315

Lights...Crafts...Action!

Grades 4-6

This class puts a new twist on arts and crafts! Students will make greeting cards that light up, simple lanterns, flashlights and headlights using paper, cardboard, LED lights and batteries. In the process, you will learn about electricity and circuits. A fun class for both boys and girls! *(Fee-Based)*

KIDS 1320

Introduction to Computer Animation & Games

Grades 5-8

Girls and boys, it's time to be creative and have fun! In this course, you will learn basic computer programming. You will design simple animations and even make your own video game. Whether you know a lot or a little about computers, you will enjoy this course! *(Fee-Based)*

KIDS 1330

Tiny Tots Tumbling

Ages 18m - 3yrs

This class will introduce your child to stretching, locomotor and basic gymnastic skills in a fun and safe environment. Parent/guardian participation required to assist the child through age appropriate progressive gymnastic instruction each week. *(Fee-Based)*

KIDS 1335

Basic Reading Skills

Ages 4-5

This class focuses on developing your child's ability to rhyme and blend sounds in words to become better readers and spellers. We will use "phonemic awareness" techniques that allow children to practice manipulating sounds in words through fun songs and activities. A student assessment and parent packet will be given. Each term has different activities. *(Fee-Based)*

KIDS 1340

Calculus III (Integral Calculus)

Grades 10+

This a third part course in Calculus that focuses on antiderivatives and integration. Students will learn different methods of integration. In addition, these techniques will be used to calculate area and volume of functions. These skills are a strong preparation for the AP Calculus course every May. *(Fee-Based)*

KIDS 1350

Math CAHSEE Test Taking Strategies

Grade 10

Students will get familiar with the California High School Exit Exam (CAHSEE) questions and the necessary strategies to approach them. Students will also learn how to organize their study materials to prepare themselves for the test. *(Fee-Based)*

KIDS 1353

Math CAHSEE Test Taking Strategies

Grades 11-12

Students will get familiar with the California High School Exit Exam (CAHSEE) questions and the necessary strategies to approach them. Students will also learn how to organize their study materials to prepare themselves for the test. *(Fee-Based)*

KIDS 1355

Reading & Writing en Espanol

Grades 5-6

Students will learn the basics about writing and reading in Spanish through easy and fun activities. Spanish grammar and phonics will be emphasized. This class is designed for fluent Spanish speakers. *(Fee-Based)*

KIDS 1357

Reading & Writing en Espanol

Grades 7-8

Students will learn the basics about writing and reading in Spanish through easy and fun activities that will engage them into the learning of the language that they already speak. *(Fee-Based)*

KIDS 1365

Positive Living Skills for Youth

Ages 8-11

This class is geared toward teaching youth, ages 8 - 11, to become more positive, more confident, more skilled at coping with stress, and more focused on their pursuits. Activities encourage students to participate, accept others, and develop cooperation skills while having fun! Class adapted from Terry Orlick's "Feeling Great" program. *(Fee-Based)*

KIDS 1370

Fun with Magnets and Magnetic Fields

Grades 2-6

You will learn about magnets and magnetic fields, and get firsthand experience in determining whether poles of a magnet are the same or different and will repel or attract. Through hands on activities see how magnets repel and cause objects to float in midair as well as hold certain objects in the air without being touched. How strong magnets are and how they make objects move without being touched is also investigated. *(Fee-Based)*

KIDS 1371

Fun with Magnets and Electricity Camp

Grades 2-6

Kids will learn about magnets and magnetic fields. Through hands on activities they can see how magnets repel and cause objects to float in mid air. Experience how series and parallel circuits are made and useful things that electricity and circuits can do. Electricity is "measured" using meters and series and parallel circuits. Attendees will perform experiments to turn electrical currents into magnetic fields. *(Fee-Based)*

KIDS 1375

Jammin' Chemistry

Grades 3-5

Introduces the properties of solids, liquids, and gases. Learn about chemical change when solids and liquids produce gases and temperature changes. Experience chemical change when acids and bases make cabbage juice and goldenrod paper indicators change color. See density changes with the salt volcano, liquid layers, and suspended spheres of oil. *(Fee-Based)*

KIDS 1376

More Jammin' Chemistry Camp

Grades 3-7

Students will learn about chemical reactions between solids, liquids, and gases with a variety of demonstrations. Watch a sea of bubbles erupt from a jar in a reaction of household items. Students will learn about solutions and mixtures and will see how light can be produced by mixing chemicals. *(Fee-Based)*

KIDS 1377

More Jammin' Chemistry

Grades 3-6

Students will learn about reactions of solids, liquids, and gases. Hands-on activities with materials and chemical reactions will be shown in a variety of demonstrations. Color changing chemical reactions with simple and safe materials will be demonstrated. *(Fee-Based)*

KIDS 1380

Popping, Colliding, and Flashy Physics

Grades 3-6

Learn energy transfer by conduction, convection, motion, and light. Explore conduction with color-changing films, amazing ice blocks, and "hand boilers". Experience heat transfer with dry ice and light sticks in hot water. Use the swinging wonder, kinetic yoyos, and an astroblaster to show energy transfer by moving objects. See how fuel makes a miniature steam boat move. Learn about light with radiometers, light-sensitive beads, prisms, and solar cells. *(Fee-Based)*

KIDS 1381

Popping, Colliding, Flashy and Noisy Physics Camp

Grades 3-6

Kids will learn about energy transfer by heat, light, sound, and moving objects. A "hand boiler", dry ice, hot water, light sticks, and color-changing films are used to show energy transfer by heat. Students also learn how fuel is used to do "useful" work using putt putt steam boats. Different types of fuel for vehicles, fires, and people will be discussed. How sound is produced, described, and heard is also shown. *(Fee-Based)*

KIDS 1385

Amazing Air and Water Pressure

Grades 4-5

Learn how air occupies space and exerts pressure and learn about water pressure. Learn that air pressure is equal in all directions and decreases the farther we go away from the Earth's surface. Examples of activities include the classic "Egg in the bottle", Hero's fountain, Cartesian divers, and Bernoulli Bags. *(Fee-Based)*

KIDS 1390

Computer Keyboarding I

Ages 12+

Multimedia software teaches your child the layout of the computer keyboard. Integrated music and puzzle activities make learning the keyboard fun! Enrollment is limited! *(Fee-Based)*

KIDS 1392

Intermediate Water Polo for Kids

Ages 12-14

This course is open to boys and girls age 12-14 who are at an intermediate playing level. This course will feature instruction in ball handling, shooting, passing and conditioning, and team play. *(Fee-Based)*

KIDS 1393

Advanced Water Polo for Kids

Ages 14-17

This course open to boys and girls, will focus on water polo techniques, skills, and conditioning with an emphasis on competition. Optional opportunity to participate in competitions for an additional fee for US Water Polo registration. *(Fee-Based)*

KIDS 1394

Computer Keyboarding II

Ages 8+

This class is for students who can already type but wish to improve their speed and accuracy. Be ready for school projects and research papers. Learn keyboarding through writing exercises including poetry and stories. On the last day of class students will share a creation from class. *(Fee-Based)*

KIDS 1398

Computer Keyboarding II

Ages 12+

This class is for students who can already type but wish to improve their speed and accuracy. Be ready for school projects and research papers. Learn keyboarding through writing exercises including poetry and stories. On the last day of class student will share a creation from class. *(Fee-Based)*

KIDS 1400

Creating Memories

Ages 10+

Using the computer and your own photographs from a special event learn how to create a variety of personalized items from storybooks to cards, calendars and more! Bring scannable photos and a USB flash drive or photos uploaded to a USB flash drive to class. Parents have the option of purchasing a variety of personalized items. Information sheet will be provided in class. *(Fee-Based)*

KIDS 1403

Fun with Digital Education for Kids

Ages 5-7

This class uses online education that combines instruction with fun learning games for children creating interactive learning and fun. Learning games can help students concentrate on language arts, math, science, and social studies skills through an entertaining online curriculum. Fun with Digital Education motivates the student and offers a balance between educational activities and online learning games for kids. The students have freedom to explore in a safe and motivating environment. *(Fee-Based)*

KIDS 1405

Internet Zone

Grades 6-8

When you search for information on the Internet, you are on the World Wide Web (a very large and complex Web of information). In this course, we will explore websites to help you succeed in school, explore your interests, and create your own projects. We will also discuss Internet safety. *(Fee-Based)*

KIDS 1408

Microsoft Word, PowerPoint & Excel for Kids

Ages 9+

This course is for students who know the basics in at least one of the Microsoft applications. Students will learn how Word, PowerPoint and Excel can be used in school projects (reports, presentations) and for personal use (digital scrapbooking, fun signs, presentations and money management spreadsheets). *(Fee-Based)*

KIDS 1410

Guitar for Kids - Songs of the Disney Channel

Ages 9+

Learn to play and sing all the coolest Disney Channel songs of High School Musical, Hannah Montana and the Jonas Brothers. Bring acoustic guitar and medium pick, get ready to rock and become a STAR! Recommended for students who have completed a beginning level guitar class. *(Fee-Based)*

KIDS 1413

Guitar for Kids - Songs of Guitar Hero

Ages 9+

You've mastered the game console - now learn songs from "Guitar Hero III" and "World Tour" on a real guitar! Bring medium pick and acoustic or electric guitar - and get ready to ROCK THE STAGE! Recommended for students who have completed a beginning level guitar class. *(Fee-Based)*

KIDS 1415

Singing is Fun

Ages 6-10

Introduces basic skills for singing in a group ensemble/or choir for young voices. Techniques for breath control, diction, posture will be taught with an emphasis on self confidence and fun! Musical Theatre/Children's theme repertoire. Music/Lyrics included! *(Fee-Based)*

KIDS 1417

Creating a Keepsake Book

Ages 11+

Do you have photographs of a special event like a dance recital or sporting event you would like to have in a keepsake book? Then this class is for you. In the computer lab learn how to upload pictures and artwork in a digital format to create a personal storybook. Select a theme and bring photos to class in a digital format. Tuition includes fee for a 5x7 hardbound book that will be mailed to your home. *(Fee-Based)*

KIDS 1420

Word Wizard (Reading & Writing)

Grades 2-3

This course will provide review and practice activities to build student understanding of basic word structures and strategies that strengthen reading, writing, and spelling skills. Students will create a personal Word Wizard Strategies Chart to use as a reinforcement tool for ongoing success. Class size is limited. *(Fee-Based)*

KIDS 1425

Go Green

Grades 3-6

Everyone is talking about how we all need to GO GREEN. But, what does that really mean? In this course, you will understand what it means and create a plan on how YOU can go green every day. We will also have fun with recyclable crafts and renewable energy projects. Class size is limited. *(Fee-Based)*

KIDS 1427

Tutorial: Probability and Statistics

Grades 7-8

This course is designed for middle school students to learn the basics of probability and statistics. Topics include probability of dependent or independent events, the counting principles, permutations, combinations, and graphing data. Class is limited to 8 students. *(Fee-Based)*

KIDS 1430

Shockingly Fun Electronics

Grades 4-6

Using hands-on demonstrations with manipulatives, learn about electronics and electrical circuits. Experience how series and parallel circuits are made and useful things that electricity and circuits do. Conductors and insulators are demonstrated. Electrospheres and lumin disks are used to demonstrate the concept of electricity. Learn how electricity is "measured". Learn how energy from the sun can be turned into electricity. *(Fee-Based)*

KIDS 1433

Spanish Fun for Mommy, Daddy and Me

Ages 3-4

Parent and child learn Spanish through songs, dancing and games. Introduction to greetings, colors, numbers and body parts. All in a fun way. *(Fee-Based)*

KIDS 1435

Can U Dig It? Volleyball Camp for Beginners

Ages 8-16

This class is geared toward the beginner level youth who is interested in learning the basic fundamentals of volleyball. Conditioning, as well as drills that focus on the necessary skills to play the game, will also be introduced. Students should wear tennis shoes and bring a small towel and water to class. Knee pads are optional. *(Fee-Based)*

KIDS 1438

Can U Dig It? Volleyball Camp for Beginners

Ages 14-16

This class geared toward the beginner level youth who is interested in learning the basic fundamentals of volleyball. Conditioning, as well as drills that focus on the necessary skills to play the game, will also be introduced. Students should wear tennis shoes and bring a small towel and water to class. Knee pads are optional. *(Fee-Based)*

KIDS 1440

Calligraphy Camp

Grades K-2

Learn to write beautifully while having fun! Learn about ancient alphabets and the secrets that past scribes (hand written) had that can make your writing special today. We will make bookmarkers, magnets, thank-you and holiday cards and more! Impress your friends, teachers, mom and dad too! It's easy with today's tools. *(Fee-Based)*

KIDS 1443

Calligraphy Camp

Grades 3-6

Learn to write beautifully while having fun! Learn about ancient alphabets and the secrets that past scribes (hand written) had that can make your writing special today. We will make bookmarkers, magnets, thank-you and holiday cards and more! Impress your friends, teachers, mom and dad too! Its easy with todays tools. *(Fee-Based)*

KIDS 1445

Calligraphy Camp

Grades 7+

Learn to write beautifully while having fun! Learn about ancient alphabets and the secrets that past scribes (hand written) had that can make your writing special today. We will make bookmarkers, magnets, thank-you and holiday cards and more! Impress your friends, teachers, mom and dad too! It's easy with today's tools. *(Fee-Based)*

KIDS 1448

Writer's Workshop Camp

Grades 2-3

In Writer's Workshop, students engage in a supportive environment to review the essential organizing steps of the writing process. Through a series of mini-lessons, students practice pre-writing using brainstorming and graphic organizers, writing a first draft (sloppy copy), revising and editing strategies, and publishing and illustrating final drafts. Class size limited to 12. *(Fee-Based)*

KIDS 1450

Reader's Theater Camp

Grades 2-3

Reading from story scripts, students learn to hear and play with language while exercising their mind, emotions, and tongues together. In a relaxed, fun, and cooperative atmosphere, students practice vital Language Arts skills and abilities; oral reading fluency and expression, listening, and understanding literary elements such as motivation and characterization. Class size limited to 12. *(Fee-Based)*

KIDS 1452

Reading, Writing, Spelling and Math Adventure Camp

Grades 2-3

This class will reinforce reading, writing, spelling and math skills for 2nd and 3rd grade students. In a fun-filled environment the students will learn to write stories, play games and learn skills to enhance their spelling abilities. Math activities will include a variety of games and activities. *(Fee-Based)*

KIDS 1455

Calligraphy

Grades K-2

Learn to write beautifully while having fun! Learn about ancient alphabets and the secrets that past scribes (hand written) had that can make your writing special today. We will make bookmarkers, magnets, thank-you and holiday cards and more! Impress your friends, teachers, mom and dad too! It's easy with todays tools. *(Fee-Based)*

KIDS 1457

Calligraphy

Grades 3-6

Learn to write beautifully while having fun! Learn about ancient alphabets and the secrets that past scribes (hand written) had that can make your writing special today. We will make bookmarkers, magnets, thank-you and holiday cards and more! Impress your friends, teachers, mom and dad too! It's easy with today's tools. *(Fee-Based)*

KIDS 1459

Calligraphy

Grades 7+

Learn to write beautifully while having fun! Learn about ancient alphabets and the secrets that past scribes (hand written) had that can make your writing special today. We will make bookmarks, magnets, thank-you and holiday cards and more! Impress your friends, teachers, mom and dad too! It's easy with today's tools. *(Fee-Based)*

KIDS 1461

Calligraphy II

Grades 1-3

Learn more about writing with Chancery style! Have fun practicing a whole new alphabet and make some beautiful art/craft projects (ornamental capitals, gift bags, birthday cards and more!) Learn more about calligraphy and graphic art tools that add gold, silver and glitter to your work (the ancients called it illumination). Inspire your student to write more beautifully! *(Fee-Based)*

KIDS 1463

Calligraphy II

Grades 3-6

Learn more about writing with Chancery style! Have fun practicing a whole new alphabet and make some beautiful art/craft projects (ornamental capitals, gift bags, birthday cards and more!) Learn more about calligraphy and graphic art tools that add gold, silver and glitter to your work (the ancients called it illumination). Inspire your student to write more beautifully! *(Fee-Based)*

KIDS 1465

Calligraphy II

Grades 7+

Learn more about writing with Chancery style! Have fun practicing a whole new alphabet and make some beautiful art/craft projects (ornamental capitals, gift bags, birthday cards and more!) Learn more about calligraphy and graphic art tools that add gold, silver and glitter to your work (the ancients called it illumination). Inspire your student to write more beautifully! *(Fee-Based)*

KIDS 1470

Fashion Illustration Camp

Ages 12+

Calling all aspiring fashion illustrators. In this class you will complete a fashion figure with collars, blouses, skirts, pants, and hats. Learn to draw proportional figures and faces, as well as gesture drawings. Fashion figures will be created using watercolors, colored pencils, markers, and pens. Illustrate different textures of fabrics. Also create accessory and shoe illustrations and flats of garments. Special supplies required, pick up list in office. *(Fee-Based)*

KIDS 1473

Window into the World of Magic

Ages 9+

Learn about the history of magic and famous magicians. See magic, memorabilia and magic books. Share the mystery of magic and learn tricks and terms of the trade. Work on developing your own magic show to amuse and amaze others. Enjoy the magic hobby. *(Fee-Based)*

KIDS 1475

Getting Ready for Third Grade

Summer is very long! Keep your child at the top of the class and ready for fall. This camp will review Common Core 2nd grade skills including reading, math, and writing through learning centers and fun activities. Students will also be introduced to beginning 3rd grade skills using the Common Core standards. *(Fee-Based)*

KIDS 1480

Beginning Group Guitar 1

Ages 8-9

Students will learn the basics of rhythm, note reading, tablature reading and some chords. Technical exercises will be introduced to help develop control of the instrument. Students should bring an Acoustic Guitar (nylon string preferred) to class each week. Enrollment limited to eight students. Hal Leonard Guitar Method Book I required. *(Fee-Based)*

KIDS 1481

Beginning Group Guitar 1

Ages 10-13

Students will learn the basics of rhythm, note reading, tablature reading and some chords. Technical exercises will be introduced to help develop control of the instrument. Students should bring an Acoustic Guitar (nylon string preferred) to class each week. Class size limited to eight students. Hal Leonard Guitar Method Book I. *(Fee-Based)*

KIDS 1482

Beginning Group Guitar 1

Ages 14-17

Students will learn the basics of rhythm, note reading, tablature reading and some chords. Technical exercises will be introduced to help develop control of the instrument. Students should bring an Acoustic Guitar (nylon string preferred) to class each week. Class size limited to eight students. Hal Leonard Guitar Method Book I. *(Fee-Based)*

KIDS 1483

Beginning Group Guitar 2

Ages 8-9

Students will elaborate further on the basics of rhythm, note reading, tablature reading and some chords. Intermediate Technical exercises will be introduced to further help develop control of the instrument. Students should bring a Acoustic guitar (nylon string preferred) to class each week. Class size limited to 8 students. Hal Leonard Guitar Method Book I required. *(Fee-Based)*

KIDS 1484

Beginning Group Guitar 2

Ages 10+

Students will elaborate further on the basics of rhythm, note reading, tablature reading and some chords. Intermediate Technical exercises will be introduced to further help develop control of the instrument. Students should bring a Acoustic guitar (nylon string preferred) to class each week. Class size limited to 8 students. Hal Leonard Guitar Method Book I required. *(Fee-Based)*

KIDS 1490

Sounds Funtastic

Grades 2-4

Experience concepts of how sounds are made and learn about pitch and tones. Experiment with groan tubes, talkie tapes, boomwhackers, and springs to understand how sounds originate and travel from vibrating objects to our ears. Learn which materials transmit sounds and which do not. *(Fee-Based)*

KIDS 1493

Layers of the Ocean and the Creatures that Live in the Ocean

Grades 1-3

Learn the layers of our oceans and the creatures living in the ocean (sharks, whales, dolphins, electric eels, jelly fish, bioluminous fish, oceanographers and more). We will use plastic creatures of the sea to create a large display of the ocean, explore books, play games and learn about ocean wonders. *(Fee-Based)*

KIDS 1495

Layers of the Ocean and the Creatures that Live in the Ocean

Grades 4-6

Learn the layers of our oceans and the creatures living in the ocean (sharks, whales, dolphins, electric eels, jelly fish, bioluminous fish, oceanographers and more). We will use plastic creatures of the sea to create a large display of the ocean, explore books, play games and learn about ocean wonders. *(Fee-Based)*

KIDS 1500

"Junior Idol" Summer Camp

Ages 9-12

Will you be the next "Junior Idol"? Perfect your art in this informative and fun summer camp. Refine your presentation both vocally and choreographically. The week will culminate in an opportunity to perform before our panel of judges as well as family and friends. Students should bring music in CD form for the song you wish to perform. *(Fee-Based)*

KIDS 1503

"Junior Idol" Summer Camp

Ages 13+

Will you be the next "Junior Idol"? Perfect your art in this informative and fun summer camp. Refine your presentation both vocally and choreographically. The week will culminate in an opportunity to perform before our panel of judges as well as family and friends. Students should bring music in CD form for the song you wish to perform. *(Fee-Based)*

KIDS 1505

Dance Like the Stars Camp

Ages 13+

Come have fun and experience the ballroom dancing craze. This class will cover four basic styles of dance: Swing, Fox-Trot, Waltz and Cha Cha. Students should wear comfortable closed toe shoes. *(Fee-Based)*

KIDS 1510

Baking Basics!

Ages 8-11

Have fun learning the basics of baking. Register for a single class or the entire series. Students will learn about and use basic kitchen tools. Safety, cleanliness and working with others will be emphasized. Bring an apron to class and a towel for clean-up and a container for leftovers. Check if there are additional supplies required each week. *(Fee-Based)*

KIDS 1512

Baking Basics!

Ages 12+

Have fun learning the basics of baking. Register for a single class or the entire series. Students will learn about and use basic kitchen tools. Safety, cleanliness and working with others will be emphasized. Bring an apron to class and a towel for clean-up and a container for leftovers. Check if there are additional supplies required. *(Fee-Based)*

KIDS 1515

Public Speaking for Children

Ages 8-12

Learn the skills to confidently present a book report or a speech in front of class. Gain the skills to plan, write and give a book report or a planned speech. Learn tips to combat stage fright, project your voice, and be comfortable in front of a group. *(Fee-Based)*

KIDS 1520

AP Biology Prep

Grade 9+

Nervous? Excited? Wondering what to expect in AP Biology? If you will be taking Advanced Placement Biology in the Fall, then this Camp is for you! We will cover many concepts critical in succeeding in AP Biology. You will complete some of the same labs that occur in a real AP Biology class. You will also learn how to enhance your test taking skills and have fun doing so. *(Fee-Based)*

KIDS 1525

AVID Enrichment - Social Science Focus

Grades 7+

The primary focus of the Advancement via Individual Determination (AVID) Enrichment program with Social Science Focus is to allow students the opportunity to study in-depth a variety of the best thinkers, scientists, artists and explorers whose work has greatly effected the course of human history. *(Fee-Based)*

KIDS 1530

Pee Wee Soccer Beginning High

Ages 4-6

This course is designed to continue teaching the soccer skills like simple shoelace kicking, trapping and receiving. A variety of soccer games will be used to help the students become confident kicking and passing the soccer ball. Bring a # 4 Soccer Ball to class. *(Fee-Based)*

KIDS 1533

Pee Wee Soccer Intermediate Low

Ages 6-8

This course is designed to teach and or improve kicking techniques for continuing and new students. Children will learn kicking the ball with the inside of the foot, shoelace, and exterior foot. Ball control and team work will be developed through a variety of soccer games. *(Fee-Based)*

KIDS 1535

Pee Wee Soccer Intermediate High

Ages 6-8

A combination of games will be used to continue improving the technical and tactical soccer skills. How to kick with different parts of the foot, to trap and receive the ball, to dribble with the shoelace, inside/outside the foot and to do a simple juggle will be the primary focus. *(Fee-Based)*

KIDS 1540

Parent and Me Swimming

6 month to Age 4

This course is intended to introduce pool water to our young students. Each student must be supervised by a parent or guardian who will be instructed in the water by our swim staff instructor. The same parent or guardian must attend each week. Skills introduced at this level are: backyard pool safety, bubble blowing, submerged face, front supported kicking, supported back floating, underwater exploration and arm reaching to the side of the pool. *(Fee-Based)*

KIDS 1545

Summer Swim

Ages 5-17

The Summer Swim Program is designed for students ages 5 - 17. Primary emphasis will be on the safety of students and staff while creating a fun learning atmosphere. Students will be evaluated on the first day of class and placed in a class for their age and appropriate skill level. Pool safety, student and parent/guardian responsibility is introduced on the first day of instruction. Levels of swim included in these classes will be: Beginner, Advanced Beginner, Intermediate Swimmer and Swimmer. *(Fee-Based)*

KIDS 1550

Beginning Water Polo

Ages 7+

Water polo is a fun game for both girls and boys. Students will learn the basic skills and rules of the game and team work. Water polo is a team game that includes swimming, passing and shooting, team offensive and defensive strategy. *(Fee-Based)*

KIDS 1555

Junior Life Guards

Ages 11-14

The Junior Guard Program is a Red Cross approved program. Give your youth a jump start into a Lifeguarding job. Completion of this course sets a foundation for life guarding and life skills. Students will focus on improving swim strength, endurance, and prevention of aquatic accidents, response in an emergency, leadership skills and professionalism of a life guard. *(Fee-Based)*

KIDS 1560

Pre-Competitive Swim

This class is designed to train and fine tune all competitive swim strokes, turns and competitive racing starts off the starting blocks, increase endurance and strength. With the completion of this course the student will master the skills needed to compete on a swim team. Students must have completed the intermediate swim level to register for this class. *(Fee-Based)*

KIDS 1565

Beginning Spring Board Diving

Skills presented in this class: land drills on frontal three step approach, three step approaches on spring board, front dive, back dive and pool and diving safety. Students must have completed the advanced beginning swim level to register for this class. *(Fee-Based)*

KIDS 1567

Jammin' Chemistry Camp I

Grades 3-5

This Camp will explore the density of solids, liquids, and gases in extended activities. The definition and magic of density will be explained with demonstrations and hand-on projects. *(Fee-Based)*

KIDS 1569

Jammin' Chemistry Camp II

Grades 3 - 5

Introduces properties of solids, liquids, and gases as they react to produce different materials. Experiment with physical change where materials dissolve in other liquids. Experience chemical change with demonstrations and hand-on projects. *(Fee-Based)*

KIDS 1570

Directive Drawing of Animals for the Beginning Artist Camp

Ages 4-10

Become a more confident artist by learning drawing skills through step by step instructions. The basic elements of art, with the practice of following directions will produce a higher quality product. Supplies provided. *(Fee-Based)*

KIDS 1572

Draw and Paint Animals

Ages 8+

Students will learn how to draw and paint different animals using various art materials such as oil pastels, watercolors, colored pencils, markers and crayons to capture textures of animals. *(Fee-Based)*

KIDS 1575

Sing What's on Your I-Pod

Ages 13-17

This is a performance based class where students explore what they already love..singing music that is on their I-Pods. Through group instruction and guidance, they will learn the art of performance in front of their peers. Class time will be spent learning technique for singing and performing their favorite songs with karaoke accompaniment from the internet. A learning environment that is supportive and encouraging will be modeled and expected. Performance in last class. *(Fee-Based)*

KIDS 1600

Basic Hand Sewing for Kids

Grades 4-6

Come learn the basic tools and techniques in hand sewing! Great skills needed for everyone! Boys are welcome. We will complete three projects utilizing skills from threading a needle to completing a project with embellishments. Supply sheet available the first day of class. *(Fee-Based)*

KIDS 1602

Basic Hand Sewing for Kids

Grades 6-8

Come learn the basic tools and techniques in hand sewing! Great skills needed for everyone! Boys are welcome. We will complete three projects utilizing skills from threading a needle to completing a project with embellishments. Supply sheet available the first day of class. *(Fee-Based)*

KIDS 1605

Art from Around the World

Ages 8+

Come join our adventure as we explore art from around the world! We will create fun and unique art with influences from Mexico, Africa, Europe, Asia and the Mediterranean. Learn how to do paper mache, mosaics, painting and more! Materials will be provided. *(Fee-Based)*

KIDS 1615

Beginning Band Instruments

Grades 5-8

Beginning Instruments class is open to anyone wanting to learn to play a wind or percussion instrument. No experience necessary. Learn proper care, sound production and music reading. A concert will be presented on the last day of class. *(Fee-Based)*

KIDS 1620

Introduction to Computer Animation

Grades 5-8

Girls and Boys...It's time to be creative and have fun! In this course, you will learn basic computer programming as you design animations. Whether you know a lot or a little about computers, you will enjoy this course! All students must bring a flash drive, notebook and pencil to each class. *(Fee-Based)*

KIDS 1625

Introduction to Computer Animation

Grades 2-4

Girls and Boys...It's time to be creative and have fun! In this course, you will learn basic computer programming as you design animations. Whether you know a lot or a little about computers, you will enjoy this course! *(Fee-Based)*

KIDS 1627

Computer Game Design

Grades 5-8

This course will allow students to design their own computer game. Students will learn, in depth, how to use variables, conditional statements and other controls to create a game that accepts user input and presents a challenge. This class is for those who have completed the "Introduction to Computer Animation & Games" or "Introduction to Computer Animation." *(Fee-Based)*

KIDS 1630

Games Galore - From the Past for Friends and Family Fun

Grades 1-3

Students will learn about and play games from all different times in American History. *(Fee-Based)*

KIDS 1632

Games Galore - From the Past for Friends and Family Fun

Grades 4+

Students will learn about and play games from all different times in American History. *(Fee-Based)*

KIDS 1635

Let's Learn Music

Ages 7-11

Group instruction in the basics of music theory. Students will learn notes and recognize musical terminology through the use of games, puzzles, and rhythm instruments. Students will be introduced to sight reading skills. *(Fee-Based)*

KIDS 1640

Awesome Air and Water Pressure

Grades 3-6

In a series of hands-on experiments students learn that air occupies space and exerts pressure. Air pressure is exerted equally in all directions and air pressure decreases the farther we go from the Earth's surface. Kids also learn that air pressure can be used to tell how far from the Earth's surface an airplane is. Examples of activities include the classic "Egg in the bottle" trick, Hero's fountain, Cartesian divers, and the Bernoulli Bag. *(Fee-Based)*

KIDS 1645

Artsy T-shirts

Ages 12+

Let's make some fun, funky, and unique T-shirts! Learn how to use fabric paint, fabric pastels, fabric markers and silk screen. Bring your own T-shirt to decorate. *(Fee-Based)*

KIDS 1650

Water Soluble Oil Painting

Ages 10-13

In this fun class, students will learn color mixing, color value, still life, abstract art, landscape, and portraiture using water soluble oil paints. Please wear an old T-shirt, apron, or smock. *(Fee-Based)*

KIDS 1657

Exploring My World Through Science: Parent and Me

Ages 3-4

Naturally, children love to explore, observe and play with the world around them. In this class, parents and their children will engage in songs, dance, storytelling, hands-on play and crafts that emphasize science concepts such as: the five senses, mixing colors, caring for nature, recycling, gravity, solids and liquids. Each class, children will leave with crafts to take home and further enhance the learning. *(Fee-Based)*

KIDS 1658

Exploring My World Through Math & Science

Ages 3-4

Naturally, children love to explore, observe and play with the world around them. In this class, parent and child will engage in songs, dance, storytelling, hands-on play and crafts that emphasize science and math concepts. Topics covered will include the five senses, caring for nature, mixing colors, gravity, solids, liquids, shapes, numbers, counting, matching, sorting and patterns. *(Fee-Based)*

KIDS 1659

Exploring My World Through Math: Parent and Me

Ages 3-4

Naturally, children love to explore, observe and play with the world around them. In this class, parents and their children will engage in songs, dance, storytelling, hands-on play and crafts that emphasize math concepts such as: shapes, numbers, counting, matching, sorting and patterns. Each class, children will leave with crafts to take home and further enhance the learning. *(Fee-Based)*

KIDS 1670

Art Experiences for Children

Ages 4-10

This class encourages small muscle development, independence, creativity and fun! The "process not product" is emphasized. All artistic endeavors have merit. All artists are unique. Each session has different materials. Please have children wear old clothes. No supplies needed. *(Fee-Based)*

KIDS 1680

Digital Art for Kids

Grades 4-8

Learn easy techniques for creating digital art using the computer. The course will cover digital painting, drawing cartoons with basic shapes, and turning photographs into art. This class is a fun way for students to improve their concentration and technology skills for Smarter Balance testing. USBC flash drive required. *(Fee-Based)*

KIDS 1685

Youth Ballet

Ages 11+

This class is designed with the pre-teen/teen age dancer in mind. Class will focus on barre, center and across the floor work found in a traditional ballet class. Proper use of ballet vocabulary and technique is emphasized. Students will perform a short dance at the end of the Fall, Winter and Spring sessions only. Ballet slippers are required. *(Fee-Based)*

KIDS 1690

Grammar For Success

Grades 7-10

This class will review parts of speech, sentence structures, noun-verb agreement, prepositional phrases, and clauses. It will then move into more complex grammatical structures, such as participles, gerunds and infinitives. A strong foundation in grammar enhances a student's ability to write and speak effectively. *(Fee-Based)*

KIDS 1700

Tutorial: Geometry I - The Basics

Grades 7+

Topics covered in this introductory course are: patterns and inductive reasoning; points, lines, and planes; segments/angles and their measures/bisectors; and angle-pair relationships. *(Fee-Based)*

KIDS 1702

Tutorial: Geometry II - Reasoning and Proof

Grades 7+

The Geometry II is about logic, reasoning, and developing proofs. Students will learn to structure two-column proofs and prove segment/angle relationships. *(Fee-Based)*

KIDS 1704

Tutorial: Geometry III - Perpendicular and Parallel Lines

Grades 7+

Geometry III is studying properties of parallel and perpendicular lines. Also, students will learn ways to prove how lines are parallel and forming equations with given situations. *(Fee-Based)*

KIDS 1706

Tutorial: Geometry IV - Triangles

Grades 7+

Geometry IV will cover a triangle in depth. Topics include congruence, classifying triangles, coordinate proof, perpendiculars and bisectors, medians and altitudes, midsegment theorem, and inequalities. *(Fee-Based)*

KIDS 1708

Tutorial: Geometry VI - Circles & Polygons

Grades 7+

This course will discuss properties of circles and polygons. Circle topics include area, circumference, and applying arcs, angles, and segments. Topics in polygons include finding area and angle measures. Class is limited to 8 students. *(Fee-Based)*

KIDS 1710

Drama for Imagination

Ages 3-4

Discover marvelous journeys in a creative drama workshop designed to increase the imagination of boys and girls. Children will explore and analyze life characters. A fantasy world will be created and enacted. Do not miss this magical moment of make believe, learning and having fun. Each session is new and offers creative dramatic play. Family and friends are invited for the final "play-let". *(Fee-Based)*

KIDS 1712

Drama for Imagination

Ages 5-6

Discover marvelous journeys in a creative drama workshop designed to increase the imagination of boys and girls. Children will explore and analyze life characters. A fantasy world will be created and enacted. Do not miss this magical moment of make believe, learning and having fun. Each session is new and offers creative dramatic play. Family and friends are invited for the final "play-let". *(Fee-Based)*

KIDS 1715

Multi-Cultural Dance & Music for Parent and Child

Ages 6 -18 months

Each week students will explore basic dance movements with music from a different perspective. They are encouraged to use their vocals to create sounds and their body to create movement. We will be exploring multi-cultural music and dance from around the world. Emphasis is on movement, rhythm, beats and having fun. Family and friends are invited for the final creative dance. *(Fee-Based)*

KIDS 1717

Multi-Cultural Dance & Music

Ages 2-4

Each week students will explore basic dance movements with music from a different perspective. They are encouraged to use their vocals to create sounds and their body to create movement. We will be exploring multi-cultural music and dance from around the world. Emphasis is on movement, rhythm, beats and having fun. Family and friends are invited for the final creative dance. *(Fee-Based)*

KIDS 1720

Puppetry & Storytelling

Ages 3-4

Discover the benefits of using puppets to enhance storytelling. Students will be introduced to basic puppet making and movements. This workshop encourages students to create and express their thoughts and emotions effectively. Family and friends are invited to final demonstration prepared by students. *(Fee-Based)*

KIDS 1722

Puppetry & Storytelling

Ages 5-6

Discover the benefits of using puppets to enhance storytelling. Students will be introduced to basic puppet making and movements. This workshop encourages students to create and express their thoughts and emotions effectively. Family and friends are invited to final demonstration prepared by students *(Fee-Based)*

KIDS 1725

Tutorial: Algebra 2 - Conic Sections

Grades 8+

This section of Algebra II covers the conic sections (parabolas, circles, ellipses, and hyperbolas). Students will learn how to use the quadratic formula and complete the square. Class is limited to 8 students. *(Fee-Based)*

KIDS 1727

Tutorial: Algebra 2 - Matrices and Determinants

Grades 8+

This course focuses on solving systems of equations with various methods. Topics include elimination/substitution method, matrix operations/properties, and finding determinants. *(Fee-Based)*

KIDS 1730

Photoshop for Teens Camp

Grades 9-12

Have fun creating the coolest images using Photoshop Elements. Learn to use simple layering, masking, and filtering tools to combine multiple photos to create images that will wow your friends. Student must bring a USB flash drive to every class meeting. Several projects will be completed in class and students will take home one mounted print of their work. *(Fee-Based)*

KIDS 1735

Guitar for Kids - Intermediate

Ages 6-8

Continue building on the fun progress of the beginning class with more chords, strumming, melodies and singing. Bring your nylon-string or acoustic steel-string guitar and medium guitar pick to class. Parents, please accompany children to class. *(Fee-Based)*

KIDS 1740

Comic Strip Adventures with Photoshop

Grades 4 - 8

In this class you will learn the art of making comic strips using Photoshop. You're adventure begins as you dive into the process of creating your very own strip using storyboarding and scriptwriting techniques. Students have the option of purchasing a keepsake class comic book. *(Fee-Based)*

KIDS 1745

Improve Your Math Skills (Math Saturdays)

Grades 7-8

This FREE course will cover a variety of math topics covered in grades 7 & 8. Topics presented may include fractions, decimals, exponents, variables, order of operation, graphing, square roots, rational numbers, solving equations, Pythagorean Theorem, mathematical reasoning. Class may be repeated. Students may bring in homework examples. This class will prepare students for higher levels of math. *(Fee-Based)*

KIDS 1750

Improve Your Math Skills (Math Saturdays)

Grades 9-10

This FREE course will cover a variety of foundational math topics taught in Grades 9 & 10. Math concepts will be reviewed and new concepts introduced to help prepare students for higher levels of math. Class may be repeated. Students may bring in homework examples. Topics presented may include solving equations and finding values, probability, statistics, translating the problem into equations with variables, graphing and more. *(Fee-Based)*

KIDS 1755

Guitar for Kids- Advanced

Ages 9+

Welcome to advanced guitar. Have fun and learn the blues, barre chords, scales, and new patterns of strumming and picking familiar chords. All the while, learn modern songs from your favorite bands. *(Fee-Based)*

KIDS 1760

Fun with Multiplication Facts

Grades 3+

Are you struggling to remember the multiplication tables? In this class students will participate in activities and games to learn and practice multiplication facts. Class size limited. *(Fee-Based)*

KIDS 1769

Beginner Swimming

Ages 5-10

This class is for students learning to swim. Skills that must be mastered at this level to advance include: holding breath for 10 seconds, prone float, back float, prone glide, prone glide with flutter kick, front crawl arm stroke with rhythmic breathing, back glide, back glide with a kick, turn over, deep water jump, front dive level off and safety skills. Water safety emphasized. *(Fee-Based)*

KIDS 1770

Beginner Swimming

Ages 11-17

This class is for students learning to swim. Skills that must be mastered at this level to move to advanced beginner include: holding breath for 10 seconds, prone float, back float, prone glide, prone glide with flutter kick, front crawl arm stroke with rhythmic breathing, back glide, back glide with a kick, turn over, deep water jump, front dive level off and safety skills. Water safety emphasized. *(Fee-Based)*

KIDS 1771

Beginner Swimming

Ages 12-17

This class is for students learning to swim. Skills that must be mastered at this level to move to advanced beginner include: holding breath for 10 seconds, prone float, back float, prone glide, prone glide with flutter kick, front crawl arm stroke with rhythmic breathing, back glide, back glide with a kick, turn over, deep water jump, front dive level off and safety skills. Water safety emphasized. *(Fee-Based)*

KIDS 1772

Advanced Beginner Swim

Ages 5-17

The class is for students who successfully completed the Beginner requirements. This includes holding breath for 10 seconds, prone and back floats, prone glide, prone glide with flutter kick, front crawl arm stroke with rhythmic breathing, back glide with kick, turn over, deep water jump, front dive level off and safety skills. Students taught survival float, treading water, backstroke, front dive and underwater swimming. Water safety emphasized. *(Fee-Based)*

KIDS 1774

Intermediate Swimmer

Ages 5-17

This class is for students who have completed class requirements for the beginner swimming level. Students will learn the scissor kick, front crawl for 20 yards with rhythmic breathing, 5 minute survival float, 1 minute treading water, 10 yards of skulling, 20 yards of backstroke, elementary backstroke, breaststroke and sidestroke, and 100 yards of any taught stroke. Water safety rules emphasized. *(Fee-Based)*

KIDS 1776

Swimmer

Ages 5-17

This class is for students who have completed class requirements for the beginner, and intermediate swimmer level. To pass this level students must be able to swim 100 yards of the front crawl, elementary backstroke, side stroke, and back stroke, 50 yards of the butterfly stroke, 25 yards of the butterfly pull, 25 yards of dolphin kick, front surface dive, front and back turns, survival float with clothes and water disrobing. Water safety will be emphasized. *(Fee-Based)*

KIDS 1778

Open Swim Lab/Lap Swim

Ages 8+

This class provides an opportunity for students to improve their swimming skills. Water safety will be emphasized. Lanes will be available for lap swimming. *(Fee-Based)*

KIDS 1790

LEGO Robotics Camp

Ages 8-12

This course introduces student to the concepts of da Vinci robotics using LEGO products to design, build and operate a robot. *(Fee-Based)*

KIDS 1791

LEGO Robotics Camp

Ages 13 - 17

This course introduces student to the concepts of da Vinci robotics using LEGO products to design, build and operate a robot. *(Fee-Based)*

KIDS 1795

Engineering of Aerospace Camp

Ages 13-17

This course introduces students to the concepts of aerospace design and production that includes design and building of airplanes (both jet and propeller), rockets, space vehicles, hot air balloons, helicopters and other mechanical flying machines. *(Fee-Based)*

KIDS 1797

Engineering of Cities Camp

Ages 13 -17

This course introduces students to the concepts of civil engineering and production that includes design and building of tunnels, bridges, buildings and skyscrapers. *(Fee-Based)*

KIDS 1799

Animation Flix Camp

Ages 7 - 13

This course allows students to brainstorm movie ideas, create their own characters made from clay, glass stones, and other media, and film a stop-action movie using a green screen backdrop. Students will develop a brief movie plot, create their sets, film their movie and add voice-overs. All Flix are available for download a month after the course ends. *(Fee-Based)*

KIDS 1800

Math Prep for 4th Grade

This course provides preparation for 4th Grade by reviewing the Key concepts from 3rd Grade Math Standards: Place Value, Addition and Subtraction with Regrouping (2 and 3 digits), Multiplication and Division Facts (Tables), Multiplying by Two-Digit Numbers, Dividing with Remainders, Knowing Relation and Comparison Symbols, Estimating and Rounding, Identifying Fractions, Identifying Simple Patterns, Solving Word Problems, Interpreting and Creating Bar Graphs, Sequencing of Events, Elapsed Time and Telling Time in 5 Minute Intervals, Counting Mixed Amounts of Money, and Measurement using Standard Units. Class size is limited. *(Fee-Based)*

KIDS 1805

Comprehensive Geometry

Grades 8+

Geometry includes concepts such as points, lines, planes, and angles. This course focuses on reasoning and logic, which are essential building blocks for geometric proofs. Students will learn about logical reasoning, parallel lines, congruent triangles, and properties of quadrilaterals. This class is for students who have completed Algebra I. There will be assignments and quizzes! *(Fee-Based)*

KIDS 1810

SAT Reasoning Test - Math Section

Grades 9+

This course will prepare students for the SAT Reasoning Test Math section. Specific test-taking strategies will be given as well as academic instruction. Topics covered will include test structure, number and operations, geometry, algebra and functions, and data analysis. Students will emerge completely prepared to take the math portion of the SAT. Practice tests will be given. *(Fee-Based)*

KIDS 1815

Sea Animal Adventures

Grades 1-2

Come explore under the sea. Children will learn fascinating facts about a different sea animal each day including sharks, whales and octopus. Children will also complete a daily hands-on art project to bring home. *(Fee-Based)*

KIDS 1820

Know Your World: Maps and Geography

Grades 3-5

Learn interesting facts about our country and world. Make your own maps. Discover where you can find the highest and lowest places in the United States and the World. *(Fee-Based)*

KIDS 1825

Designing with Science

Grades 4-6

Students will be given challenges to design and build prototypes (such as a toy ball launcher) using simple materials. Students will learn about the design process and the science behind their designs. They will also enhance collaboration and presentation skills as they work in teams and present their designs. *(Fee-Based)*

KIDS 1830

Hands-On Biology

Grades 6-9

In this class, you will learn and explore basic biology concepts through fun, hands-on activities and labs, such as finding the calories in your favorite snacks. If you already like biology, you will learn to like it more! If you thought biology was boring, this will change your mind! *(Fee-Based)*

KIDS 1835

Tots Tumbling II

Ages 3-5

This course is for the continuing gymnasts who are ready to learn without mom or dad. Gymnasts will learn more advanced gymnastic skills including cartwheels, headstands, handstands, backbends and pommel horses on the bar. Students must have a pass certificate from Moms, Pops, and Tots Tumbling. *(Fee-Based)*

KIDS 1840

Stop Motion Animation

Ages 8-15

Freshi Stop-Motion Animation is a hands-on immersive experience that gives kids a chance to create an animated film. Young students decide how they will create their character (construction paper cut outs, Lego Figures, Action figures, etc.) and then imagine, plan, shoot and edit their own films. *(Fee-Based)*

KIDS 1842

Digital Video Game Design

Ages 8-15

This is a hands-on immersive program that allows kids to develop, design, debug and distribute their own 2-D games. Using special software, students create their own game without having to learn actual programming. They can also put their own music, video, animations and photos into their games with a simple click. *(Fee-Based)*

KIDS 1844

Digital Film Making

Ages 8-15

FRESHi Film Camp is a hands-on introduction to digital film making. You are front and center as the film maker. Gain experience in all aspects of production: including writing, shooting, scoring, editing and screening your own film. Work in small groups and experience all aspects of production. Under the guidance of professional film makers, you will pitch, plan, shoot, edit, screen, score and even copyright your movies! Learn to tell your own stories and share them with the world. *(Fee-Based)*

KIDS 1846

Digital Music Mixing

Ages 8-15

Children will use professional music mixers and software to create their own music. Song structure, editing and mastering techniques are all taught. Children learn different beat methods, how to add instruments and vocal tracks and how to structure lyrics. Don't just play tunes. Play your own music. *(Fee-Based)*

KIDS 1848

Screenwriting

Ages 8-15

A totally hands-on immersive experience where students work with professional screenwriters to create and write their own short screenplays. Students are introduced to and use "Final Draft" screenplay software. Students can work in groups or individually to write screenplays. *(Fee-Based)*

KIDS 1850

Adventures in Web Page Creations

Grades 4-6

Hey kids! Have you ever wanted to create your very own cool website to share with friends and family? Here is your chance to build incredible drag-and-drop web pages using free hosting sites on the internet. You will learn how to add pictures, video, text, game widgets and lots more! *(Fee-Based)*

KIDS 1855

"Dog Gone" Good Time

Grades 3-6

Explore the world of dogs. Read and hear stories about famous dogs. Visit with live dogs in training to be GUIDE DOGS. Use dog puppets, stuffed animals and games with dogs. Dog training tips, vocabulary and seeing things from a dog's eye view. *(Fee-Based)*

KIDS 1860

Comics and Superhero Fun

Grades 3-6

Explore the history and origins of superheroes. Participate in a Superman Day, A SPIDERMAN DAY and create scenarios with action figures. Read and act out comics from the early days. Play games with superhero themes, create your own superhero or comic book. Share comic memorabilia. *(Fee-Based)*

KIDS 1870

People From the Past Camp

Grades 4-6

Come join the fun as the instructor portrays a famous person each day bringing activities, media and artifacts from the historic time periods for students to interact. You might experience magic with Harry Houdini, gramophones with Thomas Edison, apples with Johnny Appleseed, painting with Georgia O'Keefe, pan for gold with James Marshall, and more. The personalities went from adversity to achievement. (Choice will be determined by age of group and interests). *(Fee-Based)*

KIDS 1875

Gymnastics Summer Camp

Ages 4.5-7

Come join us for lots of fun learning gymnastic skills on the bars, beam and floor, as well as crafts, games and the parachute!! All parents and friends are invited to a special end of camp performance starring your little gymnast! Each gymnast will receive a special award! *(Fee-Based)*

KIDS 1877

Gymnastics Summer Camp

Ages 8+

Come join us for lots of fun learning gymnastics skills on the bars, beam and floor, as well as crafts, games and the parachute!! All parents and friends are invited to a special end of camp performance starring your little gymnast! Each gymnast will receive a special award! *(Fee-Based)*

KIDS 1880

Nature's Art

Ages 7-11

Come create pictures of nature with a variety of art materials. Each day a masterpiece will be created and on the last day all will be made into one! All materials provided. *(Fee-Based)*

KIDS 1885

STEM Summer Camp

Grades 7-11

STEM Summer Camp is a three week enrichment program in which 7-11 graders participate in hand-on activities that promote science, technology, engineering, and math. The Camp also makes students aware on career opportunities in STEM related fields. *(Fee-Based)*

KIDS 1890

Digital Film Making Camp

Ages 8-15

FRESHi Film Camp is a hands-on introduction to digital film making. You are front and center as the film maker, where you will gain experience in all aspects of production: including writing, shooting, scoring, editing and screening your own film. Work in small groups and through the process, experience all aspects of production. Under the guidance of professional film makers, you will pitch, plan, shoot, edit, screen, score and even copyright your movies! Learn to tell your own stories and share them with the world through Freshi Films. *(Fee-Based)*

KIDS 1892

Screenwriting Camp

Ages 8-15

A totally hands-on immersive experience where students work with professional screenwriters to create and write their own short screenplays. Students are introduced to and use "Final Draft" screenplay software. Students can work in groups or individually to write screenplays. *(Fee-Based)*

KIDS 1894

Digital Video Game Design Camp

Ages 8-15

This is a hands-on immersive program that allows kids to develop, design, debug and distribute their own 2-D games. Using special software, students create their own game without having to learn actual programming. They can also put their own music, video, animations and photos into their games with a simple click. *(Fee-Based)*

KIDS 1896

Stop Motion Animation Camp

Ages 8-15

Freshi Stop-Motion Animation is a hands-on immersive experience that gives kids a chance to create an animated film. Young students decide how they will create their character (construction paper cut outs, Lego Figures, Action figures, etc) and then imagine, plan, shoot and edit their own films. *(Fee-Based)*

KIDS 1898

Digital Music Mixing Camp

Ages 8-15

Children will use professional music mixers and software to create their own music. Song structure, editing and mastering techniques are all taught. Children learn different beat methods, how to add instruments and vocal tracks and how to structure lyrics. Don't just play tunes. Play your own music. *(Fee-Based)*

KIDS 1900

3D Design

Grades: 2-4

Have fun with 3D design in Google SketchUp! You will learn how to use SketchUp to create your very own 3D designs, such as a chair, fish tank, bedroom and much more! Whether you know a lot or a little about computers, you will enjoy this class! *(Fee-Based)*

KIDS 1903

3D Design

Grades: 5-8

Have fun with 3D design in Google SketchUp! You will learn how to use SketchUp to create your very own 3D designs. You can design your dream house, your own invention, a futuristic city and much more! Whether you know a lot or a little about computers, you will enjoy this class! *(Fee-Based)*

KIDS 1905

Kids Create and Animate

Grades 2-4

Using a simple, fun, kid-friendly computer programming environment, kids will create their very own animations. They will learn how to make characters walk across the computer screen, make sounds, and much more! *(Fee-Based)*

KIDS 1910

Coed Summer Sports

Grades 6-8

This is a multi-sport day camp in which students will learn the fundamentals of basketball, soccer, tennis, and volleyball through instruction and practice. Students can improve their knowledge of the games and their coordination. *(Fee-Based)*

KIDS 1915

Good Fortune Mandarin Chinese Camp

Ages 5+

A great opportunity for children whose first language is not Chinese to immerse in a fun and positive environment to learn about Chinese language, culture and beyond. Children will learn basic Mandarin Chinese concepts, simple sentence patterns and conversations through songs, storytelling, games, role play, movies and other fun activities. *(Fee-Based)*

KIDS 1920

Introductory Synchronized Swimming

Grades 7-12

Learn the techniques and skills that you need to develop to accomplish synchronized stunts, strokes, and floatation patterns. This is a fun way to advance your swimming knowledge and strength. Learn to do many of the stunts and skills that are used on the olympic synchronized swimming team. *(Fee-Based)*

KIDS 1925

Practical Crafts: Summer

Grades 7-12

This class will cover practical, seasonal crafts. A different craft skill/item will be offered for each session. For summer, techniques will be taught for a simple quilt that can be used as a table cloth or a picnic spread. Come join the fun and learn a skill that can be used in other fun crafts. Patterns and training fabrics will be provided. *(Fee-Based)*

KIDS 1930

Introduction to Origami

Ages 7-10

Learn the basics of the art of Origami, the Japanese craft of folding paper. Students will select one item to make in class from a variety of choices. Origami can be used for gift packages and holiday decorations. Instruction sheet and special origami paper will be provided. *(Fee-Based)*

KIDS 1932

Introduction to Origami

Ages 10-12

Learn the basics of the art of Origami, the Japanese craft of folding paper. Students will select one item to make in class from a variety of choices. Origami can be used for gift packages and holiday decorations. Instruction and special origami paper will be provided. *(Fee-Based)*

KIDS 1934

Introduction to Origami

Ages 13+

Learn the basics of the art of Origami, the Japanese craft of folding paper. Students will select one item to make in class from a variety of choices. Origami can be used for gift packages and holiday decorations. Instruction sheet and special origami paper will be provided. *(Fee-Based)*

KIDS 1940

On My Own Survival

Grades 10-12

Various independent living skills will be covered such as budgets, job hunting, cooking, laundry, record keeping and housekeeping. Coed class. Have fun learning everything you wanted to know about how to "make it on your own"! *(Fee-Based)*

KIDS 1945

Clutter Buster

Grades 3-6

Having trouble finding your stuff???? Learn how to simplify your life and have more time by organizing your room, locker, or work areas. Learn to keep things in order and design "zones" for various activities. Learn skills that you can use for a lifetime! *(Fee-Based)*

KIDS 1947

Clutter Buster

Grades 7-12

Having trouble finding your stuff???? Learn how to simplify your life and have more time by organizing your room, locker, or work areas. Learn to keep things in order and design "zones" for various activities. Learn skills that you can use for a lifetime! *(Fee-Based)*

KIDS 1950

Basic Hand Sewing

Grades 4-6

Learn the basic skills and tools of hand sewing. Learn threading a needle, button repairs, hemming and other basic skills. Supply list will be provided. *(Fee-Based)*

KIDS 1952

Basic Hand Sewing

Grades 7-12

Learn the basic skills and tools of hand sewing. Learn threading a needle, button repairs, hemming and other basic skills. Supply list will be provided. *(Fee-Based)*

KIDS 1955

Learn To Sew for Fun

Grades 8-12

Learn to make your own clothes! Topics to be covered are pattern and fabric selection, basic sewing machine skills and clothing construction techniques. No sewing skills are required. Call the office for a list of needed supplies. *(Fee-Based)*

KIDS 1957

Advanced Clothing Construction

Grades 8-12

Learn to make your own clothes! Topics to be covered are pattern and fabric selection, zipper and button hole application, sleeves and finishing. Some good sewing skills are required. Call the office for a list of needed supplies. *(Fee-Based)*

KIDS 1960

Home Decor: Pillows

Grades 7-12

Learn to make beautiful, decorative pillows (with or without binding) for your home. Why spend \$\$\$'s for pillows that you can easily make yourself. You choose the fabric, basic pattern, filler and notions, bring it to class, and complete the project here. Take home and enjoy! Supply list provided. *(Fee-Based)*

KIDS 1963

Home Decorating Basics

Grades 9-12

Learn the basics of decorating: style, color, room arrangement, and accessories. You will have opportunity to "design" and "create " a new look for your special space. *(Fee-Based)*

KIDS 1965

Reading for Fun

Grades 7-12

Learn to enjoy reading and getting the most out of a good book. Three book genres: Non-Fiction, Fiction, and Biography will be discussed and explored in class. Learn to write a book report and how to read a book effectively so that it is fun and enriching. Develop reading skills that will help you for a life time! Reading list provided. *(Fee-Based)*

KIDS 1970

You and Me Cooking Class

Ages 5-7

Bring mom, dad, grandparent or special friend to join you as you create special things in the kitchen. Various goodies will be made in each session including cookies, candy, cupcakes, and fruit. Have fun learning and sharing this special time with your child. Bring an apron and a container for left over treats. *(Fee-Based)*

KIDS 1975

Fun with Baking

Ages 8-11

Learn the creativity and basics of baking! Each session will cover one of the following: pies, cookies, quick breads, and cup cakes. Bring an apron, a towel for clean-up and a container for left over goodies! *(Fee-Based)*

KIDS 1977

Fun with Baking

Ages 12+

Learn the creativity and basics of baking! Each session will cover one of the following: pies, cookies, quick breads, and cup cakes. Bring an apron, a towel for clean-up and a container for left over goodies! *(Fee-Based)*

KIDS 1980

Be Big! Become a Best Friend

Ages 5-8

Students will learn the basic elements of working cooperatively with others at home, and in small groups in the community. This course has been designed for students to be able to develop good characteristics and self-empowerment in order to make good decisions. *(Fee-Based)*

KIDS 1985

Making Money

Ages 8-12

Students will explore how money is earned and how it is used in the home, in the community and around the world. *(Fee-Based)*

KIDS 1990

Power Up! Discover Your Talents

Ages 8-12

Students will learn the responsibilities that each person has to share their talents in a community. This course is designed for students to be able to learn how they can discover their talents, build friendships, and share their talents, within their community. *(Fee-Based)*

KIDS 1995

Ready, Set, Lead! Being the Leader

Ages 11-12

Students will learn the art of becoming a leader in the community, at home and at school. This course is designed for students to learn why certain people become leaders and how they can be leaders too. *(Fee-Based)*

KIDS 2000

My First Cooking Class

Ages 6-8

Students will make and serve yummy snacks, and learn how to use different ingredients while being safe in the kitchen. Students will learn about kitchen tools and safety. Students will learn how to use simple ingredients found in the kitchen. Students will learn how to make simple snacks that don't need to be cooked. Students will learn how to serve and clean up after snacks have been made. *(Fee-Based)*

KIDS 2005

Mommy/Daddy, Music and Me

Here's a great way to have a bonding time with your child filled with lots of fun, musical, interactive activities, including singing, dancing, story telling, and various other circle time activities. This class is designed to help develop musical senses, creativity, cognitive, social, and motor skills. It's a great way for your infant to explore various senses while having fun! *(Fee-Based)*

KIDS 2010

Music, Dance & Me

Ages 3-5

Children love to engage in music and dance. Here is an opportunity for your child to explore his/her musical senses, dancing moves, rhythm, and other developmental skills in a high energy, fun-filled class. Story telling and other circle time activities will keep your child interested and entertained. Parent participation optional and encouraged for children without pre-school experience. *(Fee-Based)*

KIDS 2015

Introduction to the Martial Arts/Parent & Me

Ages 4-7

Children will be introduced to basic martial arts skills and exercises with an emphasis on class discussion and participation. This practice improves basic coordination, balance and confidence. Martial Arts is a process that develops self-discipline, respect for others and builds character. Watch your child grow while learning skills that last a lifetime. Parents are encouraged to participate in certain elements during class. *(Fee-Based)*

KIDS 2020

Tutorial:Geometry V - Quadrilaterals

Grades 7+

Geometry 5 will cover four-sided figures (parallelograms, squares, rectangles, and rhombuses) in depth. This course will classify special quadrilaterals and how to use their properties. Writing proofs about special quadrilaterals will be emphasized. Students should have completed Algebra I and Geometry Tutorials I and II before enrolling in this class. *(Fee-Based)*

KIDS 2025

Tutorial: Algebra 2 - Sequences and Series

Grade 8+

This course will emphasize arithmetic and geometric sequences in depth. Topics include finding patterns, writing sequences in generalized form, finding partial sums, and introducing mathematical induction. Students should have completed Algebra I prior to enrolling in this class.

(Fee-Based)

KIDS 2027

Tutorial: Algebra II - Functions, Exponents

Grades 8+

and Logarithms This course is designed to study the behavior of functions. Topics will include polynomial functions, finding domain and range, and study relationship/properties between exponents/logarithms. Knowledge of Algebra I. Class is limited to 8 students. *(Fee-Based)*

KIDS 2030

Beginner Emergency Skills

Ages 3-6

Help prepare your young child for emergency situations. Students will learn how to listen, stay calm and practice calling 911 in life like scenarios. *(Fee-Based)*

KIDS 2035

Career Exploration

Ages 9-12

This course is designed to help students identify career possibilities according to their interests and educational goals. Students learn to evaluate information gathered and synthesize judgments to determine if a certain career is suitable for their interests and personality. *(Fee-Based)*

KIDS 2040

Helping Teens Find, Obtain and Keep a Job

Ages 13-16

Hey, get a job! Students will learn the labor laws for teens, where to look for job openings and how to pick up job applications. This course has been designed to help students prepare for future job openings, and learn ways to find out about job openings. *(Fee-Based)*

KIDS 2045

How to Plan Fun Activities

Ages 8-12

Empower your child with the skills of planning and organization. This class will help your child actively participate in planning a family trip, organizing a birthday party or planning a play date and other fun activities. *(Fee-Based)*

KIDS 2050

Exploring Rocks and Minerals

Grades 4-6

Students will learn about different types of rocks, how they are formed, and how they can be classified. Properties of minerals such as hardness, streak, color, and chemical reactions are demonstrated to show how they can be classified. Unique characteristics of rocks such as magnetism and geodes are discussed. Where minerals exist on earth and crystal structure will be shown. *(Fee-Based)*

KIDS 2055

Introduction to the Harp

Ages 7+

Have fun playing the harp! Learn basic technique and music theory. Hear about the history of the harp around the world. A harp is provided during class time. Ruth Inglefield's - Songs for Sonja Vol.1 book required, more information given at first class. *(Fee-Based)*

KIDS 2060

Mosaic Masterpieces!

Ages 8+

Come turn your own artwork into mosaic style artwork, by cutting up your work in different shapes each week! Use different art materials to create a new look. No experience necessary just bring colored pencils, crayons and a glue stick; other materials will be provided. *(Fee-Based)*

KIDS 2063

Digital Camera Magic

Grades 4-9

In this hands-on digital camera class have fun learning to create amazing optical camera illusions. Discover techniques for operating camera exposure modes, composing shots, and enhancing images. Bring to every class meeting: a camera, the user's guide, the camera's USB connector cable, extra batteries, and a USB flash drive. *(Fee-Based)*

KIDS 2065

Digital Photography

Ages 10+

This class will help to develop or improve your digital photography skills. Using the computer and Photoshop, students will learn photo editing skills to restore, resize, change colors and enhance your photos. Bring your own photos, a digital camera and USB flash drive to each class. *(Fee-Based)*

KIDS 2070

Math & Science Tutoring

Grades 7-12 - Project GPS2 Grant

This course is designed to further strengthen and develop a student's Math and Science skills. It will review the following topics: Basic Math, Pre-Algebra, Algebra 1 and 2, Probability/Statistics, Trigonometry, Biology, Chemistry, Earth Science, Human Anatomy & Physiology, Physics, and Astronomy. *(Fee-Based)*

KIDS 2075

Discovering Science Through Art Experiences

Ages 4-10

This class can awaken the imagination, challenge the mind and amaze the artist and scientist within each child. Build upon natural curiosity as children discover science concepts through art experiments. Themes investigated include: water and air, light and sight, motion and energy, and reaction and matter. Each term explores different elements of the above themes. No supplies needed. *(Fee-Based)*

KIDS 2078

Introduction to Montessori

Ages 3-6

Students will be introduced to the Montessori method and work in four areas through hands-on activities to learn numbers and sounds. The areas include: practical life, sensorial, Math and Language. Students will develop order, coordination, concentration, and independence. This class will provide the academic readiness to succeed in kindergarten. Parents will attend class with their child. *(Fee-Based)*

KIDS 2080

Reading Academy

Ages 4-5

This class will develop a strong reading foundation for success in school. Students will learn to blend sounds and recognize word patterns. Through fun songs and games students practice manipulating sounds to become strong readers and spellers. *(Fee-Based)*

KIDS 2085

Discovering Science Through Art Camp

Ages 4-10

This class can awaken the imagination, challenge the mind and amaze the artist and scientist within each child. Build upon natural curiosity as children discover science concepts through art experiments. Themes investigated include: water and air, light and sight, motion and energy, and reaction and matter. Each session explores different elements of the above themes. *(Fee-Based)*

KIDS 2090

Introduction to American Poetry

Grades 7-12

CSUF English Instructor will introduce students to popular American poetry. Students will learn how to analyze and discuss works by famous authors. Additionally, students will write short interpretations and even experiment writing a poem! Instructor will provide the necessary reading material. This course will be a great opportunity for students to become better critical readers, writers, and thinkers! *(Fee-Based)*

KIDS 2093

Reading and Writing: Famous Short Stories

Grades 7-12

CSUF English Instructor will introduce students to popular short stories in English. Students will learn how to analyze and discuss works by famous authors. Additionally, students will write short literary responses with their own interpretations of the short stories. The short stories will be provided. This course will be a great opportunity for students to become better critical readers, writers, and thinkers! *(Fee-Based)*

KIDS 2095

Essay Writing

Grades 7-12

CSUF English Instructor will teach students how to improve their essay writing skills. Students will learn and practice numerous methods that will make their writing stronger and more polished! *(Fee-Based)*

KIDS 2100

21st Century Leadership Academy

Grades 8-10

The 21CLA is an intensive academic experience preparing students to enter college and careers. Daily activities will challenge and engage students. Students will be able to take advantage of the following opportunities: excursions; work with experienced teachers and college students; and develop college and career readiness skills. *(Fee-Based)*

KIDS 2103

Tutorial: Algebra 1A - Basics

Grade 6+

Algebra basics will include topics such as expressions, signed numbers, reciprocals, equations, removing group symbols, adding like terms, inequalities, and absolute values. Class is limited to 8 students. *(Fee-Based)*

KIDS 2105

Tutorial: Algebra 1B - Exponents and Polynomials

Grade 7+

Second course in Algebra deals with exponents, common factors, binomials, trinomials, and difference of squares. Class is limited to 8 students. *(Fee-Based)*

KIDS 2110

Tutorial Algebra 1C - Algebraic Fractions and Radicals

Grade 7+

This is the third course in Algebra and focuses on solving values and simplifying expressions using algebraic fractions and radicals. A select number of word problems will be discussed. Class is limited to 8 students. *(Fee-Based)*

KIDS 2120

Judo, Jujitsu and Self-Defense: Beginners/Intermediate Level

Ages 13 - 18

Improve your coordination, reflexes, stamina, speed and strength while improving cardiovascular function. Beginners to Intermediate skill level self-defense classes includes all phases of Karat, Judo and Jujitsu throws and free sparring as well as self-defense simulations. One year of beginning level class recommended. *(Fee-Based)*

KIDS 2125

Agriculture for Kids

Ages 9 - 12

This class will provide an introduction to a variety of aspects of agriculture or activity on a farm, including plants, livestock, bees, soil, and nutrition. Minimum 4th Grade is advised. Appropriate discussions will edge on aspects of animal husbandry, such as reproduction and purposes of raising livestock. Students will be offered honey, butter, fruits, and vegetables to try; so any known food allergies must be communicated in writing to instructor at first class meeting. *(Fee-Based)*

KIDS 2130

Be Bigger Than a Bully

Ages 8-12

Students will learn and recognize what is a bully, what is a true friend and ways to be advocates against bullying. This course enables students to know how and where to get help if being bullied. Games and exercises on self-esteem, self-confidence and on honoring differences in ourselves and others and accepting these differences will be used in class. An overview of Social Media and its impact on bullying will be covered. *(Fee-Based)*

KIDS 2135

Ballroom Dancing

Ages 8+

Come join in the fun and learn popular American and Latin ballroom dances: Waltz, Fox Trot, Eastern Swing (Jitterbug/Lindy), Rumba, Cha-Cha, and Tango. Enhance your social graces and have fun with friends! You don't need a partner to attend the class. Parents welcome to dance with their child. *(Fee-Based)*

KIDS 2140

Agriculture for Kids: Beekeeping

Ages 9-12

Each day will cover a different topic: flowers, worker bees, the queen bee, the drone, and the hive box. Key scientific terms will be used with diagrams, games, creative booklets, and tools of beekeeping. Instructor was a beekeeper for five years, member of the Orange County Beekeepers Association and a science teacher. *(Fee-Based)*

KIDS 2142

Agriculture for Kids: Growing Plants

Ages 9-12

Students will be introduced to a different topic each day: planting, green vegetables, root vegetables, apples and squash. Students will explore the world of the farmer from soil to growing methods, including seeing, touching, and tasting various samples and making booklets based on packets. Instructor is a credentialed teacher and a backyard farmer. *(Fee-Based)*

KIDS 2144

Agriculture for Kids: Wool and Fiber

Ages 9-12

Each day will cover a different topic: sheep, llama, alpaca, mohair, and angora rabbit. Students will explore the world of wool and fiber in making yarn, playing games, and making sample booklets. Instructor is a member of several local spinning guilds and is a credentialed teacher. *(Fee-Based)*

KIDS 2146

Funtastic Flowers!

Grades 2-6

Spring has sprung so join Mother Nature for an exciting adventure into the beautiful world of flowers. Have hands-on learning about flowers, and their pesky bug friends who keep gardens blooming bright. Design a fairy garden, make crafts, play games, and explore the delicious world of edible flowers! *(Fee-Based)*

KIDS 2150

Dance Performance Camp

Grades 9-12

This course is designed for beginning and intermediate high school students to learn, rehearse and perform choreographic works of the instructors in the styles of jazz, lyrical, hip-hop, African, Latin, and Middle Eastern dance. An informal recital will be performed at the end of the workshop. *(Fee-Based)*

KIDS 2155

Reading Skills Improvement

Grades 2-3

Does your student need an in-depth review of English language word structures and rules to improve their basic reading skills? This course provides practical and fun writing and reading activities to help the student understand vowel sounds (long and short), spelling changes, contractions, compound words, two-syllable words, prefixes and suffixes, and silent letters. The material requires that the student has already completed Grade 2. Class size is limited. *(Fee-Based)*

KIDS 2160

Discover the Titanic - Commemorating the 100th Anniversary

Grades 3-6

Students will learn about the famous ship the Titanic through activities, media, games, crafts and artifacts from the historic time period. Instructor was part of the 1996 exhibition to dig up the Titanic and a member of the Titanic Historical Society. *(Fee-Based)*

KIDS 2170

Crocheting for Kids

Grades 4-6

Learn to crochet with hook and yarn. Complete a simple project and start a second item. Supplies provided. Instructor has over 40 years of crochet experience. *(Fee-Based)*

KIDS 2171

Crocheting for Kids

Grades 7-12

Learn to crochet with hook and yarn. Complete a simple project and start a second item. Supplies provided. Instructor has over 40 years of crochet experience. *(Fee-Based)*

KIDS 2175

QuickStart Junior Tennis for Beginners

Ages 5-8

QuickStart is a new tennis training program designed just for kids! Smaller equipment is used so that children experience success more quickly. Simplified scoring is taught along with teamwork. Children are fully engaged while learning to play a lifetime sport. QuickStart tennis equals fun! Equipment needs explained at the first class session. *(Fee-Based)*

KIDS 2176

QuickStart Junior Tennis for Beginners

Ages 9-12

QuickStart is a new tennis training program designed just for kids! Smaller equipment is used so that children experience success more quickly. Simplified scoring is taught along with teamwork. Children are fully engaged while learning to play a lifetime sport. QuickStart tennis equal fun! Equipment needs explained at first class session *(Fee-Based)*

KIDS 2180

Discovering Disney Magic Camp

Grades 2-6

Ever wonder what is behind the Disney magic or who was Walt Disney? Students reinforce reading, math, art, and language skills through a once in a lifetime journey of Disney themed activities and memorabilia. Without going to Disneyland students discover the world of Disney with hands on opportunities including magic tricks, music, storytelling, drawing, games, puppet shows, skits and more. It is a rare, fun learning opportunity. *(Fee-Based)*

KIDS 2185

Tennis for Kids

Intermediate Ages 9-12

This course will focus on proper stroke techniques, serves, scoring, footwork and positioning, and match play. Bring racquet and a can of tennis balls. Makeup classes in case of rain. *(Fee-Based)*

KIDS 2190

Jump Start for Kindergarten Skills Camp

For children starting Kindergarten in September or students needing a review of past kindergarten work). Your child will have fun in the sun as he gets his skills ready for kindergarten. Have your child be at the top of his class with his hand up waving with all the answers. We will power through: sounds, vowels, adding, printing, beginning reading strategies and more. *(Fee-Based)*

KIDS 2195

Reading Comprehension Based on the Common Core Standards

Completion of Grades 1 or 2

Come experience reading in a fun way using new reading comprehension skills. This class is for struggling readers and also those who already love to read. These lessons are based on the new Common Core Standards for students who have finished grades 1 and 2. *(Fee-Based)*

KIDS 2200

You Can Dance! Summer Dance Class and Recital

Ages 5-7

Students will learn basic dance routines in the styles of Jazz, Hip-Hop, Lyrical and Ethnic Dance. This class is a fun way to get exercise and learn the disciplines of dance and performance skills. *(Fee-Based)*

KIDS 2202

You Can Dance! Summer Dance Class and Recital

Ages 8+

Students will learn basic dance routines in the styles of Jazz, Hip-Hop, Lyrical and Ethnic Dance. This class is a fun way to get exercise and learn the disciplines of dance and performance skills. *(Fee-Based)*

KIDS 2210

Tutorial: Discrete Mathematics I-Logic and Sets

Grade 8+

This course covers how logic is written mathematically. Also, truth tables and Boolean Algebra are introduced. Sets and set notations are covered. This is a sample of Engineering/Computer Science courses at the collegiate level. Students should complete Algebra before enrolling in this class. *(Fee-Based)*

KIDS 2220

Yoga for Pre-teens and Teens

Ages 12+

Students will learn and participate in Hatha yoga, breathing and relaxation techniques, in a fun environment. These techniques will help build strength, flexibility, and balance and improve concentration and help to manage stress and anxiety. Bring a yoga mat to class, and do not eat at least an hour before class. *(Fee-Based)*

KIDS 2225

Bowling for Teens

This course is designed for teens to develop sufficient knowledge and skill for successful participation in recreational, league and tournament bowling. *(Fee-Based)*

KIDS 2227

ZUMBA® Kids

ZUMBA® for Kids is a fitness program designed especially for kids ages 7 - 11 years old. It combines high energy with the ZUMBA® program rhythms of salsa, cumbia, reggaeton, merengue and others. It provides a safe and effective workout. This class is designed specifically for kids, so the moves and music are kid friendly. *(Fee-Based)*

KIDS 2230

Common Core Reading Comprehension Skills

Grades 1 & 2

Students will read a story and learn how to create thinking maps as well as taking notes in order to comprehend the story effectively. They will learn how to use the text to answer text related questions based on the new Common Core curriculum. *(Fee-Based)*

KIDS 2235

Fun with Light and Optics

Grades 4-6

Students will explore the wonders of light and optics. They will learn how light is reflected and refracted. Students will examine diffraction gratings and prisms, producing colorful spectra and "rainbows". They will learn that ordinary white light is composed of colors called a spectrum. Participants will see the effect of transmission of light through various materials, how certain solids reflect light better than others, and show how liquids and gases can scatter or reflect light. They will learn about the shape, properties, and uses of lenses and mirrors and will experience optical illusions. *(Fee-Based)*

KIDS 2250

Football Skills and Drills

Ages 12 & 13

This course is designed to teach students the basic theory of Football. Emphasis will be placed on both offensive and defensive position skills while participating in a team environment. The students will learn the fundamental skills, rules, and knowledge necessary to play the sport of football. *(Fee-Based)*

KIDS 2251

Football Skills and Drills

Ages 14 - 18

This course is designed to teach students the basic theory of Football. Emphasis will be placed on both offensive and defensive position skills while participating in a team environment. The students will learn the fundamental skills, rules, and knowledge necessary to play the sport of football. *(Fee-Based)*

KIDS 2255

Sand Volleyball for Teens

Ages 13 to 17

This course is designed to teach the basics of sand volleyball play. Sand volleyball has different aspects of play from traditional indoor volleyball. *(Fee-Based)*

KIDS 2260

Introduction to Design Arts for Teens

Ages 13 - 17

This course explores three different avenues of design arts: knitting, crocheting, and beading. The course works in each media in equal segments. Design assignments incorporate the learned skills learned into teen-oriented projects. *(Fee-Based)*

KIDS 2270

African Culture for Kids

Grades 3 - 6

This course offers a virtual safari to explore Sub-Saharan Africa's amazing history, nature, customs and traditions. One segment focuses on the marketplace with all of its exotic tastes and foods. Another segment focuses on toys, games, and children's activities. There is also an exploration of urban and rural homes and life for African children. *(Fee-Based)*

KIDS 2271

African Culture for Teens

Grades 9 - 12

This course is a virtual safari to discover the similarities and differences between African and American teens. Learn about Africa's history, cultural mores, the AIDS pandemic. Visit the marketplace to study foods and fashions. Explore traditional religions of the continent as well as the current issues teens face every day. *(Fee-Based)*

KIDS 2275

Sign Language with Kids

Ages 7 - 11

This class will introduce the student to the basics of sign language. Content will include alphabet and counting numbers, greetings, family and friends, foods, weather, feelings, colors and shapes and animals. *(Fee-Based)*

KIDS 2290

Painting with Acrylics for Kids

Ages 5+

This course teaches students how to paint a variety of different projects with the use of acrylic paint. Students will have one project per class to include: landscape, seascape, animals, cartoon, floral and still life. Students will learn how to plan, sketch, and layout their project. They will also learn how to use different paint brush techniques and the color wheel for composition. *(Fee-Based)*

KIDS 2295

Drawing and Painting Cartoons with Watercolors

Ages 5+

Students will learn how to draw and paint a variety of different cartoon characters. This includes: dogs, cats, birds, sea creatures, people, animals and well-known cartoon characters. They will receive instruction on how to analyze cartoon characters using shapes. Other topics include: the color wheel, composition, horizon line, design, and placement. *(Fee-Based)*

KIDS 2300

Still-Life Art Workshop for Kids

ages 6-8

This course teaches drawing and painting of a still-life in three different styles. Students will explore the artwork of Vincent Van Gogh, Maria Sibylla Merian, and Wayne Thiebaud. This course engages young children by teaching various art techniques. Subjects will include: flowers, insects, and desserts. *(Fee-Based)*

KIDS 2302

Still-Life Art Workshop for Kids

Ages 8-12

This class teaches drawing and painting of a still-life in three different styles. Students will explore the artwork of Vincent Van Gogh, Maria Sibylla Merian, and Wayne Thiebaud. This course engages children by teaching various art techniques. Subjects will include: flowers, insects, and desserts. *(Fee-Based)*

KIDS 2400

Common Core: Preparation for Computer Keyboarding

Grades 2 & 3

This course prepares students for the requirements of the Common Core standards. Beginning in 2015, students must be able to type multiple paragraph practical paragraphs as part of the Common Core implementation. *(Fee-Based)*

KIDS 2401

Common Core: Preparation for Computer Keyboarding

Grades 4 - 6

This course prepares students for the requirements of the Common Core standards. Beginning in 2015, students must be able to type multiple paragraph practical paragraphs as part of the Common Core implementation. *(Fee-Based)*

KIDS 2403

Common Core: Online Reading and Writing Prep

Grades 3-4

This course prepares students for the Common Core English Language Assessment. Reading comprehension and writing can be challenging, especially with the tasks being transitioned to an online format. Students learn to read and write more effectively using computer skills needed to be ready for the 2015 implementation of Common Core Testing in California. *(Fee-Based)*

KIDS 2404

Common Core: Online Reading and Writing Prep

Grades 5-6

This course prepares students for the Common Core English Language Assessment. Reading comprehension and writing can be challenging, especially with the tasks being transitioned to an online format. Students learn to read and write more effectively using computer skills needed to be ready for the 2015 implementation of Common Core Testing in California. *(Fee-Based)*

KIDS 2410

Boolean Algebra

Grades 8+

Students in this class will learn about logical reasoning, truth tables, laws of Boolean Algebra, and propositions. This course is a sample of material covered in introductory Engineering/Computer Science courses. *(Fee-Based)*

KIDS 2415

Mathematical Proofs

Grades 9+

This class extends a student's ability to prove statements using direct proofs, induction and contradiction. Several proofs will have concrete examples. This class is considered a higher level of math and a good introduction to Computer Science/Engineering. A good understanding of Geometry is strongly recommended. *(Fee-Based)*

KIDS 2450

Violin II & III

This course continues to build violin skills for Violin I students. Students will continue to build finger strength, fingering agility, placement and coordination of note delivery and playing songs that are appropriate for these levels of skill. *(Fee-Based)*

KIDS 2460

3D Origami & Fabric Flowers Decorative Designs

Ages 8+

This course teaches the art of 3D origami creations and the art of fabric flower creation - all in one course. Students will learn and produce 3D origami creations for the first three weeks and then learn and produce fabric flower creations for the last three weeks. Each art will have two beautiful projects and supplies are included in the cost of the course. *(Fee-Based)*

KIDS 2487

Magnetic Levitation Transportation - Camp

Build a "futuristic Maglev" car to race and take home. Learn about the relationship between magnetism and electricity. Build maglev cars and electromagnets. Learn how motors work, take home the world's simplest motor and experiment with magnificent magnetic activities! Have fun learning while creating! *(Fee-Based)*

KIDS 2500

Electronics Workshop I

Ages 7 - 12

This course is an electronics workshop designed to give students ages 7 - 12 hands-on experience building electronic devices such as radios, digital circuits, radio controllers, and sound generators. Each project is supported by a simple electronics theory lecture to advance the understanding of the projects. *(Fee-Based)*

KIDS 2501

Electronics Workshop II

Ages 13 - 17

This course is an Electronics Workshop designed to give students ages 13 - 17 hands-on experience building electronic devices like radios, digital circuits, radio controllers, and sound generators. Each project is supported by a simple electronics theory lecture to advance the understanding of the projects. *(Fee-Based)*

KIDS 2510

Subtraction First-Aid

Grades 1 - 3

This course will assist students who are challenged by subtraction. The instructor will work in a relaxed, game-based style to improve students abilities initially with single- and double-digit numbers. Students will explore larger numbers as they progress. Success is measured in the student's ability to navigate subtraction with the methods and techniques that work best for them. *(Fee-Based)*

KIDS 2600

Career Academy: Computer Networking

Grades 7 - 12

Students will gain introductory knowledge of computer networking as a career. The class will include the basic concepts of computer networking, troubleshooting connectivity, building a computer networking cable, and using networking software. *(Fee-Based)*

KIDS 2605

Career Academy: Dental Assisting

Grades 7-12

Students will gain introductory knowledge of dental assisting as a career. The class will include basic oral anatomy, infection control (handwashing, personal protective equipment), impression on manikins and basic instruments for dental procedure. *(Fee-Based)*

KIDS 2610

Career Academy: Computer Forensics

Grades 7-12

This course gives an overview of computer forensics, its real-world technique, information gathering potential, and analysis of evidence. The course also provides students with opportunities to learn about a wide variety of contemporary computer forensics techniques. *(Fee-Based)*

KIDS 2612

Career Academy: Cyber Security/Cyber Patriot - Cisco

Grades 7 - 12

Learn and work in teams competing to secure a windows machine from hackers and get a hands-on, sneak preview into CyberPatriot, a national cyber security competition created by the US Air Force. Students will become familiar with best practices for ensuring a computer is secure for use. Students will also learn computer network fundamentals including building cables and troubleshooting connectivity. Beginning to advanced students welcome. Students can sign up for all 3 weeks or single workshop. Please bring paper and pencil. *(Fee-Based)*

KIDS 2615

Career Academy: Video Production I

Grades 9 - 12

This course introduces students to digital video production techniques including single camera operation, recording, and video editing. Course topics include the operation of camcorders, lighting, and sound & editing. Students will develop stories, film them, and edit them for screening. Cameras and computers will be provided for shooting and editing. *(Fee-Based)*

KIDS 2616

Career Academy: Video Production II

Grades 9-12

This course builds on topics covered in Video Production I course. Students learn more in depth about digital video production techniques including single camera operation, recording, and video editing. Course topics include the operation of camcorders, lighting, and sound & editing. Students will develop stories, film them, and edit them for screening. Cameras and computers will be provided for shooting and editing. *(Fee-Based)*

KIDS 2617

Career Academy: Video Game Programming

Age 13-17

This course will allow students to learn the components of simple video game programming. Students will learn the coding system required for the programming and create several games that will run on Windows operating systems. *(Fee-Based)*

KIDS 2620

Career Academy: Cyber Security/Cyber Patriot- Windows

Learn the basics of Information Security. Students will learn how to secure Windows operating systems and work together to secure various Windows virtual machines. Students will be familiar with best practices for ensuring a computer is secure for use. Beginning to advanced students welcome. *(Fee-Based)*

KIDS 2621

Career Academy: Cyber Security/Cyber Patriot- Linux Linux

This is an entry level class on the Linux operating system with a concentration on security. Students will gain the skills needed to protect a Linux based system from various types of threats. Special consideration is given to the practice format and competition strategies useful in the CyberPatriot competition. *(Fee-Based)*

KIDS 2625

Career Academy: Healthcare Careers & Psychiatric Technology

Through interactive learning, students learn to provide care for someone diagnosed with mental or developmental disabilities. Activities include how and why one takes vital signs, behavioral techniques, how to assess mental illness, dealing with depression, suicide, and substance abuse. Career pathways are identified and explored through the Psychiatric Technology field. *(Fee-Based)*

KIDS 2650

PSAT/NMSQT Math Test Preparation

This course prepares students for the math portion of the PSAT/NMSQT test given during their 10th grade year. PSAT/NMSQT is used as practice for the SAT college acceptance test, and is also the qualifying test for National Merit Scholarships. *(Fee-Based)*

KIDS 2700

Math: Common Core - Kindergarten

Kindergarten students will be introduced to two critical math skill areas: (1) representing, relating, and operating on whole numbers, initially with sets of objects; and (2) describing shapes and space. This class is fun and informative with hands-on learning activities. *(Fee-Based)*

KIDS 2701

Math: Common Core - 1st Grade

Through games, hands-on activities and group work, 1st Grade students will be introduced to four critical learning areas: (1) developing understanding of addition & subtraction; (2) develop understanding of whole number relationships and place value; (3) developing understanding of linear measurement; and (4) reasoning about attributes of, and composing and decomposing geometric shapes. *(Fee-Based)*

KIDS 2702

Math: Common Core - 2nd Grade

In this fun, hands-on class, students will extend their understanding of the base-ten system. This includes ideas of counting in fives, tens, and multiples of hundreds, tens, and ones. Students use their understanding of addition to develop fluency with addition and subtraction within 100. Students will describe and analyze shapes by examining their sides and angles. *(Fee-Based)*

KIDS 2703

Math: Common Core - 3rd Grade

In this course students will focus on four critical areas: (1) developing understanding of multiplication and division strategies for multiplication and division within 100; (2) developing understanding of fractions, especially unit fractions (fractions with numerator 1); (3) developing understanding of the structure of rectangular arrays and of area; and (4) describing and analyzing two-dimensional shapes. *(Fee-Based)*

KIDS 2704

Math: Common Core - 4th Grade

In grade 4, instructional time will be focused on three critical areas: (1) developing understanding and fluency with multi-digit multiplication, and developing understanding of dividing to find quotients involving multi-digit dividends; (2) developing an understanding of fraction equivalence, addition and subtraction of fractions with like denominators, and multiplication of fractions by whole numbers; (3) understanding that geometric figures can be analyzed and classified based on their properties, such as having parallel sides, perpendicular sides, particular angle measures, and symmetry. *(Fee-Based)*

KIDS 2705

Math: Common Core - 5th Grade

In grade 5, instructional time should focus on three critical areas: (1) developing fluency with addition and subtraction of fractions, and developing understanding of the multiplication of fractions and of division of fractions in limited cases (unit fractions divided by whole numbers and whole numbers divided by unit fractions); (2) extending division to two-digit divisors, integrating decimal fractions into the place value system and developing understanding of operations with decimals to hundredths, and developing fluency with whole number and decimal operations; and (3) developing understanding of volume. *(Fee-Based)*

KIDS 2706

Math: Common Core - 6th Grade

In grade 6, instructional time should focus on four critical areas: (1) connecting ratio and rate to whole number multiplication and division, and using concepts of ratio and rate to solve problems; (2) completing understanding of division of fractions and extending the notion of number to the system of rational numbers, which includes negative numbers; (3) writing, interpreting, and using expressions and equations; and (4) developing understanding of statistical thinking. *(Fee-Based)*

KIDS 2950

Earth Mapping with Clay Camp

Grades 3 - 6

A science course for students who like tactile experiences will work in clay to create topographical maps for diverse areas such as Los Angeles, Northern California, Albuquerque and Oahu. Students will learn terms for land configurations and discuss longitude & latitude. *(Fee-Based)*

KIDS 3000

Theatre Camp

Ages 7-17

Students will explore scripts, analyze characters and create a performance. A production will be performed by students at end of session. Students explore and create characters using masks, costumes, make-up and props using different perspectives in literature. We will have fun letting the imagination soar. Students will enjoy oral reading using expressive voices and gestures. *(Fee-Based)*

KIDS 3003

Theatre Camp

Ages 12-17

Students will explore scripts, analyze characters and create a performance. A production will be performed by students at the end of session. Students explore and create characters using masks, costumes, make-up and props using different perspectives in literature. We will have fun letting the imagination soar. Students will enjoy oral reading using expressive voices and gestures. *(Fee-Based)*

KIDS 3005

Reader's Theatre

Grades 4-6

Improve reading comprehension skills while having fun! Students explore and create characters using masks, costumes and props using different perspectives in literature. We will have fun discovering beautiful journeys and letting the imagination soar. Join us as we read storybooks and/or scripts then turn on the lights, camera and action! Family and friends are invited for final creative performance. *(Fee-Based)*

KIDS 3010

Games Galore- Blast from the Past Camp

Grades 3+

Explore history and origins of games and sports from the past. Every day a different decade. Play games your great grandparents played. Discover your parent's favorite pastimes. Enjoy different versions and see Monopoly sets from around the world and special sets (underwater Monopoly, chocolate, fancy gold, themed monopoly and the original sets) Indoor and outdoor games and sports. *(Fee-Based)*

KIDS 3015

Play with the Presidents

Grades 3-6

Explore U.S. Presidents and interact with the instructor dressed as Lincoln, Theodore Roosevelt and others. Read and hear stories about the presidents. Play games and share presidential memorabilia. Use president paper dolls and taste foods the presidents enjoyed. Experience a fun way to learn the names of all the presidents. *(Fee-Based)*

KIDS 3020

Tutorial: Math Blast - 1st Grade Review

Does your student need a blast forward for Math success? This course provides preparation for 2nd Grade Math by reviewing and practicing the key concepts from the 1st Grade California Math Standards. *(Fee-Based)*

KIDS 3021

Tutorial: Math Blast - 2nd Grade Review

Does your student need a blast forward for Math success? This course provides preparation for 3rd Grade Math by reviewing and practicing the key concepts from the 2nd Grade California Math Standards. *(Fee-Based)*

KIDS 3022

Tutorial: Math Blast - 3rd Grade Review

Does your student need a blast forward for Math success? This course provides preparation for 4th Grade Math by reviewing and practicing the key concepts from the 3rd Grade California Math Standards. *(Fee-Based)*

KIDS 3023

Tutorial: Math Blast - 4th Grade Review

Does your student need a blast forward for Math success? This course provides preparation for 5th Grade Math by reviewing and practicing the key concepts from the 4th Grade California Math Standards. *(Fee-Based)*

KIDS 3024

Tutorial: Math Blast - 5th Grade Review

Does your student need a blast forward for Math success? This course provides preparation for 6th Grade Math by reviewing and practicing the key concepts from the 5th Grade California Math Standards. *(Fee-Based)*

KIDS 3025

Tutorial: Math Blast - 6th Grade Review

Does your student need a blast forward for Math success? This course provides preparation for 7th Grade Math by reviewing and practicing the key concepts from the 6th Grade California Math Standards. *(Fee-Based)*

KIDS 3030

Money Origami

Ages 8 -11

Impress your friends with fun items made out of dollar bills. Instruction and demonstrations for two dollar items (ring and bow tie) will be taught. Student required to bring three, \$1 dollar bills. Parents may also register for class. *(Fee-Based)*

KIDS 3032

Money Origami

Ages 12+

Impress your friends with fun items made out of dollar bills. Instruction and demonstrations for \$3 - \$4 dollar items (ring and bow tie) will be taught. Student is required to bring four (\$) dollar bills. Parents may also register. *(Fee-Based)*

KIDS 3034

Cruise Ship Towel Animals

Ages 8-11

Create fun and easy animals and items from bath and beach towels. Just like they do on the cruise ships!!! Have a fun creature sitting at your spot on the beach or in your room made out of your own towel! Make these creatures as gifts or great pool or beach party favors! Students will need to bring one clean beach towel and three bath towels, three hand towels, and three wash cloths (towels need not be new). Parents may also register for class. *(Fee-Based)*

KIDS 3036

Cruise Ship Towel Animals

Ages 12+

Create fun and easy animals and items from bath and beach towels. Just like they do on the cruise ships!!! Have a fun creature sitting at your spot on the beach or in your room made out of your own towel! Make these creatures as gifts or great pool or beach party favors! Students will need to bring one clean beach towel and three bath towels, three hand towels, and three wash cloths (towels need not be new). Parents may also register. *(Fee-Based)*

KIDS 3038

Sock Monsters

Ages 8-11

Learn how to make fun and crazy creatures out of socks! Use leftover unmated socks to create a special creature from colorfully designed socks. Students will need to bring sewing scissors, thread, and sewing needles, miscellaneous buttons & trim. Also, bring a pair of colorful or brightly designed socks to cut up and use for their creation. Parents may also register. *(Fee-Based)*

KIDS 3040

Sock Monsters

Ages 12+

Learn how to make fun and crazy creatures out of socks! Use leftover 'unmated' socks to create a special creature from colorfully designed socks. Students will need to bring sewing scissors, thread, and sewing needles, miscellaneous buttons & trim. Also, bring a pair of colorful or brightly designed socks to cut up and use for their creation. Parents may also register. *(Fee-Based)*

KIDS 3045

Advanced Public Speaking

Grades 4-8

Gain the self confidence and skills to inform and persuade your audience in an organized way. Learn to share your thoughts and ideas effectively in a group. Parents invited for a presentation the last class. *(Fee-Based)*

KIDS 3047

Cycling For Beginners

Ages 10+

Want to build greater confidence riding a bicycle? This course will cover many cycling topics such as proper fit, safety, handling basics, equipment and etiquette. Demonstrations and hands-on practice will also be included. Know the basics to keep riding safe and enjoyable. Adults may also register for this class. *(Fee-Based)*

KIDS 3049

Bicycling Safety

Ages 10+

Want to build greater confidence riding a bicycle? This course will cover many cycling topics such as proper fit, safety, handling basics, equipment and etiquette. Demonstrations and hands-on practice will also be included. Students will learn the basics to keep riding safe and enjoyable. Adults may also register for this class. *(Fee-Based)*

KIDS 3050

Dinosaurs Discovery

Grades 3-6

Explore dinosaurs and life in prehistoric times. Play dinosaur games, learn to draw dinosaurs, examine books and items relating to dinosaurs and see real dinosaur fossils. Carve dinosaur bones frozen in ice and make dinosaur dioramas. *(Fee-Based)*

KIDS 3055

Robotics 101

Grades 1 - 3

In this class students will learn about the engineering design process in a "hands-on" setting as they create a basic robot and then improve on the basic design. The robots the students build will be able to accomplish specific basic tasks. Those robots will then be modified to execute more complex tasks. *(Fee-Based)*

KIDS 3056

Robotics 101

Grades 4 - 6

In this class students will learn about the engineering design process in a "hands-on" setting. They will create a basic robot with basic movements, modify the design, and then program more complex commands for movement and tasks. *(Fee-Based)*

KIDS 3060

Civil Engineering

Grades 1 - 3

Students will be introduced to the concepts of structural engineering, tension, and force as it relates to building and construction of bridges and towers. The engineering design process will be utilized and modified as students create and build their own bridges and towers. *(Fee-Based)*

KIDS 3061

Civil Engineering

Grades 4 - 6

Students will be introduced to the concepts of structural engineering, tension, and force as it relates to building and construction of bridges and towers. The engineering design process will be utilized and modified multiple times over the course as students plan, create, and modify their own bridges and towers. *(Fee-Based)*

KIDS 3065

Aerospace Engineering

Grades 1 - 3

Students will be introduced to the concepts of aerodynamics, propulsion, structural design, and flight through a series of activities that explore different types of aircraft. Students will also learn the basic mechanics of flying machines through hands-on testing and revising of their initial designs using the elements of the engineering design process. *(Fee-Based)*

KIDS 3066

Aerospace Engineering

Grades 4 - 6

Students will be introduced to the concepts of aerodynamics, propulsion, structural design, and flight through a series of activities that explore different types of aircraft. Students will learn the basic and complex mechanics of flying machines through hands-on testing and revising of their initial designs for better performance. *(Fee-Based)*

KIDS 3070

LEGO Flix Camp

Ages 13 - 17

This course allows students to brainstorm and bring LEGOs to life in stop-motion animated flix. Students will create a set with LEGO characters for a movie. They will storyboard, write, shoot, and add voice-overs to the Flix they create. Flix are downloadable a month after the camp ends. *(Fee-Based)*

KIDS 3075

Live-Action Flix Camp

Ages 13 - 17

This course allows students to brainstorm, plan, create, film and shoot a real-life action movie. The class focuses on each step in creating a complete movie - from "Action!!" to "That's a wrap!!". Students will scout out characters, assemble costumes and props, and act and direct in a collaborative movie. Flix downloadable a month after the camp ends. *(Fee-Based)*

KIDS 3080

Advanced Robotics- Kingii Dragon Robot - Camp

With flashing eyes, moving mouth and rapid neck frill, an Infra Red Sensor is used for escape and approach modes. Build robots in groups testing for speed, strength, and endurance. The free building robots are not to be taken home, but the Kingii Dragon is yours to keep!! Tires, motors, gears, and controllers are used to build and work cooperatively! *(Fee-Based)*

KIDS 3083

Engineering Roller Coasters & Amusement Park Rides - Camp

Learn simple engineering as you build working Roller Coasters! Watch as our coaster cars go up and down steep inclines and through many thrilling loops! Roller Coaster will be 3 ft. long and 3 ft. high. Learn the mechanisms and design and build more amusement park rides! Projects are built in class and do not go home with students. *(Fee-Based)*

KIDS 3085

Engineering an All-Terrain Vehicle - Camp

How about some land rover excitement? Build the All-Terrain Tracker Vehicle to take home! Take it over its own course of sand, stones and twigs. You will also learn about gears and motors. Work in a group with your newfriends as you design a robot you can control! *(Fee-Based)*

Labs (LABS)

LABS 100

Supervised Tutoring

Students will use tutorial assistance to enhance problem solving skills, and increase comprehension of specific subject areas. Tutors and instructors are there to help you prepare for tests and to complete homework. Enrollment is by Instructor and Counselor referral only. *(Apportionment)*

Language (LANG)

LANG 100

Arabic - Conversational

Beginning level class introduces students to the basic knowledge of Arabic. *(Fee-Based)*

LANG 110

French - Conversational

Beginning level class introduces students to the culture and customs of France and covers basic speaking skills. *(Fee-Based)*

LANG 160

Japanese - Conversational

Beginning level class introduces students to the culture and customs of Japan and to speak beginning level Japanese. *(Fee-Based)*

LANG 162

Japanese - Conversational II

Low intermediate level class expands students' basic knowledge of spoken Japanese. *(Fee-Based)*

LANG 170

Russian - Conversational

Beginning level class introduces students to the culture and customs of the Russian speaking countries and addresses immediate needs of a traveler. The course will also give the language skills helpful to welcome adopted children to their new families. *(Fee-Based)*

LANG 190

Spanish - Conversation I

Beginning level class introduces students to the culture and customs of Latin America and covers beginning level speaking skills. *(Fee-Based)*

LANG 200

Spanish - Conversation II

Low intermediate level class expands students' basic knowledge of spoken Spanish. *(Fee-Based)*

LANG 240

Conversational Chinese

Beginning level class introduces students to the culture and customs of Chinese and covers beginning level speaking skills. *(Fee-Based)*

Medical Occupations (MEDO)

MEDO 115

Medical Assisting: Front Office

Prerequisite: MEDO 260 Introduction of Medical Assisting and COMP 685 Beginning Keyboarding. This course introduces students to medical office procedures in preparation for entry-level positions in the front office or reception area of a medical facility. These include medical data entry. Students review reception techniques, patient records and insurance forms. Keyboarding experience advised. *(Apportionment)*

MEDO 118

California Child Care: CPR and First Aid

This 8-hour course teaches individuals to respond to breathing and cardiac emergencies, pediatric first aid and injury prevention. Upon successful completion, students will receive an Adult, Infant, Child CPR certificate valid for 1 year and a CA Child Care First Aid certificate valid for 2 years. This class meets CA EMSA requirements of daycare providers. \$75 fee includes class textbooks and 2 laminated skills cards. *(Fee-Based)*

MEDO 125

Pharmacy Tech Educational Planning

Orientation and assessment to and for the SCE Pharmacy Technician certificate program, overview of occupational options. Assess math skill level for referral to basic skills support to assist with successful completion of pharmacy tech courses, overview in general of SCE student services. *(Orientation)*

MEDO 166

Physical Therapy Aide

Equips the motivated student to function safely and efficiently as a Physical Therapy Aide or Restorative Aide in a hospital, convalescent hospital or home setting. Certificate of Completion to those meeting requirements. *(Apportionment)*

MEDO 202

Activity Leader Healthcare

Provides basic training in planning and directing activity programs (fieldwork arranged). *(Apportionment)*

MEDO 220

Out-Patient Lab for the Pharmacy Technician

Prerequisite: MEDO 230 Pharmacy Operations Lab; MEOC 104 Medical Terminology (or MEOC 110 Medical Terminology II); MEOC 121 Pharmacology I; MEOC 122 Pharmacology II; MEOC 130 Introduction to Pharmacy Technician; MEOC 140 Pharmaceutical Mathematics; Keyboarding Proficiency score of 30 or above OR passing grade in COMP 685 Beginning Keyboarding. The practical lab class is designed to prepare the student for an externship at neighboring pharmacies. Upon completion of the lab classes, the student should be able to step into an out-patient pharmacy and begin working with minimal additional training. *(Apportionment)*

MEDO 221

In-Patient Lab for the Pharmacy Technician

Prerequisite: MEDO 230 Pharmacy Operations Lab; MEOC 121 Pharmacology I; MEOC 122 Pharmacology II; MEOC 140 Pharmaceutical Mathematics; Keyboarding Proficiency score of 30 or above OR passing grade in COMP 685 Beginning Keyboarding. The practical lab class is designed to prepare the student for an externship at neighboring pharmacies. Upon completion of the lab classes, the student should be able to step into an in-patient pharmacy and begin working with minimal additional training. *(Apportionment)*

MEDO 230

Pharmacy Operations Lab

Prerequisite: MEOC 130 Introduction to Pharmacy Technician and Keyboarding score of 30 or above or passing grade in COMP 685 - Beginning Keyboarding. This course introduces students to the operations of a pharmacy. It provides them with a working knowledge of the structural, functional, business and inter-relational aspect of pharmacy as part of the health care system. Through hands-on instruction, students develop the entry-level skills needed to assist in a pharmacy operation. *(Apportionment)*

MEDO 235

Medical Assisting: Back Office Procedures I

Prerequisite: MEOC 104 Medical Terminology and MEDO 260 Introduction to Medical Assisting. This course introduces students to the back office clinical duties of the medical assistant. It is designed to develop the necessary skills for performing exam room procedures, including medical asepsis and infection control; patient intake; vital signs; and assisting with physical examination. Specialty exams and electrocardiograph procedure are also covered. *(Apportionment)*

MEDO 240

Medical Assisting: Back Office Procedures II

Prerequisite: MEDO 235 Medical Assisting Back Office I. This course develops the necessary skills for the back office. Students review assisting physicians with minor surgical procedures, pharmacology, laboratory procedures, nutrition, patient education, diagnostic imaging, and urgent care and emergency procedures. *(Apportionment)*

MEDO 250

Spanish for Healthcare Professionals

This program is designed for a wide variety of health care professionals including medical assistants, nurses, and doctors. This course will help participants connect and communicate with Spanish speaking patients to treat illness and injury and process medical transactions efficiently. *(Fee-Based)*

MEDO 255

Introduction to Phlebotomy Procedures

Advisory: MEOC 104 Medical Terminology This course provides an introduction to the basic skills of phlebotomy through in-class instruction and hands-on practice. Students will learn venipuncture and capillary collection punctures, OSHA Bloodborne Pathogen regulations, equipment selection, and blood processing. This class does not meet requirements for state certification for phlebotomists. *(Grant-Funded)*

MEDO 260

Introduction to Medical Assisting

This course is an introduction to the medical assisting profession and career opportunities. Topics covered include personal characteristics, professional responsibilities, ethical behavior, health care settings, medical law, and therapeutic communication skills. *(Apportionment)*

MEDO 265

BLS for Healthcare Professionals

The American heart Association designed this course to prepare healthcare professionals to recognize life-threatening emergencies and to provide CPR and First Aid effectively. Upon successful completion students receive a 2 year CPR certification and a 2 year First Aid certification. *(Grant-Funded)*

MEDO 270

Medical Assisting Ed Planning

Orientation and assessment to and for the SCE medical assisting certificate program, overview of occupational options. Review skill level for referral to basic skills support to assist with successful completion of medical assisting courses, overview in general of SCE student services. *(Orientation)*

MEDO 275

Medical Assistant Work Experience Part 1

Prerequisites: MEDO 115 Medical Assisting: Front Office Procedures; and MEDO 235 Medical Assisting: Back Office Procedures I; and MEDO 240 Medical Assisting: Back Office Procedures II; and Achievement of 30 wpm Keyboard Competency; and COMP 100 Introduction to Computers; or MS 104 Introduction to Windows. This course provides students with work experience related to administrative and/or clinical medical assisting. Students will meet with the instructor for two hours per week in addition to completing 140 hours of externship in an approved facility. Class topics include portfolio development and externship performance. *(Grant-Funded)*

MEDO 280

Medical Assistant Work Experience Part 2

Prerequisite: MEDO 275 Medical Assisting Work Experience I. This course provides students who successfully completed Medical Assisting Work Experience I with an additional 140 hours of externship to complete training in both administrative and clinical competencies. Students will meet with the instructor for two hours per week. Class topics include portfolio development, workplace professionalism, and externship performance. *(Grant-Funded)*

MEDO 285

Introduction to Electronic Health Records(EHR)

Prerequisite: COMP 685 Beginning Keyboarding or Keyboarding Proficiency score of 30 or above; MEDO 315 Intro to Computer Health Care. This course introduces students to the fundamental concepts of working with Electronic Health Records (EHRs). Students will learn and exercise the practical use of EHR in administrative roles within the allied health field. Topics covered include: the history of EHR, EHR standards, patient charts, and EHR regulations. *(Grant-Funded)*

MEDO 290

Math For Medical Assistants

This course is designed to provide the medical assistant with the mathematical skills necessary to calculate, prepare, and administer drugs safely and confidently in an ambulatory medical setting. *(Fee-Based)*

MEDO 295

National Certified Medical Assistant Exam Prep

This course is designed to assist in preparing for the NCCT National Certified Medical Assistant Exam (NCMA). A comprehensive review of topics related to administrative and clinical medical assisting procedures will be provided. The course also includes valuable practice tests and test-taking strategies. *(Grant-Funded)*

MEDO 300

Medical Coding Basics I

Prerequisites: MEOC 104 Medical Terminology. Students will learn techniques of accurate coding of physician services, gain experience in correct application of CPT, level II coding, and ICD-9- CM/ICD-10-CM diagnosis codes used for billing professional medical services through lecture and lab. *(Grant-Funded)*

MEDO 302

Medical Coding Basics II

Prerequisite: MEDO 300 Medical Coding Basics. This course covers the practical application of CPT coding and coding appropriately for correct reimbursement in physician office settings. Topics covered include assigning the correct diagnosis, procedure, and supply code for a variety of clinical cases and services. *(Grant-Funded)*

MEDO 305

Heartsaver Pediatric First Aid

This 8-hour course teaches individuals to respond to breathing and cardiac emergencies, pediatric first aid and injury prevention. Upon successful completion, students will receive an Adult, Infant, Child CPR and Pediatric First Aid certificate valid for 2 years. This class meets California requirements for daycare providers. *(Fee-Based)*

MEDO 307

Personal Care Aide

This class will prepare the student to provide or support activities of daily living, personal care, and homemaker services to elderly and disabled individuals needing assistance to remain safely and independently in their own home or in an assisted living facility. Upon successful completion students receive a certificate of completion. *(Grant-Funded)*

MEDO 310

Medical Assistant Skills Open Lab

Co-requisite: MEDO 235 Back Office Procedures I. This open-entry, open-exit course is designed for medical assistant students to practice clinical skills and procedures. *(Grant-Funded)*

MEDO 315

Introduction to Computers for Health Care Workers

This course is an introduction to computers for individuals entering the health care field. Introduction to Computers for Health Care Workers provides a general introduction to computer literacy and information technology for health care students. The course provides a comprehensive survey of the interconnections of information technology and health care. *(Grant-Funded)*

MEDO 316

In-Patient Externship for the Pharmacy Technician

Prerequisite: MEDO/220 Out-Patient Lab: Pharmacy Technician; MEOC/135 Human Relations for Health Care Workers; and MEDO/221 In-Patient Lab Pharmacy Technician. This course is designed to provide pharmacy technician students with field experience in an in-patient pharmacy setting. It requires weekly class meetings plus 200 hours of externship in an approved and contracted pharmacy. Class topics include portfolio development, job search, professionalism, current issues in pharmacy, and work performance. *(Apportionment)*

MEDO 317

Out-Patient Externship for the Pharmacy Technician

Prerequisite: MEDO/220 Out-Patient Lab: Pharmacy Technician; MEOC/135 Human Relations for Health Care Workers; and MEDO/221 In-Patient Lab: Pharmacy Technician. This course is designed to provide pharmacy technician students with field experience in an out-patient/retail pharmacy setting. It requires weekly class meetings plus 120 hours of externship in an approved pharmacy. Class topics include portfolio development, job search, professionalism, current issues in pharmacy, and work performance. *(Apportionment)*

Medical Occupations Clerical (MEOC)

MEOC 104

Medical Terminology

Required course for Pharmacy Technician Certificate program but also welcomes all students preparing for a variety of professional/paraprofessional careers in the medical field. Learn medical terms or strengthen prior knowledge. Offers basics of terminology, anatomy and diagnostics. *(Apportionment)*

MEOC 112

Medical Insurance Billing - A Practical Approach to Medical Billing

Prerequisite: COMP 100 Introduction to Computers or MS 104 Introduction to Windows Operating System and keyboard competency of 30 wpm. An overview of outpatient medical insurance billing in preparing students for entry-level positions. Students review theory and practice data entry for private, Blue Cross/BlueShield, Medicare, Medicaid/Medi-Cal, TRICARE/CHAMPUS and workers' compensation billing. CPT and ICD-9 coding covered. Medical billing software utilized in computer lab. Keyboarding experience advised. (Apportionment)

MEOC 121

Pharmacology I

Prerequisite: MEOC 104 Medical Terminology. Bring original certificate to first class. Equips students with the necessary beginning theoretical knowledge. Includes categorizing, differentiating between drug classifications and inventorying. Provides a basic knowledge and understanding of drug effects on the body. (Apportionment)

MEOC 122

Pharmacology II

Prerequisite: MEOC 104 Medical Terminology. Bring original certificate to first class. Provides a continuation of theoretical knowledge acquired in Pharmacology I. Includes categorizing, inventorying and differentiating between drug classifications. Equips students with an advanced knowledge and understanding of drug effects on the body. (Apportionment)

MEOC 130

Introduction to Pharmacy Technician

Course orients students to pharmacy practice and the work of pharmacy technicians. It covers pharmacy technician registration process and educational requirements, the role of the technician, duties and tasks technicians perform as regulated by pharmacy law, and the necessary abilities and skills for a successful career as a pharmacy technician. (Apportionment)

MEOC 135

Human Relations For Healthcare Workers

Covers basic communications skills with emphasis on health care. Includes non-verbal communication, group communication, conflict resolution, ethics in health communication, elements of intercultural communication, resume writing, job application and interviewing techniques. (Apportionment)

MEOC 140

Pharmaceutical Mathematics

A review of basic mathematics focusing on its application to common pharmaceutical calculations, abbreviations and units; how to interpret pharmaceutical documents using acquired pharmaceutical math knowledge. (Apportionment)

MEOC 144

Out - Patient Externship

This course is designed to give pharmacy technician students field work experience in an out-patient pharmacy. Students must complete the didactic portion of the program and the corresponding lab course prior to their field work experience. The program requires 120 hours of out-patient externship. (Externship)

MEOC 146

In - Patient Externship

This course is designed to give pharmacy technician students field work experience in an in-patient pharmacy. Students must complete the didactic portion of the program and the corresponding lab course prior to their field work experience. The program requires 200 hours of in-patient externship. (Externship)

MEOC 205

Introduction to Electronic Health Records(EHR)

Prerequisite: MEOC 210 Introduction of Computers for Health Care Workers and COMP 685 Beginning Keyboarding or Keyboard competency of 30 wpm. This course introduces students to the fundamental concepts of working with Electronic Health Records (EHRs). Students will learn and exercise the practical use of EHR in administrative roles within the allied health field. Topics covered include: the history of EHR, EHR standards, patient charts, and EHR regulations. (Apportionment)

MEOC 210

Introduction of Computers for Health Care Workers Image

Prerequisite: COMP 685 Beginning Keyboarding or Typing 30 words per minute. This course is an introduction to computers for individuals entering the health care field. This course provides a general introduction to computer literacy and information technology for health care students. The course provides a comprehensive survey of the interconnections of information technology and health care. (Apportionment)

MEOC 225

Medical Coding-Introduction

This course covers the practical application of CPT-4 coding as well as both ICD-9-CM and ICD-10-CM coding for correct reimbursement in the physician's office setting. Course instruction will also cover applying the student's knowledge of anatomical body systems and disease processes. The following anatomical and physiology concepts will be covered in this course: (a) integumentary system, (b) musculoskeletal system (c) respiratory system (d) cardiovascular system (e) hemic and lymphatic systems. (Apportionment)

MEOC 227

Medical Coding-Intermediate

Prerequisite: MEOC 225 Medical Coding - Introduction. This course covers the practical application of CPT-4 coding as well as both ICD-9-CM and ICD-10-CM coding for correct reimbursement in the physician office setting. Course instruction will also cover applying the student's knowledge of anatomical body systems and disease processes. The following anatomical body systems and disease processes concepts will be covered in this course: (a) urinary and male genital systems, (b) female genital and system, (c) general surgical, (d) medicine (e) radiology, and (f) pathology. (Apportionment)

Microsoft (MS)

MS 104

Introduction to Windows Operating Systems

Advisory: Knowledge of Windows. Learn the newest Windows operating system; includes desktop and file management, security, adding hardware and software, personalizing Windows XP, making connections and communicating with other people. (Apportionment)

MS 105

Introduction to Excel

Provides a basic working knowledge of this popular spreadsheet program. Covers topics such as formulas, functions, and charting. *(Apportionment)*

MS 106

Introduction to Access

Advisory: Introduction to Computers, Introduction to Windows or equivalent. Design databases using this popular software package. Includes creating tables, forms, reports and labels. *(Apportionment)*

MS 107

Intermediate Access

Learn how to build and modify advanced tables, forms and reports. Develop proficiency in use of encrypting database files, defining relationships and defining queries. Text/disk required. Recommended proficiency in: Introduction to Computers, Introduction to Windows, Introduction to Access or equivalent. *(Apportionment)*

MS 119

Introduction to PowerPoint

Advisory: Knowledge of Windows. Learn how to create on-screen presentations using text, graphics, sound effects and movies. *(Apportionment)*

MS 134

Intermediate Word

Advisory: Introduction to Computers, Introduction to Windows, Introduction to Word or equivalent. This continuing course covers features such as mail merging, styles and templates, large documents and WordArt. Textbook purchase may be required at first class. *(Apportionment)*

MS 143

Introduction to Publisher

Advisory: Recommended proficiency in COMP 100 Introduction to Computers and MS 104 Introduction to Windows. Provides a basic working knowledge of this popular desktop publishing program. Covers topics such as flyers, newsletters, and business cards. *(Apportionment)*

MS 144

Introduction to Word

Advisory: Introduction to Computers, Introduction to Windows or equivalent. Provides a basic working knowledge of Word. Covers topics such as formatting with fonts, paragraph alignment, indents, margins, inserting clip art bullets and numbering, columns and tables. *(Apportionment)*

MS 156

Computer Bytes

This course covers various topics for Microsoft Windows on how to buy or upgrade a computer, buy and use a digital camera, use a scanner, create a slide show, and set up a home wireless network safely. *(Apportionment)*

MS 160

MS Office - Overview

Advisory: Knowledge of Windows and keyboarding. Learn the basics of Word, Excel, PowerPoint and Access in one class. Topics include document formatting, working with graphics, basic formulas, queries and reports. This class serves as a foundation for other MS Office Courses. *(Apportionment)*

MS 165

MS Excel - Power-User Skills

Advisory: MS 105 Introduction of Excel or equivalent. This course is for people who are comfortable using MS Excel and who want to develop "power skills". Topics include computational techniques (defining names, nested IF functions, summarizing data), using Excel's database tools (tables, database operations, lookup functions), and expert skills (conditional formatting, macros). Also covered are advanced formatting techniques and shortcuts for accelerating productivity. *(Apportionment)*

MS 610

Windows Operating Systems - Intermediate

Advisory: MS104 Introduction to MS Windows or equivalent. A second course in Windows operating environments covering more topics and techniques. This course will help you learn to communicate more effectively over the Internet, share information between programs, understand basic Windows network principles, share files, use Windows Media projects, manage hardware, backup files, and use Windows administration tools. *(Apportionment)*

Music (MUSC)

MUSC 108

Guitar for Adults

Learn to play the guitar! Students will learn chords, strum pattern styles, new songs, simple ear training and rhythm training. Students will also learn a I, IV, V blues progression and how to read the tablature for guitar. Bring a nylon-string or acoustic steel-string guitar and a medium pick. *(Fee-Based)*

MUSC 109

Adult Guitar

Intermediate/Advanced

Students will learn music theory and concepts including notes on the guitar, major and minor keys, how to use a capo, how to play 2 bar chord forms and more: Play two songs by the end of class. *(Fee-Based)*

MUSC 200

Music Arts for Older Adults

This course provides stimulating interaction for older adults through musical reminiscence, discussions, and listening to music from different time periods and genres. Older Adult students will participate in sing-alongs and rhythmic activities. Older adult students will learn to appreciate and understand different varieties of music. *(Apportionment)*

MUSC 302

Cypress Masterworks

This is a large ensemble (70-100) singers who perform major masterworks for choir and orchestra in addition to a variety concert repertoire. The Chorale presents four major concerts in the campus theater, participates in regional music festivals, and tours Internationally. *(Fee-Based)*

MUSC 303

Senior Chorus

This course introduces older adult students to a broad spectrum of choral music including its cultural and historical aspects. Older adult students will gain knowledge of correct posture, breath control, enunciation, harmony, rhythm and basic music concepts appropriate for the older adult. *(Apportionment)*

MUSC 304

Tone Chime Choir for Older Adults

This course provides instruction to older adults on handbell performance skills using chime instruments made by Suzuki. The music will be beginning level handbell music, level 1 and 2, as defined by the American Guild of English Hand Bell Ringers. The class will share their music by performing to the community in different public venues. *(Apportionment)*

MUSC 305

Introduction to Opera

This course is an introduction to the standard operatic repertoire in terms of development of musical style, dramatic structure, and performance tradition. Open to all students. *(Fee-Based)*

MUSC 310

Star Carolers

This course is designed for both music majors and non-music majors who wish to sing in a holiday caroling ensemble. Plus three quarters of an hour laboratory TBA per week. *(Fee-Based)*

MUSC 315

Beginning Voice

Students will study basic vocal techniques including tone production, breath control, and diction. Songs will be drawn from popular and traditional songs. *(Fee-Based)*

MUSC 320

Beginning Piano

Beginning with the abc's at middle C, the student learns to read music using familiar songs and pieces in folk and classical styles. Basic chords also help with rock and jazz. The student learns rhythm as the heartbeat of music. *(Fee-Based)*

MUSC 321

Beginning Adult Piano/Keyboard

This course will introduce adults to reading notes, rhythm, music symbols, sight-reading and keyboard activities to develop technique and listening. Book required. Bring your own keyboard (40 key minimum) every week! *(Fee-Based)*

MUSC 335

Adult Keyboarding

Beginning II

Comprehensive music course in reading, playing and listening to music. Lessons include learning chords, sight-reading and understanding basic harmony. *(Fee-Based)*

MUSC 345

Guitar for Adults - Level 1

Learn basic chords, strumming, picking and the classical rest stroke. Slowly but surely develop the confidence and coordination to play along to a handful of oldies and classic rock songs. Bring your nylon-string or acoustic steel-string guitar and medium guitar pick to class. *(Fee-Based)*

MUSC 350

Guitar for Adults - Level 2

If you have a little guitar experience already, this is the class for you! Designed for graduates of the level 1 class, and for anyone else who "knows a few chords. We will learn new chords, songs with strumming and picking, scales for soloing, and blues/rock songs with riffs. *(Fee-Based)*

MUSC 355

Adult Guitar & Bass Workshop

Students will learn music theory and concepts including notes on the guitar: major and minor keys, how to count and construct rhythm patterns that go together with each other and drums. Students will be able to play simple songs together by the end of classes. *(Fee-Based)*

MUSC 360

Adult Guitar - Intermediate

If you have a little guitar experience already, this is the class for you! Designed for graduates of the beginning class, and for anyone else who 'knows a few chords.' We will learn new chords, songs with strumming and picking, scales for soloing, and blues/rock songs with riffs. *(Fee-Based)*

MUSC 365

Beginning Vocal for Adults

Learn to develop your singing with an introduction to vocal technique. You will learn the tools necessary for every singer to help with diction, breath control and correct posture as well as shaping tone quality. Group singing as well as individual solos will be used. *(Fee-Based)*

MUSC 370

Guitar Workshop for Adults

Learn guitar in a friendly group environment. If you are a beginner, or already know how to play some things, this is the class for you! Learn to play the chords, strumming and picking techniques of your favorite classic songs. Bring your guitar and a medium or heavy pick to class. *(Fee-Based)*

MUSC 375

Masterworks Chorale

The Masterworks Chorale (80-110 singers) presents four major concerts each year with emphasis on masterworks for choir and orchestra. The Chorale participates in regional music festivals, performs at numerous locations throughout the Los Angeles basin, and tours internationally. Open to students and members of the community with prior singing experience. *(Fee-Based)*

MUSC 378

Community Symphony

The Community Symphony is dedicated to the rehearsal and performance of standard and contemporary symphonic literature. There will be concert performances. *(Fee-Based)*

Parenting (PARN)

PARN 101

Joyful Parenting - Creative Art/Music

Ages 1.5-2.5

Parent and child will enjoy self-esteem building activities together; songs and music; easel and finger painting; band and blocks; school readiness; crafts and Playdoh. Includes activity ideas to do at home. (Please bring a snack). *(Apportionment)*

PARN 102

Effective Parenting

Designed to lend support and provide some realistic parenting techniques that can be used in the parent's day-to-day life. *(Apportionment)*

PARN 104A

Kindergym - Toddler Fitness

Ages 1-4.5

Parents and children enjoy exercise, movement and music together. Emphasis on developing large motor skills, coordination and self-esteem. Class provides an opportunity for parents to observe and interact with child. All activities introduced can be done by parents with child at home. *(Apportionment)*

PARN 108

You, Your Child and Music

Learn how to use simple musical games and activities to aid your infant/toddler in motor, cognitive and social development. *(Apportionment)*

PARN 147

Babies Love Music

Ages 4-14 months

Music listening and music activities provide an excellent foundation for your baby's cognitive and social development. Mix together: One part thunder on a large gathering drum. Add small hand drums. Sprinkle liberally with rhythm band instruments, singing and puppets. Top it off with guitar, harmonica, and recorded music. MMM...mmm... good! Enrollment limited to 14. *(Fee-Based)*

PARN 148

Kids Love Music

Ages 1-2

Music activities provide an excellent foundation for your preschooler's cognitive and social development. Mix together: One part thunder on Indian tom toms. Add glockenspiels and xylophones for rain. Sprinkle liberally with rhythm band instruments, singing and puppets. Top it off with guitar, harmonica, and recorded music. MMM...mmm...good... Enrollment limited to 14. *(Fee-Based)*

PARN 149

Kids Love Music

Ages 2-4

Music listening and music activities provide an excellent foundation for your preschooler's cognitive and social development. Mix together: One part thunder on Indian toms. Add glockenspiels and xylophones for rain. Sprinkle liberally with rhythm band instruments, singing and puppets. Top it off with guitar, harmonica, and recorded music. MMM...mmm...good... Enrollment limited to 14 *(Fee-Based)*

PARN 150

Kids Love Music

Ages 1-4

Music listening and music activities provide an excellent foundation for your preschooler's cognitive and social development. Mix together: One part thunder on Indian tom toms. Add glockenspiels and xylophones for rain. Sprinkle liberally with rhythm band instruments, singing and puppets. Top it off with guitar, harmonica, and recorded music. MMM...mmm...good Instructor: Gary Greeno Registered Music Therapist. Enrollment limited to 14. *(Fee-Based)*

PARN 151

Kids Love Music

Ages 5-7

Ever Play an African Slit Drum? A xylophone? Boomwhackers? Ever Sing "Chicken Lips and Lizard Hips" or Grandma's Feather Bed"? This and more musical fun awaits those who join Music Therapist Gary Greeno in this fun filled musical journey. Enrollment limited to 14. *(Fee-Based)*

PARN 170

Parenting Adult/Children with Disabilities

A class designed to provide support and resources to parents who have an adult child with a disability. Guest speakers will be invited to present information to help parents be knowledgeable of what their community offers in regards to independence. For additional information, please contact 714 484-7057. *(Apportionment)*

PARN 200

Joyful Parenting: Art, Music & Movement

Ages 2.5-5

Parents are introduced to the latest information about child development and parenting skills, through lecture, discussion, observation and hands-on learning with other students. Age appropriate activities are offered to the children so that parents can learn the importance of developmental stages that prepare children for preschool and/or kindergarten. For all classes, please bring a lunch. *(Apportionment)*

PARN 220

Helping Your Struggling Child

So many children today are struggling in school, acting out at home, having social problems, and/or experiencing mood changes. Parents are often frustrated, confused, and unsure of what to do. This course will assist parents in understanding children's issues, and recognizing symptoms of common disorders such as ADHD, learning disabilities, anxiety, depression, and autism. In addition, the course will focus on how to determine whether a significant problem exists, and how to obtain an accurate diagnosis. *(Fee-Based)*

PARN 225

Homework Tips Workshop (How to Really Help Your Child)

Help improve your child's changes of success in school by learning the key issues and strategies you need to know about helping your child with homework. Parents will complete a Checklist for Helping Your Child with Homework to help you develop a plan for guiding and monitoring your child's homework as well as communicating with your child's teacher. *(Fee-Based)*

PARN 230

Parenting Tips & Tricks Interactive Workshop

Do you want to encourage cooperation and respectful behavior in your children? This course covers specific techniques that will help your family to listen and cooperate with you on: chores, homework, problem solving & using reward systems. Cooperative communication is the key to making your home a more peaceful place! *(Fee-Based)*

PARN 232

The Parent Project

The Parent Project is a 35 year-old evidence based program for parents of at-risk children to help them regain control of their families. It is one of a few parenting programs in the United States that is endorsed by juvenile court judges, the American Bar Association, probation officers, mental health practitioners, religious personnel and social service professionals. The project provides counsel to parents who want to bring their out-of-control children back into behavioral compliance. *(Fee-Based)*

0

PARN 235

Raising Caring Kids

This workshop will review and present practical tips and implementation strategies for parenting today's children. The focus will be on developing caring behaviors through everyday scenarios. Topics will include caring about family, friends, difficult situations and showing appreciation. Parents will be guided on steps to teach their children how to become kids that care. *(Fee-Based)*

PARN 240

Navigating Resources for Adults with Disabilities

A class designed to provide support and resources to parents who have an adult child with a disability. Topics include: Overview of the service delivery system, eligibility for regional center and service agencies, adult transition, role of service coordinators, obtaining services, college, employment, independent and adult living options. *(Fee-Based)*

PARN 245

Runaway Teens in Orange County

The purpose of this seminar is to provide information and resources for parents of at-risk and/or delinquent children, and for parents of highly defiant and strong-willed children, *(Fee-Based)*

PARN 250

Pre-schoolers and Parents: Fine Motor Skills

This course exposes children to various hands-on activities in which fine motor skills will be developed and strengthened. Fine motor skills activities help prevent small muscles from fatiguing easily. This course will help prepare children for activities in pre-school and kindergarten. *(Fee-Based)*

PARN 260

Developmental Movement

Ages 1 - 2

Parents and children are introduced to developmental movement and music for one and two year-olds. Emphasis is on identifying milestone-appropriate large motor skills, coordinated body movements and introductory behaviors associated with demonstrations of self-esteem for this age range. *(Apportionment)*

PARN 261

Developmental Movement

Ages 2 - 3

Parents and children are introduced to developmental movement and music for two and three year-olds. Emphasis is on tracking developing milestone-appropriate large motor skills, coordinated body movements and milestone psychological behaviors associated with demonstrations of self-esteem for this age range. *(Apportionment)*

PARN 262

Developmental Movement

Ages 3 - 4.5

Parents and children are introduced to developmental movement, and music for three to four and a half year-olds. Emphasis is on continued tracking of milestone-appropriate large motor skills, coordinated body movements and psychological behaviors associated with demonstrations of self-esteem for this age range. *(Apportionment)*

Safety (SAFE)

SAFE 205

Mature Driver Improvement

Improvement classes for licensed drivers age 55 and older who wish to qualify for a reduced insurance premium; and brush up on traffic laws and safety techniques for a driver's license exam. A Certificate of Completion will be awarded as evidence of attendance to obtain up to three years of reduced insurance rates from participating insurance companies. *(Apportionment)*

Shop (SHOP)

SHOP 100

Cabinet & Millwork

Learn vocational skills in cabinet-making, millwork and furniture products. *(Apportionment)*

Sign Language (SIGN)

SIGN 001

Sign Language - SEE Level 1

This course gives an overview of the Signing Exact English (SEE) model of sign language. Students will explore the philosophy and rationale of the sign system while developing both expressive and receptive delivery skills. It is designed to introduce students to a 700 word working vocabulary and to prepare them to continue on to Sign Language - SEE Level 2/3. *(Fee-Based)*

SIGN 002

Sign Language - SEE Level 2/3

Students will acquire approximately 1,000 additional signs and will improve expressive and receptive fluency with both signs and fingerspelling. Students will continue to address the rationale and philosophy of using the English sign model: Signing Exact English. *(Fee-Based)*

SIGN 010

Educational Interpreting Practicum

This course allows students to build educational interpreting skills for service to the elementary, middle, and high school settings. *(Fee-Based)*

SIGN 020

Sign Language for Parents

This is a beginning level Signed English sign language course for parents of elementary school-aged Deaf and Hard of Hearing children. *(Fee-Based)*

Organizational Structure

The North Orange County Community College District (NOCCCD) is governed by elected trustees who establish all policies that guide the general operation of the District. Student trustees representing each of the colleges also sit on the board.

The NOCCCD Chancellor has responsibility for carrying out the decisions and directions of the board. The college presidents and provost of continuing education oversee the operations of their respective areas and work closely with the chancellor in the management of the District.

Board of Trustees

Stephen T. Blount

Notice to Students

The School of Continuing Education has made every reasonable effort to determine that everything stated in the Catalog is accurate. This publication is prepared in advance of the time period it covers; therefore, changes in courses and programs offered, together with other matters contained herein, are subject to change without notice by the administration of the School of Continuing Education. For the most up-to date information, please see the class schedule at www.sce.edu/schedule.

In addition, some courses or programs that are offered may have to be cancelled because of insufficient enrollment, elimination or reduction in programs, or for any other reason considered sufficient by the Provost. The information contained in this catalog is advisory only and does not constitute a contractual agreement by the school or guarantee that course content will be strictly followed or fulfilled.

Acknowledgments

The School of Continuing Education would like to thank Mary Ann Babbo, Danielle Davy, Dennis Davino, Vaniethia Hubbard, Luis Madrid, Diane Mendoza, Shelia Moore-Farmer, Jennifer Perez, Chelsea Salisbury, Monica Torres, Lysa Tribolet and Aruni Wijesinghe for their hard work and dedication to this project.
