

INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM (IGETC)

The Intersegmental General Education Transfer Curriculum (IGETC) is a general education program which community college transfer students may use to fulfill lower division general education requirements for the California State University (CSU) or University of California (UC) system. Completion of IGETC eliminates the need to take additional lower division general education courses after transfer. Students approaching readiness for transfer who are unable to complete one or two IGETC courses that are not required for admission to the university may request to complete IGETC after transferring.

See a counselor for more information.

IGETC is accepted by the University of California, California State University, and by many private institutions. Students wishing to transfer to the University of California or who are undecided about their transfer institution should consult a counselor before choosing this plan.

Students must apply for IGETC certification (full or partial) in the Admissions and Records Office. **Courses will be certified ONLY if they are on the official IGETC list during the catalog year they are taken.**

In addition to the course requirements for each subject area, full certification for the CSU must include completion of the Oral Communications requirement. With the UC, Oral Communications is NOT required, but the certification must include satisfactory completion of the Language Other Than English proficiency requirements. A course or sequence used to satisfy a requirement in one area may not be used to satisfy a requirement in another area. All courses must be completed with a "C" or better.

Apply for GE certification through the Admissions and Records Office or online at www.CypressCollege.edu during the semester in which requirements will be completed or thereafter. Note: Students applying for completion of an approved Associate Degree for Transfer at Cypress College requiring CSU GE and/or IGETC do not need to apply.

While IGETC is popular with transfer students, it may not be the best choice for you. Depending on your major, it may be best to follow the UC campus GE pattern. The UC Transfer Preparation Paths at <http://admission.universityofcalifornia.edu/transfer/preparation-paths/index.html> and ASSIST Exploring Majors feature at www.assist.org include information about the specific UC majors that do not recommend IGETC. Students should see a counselor for advice and more complete information on the IGETC program.

***The courses on the following IGETC requirements page are approved at the time of printing. Check with a counselor or www.assist.org for the most recent list of approved courses.**

NOTE: Independent universities or out of state universities may accept the IGETC pattern. Check with the individual university and your counselor to verify.

IGETC for STEM Majors

Per IGETC Standards 1.6, students preparing for a major in science, technology, engineering or mathematics that are pursuing an Associate

Degree for Transfer (ADT) for certain approved majors can defer two lower-division GE courses after transfer. **As of Fall 2016, only the Biology ADT (not currently offered at Cypress) and Chemistry ADT (active Fall 2016) have this option.**

This allows the students to concentrate on the lower division math and science courses required for a STEM major and indicates that students can take the following courses AFTER transfer:

1. One remaining lower-division general education course in Area 3;¹
2. One remaining lower-division general education course in Area 4;¹
3. One course in Area 6 for UC-bound students who have not satisfied it through proficiency.¹

¹ These deferred lower division courses must be replaced with calculus and/or science courses required by the major before transfer.

For CSU

If any specific AS-T degree allows IGETC for STEM Majors as its general education pattern, the specific courses that should replace the deferred lower division general education courses may be indicated on the Transfer Model Curriculum (TMC) for that discipline.

For UC

UC will accept IGETC for STEM if the UC school/college/major program to which the student transfers accepts partial IGETC certification. For information on the IGETC acceptance practices for each UC school/college/major program, see: <http://admission.universityofcalifornia.edu/transfer/general-education-igetc/igetc/igetcamups-guidance/index.html>.

For CSU and UC

Alternatively, STEM students may complete the traditional IGETC. However, IGETC and IGETC for STEM Majors may not be appropriate for those colleges or majors which prefer that transfer students follow a more prescribed lower-division curriculum.

IGETC Certificate of Achievement

To find out more about transfer certificates see Certificate of Achievement program information located under Programs of Study in this catalog.

AREA 6A - LANGUAGE OTHER THAN ENGLISH (LOTE): UC requirement only. REQUIREMENT: Complete one of the following:

1. Complete 2 years of high school coursework in a language other than English (in the same language) with a grade of C or better.
2. Complete course 102 C or 102HC or higher level in a foreign language at Cypress College or equivalent courses at another college or university.¹
3. Completion with a grade of C or better or 2 years of formal schooling at the 6th grade level or higher at an institution where the language of instruction is not English. Students unable to provide documentation need to have passed one of the exams listed below or take the appropriate college course(s).
4. Earn the appropriate score on the SAT II Subject Test in languages other than English. See a counselor for score requirements.
5. Earn a score of 3 or higher on the Advanced Placement Language Other than English Test.
6. Earn a score of 5 or higher on the International Baccalaureate Higher Level Exam in a language other than English.
7. Satisfactory completion of an achievement test administered by a community college, university, or college in a language other than English. This test will have to assess the student's proficiency at the level equivalent to two years of high school language.
8. Earn an A, B, or C on Language Other than English "O" level exam.

9. Earn a score of 5, 6 or 7 on Language Other than English International "A" Level Exam.

10. Earn a grade of C or better in a Defense Language Institute course.
